The wreck was plundered by the crews of the American fishing schooners Juvenile, Capt. Rogers, of Plymouth, and Mary S. Hurd, of Chatham. The Superintendent of the Island succeeded in recovering the property stolen by the latter vessel, but Capt. Rogers refused to give up his ill-gotten gains.—A government vessel had been despatched from Halifax for the crew of the Amazon, who are reported to be a turbulent set, and no doubt the robberies will be inquired into and steps taken to have them duly punished.

Marble Chimney Pieces.

THE Subscriber invites the attention of the public to the above beautiful article. They are manufactured of Stone, by the Penrhyn Marble company, in imitation of the most rare and desirable kinds of Marble.

In style and finish they are unequalled, are very highly polished, retain their beauty much longer than common Marble and are not injured by coal gas, smoke or acids.

They have been extensively introduced into public and private buildings in the United States, giving perfect satisfaction to those who have tried them. While superior in appearance they are sold cheaper than anything of the kind in the market. In fact, the confidence with which they have been thus far used gives the fairest evidence that the Penrhyn Marble, by its many advantages, will in a great measure supercede the use of any other. Architects, Builders, and all others, are invited to examine them.

Select Boarding & Day School
FOR YOUNG LADIES,
CONDUCTED BY MISS THOMSON,
Assisted by her Father, Elder Thomson, A. M.
St. John, N. B.

IN the Government and discipline of the School, due regard is had to the health, happiness and improvement of the pupils; and while every reasonable indulgence is granted, the great objects of education are kept constantly in view, viz:—the full development and proper training of all the physical, intellectual and moral energies, and the formation of habits of industry, punctuality, good order and strict economy in the use of time.

The Educational and Domestic arrangements offer unusual facilities for elder pupils. There is also a separate preparatory department for younger pupils.

Miss Thomson informs her friends that her classes will be closed on the 17th of June, and reopened on the 18th of July, on which day she hopes all her pupils will be present that the classes may be formed for regular business.

References to Parents of great respectability given, and a synopsis, with terms forwarded on application.

Miss T. is thankful to add that her Father has consented to give her pupils the whole of his time during the hours of study and recreation.
