MARZIO'S CRUCIFIX
BY F. MARION CRAWFORD.
PRICE, 50 CTS.
McAINSH & ELLIS,
Opposite Postoffice

NINTH YEAR. THURSDAY MORNING, JUNE 28, 1888. PRICE ONE CENT.

IT WILL STAY IN NEW YORK

AND ONLY FIVE MILLIONS WILL BE BROUGHT FROM ENGLAND.

The New Government £4,000,000 Loan—Its Disposition—The Montreal, Commerce, Merchants' and British America Banks Divide $5,000,000—What Sir John says—Local Rates of Interest.

Contrary to the anticipations of bankers and financial agents generally, the new Government loan of £4,000,000 recently negotiated in England will not come to Canada until it is wanted for Government use.

There is another surprise. Only $5,000,000 will be brought out from England. This amount will be placed in the New York agencies of the Bank of Montreal, Canadian Bank of Commerce, Bank of British North America, and Merchants' Bank. There has been no favoritism shown. It was found that throwing a considerable amount of money on the Canadian money market temporarily would seriously disturb it, and the course taken was to allow it to remain in New York till it was required. The four banks mentioned being the only banks in Canada having New York agencies they were selected to handle it. The rate of interest they are to pay is 1½ per cent. The money will remain in New York for at least six months.

A leading banker said to The World representative yesterday: "The Globe is talking Irish about $16,000,000 being placed on deposit in Canada. The Government is bringing out only $5,000,000 and for aught we know they are not bound to take any more until they require it." Continuing he said: "I think the Government has acted cautiously in the matter. If they had brought the money into the country and, producing a plethora, upset rates of interest while they are paying higher rates than the banks in the Government savings banks, the bankers would have had just cause to complain. As it is the rate of interest will in no way be affected by the Government loan."

The amount of money that each bank will get is known only to the bankers immediately concerned, and those who negotiated the deposit. It is understood, however, that the Bank of Montreal has bargained for the lion's share.

It's a Business Transaction.

The World's young man tried to get a pointer on the subject from the Old Man. All he would say: "A fuss is being made about a matter that those who are making the fuss know nothing of. It's purely a business transaction. We will come out all right. But I can't say more."

Local Rates of Interest.

Rates of interest are on the tumble. Reliable houses have been getting their money at 5 per cent. right along and some of them at under that. The World representative saw General Manager Coulson of the Bank of Toronto yesterday and asked: "Is there any change in rates of interest?" "No." "From 5 to 7 per cent?" "From 5 to 7 per cent," corrected he. "On ordinary commercial paper from 5 to 7?" "Yes; that is our rate; from 5 to 7 and as much more as we can get."

Whether or not the dropping of the rate is a retaliation on another bank for having loaned the city money at 5 per cent. is not distinctly stated. But there is one thing certain, and that is, there is plenty of money in hand. If there wasn't the drop would not be made. Bank managers, too, are peddling money among the loan companies at 4 per cent., and it is hinted that they would take a shade lower to get it off their hands.

BUSY MANITOBA POLITICIANS.

Excitement Over the Gold Discoveries at the Lake of the Woods.

WINNIPEG, June 27.—The leaders of both parties are holding meetings throughout the country.

Ex-Sheriff Richard is announced as an independent candidate for Provencher for the Commons, and will be opposed by either La Riviere or Bernier.

Owing to being unable to make a five years' arrangement for rates with the Canadian Pacific Railway the Anthracite Coal Company will cease operations, being unable to make contracts with large firms.

Excitement over the gold discoveries at the Lake of the Woods is increasing, and a couple of American millionaires are visiting the mines with a view to investment.

General Major Oakes of the Northern Pacific is expected here this week.

Governor Aikins and family leave on Friday for Toronto, where they will reside.

A FREE LANCE.

The Trouble in the Colored Goods Section of the Cotton Manufacturers.

MONTREAL, June 27.—A meeting of the colored goods section of the Canadian Cotton Manufacturers' Association was held to-day at the Balmoral Hotel, Mr. Jas. Harvey of Hamilton presiding. Most of the mills were represented. It was found necessary to adjourn for two weeks, when, if matters can be arranged to the satisfaction of the St. Croix mill, who spoke of retiring from the association, everything will in all probability go on harmoniously.

The difficulty has been of late that shirtings have been made a "free lance," and it is hoped the president may be able to arrange for a price on these goods upon a paying basis.

It was also considered that curtailment in the manufacture of goods might be made.

The U.S. Tariff Bill.

WASHINGTON, June 27.—When Mr. Mills called up the Tariff Bill in the House to-day Mr. Kelly of Pennsylvania suggested, on his individual responsibility, as a means of expediting adjournment, that the Tariff Bill be laid aside until next session, its fate then to depend upon the result of the November elections, and that the surplus be kept down by an entire repeal of the tobacco tariff. Mr. Mills rejected the suggestion, and made a counter proposal that the Republicans should fix an early day for taking a final vote on the bill. Mr. Reed of Maine declared that Mr. Kelly spoke for himself alone, and that the Republicans would insist upon pointing out the defects of the bill in detail.

