QUOTATIONS IN THE ST. JOHN MARKETS

But little change has taken place during the week in the wholesale prices of commodities. Cream of Tartar is from one to two cents dearer. American clear pork is easier. Flours remain at $7.85 for Manitoba and $6.85 for Ontario. Jobbers report that trade has somewhat improved during the past few days. Wholesale quotations obtained yesterday are as follows:

DEMORALIZED CONDITION OF FOREIGN EXCHANGE KEPT MARKET IN CHECK

Further depreciation in Paris Checks, Reicsmarks and Lires—London Exchange recovered slightly — C.P.R. recorded over night loss of 4 3-8 points.

New York, June 29—Recurrent demoralization in foreign exchange was the salient feature of today's financial developments, and more than anything else served to hold the stock market in check. Further depreciation occurred in remittances to three of Europe's leading capitols, Paris checks were quoted at 5.65, Reichsmarks at 81 1-8 and lires at 6.16.

These quotations were not only the lowest reported since the outbreak of the war, but established records for many years previous. London exchange made slight recovery, with demand sterling at 4.76 3-16. No more gold was received from Canada, despite yesterday's hopeful intimations from London. There were rumors of another inflow of gold from France, but these were not borne out by events across the water.

With few exceptions, securities were heavy or irregular throughout, the weakness in C. P. R., United States Rubber and several other active issues conducing to that end. Canadian Pacific sold as low as 141¾, an overnight loss of 4 3-8 points, and its lowest quotation in seven years. Rubber repeated yesterday's low price of 48 ½cents and Rock Island, as the shares of the Chicago, Rock Island and Pacific railway now are known, also fell to the low record of 15, with a renewal of pressure against Missouri Pacific and Missouri, Kansas and Texas.

Offerings of C. P. R. today came from local as well as out of town and foreign sources, and were traceable, in part, to May earnings, showing a net loss of over $500,000, or a total for the eleven months of the fiscal year of more than $8,000,000. No new explanation was offered for Rubber's weakness.

There were material gains in coppers, war shares and motors, but the movement in these issues was plainly of professional origin and failed to carry conviction. Trading dragged in the final hour, with lower average prices, interest at that time centering around the city bond offerings.

Total sales of stocks amounted to 317,000 shares.

There was further heavy selling of our bonds for European account at more or less substantial recessions. Total sales, par value, aggregated $2,145,000.

CLOSING LETTER OF N.Y. MARKET BY E. & C. RANDOLPH

(McDougall & Cowans.)

New York, June 29.—The bids submitted for the New York City bonds reflected the financial communities interpretation of the effect upon the prices of all investment securities of the offering of a British government loan bearing 4 1-2 per cent. at a net price of 98 3-4. While the bids have not been tabulated, it is evident that the average price which the city will receive will be considerably lower than what was expected when the offering was announced. There was a considerable amount of foreign liquidation in stocks in the course of the day, and London selling will probably continue on a fairly good scale for some time to come. That would be the best way of arranging payment for the supplies being brought here, but as long as the liquidation continues, the market in general cannot advance much. Perhaps the problem of making payment for purchases in this country will be rendered easier by changes in trade tendencies, for there is evidence of a decrease in the excess of exports over imports for some weeks past.

For the week ending June 26th, the exports exceeded the imports by only a little over $9,000,000, that being the lowest excess for any week since the beginning of 1915. By comparison with the previous low week, it shows a decrease of about 55,000,000. It is possible that Europe is now meeting the exchange difficulty by confining its purchases as nearly as possible to war munitions and other absolutely necessary things and endeavoring to pay for these by increasing its exports to the United States. Under normal circumstances an unfavorable trade balance would correct itself in that way, and to some extent the same influence is applicable even in normal times.

Total sales 320,000. Bonds $2,181,000.

E. & C. RANDOLPH.
