A stylish hat talks better for its wearer than a diamond scarf pin.—Dineen.

For the reason that a stylish hat is so important a feature in a man's dress we have always made it a rule to handle no others. Our success we attribute to the firmness with which we have adhered to that resolve.

We are Dunlap's and Heath's sole Canadian agents. Silks, Alpines, Fedoras.

FEELING IN MANITOBA.

Roblin Says Award Should Be Subject to Ratification.

Montreal, Oct. 30.—(Special.)—Premier Roblin of Winnipeg, who arrived here to-day, was asked if there was any feeling in Manitoba in regard to the Alaskan boundary award. "There is no other feeling than one of disappointment. I am convinced that criticism of the award comes from people who never spent five minutes reading the data and studying the maps, consequently there can be no other feeling than that of disappointment at not getting what we wanted. I think, however, it was a mistake on the part of the Dominion government not to have insisted that the findings of the commission should be subject to the ratification of parliament."

"What is the opinion of Manitoba concerning the preferential trade proposals of Mr. Chamberlain?"

"We in the prairie province are taking the keenest interest in Mr. Chamberlain's crusade for the closer binding of the colonies to the Mother Country. On a public platform over a year ago I expressed the opinion that some such policy was absolutely necessary if we were to ensure the same degree of loyalty and patriotism among the varied nationalities and creeds that are rapidly filling the Northwest."

The Normal School students held their annual at home in the Education Department of the Normal School last night and nearly 400 young men and women promenaded the hall and looked thru the museum. Refreshments were served. Much credit is due to the committee.

John Clements, 81 Westmoreland-avenue, and William Leach, 332 Delaware-avenue, were locked up last night on a charge of theft.

A Minister's Duty

A Glowing Tribute to the Sterling Worth of Dr. Agnew's Catarrhal Powder.

"When I know anything worthy of recommendation I consider it my duty to tell it," says Rev. James Murdock of Hamburg, Pa. "Dr. Agnew's Catarrhal Powder has cured me of catarrh of five years' standing. It is certainly magical in its effect. The first application benefited me in five minutes." [33]

GAS COMPANY WILL LAY MAINS

George Lewis Loses an Arm at Plow Works—William Gourley's Serious Hurt—County News.

East Toronto, Oct. 30.—The special meeting of the Town Council held to-night was a genuine business session. The members all seemed desirous to clean up the order paper, and there were no long winded debates. The only subject that provoked much controversy was the question of an incandescent 32 candle power lamp at the corner of Spruce-avenue and Queen-street. A deputation from the vicinity said the light was needed by those getting off and on the cars. The light will be provided, tho opposed by Chairman Berry of the Fire and Light Committee, who demanded the yeas and nays. The yeas had a majority of one.

Mayor Dr. Walters presided, and there were present Councillors Oakley, Ross, McMillan, Berry, Kerr, Johnson and Abbott. Councillor Richardson's absence was owing to his recent accident. A communication from the Consumers' Gas Co. stated that the company would lay the gas mains on Beech and Spruce-avenues if certain grading were done. On motion of Councillors Ross and Oakley the grading was ordered to be done. The bonds of the tax collector will be renewed with the same company. Councillor Berry's bylaw to amend bylaw No. 311, whereby several streets were added to the list, on which heavy traffic is prohibited, was put thru its several readings and carried.

Jos. Hindes' tenders, amounting to $368, and L. A. DeLaplante's for supplying material of $1439 for sidewalks on Beech and Spruce-avenues were accepted. E. Miller was appointed inspector of the laying of water mains at $2 per diem. A deputation of ladies to protest against the dust on Main-street did not appear as expected, but Chairman McMillan promised to have the watering cart out to-morrow if it does not rain. The complaint that some of the gravel men are encroaching on the roads will be investigated.

The Mayor announced that a manufacturing firm, engaged in producing office and school furniture, and interior house finishings, and who would employ 85 hands, and pay over $700 per week were desirous of locating in town, provided suitable arrangements can be made. The matter was referred to the Legislation Committee to confer with the representatives of the firm and report at next meeting of the Council.

For the Water Committee, Councillor Ross verbally reported progress and expressed the opinion that the source of supply would have to be Lake Ontario. The suggestion that the electric light plant be removed to the proposed new pumping house would have to be carefully considered. Chairman McMillan will report as to the claim of J. Hinds for payment for land used as a public lane. Council adjourned at 9.45 p.m.

The Court of Revision confirmed the reports of the Town Clerk and Assessor re sidewalks. There were no appeals.

York Station presented an unusually lively appearance to-night when the departing hunters and their impedimenta were surrounded by a big crowd on the platform.

About 20 boys armed with pea shooters, with gravel stones for projectiles, bombarded luckless pedestrians and trolley cars to-night. They were evidently getting their hand in for Hallowe'en. Another lot of boys on Danforth-avenue made lots of noise in some unfinished houses.