The members of the Ways and Means Committee express confidence that the Mills bill will pass the House substantially as agreed upon by the Democratic caucus to which the proposed amendments were reported. The opinion is expressed that the bill can be passed by the House and sent to the Senate in time for Congress to adjourn by Aug. 15. There is no doubt that the Senate would decline to act upon the Tariff Bill at the present session if it should not be passed by the House before the date mentioned, so that, so far as anything in the future can be certain, it may be accepted as a certainty that there will be no legislation at the present session of Congress.

Thurman Confident of Success.

COLUMBUS, O., June 27.—In answer to the question, "What do you think of the Republican nomination?" Judge Thurman said last night: "I consider it a very strong ticket. I have no personal acquaintance with General Harrison, and thought Sherman's nomination would be the strongest one, but under the circumstances the ticket as named is as strong as could have been nominated by the convention. However, I do not believe it is stronger than its party, and therefore do not see how it can be elected. New York, Indiana and New Jersey are naturally Democratic. Any ticket named at Chicago could not carry any of these States. I have no fear of the result in November. We shall have a Democratic victory."

G.T.R. Freight Trains in Collision.

INGERSOLL, June 27.—Early this morning an accident occurred on the main line of the Grand Trunk Railway near here, but luckily nobody was injured. Freight No. 26 from the west ran into the tail end of a special freight and a couple of cars were derailed. The track was blocked until about 9 o'clock and trains had to go around by Stratford until it was cleared.

"Athlete" cigarettes (10c.) are richer in flavor, sweeter and cooler than any other brand in the market.

A NEW PARK FOR NORTH YORK.

Inauguration of Jackson's Point Park—Opening of New Bridge at Sutton.

The village of Sutton, in the most northerly township of York County, was en fete yesterday on a dual occasion. The first was one of practical utility, the opening of a new county bridge on the mail road between the thriving village of Sutton and the town of Newmarket. The other event was the more popular one, the inauguration of Jackson's Point Park. This is a lovely spot on the northern headland of Lake Simcoe. Ere long it will be one of the most favored summer retreats of the County of York. It is 17 acres in extent, beautifully wooded, situated on a cliff with pleasant pebbly strand, and possesses shady nooks, soft sward, rustic seats and all the desiderata of a public park.

The history of the new Sutton bridge is a tale unadorned. The old bridge had become rotten and unsafe and a new structure imperatively necessary. To incommode the traffic as little as possible, Contractor Meyers of Toronto pushed the work on as quickly as possible and finished the structure within two months. The proceedings at the opening were simple and brief. Mr. Henry Trelour, in the presence of a large crowd, read the following address:

To the Warden and Council of the County of York: GENTLEMEN—On behalf of the residents of the townships of Georgina and North Gwillimbury we beg to tender you a hearty welcome on this your first official visit to this section of the metropolitan county of the Province, and more especially as your object here is to open the new and substantial bridge which you, prompted by your sense of justice, have caused to be erected over the Black River.

We are fully aware of the responsibility attaching to those honored with a seat at your Council board, having under your charge the economic and financial interests of so large and important a part of this premier Province, and beg to congratulate you on the faithful and impartial manner in which you have always discharged the trust committed to your keeping.

Finally, we commend the county chairman, Mr. J. T. Stokes, upon the excellence of his design, and also the contractor, Mr. Meyers, upon the satisfactory completion of his contract under such trying circumstances, assuring him at the same time of our sympathy with him in his sore bereavement.

Again, gentlemen, we welcome you.

The address was signed by James Anderson, Thomas Scott, Thomas Armstrong, Stephen Winch, Henry Trelour, J. G. Tremayne, Isaac Merritt, Joshua Willoughby, Levi Millar, Jos. Bentley. The "trying circumstances" referred to were the accidental deaths during the construction of the bridge of the contractor's father and one of the workmen.

Warden Yule felicitously replied, and his good lady having christened the bridge by the breaking of a bottle of champagne over it, the Warden declared the bridge duly opened. It is of a very substantial character, of stout beams of wood. It is 60 feet long, with 18 feet drive and walks of four feet each. Its total cost was $4000. The bridge was christened "Anderson's Bridge" in honor of the Reeve of Georgina.

At the close of the ceremony the company proceeded to Jackson's Point, a mile and a half distant, the great rendezvous of the day. Many of the visitors, including Ald. Jones and excursionists from Toronto, had not seen the park before. The first impression was a highly favorable one. Cooling breezes blew, unobtrusive shade was plentiful, picnic parties legion, the Sutton cornet band discoursed sweet music, bathing in a retired spot was resorted to and boating on the placid waters of the lake was the fashion. Great interest was taken in the admirable cottages which the management are erecting in the park for the accommodation of summer visitors. There is also ample accommodation for camping out, and a recreation ground is in the contemplation.

