American States.

BOSTON, Sept. 24.—The Count de Paris and the Duke de Chartres have tendered their services to the Government, which have been accepted.

Everything quiet at Washington.

The news of the surrender of Lexington, Mo., to the Rebels, is confirmed.

It is said Gen. Fremont is to take the field in person.

The National fast will be generally observed throughout the loyal States.

The seizure of vessels owned in part at the South is still going on.

Arrests of individuals charged with treason continue.

The United States loans is being eagerly taken.

The Federal prisoners at Richmond are said to be suffering much hardships; a large number have been sent to Baton Rouge, Louisiana.

Breadstuffs. Superfine State Flour $5 20 a 5 40. Extra $5 25 a 5 70.

WASHINGTON, Sept. 24.—The following despatch was received at the War Department this morning from the head-quarters of the Western Military Department. It follows the announcement by General Fremont of the fall of Lexington:—

ST. LOUIS, Sept. 23, 1861.—"Nothing since my despatch this morning announcing the surrender of Lexington.

"Our loss is thirty-nine killed and one hundred and twenty wounded. The loss of the enemy is fourteen hundred killed and wounded.

"Our non-commissioned officers and privates were sworn not to bear arms against the rebels, and released. The commissioned officers are held as prisoners. Our troops are gathering around the enemy."

The above is from the highest authority in the Department of the West. That General Fremont has taken the field, at the head of a strong force, there is no doubt.

HUDSON, Mo., Sept. 23.—The following account of the siege of Lexington is furnished to the St. Louis *Republican* by Henry Bradburn, one of Col. Mulligan's soldiers, who left Lexington on Saturday morning—

The fort was surrendered on Friday afternoon. The men fought for fifty-nine hours without water and had only three barrels of vinegar to quench their thirst.

During all that time there were no springs or wells of water in the camp ground, as has been stated. The supply of water was entirely from the river. There were breastworks all around the camp, with the exception of the portion next the river. It was here that the hardest fighting took place.

The rebels procured a large number of hemp bales and rolled them in advance, and under their cover gradually succeeded in securing a position in the rear. They then cut off the supply of water, and held the fort completely surrounded.

They made but few charges upon the breastworks during the entire siege. The object seemed to be to surround the fort and cut off the supply of water, and, having succeeded in this, they waited until Colonel Mulligan was compelled to yield to a foe more terrible than the 27,000 rebels who surrounded him.

Previous to his surrender he offered to take a position on a level spot of ground and give Gen. Price the odds of four to one in a fair and open fight, but no attention was paid to it.

After the surrender the rebels mounted the breastworks and seemed mad with joy and delight.

As soon as the surrender took place, the rebels took down the Union flag and trailed it in the dust.

An immense amount of gold, supposed to be about a quarter of a million of dollars, fell into the possession of the rebels. It was taken from the banks and buried by Col. Mulligan in the camp ground some time ago, but the rebels speedily discovered and unearthed it.

Col. Mulligan wept like a child when he found himself compelled to surrender.

The morning after the surrender the men were all released on parole and ferried across the river. The officers were retained.

ROLLA, Mo, Sept. 23.—Despatches were read on Thursday last at Springfield to the rebels that Col. Mulligan had surrendered without a gun being fired, taking twenty-one pieces of artillery, six thousand stand of arms and four thousand prisoners, and Booneville was also taken, and General Price was marching on Jefferson City.

Ben. McCulloch is marching rapidly to form a junction with Gen. Price, with a large, well armed and disciplined force, and a good supply of artillery. He is now very near Lexington.

NEW YORK, Sept. 24.—The Herald has an interesting letter from Fortress Monroe, dated the 22nd, with advices from Hatterras Inlet of the evening previous. The expedition had destroyed the fort on Beacon Island, Ocracoke Inlet. The fort was found deserted, but the rebels had succeeded previously in removing two heavy guns to Newburn. All the guns, numbering eighteen long 32-pounders and four 8 inch navy guns were destroyed, and the fort entirely burnt up. The lighthouse on the island was also burnt. Two heavy guns were also destroyed at Portsmouth, which village and that of Ocracoke were visited.