Much complaint is made of the clouds of dust on the streets. The watering cart should have been out today.

The boys of Lansdowne-avenue school have challenged the High School team to a game of football.

Toronto Junction.

Toronto Junction, Oct. 30.—Mayor Chisholm's tailorshop and gents' furnishings store was ablaze to-day, about 12 o'clock. The fire department confined the fire to the rear portion of the store, which part was badly burn. At a rough estimate the loss to both the building and stock is placed at $1500, and was insured in the Equity. The origin is unknown.

Gus Pearson is in Grace Hospital, threatened with typhoid fever.

Thompson's Hall was crowded to-night at the excellent concert held under the auspices of the Chosen Friends, in aid of the Hospital Cot Board. The program consisted of piano solos by Misses Drinkwater and Harris, readings by Miss Clark, Mr. Blundel and Murdoch MacDonald, songs by Miss Klinck and Messrs. Ives, Laird and Carter, and selections by the Junction Mandolin and Guitar Club. J. S. Boddy occupied the chair.

Councillor Sheppard has gone north to hunt the deer in the neighborhood of South River. Among other Junction citizens who are already at the hunting grounds are Councillor Bull and Magistrate Ellis.

An accident occurred at the Wilkinson Plow Works after 4 o'clock this afternoon, as a result of which George Lewis will lose his arm at the shoulder. His duty was to look after a machine of the nature of huge shears for cutting iron plates, and while removing some waste he got his arm mixed up with the cogs, and it was slashed up above the elbow. He was removed to the Western Hospital, and amputation will be necessary.

William Gourlay, whose home is in the city, was injured in the C.P.R. car shops yesterday. He was operating a triple drill, and while watching one drill the next one caught in his loose coat sleeve and dragged his arm in. The drill bored thru the flesh to the bone, and over twenty-five stitches were put in the wound.

Kettelby.

King Township plowing match will be held on Tuesday next, Nov. 3, on the farm of Joseph Baker, one mile south of this village. Centrally located, with the Schomberg and Aurora Railway passing thru the field, the directors have exercised good judgment in the selection of Mr. Baker's farm as the scene of operations. Nine classes will be open for entry and the veteran plowman, together with the beginner, will find equal scope for their handiwork. Busses will run between Kettleby and the field and the Hillcrest House will provide ample accommodation for all comers. John T. Saigeon is secretary-treasurer and entries may be made up to and including the morning of the match.

Cashel.

Inquiry at the Hospital for Sick Children at a late hour on Friday evening elicited the information that the young man, Meyer, who was injured near here on Tuesday, was lying in an unconscious condition, never having rallied from the blow. The medical men in charge are unable to speak definitely regarding his condition.

It Pays to Advertise.

The benefits attached to the liberal use of the columns of The World was well exemplified on Tuesday last at the auction sale of live stock and implements on the farm of Edward Adams. In addition to some local advertising, Mr. Adams secured three insertions in the York County columns of The World and the result was most gratifying to Mr. Adams and Messrs. Saigeon and McEwen, the auctioneers. In conversation with The World Mr. McEwen stated that the results directly traceable to The World were infinitely greater, and at a fraction of the cost incurred by all other means. The immense advantage obtained by coming in close personal touch with thirty thousand daily readers cannot readily be overestimated.

EAST END NOTES.

Z. Hilton of Gerrard-street has been in Smith's Falls this week, attending the sessions of the Provincial Sabbath School convention, as representative of the Broadview Congregational School.

A Hallowe'en party and taffy-pull will be held this evening in the Broadview Boys' Institute for the Boys' and Men-of-To-more Club. A masquerade parade will be one of the features. The party will be only for members of the two clubs.

Rev. Mr. Boyd of Japan will speak on mission work in that country at St. Matthew's Church to-morrow evening.

In the Broadview Congregational Church Rev. W. E. Gilroy will preach in the morning on "The Value of the Church," and in the evening on "A Regal Suicide."

Final arrangements have been completed for the holding of a monster I.O.F. smoking concert in Dingman's Hall Thursday, Nov. 19, under the auspices of the officers and members of Court Prosperity, Court York, Court East Toronto, Court Trinity. The following committee have full charge: George A. Mitchell (chairman), W. S. G. Tidman (secretary) and Bros. F. Egan, A. Brooker, James H. Patterson, Stuart Toms, G. D. Keachie, D.D.H.C.R., W. Walkey, W. Williamson, R. Brown.

ON "GERMS."