A large number of visitors, including the Warden and many members of the York County Council, partook of dinner in a shady grove in the park. Reeve Anderson, the chairman of the park company, presided and made an admirable chairman. The prandial proceedings were of considerable length. In proposing the toast of the day, The Warden said County Council of York," the chairman said that the Warden represented a larger number of people and extent of country than any member of either the Provincial or Dominion Parliaments. He represented ten township municipalities, five towns and six villages, a population of 50,000. The expenditure of the County Council was $93,000 a year. Having enlarged on the importance and work of the Council, the chairman expatiated on the merits of the park, Jackson's Point, he said, was admirably situated. All who had seen it were prepossessed in its favor and prosperity. Its advantages were not inferior to any of the parks in the neighborhood of Toronto. Arrangements had been made with the Grand Trunk Railway to run excursions at reduced rates. Next year a commodious hotel would be erected in the park.

Warden Yule, in responding, endorsed all the encomiums which the chairman had made on Jackson's Point Park. In a similar strain Reeve Richardson of Scarboro, Reeve Bannerden of East Gwillimbury, Reeve Wilson of York, Deputy-Reeve Wood of York and Reeve Vanzant of Markham addressed the assembly.

First Vice-President Scott proposed "The County Officials," and County Clerk Atkins and Engineer Stokes responded. Dr. Bentley gave the health of the contractor, who replied. Reeve Richardson made a happy speech on behalf of the ladies.

Games in the park followed, and large parties embarked on the steamer "The Enterprise" of Barrie and greatly enjoyed a sail on Lake Simcoe. The beautiful surroundings of Jackson's Point were seen to advantage, also Big Bay Point, Georgina Island and its Indian Reserve, Fox Island and its lighthouse, the village of Hawkstone, the towns of Barrie and Beaverton and many wooded villages, from which and the town of Orillia there is water communication.

The lakeside drives were much patronized, especially that to the beautiful little Memorial Church of St. George erected by the Sibbald family. A splendid view of Lake Simcoe and a wide adjacent district is obtained from the tower of this lakeside church. Unfortunately a mishap befel a party on the return drive. Warden Yule and his wife, Reeve Atkinson, Secretary Burns and The World's young man were pitched out of their carriage through the axle of the vehicle giving way. No serious injury was done, the party escaping with a severe shaking. The number of conveyances at the park and Sutton was large, visitors being present from all the countryside, especially the villages of Keswick, Bethaven, Vachel and Pefferlaw. The day's proceedings were a thorough success. A great future is in store for Jackson's Point Park.

The York State Prohibitionists.

SYRACUSE, N.Y., June 27.—The State Prohibition Convention to-day adopted a platform denouncing the traffic in alcoholic beverages, disapproving of any system of license, declaring the necessity of some political agency to establish Prohibition, ratifying the nominees of the Prohibition party for President and Vice-President, censuring any political party that does not condemn the liquor traffic, endorsing the National Prohibition platform and the state platform of 1887, and inviting the co-operation of the voters of the state.

The Mexican Presidential Election.

CITY OF MEXICO, June 27.—On Monday elections for delegates, who are to choose a President a week from next Sunday, were held throughout the country. There was little animation as far as reported, and no opposition worth mention to Gen. Diaz and the ticket of the Administration party.

UNITED STATES NEWS.

A passenger train went through a small bridge near Tensas, Ala., yesterday and the engineer, fireman and two tramps were killed.

At Minneapolis last night Silas Robinson shot his wife and a man named Nick Weiss, with whom she was walking, and then killed himself.

The family of W. J. Waite of Philadelphia, N.Y., have been poisoned from eating canned beef. All are out of danger except Mr. Waite's aged father, but he is expected to recover.

George Wilson was hanged in the Orleans County (N.Y.) jail yesterday for the murder of his wife on Jan. 17 last.

The Chilcats and Sitkas, two tribes of Alaska Indians, have recently engaged in a combat in which the chief of the Chilcats was killed, and subsequently some of his braves murdered the chief of the Sitkas.

THE PILL MAKERS ON TOP.

JUDGMENT GIVEN IN THE AYER CUSTOMS CASE.

The Action Dismissed and an Order Issued for the Return of the Confiscated Goods—Proceedings to Obtain Damages from the Government Threatened.

OTTAWA, June 27.—In the Exchequer Court this morning Justice Ritchie gave judgment in the celebrated customs case of the Queen v. J. C. Ayer & Co., which was tried here and in Montreal just a year ago. The decision was against the Government with costs, the release of the seized goods being ordered.