The State Department has made satisfactory explanations to Lord Lyons in reference to the passport system. The omission to notify him was purely accidental.

The late terrible tragedy upon the Ohio and Mississippi Railroad was not occasioned by the malignity of Secessionists, as at first was supposed, but by a rotten bridge.

BOSTON, Sept. 26.—The National Fast was observed with great solemnity to-day; all business was suspended.

Prince Napoleon sailed to-day direct for St. John, N. B.

The Legislature of Kentucky has voted to call out 40,000 volunteers to aid the Federal Government.

BOSTON, Sept. 27.—The surrender of Lexington, Missouri, to the rebels, after a gallant defence, leads to a very free newspaper discussion as to Gen. Fremont's capacity for his responsible position. The latest report says that he has taken the field in person.

Gen. Price, who captured Lexington, is at the head of 40,000 rebels.

Fierce battles between Union men and rebels are of almost daily occurrence in Missouri, which, since Virginia, suffers the full horrors of civil war.

A reconnaisance by the Federalists in force on Wednesday led to considerable firing but few casualties.

James B. Clay, a rebel Kentucky Colonel, late a member of Congress, has been captured.

Flour, Superfine State $5.25, $5.35.—Extra $5.60 a $5.75.

MORE NOVA SCOTIA VESSELS CAPTURED.—We learn from the Boston *Herald* that the schr. *Revere*, of and from Yarmouth, N. S., with a cargo of 250 bbls. of herrings and 25 bags of salt, arrived at the port of Boston on Saturday evening last, in charge of Henry W. Wells, master's mate, and a prize crew. The *Revere* was captured Sept. 11, by the U. S. gunboat Cambridge, while attempting to run the blockade at Beaufort, N. C. The vessel and papers have been placed in charge of R. H. Dana, U. S. District Attorney. Capt. Hilton and three men were transferred to the Cambridge. The mate and one seaman were brought to Boston in irons. Her papers stated she had cleared for Key West. At the time of the capture the U. S. S. Susquehanna was in sight. The *Revere* was boarded the same night by a boat from the steamer Rhode Island. The *Revere* is one of the four vessels captured at Hatteras Inlet. some time ago. She sailed from Halifax, and not Yarmouth, as reported above.

A despatch from Fortress Monroe, of the 22nd inst., says the Argonaut, of Yarmouth, N. S, ran into Hatteras Inlet, and was seized as a prize.—*Sun.*

THE RED RIVER MISSION.—Our readers are aware that, at the request of the Indians living about the mouth of the Reviere aux Rousseaux, Bishop Anderson concluded to commence a mission up there this summer. The preliminary steps were taken, and the Rev. A. Barnard, along with some workmen, moved thither some weeks ago. It was not long, however, before they discovered that the great majority of the Pembina Indians were unfavorable and unfriendly. That being the case, it is determined to postpone the work for the present. Those hostile Indians are on the verge of starvation, and nobody could with safety take any cattle or provisions up there just now. One of the best cows belonging to the mission was shot within a hundred yard of the Missionary's encampment; and there is every reason to think that if he continued there, similar depredations would be experienced.—*Nor' Wester.*

MR. RUSSEL'S EXPULSION.—The Washington correspondent of the N. Y. *World* says that the President and Secretary of State have been in receipt of a petitions from New York and Philadelphia, calling for the expulsion of W. H. Russell, the *Times* correspondent, on the ground that he is a public enemy who should not be tolerated in this crisis of American affairs; but that it is not likely anything will be done with him more than cutting him off from the extraordinary facilities for information he has heretofore enjoyed over other correspondents.

