of this month: her name was Trowbridge before her marriage. Ross is a native of Boston, where he has a brother residing at present. The Coroner was called to hold an inquest, and on examining the wound, he found that the throat was cut from ear to ear, and with such force as to nearly sever the head from the body. The murderer has since been arrested.

FROM THE ARMY.

SERIOUS MILITARY RIOT!—INSUBORDINATION NEAR MATAMORAS!—SOLDIERS KILLED AND WOUNDED!—DISASTROUS STEAMBOAT EXPLOSION!

WASHINGTON, Monday Night.

Steamship McKim, Capt. Page, arrived on the 5th instant, at New Orleans, from Brazos, Santiago which place she left on the 2d inst. She brought several sick volunteers and some discharged soldiers. Col. Hays with his Rangers, had been herad from. They had scouted the country and retorned to Camargo, without doing any thing of note.

Most of the army remained at Camargo. A great riotamong a company of Irish Volunteers, and some others, took place on the night of 21st, at an encampment opposite Burita. Guns were fired, and 15 or 20 men are reported to have been killed and wounded. Besides the killed and wounded seen or shown, 8 or 10, are said to have been pushed from a steamboat (lying by the shore) overboard, and were drowned.—The Colonel of the Georgia regiment gallantly attempted with swords and pistols in hand, to quell theriot. He shot own one man, and wounded several others.

Col. Baker of the 4th regiment Illinois Volunteers, repaired to the scene, and ordered two of his companies, A and C to assist in quelling the fight, and wentin person with 20 chosen men to the steamboat. He commanded peace as soon as he got on board, but was attacked by the rioters and had a desperate conflict, in which he defended himself bravely for some time against swords, bayonets and shot, but was finally shot in the neck, the ball entered behind, passing out through his cheek or mouth.

Of the twenty men who accompanied Colonel Baker eight were wounded, six with bayonets and two with balls. On the arrival of companies A and C, Captain Robeets, of the former, ordered his men to charge on board, and led them to the steps, where he received a severe wound from a bayonet, which entered near the shoulder-blade and passed through his back. The boat was so well defended by the rioters, that the Illinoisans had to retreat, not having cartridges with them. Ammunition was soon furnished them, however, and on again approaching the boat, every thing was quiet. No one of the Illinois volunteers was killed, and it was thought next morning that Baker and Roberts would recover of their wounds.—It was feared two privates in Company C were mortally wounded.

The rioters were finally subdued, forced to surrender their arms, and placed under a strong guard preparatory to trial by Court Martial.

Alexander J. Seaborn, Illinois Troops, Company A, died on board the McKim. Several others on the same vessel were nearly dead.

Forty miles above Reynoso, on the 21st August, the steamboat Enterprise burst her boiler, and blew up; five persons were killed instantly, and several wounded.

Just received by the "Mountaineer" from Liverpool. July 24. JOHN KINNEAR.

To the Freeholders of the County of Saint John;

GENTLEMEN,—

AT the request of a number of respectable and influential Freeholders in the City and County, I come forward to offer myself as a Candidate for your suffrages at the forthcoming election for Members of the House of Assembly; and in doing so, I will endeavor to state in as few words as possible, the general principles that will govern me, should I have the honor of being returned as one of your Representatives.

As a native of the Province, I most anxiously desire to see the land of my nativity in a state of prosperity, and the inhabitants contented and happy.—We live under a free government, Providence has furnished us with a great variety of valuable natural resources, which require the application of Labor to render them available to the use of the inhabitants, and for the increase and diffusion of wealth and comfort among us; but it is only by a wise and consistent policy of legislation, that these advantages can be made available, for I believe that our present condition is far removed from a state of prosperity.

I believe it to be a matter of great importance that the Wilderness Lands of the Province should be thrown open for settlement upon some better system than at present prevails, so that the thousands of emigrants who pass into the United States annually from our shores might be induced to settle in the Province, rather than become citizens of a foreign country, adding by their labour to the wealth and resources of the United States. I think no public money can be more advantageously expended than what is judiciously and economically applied to opening out and improving the roads; and if a system could be adopted, by which a part of the instalments on granted land could be taken in labour expended upon the roads through intended locations, it would greatly facilitate the settlement of the country.