Ayer & Co. are manufacturers of sarsaparilla, hair vigor, pills and other compounds at Lowell, Mass., and in 1862 started a branch establishment at St. John, N.B. The material was imported in a crude state and afterwards prepared in the Dominion, bottles and other articles being purchased here. By this method the company only had to pay duty on the fair marketable value of the compound for some twenty years. The Ayers continued their importations until 1882, when Underhill, an employe of theirs who had been dismissed, laid information at Montreal against them for importing at under value. Acting on this information Officers O'Hara and Brosseau of Montreal made seizures at various points in the Dominion. The Ayers disputed the rights of the customs to make these seizures, and last year the case came on before Chief Justice Sir Wm. Ritchie.

The goods seized were 4849 dozen bottles of sarsaparilla.

The Chief Justice, after reviewing portions of the evidence, said that he could not understand how honest business men like the Ayers, making honest importations in order to carry on business in the Dominion, could be more than they had done in this case, viz.: To apply to the customs authorities to learn upon what terms the goods should be imported into Canada. The invoices clearly showed that the ingredients imported in bulk by the firm, to add to other materials bought in Canada, possessed no market value beyond those ingredients. The charge of smuggling seemed to him to be monstrous. The evidence went to show that the Ayers' goods were rather over-valued than otherwise.

The judge expressed the opinion that a scheme was concocted by O'Hara, Brosseau and Underhill against a firm whose honesty was beyond question for twenty-one years.

The books of Ayer & Co., surreptitiously obtained and deposited with the collector of customs at Montreal, remained, despite the orders from a judge of the Supreme Court for their production.

O'Hara came in for censure for his conduct in the matter. The conduct of Officer Brosseau in trafficking in money to be received in forfeitures was disgraceful.

The Chief Justice concluded by adjudging that the Ayers had not made any attempt to evade duty nor did they pass the customs at St. John with bottles of medicine, that there was no proof of certain patent medicines mentioned being entered under value, that there was no proof that goods illegally entered in Canada were kept for sale and that there was no intent to defraud the customs. The information of undervaluation and of defrauding the revenue was therefore dismissed with costs and the goods seized were ordered to be restored.

Mr. R. D. McGibbon, one of the counsel for Ayer & Co., says the firm will make a claim against the Government for damages, which will result in the production of facts the other hand it is not at all probable that the Government will let so important a case be decided by the judgment of a single judge, and an appeal will probably be taken to the Supreme Court.

DEPARTMENT DASHES.

The Lobster Fishing Season—Tenders for New Postoffices Invited.

OTTAWA, June 27.—The Department of Fisheries yesterday received a letter from a prominent lobster packer strongly approving of the shortened fishing season and urging that the department stand firm in carrying out the regulation, as he preferred the preservation of the lobster to what he could make by an additional two or three weeks' packing.

The Public Works Department is repoling the telegraph line from Qu'Appelle to Humboldt, N.W.T., and is also preparing to make the cable connections between Wolfe Island and the mainland and Pelee Island and the mainland, provided for at the last session of Parliament.

Commissioner Johnson has compiled and had printed for the guidance of collectors of customs the revised Customs Act, with an analytical index which will prove very useful.

The Public Works Department has called for tenders for the erection of a postoffice at Pembroke, Ont., and Dalhousie, N.B. Tenders will be received on July 6 for the former and on July 12 for the latter.

The First Servant of the State.

BERLIN, June 27.—The Landtag opened today. In his speech, opening the session, King William said his Government, like that of the late King Frederick, would be exercised as a legacy from his grandfather. He would equally guard the rights of the people and the Crown and protect all religions. He was gratified with the good relations existing between the State and the Catholic Church. He was satisfied with the Prussian finances, and hoped that the further relief of communes and persons of small means from taxation would be possible. The King concluded his speech with a quotation from Frederick the Great, "The King is the first servant of the State."

A Tactical Blunder.

LONDON, June 27.—The Standard, referring to the vote on Mr. Morley's motion in the House of Commons last night, said the result of the division would convince Mr. Gladstone painfully enough that he has made a grievous tactical blunder. It will be well for his fame if he shall be taught no graver and sadder lesson.

Money Made it Hot for Them.

DUBLIN, June 27—A farmer named Mooney, living near Rathdrum, was evicted yesterday by 100 constables and seven emergency men directed by a magistrate. Mooney had barricaded the house and with the assistance of friends offered a fierce resistance, throwing boiling porridge and missiles of all kinds at the evictors. Ten arrests were made.

The Channel Grove Sensation.

KINGSTON, June 27.—The cases arising out of the difficulty at Channel Grove on Friday last were tried before Police Magistrate McKimm at Harrowsmith yesterday. George Briggs was committed for trial on the charge of having obstructed Constable Grant in the discharge of his duty. In the case of Police Officers Megarry and Tuttle, charged with refusing to assist the constables in the discharge of their duty, the magistrate reserved his decision for a week. J. E. Jones and J. D. Thompson were dismissed on the three charges made against them of interfering with the constables.

Madre E' Hijo cigars exceptionally fine. Superior to imported.

CHAT ACROSS THE CABLE.

