LEG INJURED.—When driving through the gates of the West side ferry floats this morning, a driver of one of the city teams had his leg badly injured by the wheel of his cart, which was loaded with iron pipes, passing over it. He was taken into the ferry house and had his leg bandaged up after which he was able to walk. No bones were broken.

ODD FELLOWS CONCERT.—A very choice programme has been prepared for the concert to be given to-night in Union Hall, for Peerless Lodge I. O. O F. The programme is varied in character and as the contributors are all well known to be proficient, an enjoyable occasion may be anticipated. This fact with the proceeds being for a charitable object, ought to ensure a full house.

FUR AND FEATHERS.—A Moncton clergyman preached last night against ladies wearing birds in their bonnets. He objected on the ground of cruelty; but a fair member of the congregation says she intends to enquire the first time he wears that fur coat, if it is not equally cruel to hunt and kill animals for their skins. There are two ways of looking at a question.—Moncton Transcript.

A SENSATION IN CHURCH.—In St. Ann's church yesterday morning Rev. G. G. Roberts preached a sermon with special reference to and in support of the Scott Act. Scarcely had the reverend gentleman entered upon his discourse when two of the most prominent members of the congregation, one of them a church warden, rose from their seats and went out. Their action caused quite a sensation.—Fredericton Gleaner.

AN ANCIENT POWDER HORN.—Mr. William Mosher of Mosherville, Hants Co., N. S., has an ancient powder horn which bears evidence of having played its part in the early history of America. It bears an inscription to the effect that it was the property of Isa Carless and it was made at Lake George, New York, in 1759. Its owner was killed in battle and the horn was brought to this country by Daniel Greeno, 1762.

The contract calls for the completion of the building by October next.—Fredericton Gleaner.

A VALUABLE GIFT.—Mr. Joseph Allison, of the firm of Manchester, Robertson & Allison, has presented the Free Public Library with a complete set of Appleton's Annual Cyclopædia and Register of Important Events from 1876 to the present time. It consists of 13 volumes, beautifully bound in morocco, and is a most valuable accession to the library. This is not the first gift of Mr. Allison to the library. He has already presented a fine edition of Chambers' Encyclopædia, and on its formation made a liberal donation in money. For such generosity the public should be grateful.

WANTS $60,000.—Dr. Robert H. Duncan, son of Rev. Robert Duncan, for many years a highly esteemed minister of the Methodist church in the maritime provinces, and for some time house surgeon at the general public hospital in this city, is suing the city government of Brooklyn for $60,000. Last June he had an attack of intermittent fever. The health officials took it into their heads that Dr. Duncan, who had been employed in a Pacific mail steamer, had yellow fever and hustled him off to an Island in the harbor, where he alleges he was treated in such a careless and unscientific manner as to permanently shatter his health.

ATTACKED BY A MOOSE.—The Kentville New Star says:—"Mr. George Creemer, of Morristown, Kings Co., N. S. while hunting in the woods a few days ago saw two moose approaching him. He at once took aim, endeavoring to shoot one of them. Unfortunately the gun burst, leaving the stalk in his hand. The moose then sprang at his assailant. Mr. Creemer managed to climb a tree, where he remained several hours, when the animals walked off. Creemer then started for home. The moose then renewed the attack chasing the defenceless man many times around a tree which he tried in vain to climb, and finally gave himself up as lost. As a last effort he tried screeching, which happily drove the moose away.

SANTA CRUZ SAYS $30,000.

SAN FRANCISCO, Cal., Nov. 24.—A local paper has the following dispatch from Santa Cruz: The following dispatch was sent this evening to Billy Edwards, Hoffman House, New York, to be forwarded to John L. Sullivan:

"We will give $30,000 for a fight to a finish between Sullivan and Jackson, to take place on the beach, near this city. Have written." (Signed),

SANTA CRUZ ATHLETIC CLUB.

Foot Ball.

Harvard was again defeated on Saturday—this time by Yale with the close score of 6 points to nothing. Both defences were perfect which explains the lightness of the score. Over twelve thousand spectaters were present. The odds were 10 to 8 in favor of Yale. Harvard surprised every one by their strong game, making a much harder fight against Yale than they did the Saturday previous against Princeton.

PUNTS.

Fourteen thousand tickets have already been sold from the Yale-Princeton game Thursday.

The odds, however, are still in favor of Princeton.

Princeton is making efforts to persuade Yale to stay in the association with it.

In the last thirteen years Princeton has made 26 goals; has been defeated three times, though but once decisively.

Aquatic.

SPLASHES.

The New York World says negotiations are on foot to hold a great international single-scull regatta at Slattle, Washington next season. A syndicate of sporting gentlemen will offer a $15,000 purse. Teemer, Hanlan, Gaudaur, O'Connor, Searle and Masterson have been invited to complete.

Searle, the champion sculler of the world, is now in Adelaide. He is dangerously ill with typhoid fever.

George Bubear, having an offer to visit Australia, offers, prior to his departure, to row any English sculler for £100 to £200 a side over the Thames or Tyne championship course.