I would advocate one general and improved system of education in the parochial schools of the Province, so that a sound and useful education might be within the reach of every child; for there can be no good Government in a country where free institutions exist, when the mass of the people grow up in ignorance. In the present condition of the Province, I think the schools should be assisted from the public revenue and not by direct taxation.

Our Fisheries should be encouraged by Legislative bounties, and fish for export subjected to strict inspection, so that they would bear a character in markets abroad.

Our shipping, in my opinion, are entitled to the privilege of receiving their stores out of bond free of duty, to enable them to compete with the ships of other countries.

I would oppose the Export Duty on Sawed Lumber as a tax upon the industry of the people—unjust in principle, and injurious in effect.

I would advocate free intercourse with our sister Colonies, and would oppose restrictions that would interfere with a mutual and beneficial interchange of commodities; at the same time I would strenuously oppose that one-sided system of free trade, which would admit the produce and manufactures of the United States, and other countries, into our markets, almost free of duty, while they placed prohibitory duties upon our articles, thus draining the Province of its specie, deranging the currency, injuring our farmers and mechanics, encouraging foreigners in preference to our own people, and in reality giving to the manufacturers of a foreign state that bounty which should be granted to our own. Experience has proved, in this Province, that judicious protection to domestic manufactures has not had the effect of increasing prices to the consumer, while at the same time it has encouraged home industry, created a home market, which is at all times the surest, and prevented a drain of money out of the country. It is by the employment of farmers and mechanics, and the other producing classes in our country, that the traders and shopkeepers are to find their customers,—not by our employing them in other countries. No country can be in a healthy or prosperous state, while the imports from abroad cost more than the exports are able to pay;—this state of things facts prove to be the case in this Province.

I would use my utmost endeavours so to act, as to extend our home trade, and to promote our foreign commerce, and instead of placing one interest in opposition to the other, which unfortunately has too much prevailed, endeavour so to Legislate as to benefit all.

I would endeavour to promote a spirit of Charity and good will towards all denominations of Christians within the Province, all are payers of taxes and consequently supporters of the Government, and I can see no reason why a man's religious opinions should be a barrier to his enjoying those rights and privileges good Government ought to insure, nor that holding particular religious tenets should be a recommendation to offices of trust or emolument, but that character and capacity not religious distinctions should be the test.

Under the new policy adopted by the Home Government towards the Colonies, it is quite necessary that the Executive Government and Legislature of each Colony should be actuated by more enlarged principles of Government than have hitherto prevailed—it is quite apparent that the free trade policy of the Mother Country must throw the Colonies entirely upon their own resources.

I have thus Gentlemen expressed my general views, and should they meet with the approbation of a majority of the electors, I will use my utmost endeavours to carry them out—

And have the honor to remain,
Gentlemen,
Your humble servant,
ROBERT D. WILMOT.

St. John, September 17, 1846.

To the FREEHOLDERS of the City and County of St. John.

GENTLEMEN,—

IT is my intention of being again offered as a Candidate for the honour of representing this County in General Assembly, at the Election of Members, speedily to take place.

During an uninterrupted period of nearly twenty years, which I have been serving you in the Legislature, you have approved of my Parliamentary conduct, by returning me, on five several occasions with most triumphant majorities.

Aspiring to the distinguished honour a sixth time, if you still entertain the same favourable opinion, I shall be most proud to receive your suffrages; and you may be assured that I shall continue to use such abilities as I possess, for the promotion of the general good, and of the interests of this City and County in particular.

I have the honour to be, Gentlemen,
Your most obedient and devoted servant,
JOHN R. PARTELOW.

Sept. 26, 1846.

To the Free and Independent Electors of KING'S COUNTY.

GENTLEMEN, the time has arrived when it becomes your privilege to choose from among yourselves persons to represent you in General Assembly; and from the solicitations which I have received from a large portion of the respectable inhabitants of this County, I beg to offer myself a Candidate for your suffrages.