The Journal de St. Petersburg says it is satisfied with the pacific tone of Emperor William's speech to the Reichstag, which it declares confirms the existence of friendly relations between Germany and Russia.

It is certain that the Swiss authorities will obtain the extradition of Porter and Huck, the American burglars, who were arrested in London a few days ago on a charge of burglary committed in Zurich.

The Pope's encyclical on Liberalism classifies the subject under two heads, ancient and modern, and condemns the latter as being in opposition to that practiced by Christ.

Another Gas Well.

At the foot of the Blue Mountains, some three miles from Thornbury, a new gas well has been discovered. Well, suppose it has; recent prospectors have struck a cliff and collar mine at 65 King-street west. White's you know.

THE NORTHWEST ELECTIONS.

Returns Not All in, but the Conservatives Have a Majority.

WINNIPEG, June 27.—The elections in the Northwest Territories took place to-day, and although party lines were not strictly introduced, the Conservatives have a majority. These returns have been received:

North Regina—Jelly, majority 100.
South Regina—Secord, majority 11.
Medicine Hat—Tweed, by acclamation.
North Qu'Appelle—Sutherland, majority 163.
Wolseley—Richardson probably elected.
South Qu'Appelle—Davidson, majority 62.
Moose Jaw—Ross probably elected.

TWO HAMILTON WEDDINGS.

Serious Runaway—A Big Sunday School Picnic—The Milk Tests.

HAMILTON, June 27.—The wedding of Miss Maggie Boyd, eldest daughter of J. D. Boyd of this city, and William Casey, an old Hamilton boy, now of Detroit, took place at St. Mary's Cathedral this morning, Vicar-General Heenan performing the ceremony.

Erskine Church was the scene of a very pleasant event last evening when Mr. John McKeown of Detroit and Miss Mary Hornby of this city were joined in wedlock by Rev. W. J. Dey, M.A.

On Monday evening two young couples started for Stony Creek in a double carriage. Near the King-street toll gate the horses took fright and bolted into the ditch, upsetting the carriage and spilling the occupants. Miss Grace McLeod had her foot caught in the wheel and was dragged along the ground for some distance, and was severely cut about the head and face. Robert Kirkpatrick, one of the young men, had his arm broken. The other two escaped unhurt.

Mr. Will. J. Billes died at his mother's residence yesterday, after an illness of about three weeks. He was in his 30th year and was unmarried.

All the Protestant Sunday schools in Glanford, Seneca, Saltfleet Caistor and Binbrook united in a mammoth union picnic to Grayson's grove, near Hall's Corners, to-day. About 1000 big and little people, representing fifteen schools, were present.

Dr. Ryall's new instruments make the milk supply look worse than the old test did. Out of thirteen samples examined so far only one has come up to the Canadian standard.

The Police Magistrate this morning gave John O'Reilly the option of a $20 fine or 30 days in jail for disturbing the wedding ceremony at Mr. Binkley's house last week. Thomas Reddon and John Morin, who were each fined $20 for the same offence, were unable to raise the amount and went to jail.

A CLEVER MADDMAND MAN.

Arrested for Seduction, He Manages to Dupe His Captor and Escapes.

ST. THOMAS, June 27.—Constable Kindree of Cayuga arrived in the city yesterday with a warrant for the arrest of Arch. Cline, who is wanted in Haldimand for seducing a young woman of that country. The constable found his man at the confectionery store of Mrs. Mills, on Talbot-street, east of the Queen's Hotel. Mrs. Mills, by the way, is wife No. 1 of the notorious Aymer bigamist, John Mills, who forfeited his bail and fled to Port Huron while waiting trial. Wife No. 2 used her absent lord for alimony at the last Chancery Court and obtained $1100. Part of this money she invested in the candy store of which she is now the proprietress. Cline was her clerk.

Kindree read the warrant to Cline and placed him under arrest. The latter treated the affair coolly, cracked a joke and a peanut simultaneously, and asked permission to step into an adjoining room and secure his hat. The constable, who is apparently over 60 years than in criminal experience, cheerfully acceded to the prisoner's request. Cline, however, failed to return, and after waiting awhile the Cayuga constable became suspicious and visited the rear only to find the prisoner completely duped and that Cline had escaped. He thereupon called upon the local police for assistance, which he should have done in the first place. Cline is still at large.

GRAND LODGE, I.O.G.T.

Proceedings at Yesterday's Session—Installation of Officers.

HAMILTON, June 27.—At the session of the Grand Lodge, I.O.G.T., this morning Dr. Oronhyatekha and J. H. Flagg were appointed representatives to the Prohibition Convention at Montreal.

This resolution was adopted: That the Executive be empowered to confer with committees from other temperance societies and churches for the purpose of forming some definite plan to obtain legal prohibition of the importation, manufacture and sale of intoxicating liquors as a beverage in the Dominion of Canada.