THE PACIFIC TELEGRAPH.—The telegraph line now being put up to connect the Pacific with the Atlantic States is progressing satisfactorily. The Alta Californian states that if no accident happens to the teams employed in the work, the western half of the overland line between San Francisco and Salt Lake will be in working order before the first snow falls in the valley. On the eastern side, the line is up to Julesburgh, two hundred miles west of Fort Kearney. A large number of men and teams are now employed on this work, which is one of the greatest magnitude. As fast as the line is put up, an operator puts it in speaking connection with the depot in San Francisco, and every day finds him occupying a new station, like a wandering Arab.

Latest from Europe.

The steamship *City of New York*, from Liverpool, arrived at New York on Tuesday afternoon.

Prince Alfred was expected to leave England for Halifax about the 20th inst., to rejoin his ship in the North American squadron.

The juries in the matter of the two recent railway accidents, which involved such frightful loss of life, had returned verdicts tantamount to manslaughter against a station master in one instance, and against a signalman in the other.

The Paris correspondent of the London *Post*, writing on the 8th September, says:—

Austrian commerce with France has almost ceased. Mr. Munro, the well known respectable American banker of Paris, is about to leave for the States, dut his house of business will remain open.

A writer in the London *Times* says that the present stock of American cotton on hand the 5th September was 553,370 bales,—which if all consumed by the 31st of December, 1861, would allow of a weekly consumption and export of 33,700 bales; whereas the consumption of American cotton and export from January 1, to the 10th Sept., was less than it was the same time last year by 300,000 bales.

LORD LYONS ON THE UNITED STATES PASSPORT SYSTEM.

Extract of a Despatch from Lord Lyons to Earl Russell.

WASHINGTON, August 19, 1861.

I have the honour to transmit to your lordship herewith a copy of a notice from the State Department which has appeared in the newspapers this morning. It declares that no person will be allowed to go abroad from a port in the United States without a passport from the State Department, or a passport countersigned by the Secretary of State; and that no person will be allowed to land in the United States without a passport from a foreign Minister or Consul of the United States, or (if a foreigner) from his own government countersigned by a United States Minister or Consul. This notice has been issued without any previous communication on the part of the Secretary of State, either with me, or so far as I know, with any of my colleagues, nor has it as yet been officially announced to me.

THE EUROPEAN COALITION AGAINST MEXICO.

(From the London Times, Sept. 10.)

The expectation that a combined Anglo-French naval and military expedition is to be immediately organized, to obtain redress for the indignities and injuries inflicted on British and French interests in Mexico, is regarded with satisfaction by all who have watched the painful consequences of the toleration so long shown to the various governments in the country. It is reported that Spain also is earnestly desirous of some respectable adjustment that may put an end to the prevailing horrors, and the private letters last received from Mexico reiterate the assertion that foreign intervention is prayed for by the whole population, with the exception of the military or political robbers by whom the existing anarchy has been maintained. Under the circumstances, too, it is to be assumed that the federal Cabinet at Washington will be disposed cordially to cooperate in the work, so that it shall permanently conciliate all parties concerned. Whether the question is to be dealt with by the general combination which seems thus in prospect or by France, and England alone, it is evident that the possibility of further delay is at an end.

The London *Shipping Gazette* of September 11, referring to a combined French and English expedition to the cost of Mexico, says it is surmised in some quarters that the object of the two Powers is to have a strong force in the Mexican waters, and thus to take advantage of any contingency which might arise during the pending conflict between the Northern and Southern States (of the United States.)

COUGH, COLD, AND LUNG DISEASES.—Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Diseases of the throat, Chest, and Lungs, however long standing and severe in character, are quickly cured by that long tried, efficient and faithful remedy—*Wistar's Balsam of Wild Cherry.*—The universal opinion fully accords with that lately expressed by the "Saratogian," which says:—"Wistar's Balsam has achieved many remarkable cures of Pulmonary disorders—its success being so great that taken in time it is deemed a specific." The thousands of Certificates in the hands of the proprietors from those who from long suffering disease have been "redeemed, regenerated, disenthralled," and now by this remedy enjoy immunity from pain and suffering, are still better evidence of the fact.—*Still more Testimony.*—ANDOVER, N. H., Oct. 15, 1859.—Messrs. S. W. Fowle & Co., Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home, and next abroad, of acknowledged skill and reputation and made use of many patient medicines, but the purse strings, without the slightest benefit.