I have on a former occasion fully declared my principles to you, which must still be fresh in the memory of most of you; but lest it should not, it may not be out of place in again declaring them.—Loyalty to the Throne, zeal for the interests of the poor, a due consideration of and protection to the Agricultural and Manufacturing interest of the Country. These principles I shall ever maintain.

I am warmly and sincerely attached to our excellent Constitution—I shall therefore be anxious to make the most searching enquiry into alleged abuses, and when proved to exist, to apply sound and constitutional remedies with a view to preserve unimpaired, that balance of political power which I am convinced is essential for the stability of the Government, and the welfare of the people.

If elected your Representative in the Assembly, I beg to assure you Gentlemen, that the local interests of your valuable County shall be the first object of my attention, with a view to obtain that information which would enable me to support such measures as would be conducive to the happiness and well being of the whole community of this County and the Province at large.

I remain, Gentlemen,
Your obedient humble servant,
WM. PYLWELL

SAINT JOHN, JULY, 1846.

To the FREEMEN and FREEHOLDERS, Electors of the CITY of Saint John.

GENTLEMEN,—

ANTICIPATING that a dissolution of the present House of Assembly may take place, and a new Election of Members to serve in the General Assembly of this Province follow, during the period of intended absence on my own part for about three months, I leave this Address in the hands of my friends, to be used if the occasion arise, and they think proper to propose me as a Candidate.

Having had the honor to serve you as one of the two members for the City, in the last four Sessions of the Legislature—opportunity has been afforded for the Electors to judge, if they will, by returning me again to fill an office of so much importance and trust, be rightly consulting their own and the public interest.

The conscious feeling of having been governed in my conduct hitherto as a member of the House of Assembly, whether by introducing, supporting, or opposing all measures in which I took a part, when under Legislative consideration, according to the best judgment I could form in respect to the public interest, of what was right or what was wrong, gives me confidence again to become a Candidate for your suffrages, and, if elected, I shall deeply appreciate such an honorable proof of your confidence.

I have the honor to be, Gentlemen,
Your very obedient and faithful Servant.
W. H. STREET.

To the Freeholders of the City and County of Saint John.

GENTLEMEN,—

I INTEND offering myself at the ensuing Election as a Candidate for the honor of Representing the City and County of Saint John in General Assembly.

The warm assurances of support which I have received, lead me to believe that it is the wish of a large majority of the Freeholders that I should come forward. Having never refrained, on all fitting occasions, from expressing independently, distinctly and openly, my views on public matters, and as an opportunity will be afforded me on the day of nomination of addressing you at length, I do not deem it necessary to say more at present than, that if returned, I shall feel proud of the honor, and shall endeavor to convince you that your confidence is not misplaced, by at all times fearlessly, faithfully, and to the utmost of my ability, advocating your interests, and devoting my energies to the advancement of the Province at large.

I have the honor to be, Gentlemen, your obedient servant,

WILLIAM JOHNSTON RITCHIE.

September 19, 1846.

To the ELECTORS of the City and County of SAINT JOHN.

GENTLEMEN,—

I INTEND offering myself at the coming Election as a Candidate for the representation of this County. Should I be fortunate enough to meet with your approbation, I shall endeavour to discharge my duty faithfully, and promote, to the utmost of my power, the best interests of the City and County of Saint John, and of the Province at large.

I have the honor to be Gentlemen,
Your obedient Servant,
JOHN HAMILTON GRAY.

September 19th, 1846.

To the ELECTORS of the CITY of SAINT JOHN.

GENTLEMEN,—

THE dissolution of the House, which has just been announced, again places at your disposal the Seat for the City, which, for the last four years, I have had the honor to occupy.

I feel no hesitation in declaring that, during this period, my best, though humble, efforts have been directed to the advancement of the varied, and, in some instances, conflicting, interests of my Constituents, and the general welfare of the Province.