J. H. Flagg received the unanimous recommendation of the Grand Lodge for Deputy Right Worthy Grand Templar.

A deputation of the Royal Templars of Temperance was introduced and addresses were made in favor of organic union. A resolution was passed recommending the union of all the temperance organizations in the country.

At the afternoon session the chief business was the installation of officers.

Milton's Latest Industry.

HAMILTON, June 27.—J. Alston Moffat has just returned from Milton and brings specimens of a new kind of clay found near that town. It is indurated clay that is almost as hard as stone and is of two colors, deep red and gray. A company has been formed to work the stuff and has purchased the farm on which it was found. It is called the Terra Cotta Company, and has a capital stock of $20,000. The parties are not yet dead sure what they are going to do with the stuff, and have fenced the buildings and machinery in, and are conducting experiments with a great deal of secrecy.

The samples were shown to Mr. Neill by Mr. Moffat, and that gentleman says that if the clay can be manufactured into terra cotta pottery and will become hard enough the find can be made valuable, but if not it can't. The red clay is mixed with oxide of iron, which gives it the color. The supply is practically unlimited.

The Nicolet Election.

QUEBEC, June 27.—The special parliamentary committee unanimously threw out the bill to incorporate the veterinary surgeons, refusing to give the surgeons the exclusive right to practice all over the Province.

The writs have been issued for the Nicolet election, which has been fixed for July 10.

It is reported that Hector Cameron has successfully floated on the London market the bonds of the Temiscouata Railway. It is also stated that Mr. Beemer has been successful in the London market.

Hamilton's "Long-Felt Want."

HAMILTON, June 27.—The project to establish an inebriate asylum in this city is gaining supporters among Christians, temperance and medical men, and already subscriptions have been promised. The whole of the subject will shortly be introduced to the Rescue Home Association, whose directors are influential men, and it is believed that they will successfully establish this institution for the cure of habitual drunkards.

A Painful Accident.

OSHAWA, June 27.—Yesterday while Mr. A. McMillan, manager of the S. Whiting Manufacturing Company, was lifting a box of axes the bottom of the box dropped out and one of the axe points entered his left leg above the knee, making an ugly and painful wound.

Died from Her Injuries.

MONTREAL, June 27.—Eliza Riddell, aged 36 years, who fell from the gallery of her house last night, has died from her injuries.

He Shot the Cook.

A boy in New York has shot the cook in a boarding house. This is, we believe, the first time that a just retribution has alighted on one of these demons. This has, however, nothing to do with Alfred White's custom shirts.

A NOTHER NIGHT OF DELAY.

THREE LONG HOURS WASTED AT THE PUBLIC SCHOOL BOARD.

The Fight Between the Bishop and Downey Parties—The Suspension of the 11 o'clock Rule Blocked—Trustee Hastings Attacks Mr. Downey's Friends.

Dr. Pyne could not attend at last night's meeting of the Public School Board owing to the serious illness of his brother, Trustee John Kent being accordingly elected to the chair. The chairman, as first business, read the requisition under which the special meeting had been called. It was as follows:

TORONTO, June 27, 1888.

Dr. Pyne, Chairman of the Public School Trustees.

DEAR SIR: We, the undersigned members of the Board of Public School Trustees, being anxious to proceed with the public business, request you to call a special meeting of the Board for next Wednesday evening, 27th inst., at 8 o'clock for the purpose of considering reports Nos. 11 and 12 of the Committee on Sites and Buildings, report No. 1 of the Committee on Games, and reports Nos. 5 and 6 of the Committee on Printing and Supplies.

(Signed) E. P. RODEN.
F. SOMERS.
WILLIAM BELL.
JAMES KERR.

The Board was in another fighting mood, and spent from 8 until well on to 9 in bickering one with the other over report No. 8 of the Sites and Buildings Committee. Trustee Baird commenced the trouble by moving that it was a subject of regret to the Board that the requisition under which the special meeting had been called did not specify the consideration of all unfinished business instead of certain reports. It was a reflection on the other members, who knew that the requisition should take to themselves the credit of expediting business. If they were so anxious why did they not include report No. 8?

The Chairman ruled the motion out of order, as well as several others fired at him by the Bishopites. It was 9.30 when the real business of the night was commenced. Report No. 11 of the Sites and Building Committee was first taken up. The first clause recommended the purchase of lots 25, 27, 28 and 29 on the east side of Grace-street for a school site, at a cost of $7000. This brought Trustee McMurrich to his feet. He charged that middlemen were making money out of the Board, buying property and selling to the owners of property purchased. Although he did not exactly charge that members were interested in the deals, he made some strong insinuations to that effect. The clause was adopted notwithstanding a strong opposition from Trustees Willcock, McMurrich and Schoff. Clause 2, arranging for the appointment of Mr. C. A. Walton as architect for the new school in St. Stephen's Ward, was referred back owing to the opinion expressed by Trustees John Kent and Hastings. Another hour's discussion followed on clause 3, for the placing in Wellesley and Phœbe-street schools the Smead-Dowd heating apparatus at a cost respectively of $5995 and $3918.

