Ever think about Stoves and Fires ?

The amount of heat depends upon the quantity of cold
air passing through the fire and being distributed
around the room. There is a Patent Draft Door on
the

Oxford Air-Tight Heater

which keeps the air under perfect control, so simply
managed that on a cold morning the stove can be made
red hot in a few minutes, and then the air supply shut
down to any desired degree. This means an evenly
heated room in all weather, with a great saving of fuel.

In every detail it is up-to-date, with an ornamental
finish which is very attractive. If you need a stove,
examine this one, and let its many good points com-
mend themselves to you.

COMMUNION WINE

One of many recommend-

The Deanery, London, Ontario,
26th December, 1894.

To Messrs. J. S. Hamilton & Co., Brantford:

Gentlemen,—The "St. Augustine" you sent
is exactly what I have been anxious to get for
some time past. I have never met with any wine
so admirably suited for communion purpose.

Yours faithfully,

GEO. M. INNES, D.D.,

Dean of Huron and Rector of St.
Paul's Cathedral.