Should those powers of regulating the trade of the Country, hitherto withheld from us, be now delegated to the Assembly by the Imperial Parliament, a duty of increased importance and responsibility will devolve upon those into whose hands the representation of the different Constituencies may fall.

In the event of my services as a Member for the City being again acceptable to you, I trust that my conduct, as one of your Representatives, will be such as to leave no ground for regret on your part at the renewal of that confidence which you have hitherto reposed in me.

Your obedient servant,
R. L. HAZEN.

St. John, Sept. 19th, 1846.

To the Electors of the City of Saint John:

GENTLEMEN,—

IN compliance with the earnestly expressed wishes of a large body of my fellow Citizens, I have been induced to offer myself as a Candidate for your suffrages at the ensuing Election for the House of Assembly; should I have the honor of securing the support of a majority of the Electors of the City of Saint John, I shall exert all the energies of my mind at all times to render myself worthy of your confidence, by giving my steady and fearless support to all measures calculated to advance the various interests of this City and of the Province generally.

I have the honor, Gentlemen,
To remain your ob'dt. servant,
CHARLES WATTERS.

RILEY'S DENTIFRICE.

As an essential point of beauty the TEETH must ever stand pre-eminent. No regularity of feature, no brilliancy of complexion, no sparkling eyes, or silken hair, can render that lady beautiful who, when she opens her lips, (though they be of coral) discloses a set of discoloured Teeth. On the contrary, even homely features and a sallow complexion are embellished and rendered agreeable by a set of white Teeth. On the other hand, the effects of decay, the accumulation of tartar, the black teeth, and tainted breath, which are invariable accompaniments of a bad state of the mouth, will always prove loathsome and disgusting.

Among the various disorders of the mouth, there is none so destructive as scurvy—which on first entering the gums causes them to bleed on the most trifling occasions, and produces the most offensive and putrid breath. *There is more loss of Teeth from this Disease than from all others.*

Could persons afflicted with it see for a moment the state of their mouth, or catch the odour of their own breath, they would rejoice in finding a remedy so cheap and simple, and yet so efficacious, as the one now offered.

To professional men, shop keepers, and tradesmen generally, who have much intercourse with the fashionable world, a good state of the mouth must be of the utmost importance.

Besides, is not an offensive breath, which in nineteen cases out of twenty, proceeds from a bad state of the Teeth and gums, very much calculated to prevent the blessings of matrimony? and how often from inadvertence or neglect is the happiness of the married state grievously interrupted from the same cause.

To insist on the importance of these things must be a waste of words. were it not obvious that there are many persons who never give themselves the trouble to think upon the subject—who seem scarcely aware that they possess Teeth at all, while their gross and culpable negligence renders the fact too apparent to their friends and associates.

Another cause of the rapid decay of Teeth, which is remarkable on the whole continent of North America, is a peculiarity in the climate—the rapid and sudden changes from one extreme to another, which are of almost daily occurrence.

This source of decay, as well as the scurvy, is annihilated by using

RILEY'S DENTIFRICE,

which makes the Teeth beautifully white, eradicates the scurvy, preserves and restores the enamel where injured, sweetens the breath, preserves the Teeth sound and handsome until the most advanced age, and by constantly using will prevent the toothache. It was used and most highly approved of by his late Majesty GEORGE THE FOURTH, (the most perfect gentleman of the age he lived in,) and by the principal nobility of his Court; and has never failed to give the most unqualified satisfaction. In several instances the inventor has received considerable presents from parties as a mark of gratitude for the benefit their Teeth had received from the use of it. Mothers may rest assured, that if their children have sound Teeth at present, they will by using this DENTIFRICE never have occasion to employ a Dentist—as their teeth will remain sound and beautiful until the most advanced age.

☞ *Observe that G. RILEY'S name is signed, in his own hand-writing on the label of each box.*

☞ PRICE—HALF A DOLLAR PER BOX.

Messrs. PETERS & TILLEY, of Saint John, N. B., are my Wholesale Agents for the Provinces of New Brunswick and Nova Scotia, for the sale of the above celebrated article.