In the midst of the discussion Trustee Kerr moved that the 11 o'clock rule be suspended. Trustee Roden, chairman in the committee of the whole, declared it carried. His ruling was appealed from, the Board sat down, and Chairman Kent once more submitted the motion. Somers, Kent, Downard, Bell, McCracken, Roden, Schoff, McMurrich, Brown, Kerr, Poulton, H. A. E. Kent voted yea—12. The nays were Sparrow, Ogden, Vair, Howland, Hastings, Henderson, Willcock, Baird—8. As the motion required a two-thirds vote to carry it it was declared lost, and the Board again went into committee of the whole with Trustee Roden in the chair on report 11.

Trustee Willcock got the floor at 10.40 and proceeded to talk against time. He wound up in ten minutes by asking Trustee Somers a long string of questions with reference to the beating of the various schools.

Trustee Hastings then began to speak. He moved that the report be allowed to remain over until a Superintendent of Buildings be appointed. He proceeded to state that it was about time that the minority of the Board began to find out that they could not rule the majority. It was they who were blocking the business of the Board, and it was about time the outside public understood this. Up to 11 o'clock everything was a jumble. Trustees Downard, Baird, Hastings, Spence, Kerr, Somers, Brown and Roden were all talking at once, with no result and less point. Trustee Hastings charged the Downey party with putting false statements in the newspapers about obstructing public business. It was not right and dead wrong. Chairman Roden declared that it was 11 o'clock and the motion was carried.

Trustee Baird tried to get a hearing to recommend that a meeting be held on Friday or Saturday night to dispose of general business, but his voice was drowned with hoots and shouts. Trustee Somers and Hastings had an angry altercation in the hall, but friends came between and quieted matters.

The result of the three hours' session was simply nothing.

The Guards on the Garrison Commons.

The camp on the Garrison Commons is the object of much attention just now, and during the day, at least, the Governor-General's Body Guards receive many visitors. Yesterday the routine of duties was not interrupted by change, nor is it likely that any novelty in the exercises or manœuvres, beyond those already referred to, will be introduced. An event of an unpleasant character occurred yesterday morning during squadron drill. Trooper Henry Shaw, while preparing to mount his horse, received a heavy kick from the animal, sustaining severe injuries. He was taken to the General Hospital. Trooper Shaw was formerly a member of "C" Company. Although the summons to camp was cheerfully responded to generally, there were three or four members of the corps who failed to "answer their names." Among these were Troopers Wm. Hurst and James Iredale. These two men, in answer to a summons from the police authorities, appeared at the Police Court yesterday morning. They were charged with a breach of the Militia Act, in not attending the week's drill, and Major Dunn of the G.G.B.G. acted as prosecutor. Both defendants pleaded that, having been out of employment for some months, they had just obtained situations when the camp opened. They had neglected the call to camp because they were afraid of losing the places they had just obtained. Acting Magistrate Baxter said he had no alternative but to fine each $5 and costs or 10 days.

Cit Hall Small Talk.

The members of the Property Committee were out with the Waterworks members yesterday on the annual outing, and therefore will meet to-day instead of yesterday as at first intended.

The city assessors have been summoned to attend at City Assessment Commissioner Mangham's office on Friday to get the usual annual lecture on values of city property before commencing their assessment work for 1889.

In the Board of Works meeting on Tuesday Ald. Barton and Woods charged the chairman with giving St. Thomas' and St. David's Wards repairs which ought to come under the local improvement bylaw, and that other wards, especially those in the West End, could not even get fair play in the way of repairs. They wanted an explanation, but the chairman laughed it off, and refused to say anything about it.

In accordance with the resolution of the Markets and Health Committee, the St. Lawrence Market was closed yesterday afternoon.

There is growing discontent expressed by the aldermen with the working of the Board of Works department. It is almost impossible to get work through with any degree of celerity, contracts given a year ago not being commenced even now.

Smoke the old reliable brand, "Cable," over a quarter of a century in the market. Demand larger than ever.

SIR JOHN LEAVES TOWN.

The Dominion Premier Spends a Busy Time—The Rifle Ranges.

After breakfasting at the Queen's yesterday morning Sir John was called on by Mr. J. J. Withrow, representing the Industrial Exhibition Association, and Mayor Clarke, representing the city. The trio drove out to the rifle ranges, and on the way out the Mayor and President Withrow presented to the Premier the reasons why the rifle range should be somewhere else. The Premier's attention was drawn to the danger to which those boating on the lake were exposed when the range was in use. It was proposed that the Exhibition Association and the city should take over the grounds at present used as the rifle range, and that they bear the cost proportionately in transferring it to some other locality. The exhibition grounds are too small and the association would be only too glad to come to terms whereby they would annex the range grounds. Sir John listened attentively to the arguments and proposition, but did not given definite reply. It is probable that Sir Adolphe Caron, Minister of Militia, will come up to inspect the grounds.