The diseases augmenting to such a degree as to defy the skill of the physicians and the hopes o friends, I was induced as a last resort, to make a trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. But the effect was magical! My friends were gained hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats, which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, G. W. CRASE.

☞ Caution to Purchasers. The only genuine Wistar's has the written signature of "I. Bevre" and the printed one of the Proprietors on the outer wrapper; all other is vile and worthless.

Prepared by SETH W. FOWLE & Co., Boston, and for sale by Cogswell & Forbyth, and C. E. Morton & Co., wholesale agents, Halifax, and retailed by all Druggists.

Sept. 4. 4w.

THE ECONOMY OF HEALTH.—This busy nation of Americans have 12,000,000 working people, whose services may be estimated at $2 a day, and their annual loss by sickness at an average of ten days each in the year. This gives a total loss of $240,000,000 a sum three as large as the whole cost of the General Government, including the Army, Navy, Post Offices, Legislators, Foreign Ministers and all. The amount weighs over six hundred tons in pure gold.

A large proportion of this costly suffering might be averted by attention to diet, cleanliness, and above all, by the proper use of the right remedy in season. When a 25 cent box of Ayer's Pills will avert an attack of illness which it would take several days to recover from, or a dollar of Ayer's Sarsaparilla, will expel a lurking disorder that would bring the sufferer to his back for weeks or months, does it take any figures to show the good economy? Ague is rankling in your veins, and shaking your life out of you, is it worth a dollar it costs for his Ague Cure to have the villainous disorder expelled, which he does surely and quickly? When you have taken a cold is it prudent to wait until it has settled on the lungs, when days or weeks or months must be spent in trying to cure it, even if it can be cured at all, or is it cheaper to take Ayer's Cherry Pectoral, costing a few shilling, and remove the trouble before it is serious? It takes no wisdom to decide.

Sept. 4 4w.

WILLIAM NEWCOMB, *Clerk of Market.*

PURITY THE BLOOD.—Not a few of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the discoveries that have been made to purge it out none have ever been found which could equal in effect Ayer's Compound Extract of Sarsaparilla. It cleanses and renovates the blood, instils the vigor of health into the system and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the disorders that grow and rankle in the blood, its extraordinary virtues are not yet widely known, but when they are it will no longer be a question what remedy to employ in the great variety of afflicting diseases that require an alterative remedy. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect. But the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken. Sufferers from Scrofula, Scrofulous Swellings and Sores, try it and see the rapidity with which it cures. Skin Diseases, Pimples Pustules, Blotches, Eruptions, &c., and soon enclead out of the system by it.

St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum Scald Head, Ringworm, &c. should not be borne while they can be so speedily cured by Ayer's Sarsaparilla.

Syphilitic or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla and the patient left as healthy as if he had never had the disease.

Female Diseases are caused by Scrofula in the blood, and are generally soon cured by the Extract of Sarsaparilla. Price $1 per Bottle or 6 Bottles for $5.

For all the purposes of a family physic, take Ayer's Cathartic Pills, which are everywhere known to be the best purgative that is offered to the American People. Price, 25 Cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists everywhere.

May 22. 4m.

HAVE YOU A COUGH?

THEN use JAYNE'S EXPECTORANT. It gives immediate relief.

HAVE YOU ASTHMA OR PHTHISIS?

Then use JAYNE'S EXPECTORANT, which will overcome the spasmodic contraction of the wind tubes, and cause them to eject the mucus or matter which clogs them up, and by an easy and free expectorant, remove all difficulty of breathing.

