

FREE TRIAL UNTIL CURED

My offer to all who lack Strength and Vigor, who have Rheumatism, Lumbago, Sciatica, Lamé Back, etc., is:—Use my Invention until Cured, then pay me. I ask not one Penny in advance or on deposit.

A man in good, vigorous health is full of electricity. The eye and brain sparkle with it, and his nerves and muscles are strong and elastic as steel. He is successful in business or his occupation, and his wit and general good nature makes him sought after by all. Could electricity be seen he would appear as in the illustration—emanating "something" you instantly feel as you approach him. This "something" is simply his natural electricity. We call such men "magnetic." Are you one? If not, don't you want to become one? During 40 years practice in Electricity I have aided more than a hundred thousand to become so. Men have come to me broken down from overwork, worry, or abuse of nature's laws, having exhausted all medical and drug treatments and apparently past aid, suffering tortures from Nervousness, Exhaustion, Varicocele, Rheumatism, Lumbago, Sciatica, Lamé Back, Wrecked Stomach etc., and even these I have helped to regain their health and strength—made them men like the above. I can do the same for any man who will use my invention, and who is not too far gone for help.

I Cure you before you pay me One Penny

My treatment is very simple. I use Electricity as given by my famous Dr. Sanden Electric Herculex Body-Battery (latest patent, Mar. 7, 1905). Worn only during time you sleep, it fills your body full of the soothing, strengthening current, and in the morning you awake full of life and vigor, prepared to face the world however you find it. Two months' use generally cures the worst cases. Use the Herculex for that length of time, and if you are well, pay me. If not, return it—price when cured from \$5 up. Liberal discount if you pay cash for it.

As the originator and founder of the Electric Body-Battery system of treatment, my 40 year's success is the envy of many, and my Herculex is, of course, imitated (what good thing is not?), but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. It is given free to all who use my invention until the cure is complete. My Herculex is guaranteed to give a current instantly felt, or I forfeit \$5,000, and to last for at least one year.

Call or send for My Electric Herculex to-day, or if you want to look into the matter further, I have two of the best little books ever written on electricity and its medical uses, which I send free, sealed, upon request.

SOME OF BARRON'S FEMALE OFFERINGS.

The following notes on a few of the individuals to be offered by Jno. G. Barron on June 1, are the result of a cursory inspection of the same, and while the conformation of these cattle will on sale day undoubtedly speak for them, we advise a careful perusal of the catalog, which will show the Fairview Shorthorn to be unsurpassed in breeding.

Myrtle 3rd, a light roan, stylish in appearance, well filled over the crops and with ample bosom, breezy looking.

Kerfoot Beauty one of the lowest kind, was second in her class at Brandon 1905.

Lauretta Gem 2nd, a thick one, neck vein well filled, well let down in twist and bulging buttocks, has the furry coat and mellow handling so much desired by Shorthorn breeders and other practical cattlemen.

Maggie 3rd, one of the deepfleshing kind.

Nonpareil Beauty 3rd, very lowset and blocky, typical of the breed in her head, with all signs of a breeder and a milker.

Milliner 22nd, a growthy, lofty heifer, with ample middlepiece covered evenly with flesh and coat that one can easily get a handful of.

Gypsy Queen 3rd, by Stanley, breezy looking as is to be expected from such a sire, whose record can be seen in the catalog.

Fairview Lass 4th, one of the money making, dual purpose, farmer's type, with a fine udder, the producing qualities of which were amply demonstrated by the fine roan bull calf this cow is nursing.

Laura 2nd, a red cow by Nobleman, third in an exceptionally strong three-year-old class, is smooth, wide and low-set well fleshed on the back, in the region of the highpriced cuts.

Lauretta Gem by Lord Stanley 6th, is a big-framed heavy-fleshed cow and a steady breeder.

Waterloo Sunshine 2nd, a big red cow by the noted Topsman, traces to one of the early importations from Great Britain. This family has been one of the most profitable ones at Fairview.

Louisa Geely, a straight-backed, well-ribbed, deep-flanked cow is of the Laura family the foundation of which is imported Louisa from the herd of Sam Wiley of Yorkshire, who is listed as one of the eminent English breeders in History of Shorthorn Cattle on page 154; with such an ancestry and the top crosses of Nobleman and Topsman it will be strange indeed if the Laura family are not in keen demand when the auctioneer cries the sale June 1.

Milliner 21st is a thick-fleshed lowset, red, and traces to Milliner (imp.) a Booth bred cow. For further particulars see the catalog foot notes of dams and sires.