Hanlan who took Hosmer's place with the "Dark Secret" company has decided to remain on the stage. He has made quite a hit.

Athletic.

FOOT PRINTS.

The New Jersey Athletic Club is immeasurably proud of Willie Day, who broke the four-mile record. Enthusiasts in New York are confident that with a good track and on a sunny day the little Jersey stayer will accomplish the distance inside of twenty minutes.

Saturday night marked an interesting event in the athletic history of A. B. George. He was presented with a beautiful gold watch for having scored more points this season than any other member of the Manhattan Athletic Club. He rolled up 114. J. C. Devereaux is second with 94 points, and Young third with 78 to his credit.

The Turf.

The longest race of the year was run at Clifton Saturday. A two mile and a quarter race is a novelty on any American track in these times.

Hereafter on the Western Association tracks any jockey, groom or stable boy found on the betting grounds may be fined, suspended or ruled off.

Mr. L. J. Rose, breeder of Stamboul (2:14¾), Sultan (2:24), and other trotting celebrities, is stocking up with runners and selling off his trotters.

Lacrosse.

Cregan, one of the oldest players of the Shamrock Lacrosse club of Montreal had his right arm cut off by falling under a train at Boston a few days ago He had very few equals on the lacrosse field and will be greatly missed by his club.

Fast Freight.

Great efforts are being made on the Intercolonial to hold the freight carrying trade between here and Montreal. Freight was being unloaded here today that was put on board the cars in Montreal only four days ago. Formerly nearly all the freight from Montreal and points farther west was from 10 days to three weeks, or longer, in getting here, but since the opening of the Short Line the spirit of competition has worked a great change and freight is now carried through with a despatch that used to be regarded as next to impossible, and cars are seldom over from four days to a week in coming through.

The C. P. R. people have evidently not got the run of the different stations on this section of their road, for when cars of mixed goods come through from Montreal, the freight for St. Andrews, Fredericton or St. John and the intermediate stations each way, is found to be piled into the cars in such an indiscriminate mixture that a great deal of time is lost in sorting it over at McAdam, and it often occurs that freight for the St. Andrews or Fredericton and Woodstock divisions cannot be found till it reaches St. John and then it has to be sent back from here, occasioning considerable delay in many instances. St. John suffers least from this cause, and it is a matter that can be quickly and easily remedied by the company's agent taking proper steps to have the freight stowed so that the amount for each station or section shall be by itself.

Freights.

Messrs Scammell Bros., in their weekly freight circular, New York, Nov. 23, say the volume of business this week has again been moderate, and whilst charter rates show no appreciable change, the falling off in the River Plate and provincial deal trades of late has also contributed to the prevailing quietude and lack of buoyancy in the market. Long voyage general cargo freights remain steady, suitable vessels for Australia, the West Coast, etc., being decidedly scarce, and in demand at fairly good rates. Some enquiry prevails for sail tonnage at New Orleans with cotton seed oil, cotton and staves for Southern Europe, and very good rates have been obtained.

Sail tonnage suitable for the West India and Gulf trades continues in fair demand, and as the supply is small rates are fairly well supported, especially to the Windward and Leeward Islands Return business, however, is slow, current rates being $2.50 on Asphalt, $4@$5 on Logwood, and 7½@8½ cents on Salt. Lumber Freights from the Yellow Pine ports coastwise are not brisk, but for handy vessels are steady, whilst for distant loading it is difficult to obtain prompt rates. Coal, Fertiliser, Iron and other Coastwise Freights are about steady, and not very brisk.

Men's Minds Meander.

Men's minds meander in multitudinous channels.

A few evenings ago a couple of friends met in a down town restaurant and adjourned to the back parlor for a little private conversation.

Said one,—and he was very grave in appearance and mode of thought,—

"I have no hesitation in saying that non-resistance, alms-giving, improvidence and communism are not practicable in these days, but contempt of riches is feasible enough."

"Feasible enough," said the other, "We know what God thinks of wealth by the character of the men upon whom he bestows it."

"Yet," said the first speaker, "The spirit and temper which Oriental imagination, hasty generalization, unreflecting intelligence, unacquaintance with the requirments of complex-civilization, and habitually hyperbolic phraseology, would naturally embody in these scriptural exhortations are as binding as ever. Now, suppose we take——.

"Certainly," interupted the other. "Boy, I'll have sugar with mine."

ONLY A GOAT—There is an empty house on May street, which was some time ago vacated by the people living there, on account of it being haunted they said. On Wednesday night great noises were heard in the house, which frightened the neighbors, and the people living next door did not feel like investigating the cause. Yesterday morning as a well known builder was passing through the street a goat which had somehow managed to gain an entrance to the house, dashed through the window to the street, landing quite near the builner, who had heard of the strange noises, and at first felt uncomfortable at the exit of "Billy". But the goat didn't mind it much. He trotted off as peaceably as if he had never alarmed a whole neighborhood with his ghostly tricks.—Halifax Echo.
