VALUELESS BUT FOR THE SAILORS

Manitoba's Wheat Crop

would be valueless if it could not be shipped Overseas. Manitoba's Prosperity depends upon Overseas Commerce.

To protect us—to protect our trade—to let our soldiers cross the seas in safety, and to feed our soldiers and the Allied people in Britain, in France and other theatres of war, our Merchant Marine has "carried on"—submarine or no submarine. They have paid the price.

We can help. It is our privilege to contribute to the support of the dependants of the victims of the hellish Hun warfare. Over 16,000 merchant sailors have lost their lives during this war.

Manitoba's Share Is Only $150,000

In the Ontario campaign just completed over one million dollars was raised. Can we who profited so much by the work of the Merchant Marine—do less than over subscribe our share?

Don't "let George do it," but mail a cheque to the undersigned if no canvasser calls on you.

The General Committee feels that no one living in Manitoba can ignore this call without feeling guilty—the issue is so clear.

Help The Sailors Who Help You