At one o'clock the party drove back to the Queen's and Sir John saw several people. Among those who sought the Old Man were Hamilton's two M. P.'s, Adam Brown and Alexander McKay, Senator Allan and David Creighton, M.P.P.

Sir John went to the Albany Club for lunch and in the afternoon went to Trinity College convocation.

Sir John departed at 8.30 o'clock for Kingston. Several of his old friends saw him off at the Union Station.

"Derby" cigarettes (5c.) are superior to any ten cent package manufactured by any other firm.

Physical Science at the Collegiate Institute.

A meeting of the Collegiate Institute Board was held last evening. There were present: Chairman Lobb, and Trustees Houston, Mulvey, Pepler and Smith. Plans respecting the proposed alterations for the physical and theoretical science department were laid on the table. Mr. Smith moved that the consideration of the matter be deferred until the plans were approved of by the Minister of Education, and, also, until a written report had been received from the science masters. The motion was carried. A communication was received from the City Council announcing the appointment of six additional trustees in accordance with a bylaw recently passed authorizing the establishment of another collegiate in the West End. A lengthy discussion ensued in which the question was whether the act provided that these appointed were actually members of the Board and entitled to sit thereat. Mr. Houston moved that the subject be referred to the Minister of Education, who was, he contended, the proper authority to decide such disputes. The negative votes of the chairman and Trustees Pepler and Smith defeated the motion, and it was finally carried that the matter should be referred to the Board's Solicitor.

Before You Go Off on Your Holidays.

Dominion Day, Canada's great national holiday, will be celebrated on Monday next. From that time till the first of September nearly every one of our citizens will have their holidays. Ocean steamships will take thousands to the watering places of Europe. Railroads will be crowded with pleasure seekers to the mountains and seaside. Travelers from Europe and the States will doubtless have a sail up our great lakes and take in the great camping grounds of Muskoka, while the mass of our people will have their daily excursion on our Island or to the chain of pleasant and romantic parks that surround our city on all sides. Don't go away without calling at Allen's, 347 Yonge-street, and get a traveling hat or cap to wear on your tours. Thousands to choose from for camping, boating, fishing or seaside.

Victoria Park. Why has this pleasure resort become so popular? Simply because of its beauty and the comfort and satisfaction enjoyed by its patrons. 624

Lumber Freight Rates.

Several local lumber dealers met in the Council Chamber of the Board of Trade yesterday for the purpose of discussing freight rates. The firms represented were: Messrs. Donagh & Oliver, Christie, Kerr & Co., William Beck & McIntosh, S. C. Kennedy & Co. and McCraney, McCool & Wilson. The question before the meeting was the desirability of removing overloading rates. Cars of lumber are shipped through to their destination and not till then do the lumber handlers know how much (by weight) they have shipped. Frequently the charge for freight exceeds their estimation by a good deal, resulting in loss to them. A deputation will probably go to Montreal to ask that car loads be placed at a certain weight and that no overcharge be made.

The "Mango" cigar is "par excellence" the finest 5 cent cigar in the world.

A Yachting Souvenir.

A large photograph of the cutter yacht Aileen of this city is on view in the window of Messrs. J. G. Ramsay & Co., Bay-street. The picture is about three feet in length and shows the yacht in full racing rig. The photo was taken and enlarged by Mr. H. G. Thayer of Rochester, an enthusiastic yachtsman and amateur photographer, and sent to Toronto as a souvenir of the regatta held at Charlotte last season.

The Central Bank.

Yesterday's proceedings before the Master-in-Ordinary were devoid of public interest. Evidence was taken in the cases of James Henderson and J. Gordon Jones. Particulars have previously been given in The World. Both cases stand for judgment, also that of Alexander Lawrie. The court adjourned till to-day.

About a Carload of Wheat.

The Board of Arbitration of the Board of Trade decided a case which was brought before it yesterday, C. H. McLaughlin v. Spink Bros. It appeared that Spink Bros. failed to deliver a car of wheat to Mr. McLaughlin according to contract. Damages were awarded Mr. McLaughlin to the amount of $37.50.

How to Avoid Cramps When Bathing.

The early swimmer catches the cramps unless he happens to be attired in one of quinn the shirtmaker's satin-trimmed, fancy English flannel bathing suits, which are sold in sizes to suit tall slim men, short stout men and every other style of man at one dollar and twenty-five cents each.

Sunstrokes in Philadelphia.

Ten of them during the past three days; just think of it! Why will people be so foolish as to wear heavy clothing in the broiling sun when they can buy such flannel coats as Alfred White is selling at 65 King-street west!

Waiting for the Act.

Inspector Archabold told The World yesterday that he was waiting for an official copy of the act suppressing bucket shops. As soon as that was in his hands
