Ninety Present At The Banquet

Mothers' and Daughters' Banquet Held by C. G. I. T. of St. Mary's Church.

A delightful entertainment which gave much pleasure to guests and hostesses took place last evening at St. Mary's School House when a Mothers' and Daughters' banquet was held by the C. G. I. T. of St. Mary's Church. There were ninety present, a novel feature of the affair being that the Tuxis Boys under the leadership of Alfred Davis acted as waiters.

The St. Mary's leaders are Miss Edna Hunt, Miss Eva Mitchell, Miss Marjorie Lane, and Miss Grace Long. Among those present were a C. G. I. T. group of five from St. Paul's church, Miss Phylis Wood, Y. W. C. A. Girls' Work Secretary, and Mrs. J. D. Hunter, one of the Y. W. C. A. directors

The guests were met by a reception committee consisting of Miss Dorothy Lane and Miss Audrey Burnside, wearing their C. G. I. T. costumes. Miss Bessie Carloss was mistress of ceremonies and announced that the banquet was served, after which grace was sung. Ladies of the church assisted the boys in serving.

"The complications and perturbations of washing-day cause a good deal of family strife."—The Willesden magistrate.

Here, at last, the "all-in-one" Phonograph that is absolute. The new BRUNSWICK method of Reproducing is the Final and Supreme Sensation.

This "ULTONA" reproducer revolutionizes ancient standards—it frees the phonograph and old style talking machine from all their admitted handicaps.

The ULTONA is an amazingly simple contrivance—and the wonder of it is that some manufacturer has not developed it before this.

But here it is for you to see—and hear—only on the BRUNSWICK, which has already met with such phenomenal success that the old style "standard" type talking machine people have their backs to the wall.

Always Ready—Nothing to Adjust

The ULTONA is a distinctly new creation. At the turn of the hand you adapt it to play any record. It is not an attachment—nothing to take off or put on. The real diamond for the Edison, the real sapphire for Brunswick or Pathe, the steel or fibre needle for other records always there.

There is nothing like it in the Phonograph world today. We want owners of other phonographs to come in and hear the Brunswick play the records they use and are familiar with.

Remember, we claim that the BRUNSWICK plays all records better. All that you can have in any phonograph, all that you can possibly imagine that you want, is to be found in this pre-eminent Musical Instrument.

Acoustics of Every Style Record Solved

The ULTONA, coupled with the BRUNSWICK all-wood throat and sound chamber, solves the gravest problems of acoustics—all tone values are now given a naturalness hitherto unattained.

And it plays all and every record according to its exact requirements. The proper Diaphragm is presented, the exact needle, exact weight.

Find Out for Yourself—Investigate

Just what is it that makes everyone who hears the BRUNSWICK want one? Why have hundreds of owners of the old-style talking machines traded their instruments in for a BRUNSWICK? Is it the tone? Is it the appearance? Is it the price? Or is it "all-in-one?"

Just you hear the Brunswick