Dr. J. O. Orr gave a decisive blow to the liquor business in his lecture in the Technical School last night. The lecture was on "Bacteriology in the Home" and claimed that all fermented liquors were the product of germs. At one process in the making of beer a germ is introduced or aided in its growth by favorable conditions, and this makes the fermentation. If at this same stage the growth of another germ is helped the product of the vat becomes vinegar. Some of the germs increase by fission, that is, they grow in length and when they reach a certain size they break in small pieces, mature and go on multiplying very rapidly. Other germs multiply by knobs, which drop off and multiply enormously. This latter kind are the breed that produce fermented liquors. If the world were without the putrefactive germs nothing would decay and so with wood and other vegetable matters.

The 66th anniversary of Berkeley-street Methodist Church will be held on Sunday, Nov. 1, and Monday, Nov. 2. The services on Sunday will be addressed by Rev. C. O. Johnston, G. Sherlock Fairclough and J. Macdonald Oxley. Entertainment by the scholars at 7.30 p.m. Monday.

Dr. W. H. Pepler has returned from the north, where he spent two weeks partridge and rabbit shooting.

Dr. Sutherland, general secretary for Methodist missions, who has started on a lecturing tour in the west, will speak in Grace Church, Winnipeg, to-morrow.

INDESCRIBABLE TORTURE.

Six Mile Brook, N.S., Oct. 30.—Such suffering as Mr. Munro Gunn of this town has endured from Asthma is seldom equalled. "For six years," he says, "I suffered more than one can describe. Doctors said I couldn't get well, but after using three bottles of Catarrhozone I was cured and never felt better in my life than I do today. Many others here are using Catarrhozone for bronchitis, asthma and catarrh. Its cures are lasting." Two months' treatment costs $1.00, or a trial size 25c at all druggists.

The Best Store for Style.

The novelty of having elegant new things and only good things is crowding this store to the front. With the new addition we are able to make a vastly better showing, and the business looms up bigger and better every day. Showcases are dressed and displays made of bright and attractive novelties. There's no room here for common qualities, and our specific purpose is to get the best of everything and make one purchase bring another.

We want you to see the new store and how elegantly we have things arranged. You'll be apt to come very much quicker if we make it worth your while. We're all human, and even well-to-do people like to know they are getting good value for their money.

Cotton Gossip.

McIntyre & Marshall wired J. G. Beaty, King Edward Hotel, at the close of the market to-day:

It is difficult to define how much of activity and strength in the option list to-day was due to reduced crop estimates and how much to weather reports.

Liverpool made a full response to our strength of yesterday, but with only moderate spot sales, and that market did not evince an upward tendency after the early cables until we took the lead, so that it may be fairly inferred that the cold storm reported in Oklahoma and Indian Territory was the main cause of sharp advance, which took place after 11 o'clock in defiance of heavy receipts for the week and still heavier estimates for movement to come next month.

The course of the market is, after all, only another evidence to-day of underlying strength, which will probably carry the price of cotton to a much higher level before the season is over.

The present range of values is fully supported by the southern spot markets, and for this reason we regard the situation as legitimate and not yet due to heavy speculation or manipulation.

The circulation of notices for delivery to-day during the early hours of trading for both October and November contracts caused considerable liquidation of those options, but it is doubtful if much cotton actually changed hands as a result.

As for the market, we do not think it too high, according to existing conditions, and we think the trend will be upwards with occasional reactions.

JIM HILL PRESIDENT.

Butte, Mont., Oct. 30.—James J. Hill, president of the Great Northern; Senator Gibson, and Governor Toole, of Montana, arrived here to-day, and held a conference with Senator Clark. These men, with Congressman J. M. Dixon of Montana, constitute the Board of Arbitration named by the Business Men's Association and labor unions of Montana, to settle their differences between the Amalgamated Copper Company, and the Heinze faction. The governor is expected to call a special session of the legislature for Friday night. At the first session of the Board of Arbitration James J. Hill was elected president, and the board's plans outlined.

We Sell Clothing That Fits.

Misfits, nine times out of ten, are overpersuasion suits. They don't fit and you know it. They look ungainly, but you were persuaded to buy them. You had an idea when you went into the store, but you didn't have the chance to ventilate it. Smart salesmen did all the talking and you—well, you didn't like to go without doing something.

A week and the trousers are "riding up," the vest in ridges and the coat declining to get within two inches of the collar. You wonder how you came to buy the plaguey thing. You say you won't do it again, but you will. You'll go back to have it out with the clothier that sold you the misfit, and you'll buy another before you've had it out.

Toronto needed just such a clothing store as we have here.

500 pairs Men's Trousers, fine imported English worsteds, in fall weights and the newest designs, neat dark stripes, broken stripes and cable effects, in grey and black, with faint colored stripe, cut in the latest style and well tailored, sizes 30 to 42 waist measure, regular 3.50 and 4.00 value, Monday on sale at 2.75

Men's Furnishings.

Three Saving Things to Buy Monday.

Underwear, Working Shirts and Braces. The things you need new, right away. Better get them Monday when figures point favorably.
