Drs. Conroy and S. R. Jenkins viewed the body and on ascertaining the facts decided that an inquest was unnecessary.

A SEVERE TRIAL.—Those who endure the torturing pangs of Neuralgia, Rheumatism, Sciatica, Lumbago and similar painful complaints are severely tried, but there is a speedy relief in Hagyard's Yellow Oil, as thousands who have used it joyfully testify. It banishes pain and lameness quickly.

He says: "All my prepossessions were favorable to the Russian Government and unfavorable to the Russian Revolutionists." He adds that this "partly explains the friendly attitude toward me which was taken by the Russian Government, the permission which was given me to inspect prisons and mines, and the comparative immunity from arrest, detention and imprisonment which I enjoyed, even when my movements and associations were such as justly to render me an object of suspicion to the local Siberian authorities."

A CHALLENGE.

ABOUT four years ago a certain ring, headed by W. A. Brennan, seeing that "Dean Swift" and "Island Chief" were thought very highly of by stockmen, determined to ruin their reputation. They declared they couldn't trot in 3 minutes, although "Chief" had won several races, always touched with horses much older than himself. Their season ended on the 5th of August, 1884. I started them on the 26th of August against horses that had been fitted all summer. They had to compete with such horses as the sons and daughters of "Volunteer," "Robt. B. Morris," "Mambrino Chief," and old "Bashaw;" I fought with and defeated such stallions as "Dartmouth," "Messenger Boy," "Col. Knox," "Sandy Morris," and "Bashaw Prince," and many fine geldings and mares. They won money in every race they started in, taking first many times. Being very fleshy in the start, they improved as they went along getting the finest records ever made on the Province tracks, since or before, with the exception of "Hanlan," son of "Island Chief." They won their races with their records, thus proving that the one-eighth Columbus blood, got through the great sire of trotters, "Farmer's Glory," backed as it is with seven-eighths of the best running and trotting blood in the world, only increased their staying powers. Finding they cannot deny the records, they now change their tactics, and say they have no staying qualities. The late W. A. Brennan, who has committed journalistic suicide by his last production, being unable to refute my arguments or accept my challenges, and knowing his arguments had no weight, made a desperate effort and smuggled a filthy article into *Wallace's Monthly* under disguise of a St. John correspondent. As he has thus killed himself by his own pen, I will pass him by. But as Mr. McLeod, one of the owners of "Hornando," assisted him to smuggle this into a respectable Monthly, thus circulating where my horses are not known, that they are quitters. I will answer him thus:—

I will match "Island Chief," son of "Dean Swift," against "Hornando," or any other imported stallion, to trot three races in one week, for any reasonable sum, mile heats, best three in five, to harness, at any time between now and 1st September. Also, three of "Chief's" colts, of the ages of two, three and five years, against the same of the get of "Hornando," races to take place on New London Park, which will be one of the best tracks on the Island. The colt race to take place about 1st July. This is the way to prove which horse has the most speed and staying powers, and give something worth printing in *Wallace's Monthly*.

Being free from all hereditary blemishes, and sound, of excellent symmetry, and of pure-bred stock of great fame, he must certainly be well qualified to be a good stock-getter.

"Hepburn Clyde" was shown at Whitby, Ont., in the Fall of 1884, and gained the first prize, competing against twelve colts in his class, one of which carried off the first prize at the Exhibition held at Montreal the same fall. He gained the first prize at the Peterboro, Ont., Show in the spring of 1885, also the first prize at the Peterboro Spring Show, 1887, and first prize at Central Exhibition, Peterboro, in the fall of 1887.