HAVE YOU WHOOPING COUGH?

Then use JAYNE'S EXPECTORANT, the best remedy in the world, as it shortens the disease more than one-half, and carries the patient safely through it.

HAVE YOU CROUP OR HIVES?

Then use JAYNE'S EXPECTORANT freely according to directions, and you will cure this disease in a few minutes. And finally,

Have You Bronchitis, Consumption, Chronic Pleurisy, Spitting of Blood or any other Pulmonary Affection?

Then use JAYNE'S EXPECTORANT. It is a remedy for the above diseases which cannot be equalled as the evidence of thousands, who have been cured by it, will testify.

Here is a portion of the testimony

FREDERICKA BROOKFELL. No. 641 Fisher street, below Seventh, Philada., writes;

"For more than two years I was afflicted with Consumption, and during this time, owing to a constant cough and the sharp pain and difficulty of breathing which accompanied it, I obtained but little rest. Having tried in vain many different remedies, I began to lose all hope, when a neighbour, whose husband has been cured of a similar complaint by JAYNE'S EXPECTORANT, persuaded me to give it a trial. After taking several bottles, large quantities of corruption were thrown from me and I then began to mend gradually, until now my health is perfectly restored."

REV. EUGENE KINCAID, Missionary in Burmah, writes:—

"About three weeks since, a Burman female of rank called on us, who had been suffering ASTHMA for eight years, and who was frequently unable to sleep, except in a sitting posture. Feeling satisfied that no medicine could restore her to health, we, (i. e., Dr. Dawson and Mr. Kincaid,) thought only of affording her temporary relief, and gave her a bottle of JAYNE'S EXPECTORANT. One week after, her husband informs us that for the first time in many years she had slept soundly, and in one month she was entirely restored.

MR. J. P. SMITH, of Stockton, Owen county, Ind., says:—

"My wife has been severely afflicted for three years with BRONCHITIS, and having heard of Dr. D. Jayne's Expectorant, I purchased one bottle of it and one box of Sanative Pills, and I am now happy to inform you her cough was immediately suppressed, and in one month a complete cure effected."

MR. J. E. HILDRETH, of Ozark, Jackson county Iowa, writes:—

"My family having used Dr. JAYNE'S EXPECTORANT for a number of years, I can safely say it gives the quickest relief of any medicine I ever tried for Coughs and Cold and Shortness of Breath, and I can, therefore, conscientiously recommend it to the public."

REV. RUFUS BABCOCK, D.D., formerly President of Waterville Coll., Maine, writes—

"For more than a dozen years I have recommended Dr. D. Jayne's Family Medicines, as, especially the Expectorant. I know that these medicines are highly esteemed and frequently prescribed by some of the most respectable of the regular practitioners of medicine; and I do not hesitate to commend them as a valuable addition to our *materia medica*, and a safe as well as eminently beneficial remedy for the diseased"

MAURICE SCHWARS, of Concord, Wis., says:—

"When the WHOOPING COUPH prevailed to some extent at our place, my child became seized with the disease. Hold everywhere, 25 cents per bottle. Office, 13 Cedar-street, New York.

Sept. 18 1m.

Tea Meeting.

THE Ladies of the Wesleyan congregation of *MUSQUODBOIT HARBOUR*, respectfully inform the public that they intend holding a *TEA MEETING* at that place, on *WEDNESDAY*, the 16th of October, for the purpose of realizing funds to aid them in paying off a debt remaining on the Wesleyan Church, and earnestly solicit the patronage, their well wishers on that occasion. Tea on the tables at 3½ o'clock, P. M. Tickets 50 cents each, children under 12 years of age half price.

Rev. John Brewster, Rev. Alex. Stewart, and other ministers and friends will address the meeting.

If the day be stormy the tea meeting will be the day following day, at the same hour.

GEORGE MCKINLAY,
ISAAC GAETZ,
Committee.
