WHY YOU SHOULD BUY

EAST LONDON PROPERTY

1. Because London is growing rapidly, and east is the only direction in which it can grow to any extent.

2. Because East London is where the new industrial centre is located, and where future sites and railroad facilities can be procured most reasonably.

3. Because present prices justify a very substantial increase within a reasonable length of time, and therefore afford an exceptional opportunity for a profitable investment.

ARGYLE PARK

Is East London's best residential property, and can at present be bought at from $100 to $300 per lot.

Now Is the Time to Buy

WE BELIEVE IT WOULD BE TO YOUR ADVANTAGE TO CALL AND TALK IT OVER AND LET US SHOW YOU OUR PROPERTY FOR A HOME OR AN INVESTMENT.

Open evenings from 7:30 to 9. Call in and see us.

ARGYLE LAND COMPANY
Limited

MINNEAPOLIS, Oct. 13—Close.—Wheat—December, 83⅜c to 83½c; May, 88⅜c; No. 1 hard, 85⅞c; No. 1 northern, 83⅜c to 85⅜c; No. 2 northern, 81⅜c to 83⅜c; No. 3 wheat, 79⅜c to 81⅜c. Corn—No. 3 yellow, 67c to 67½c. Oats—No. 3 white, 36½c to 37c. Bran—$19 to $20. Flour—Unchanged.

LIVE STOCK.

TORONTO, Oct. 14.—The run at the Union stockyards yesterday, totalled 335 cars, containing 7,577 cattle, 451 calves, 683 hogs and 1,444 sheep and lambs. While there have been some very large individual runs at the cattle market during the past two months, the receipts today broke all records, nearly 8,000 cattle being received at the yards before the close. As is invariably the rule when the shipments are large, trade became slack, and while no material decreases were recorded, still the market for cattle was very draggy. The earlier sales of the morning were chiefly confined to the better grades of butcher cattle, but as the day progressed trade fell off, and near the close few transactions were recorded, the buyers and sellers both awaiting a break in prices. This, however, did not occur, but should the run on Tuesday be in any degree large, there will undoubtedly be a drop in prices. Hogs furnished a surprise today by opening at 25c below the low quotations of last week. For the past two weeks this market has been very slack, today's prices being far below any quotations during the summer. With a fair run, sheep and lambs sold well, at prices about even with those of last week. This market has been keeping up well for two weeks, and should remain steady until the conclusion of the trade on Thursday. Had the run been smaller today, the trade in stockers for Buffalo would have been very brisk, but the large receipts called a halt in this market, the buyers holding off, looking for a break. This market, with low runs, will be one of the best of the week, but with large consignments will hardly show an increase over last week. Calves not plentiful, and sold steady with last week. The opening quotations were:

Export cattle, cwt	$7 25	to	$7 75
Butcher cattle, choice	6 75	to	7 25
Butcher cattle, medium	5 90	to	6 25
Butcher cattle, common	4 00	to	4 50
Butcher bulls	3 50	to	5 50
Butcher cows, choice	5 00	to	5 75
Butcher cows, medium	4 50	to	5 00
Butcher cows, common	4 00	to	6 50
Stockers and feeders	4 00	to	6 50
Feeding bulls	4 25	to	4 75
Canners and cutters	2 50	to	3 00
Calves, good veals	5 75	to	7 25
Calves, common	4 00	to	4 50
Calves, extra choice	8 50	to	10 00
Lambs, spring	7 00	to	7 15
Lambs, common	4 00	to	4 50
Ewes, light	4 50	to	5 00
Ewes, heavy	3 25	to	3 50
Bucks and culls	3 00	to	3 50
Hogs, f. o. b.	8 25	to	8 25
Hogs, fed and watered	8 60	to	8 60
Hogs, weighed off cars	8 85	to	8 85

CHICAGO, Oct. 14.—Cattle—Receipts, 4,000; market slow; beeves, $7 20 to $9 50; Texas steers, $6 85 to $8; stockers and feeders, $5 25 to $7 70; cows and heifers, $3 60 to $8 40; calves, $7 to $11. Hogs—Receipts, 21,000; slow; light, $8 15 to $8 65; mixd, $8 05 to $8 70; heavy, $7 95 to $8 70; roughs, $7 95 to $8 15; pigs, $5 to $8; bulk of sales at $8 20 to $8 55. Sheep—Receipts, 32,000; market steady; natives, $3 90 to $5; yearlings, $5 to $6; lambs, natives, $5 85 to $7 20.

MONTREAL, Oct. 13.—East End market: Receipts—Cattle, 3,300; calves, 1,000; sheep and lambs, 3,750; hogs, 1,000. Trade brisk, an despecially in the way of bulyng small bulls and stockers for shipment to the United States. Prime beeves, 6¾c to 7c; medium, 5c to 6½c; common, 3c to 4¾c; bulls and stockers, 3½c to 4½c; calves, 3c to 6½c; sheep, about 4c; lambs, 6½c; hogs, 9c to 9¼c.

OILS.

LONDON, Oct. 13.—Calcutta linseed, October and November, 45s 9d; linseed oil, 28s 4½d; sperm oil, £30; petroleum, American refined, 8½d; spirits, 9½d; turpentine spirits, 30s 3d; rosin, American strained, 9s 6d; fine, 15s 7½d.

SAVANNAH, Ga., Oct. 13.—Turpentine—Steady, 39c to 39¼c; sales, 517; receipts, 499; shipments, 217; stocks, 26,778. Rosin—Firm; sales, 1,354; receipts, 982; shipments, 1,249; stocks, 152,981.

HIDES.

TORONTO, Oct. 13.—Beefhides—The demand is sufficient to keep stocks from accumulating. Tanners are most reluctant to pay present prices, which are now on a high record basis. City butcher hides, flat, 14c to 15¼c per lb. Inspected hides—No. 1, 13½c; No. 2, 12½c. Country hides—Flat, cured, 13½c to 14½c; part cured, 13c to 13½c. Calfskins—Conditions generally have an undertone of easiness, stocks being more or less heavy in dealers' hands. City skins, green, flat, 16½c. Country—Cured, 17½c to 19c; part cured, 17c, according to condition and take-off. Deacons or bob calf, $1 to $1 50. Horsehides—Stocks are light, with demand normal. City take-off, $3 50 to $4. Country take-off—No. 1, $3 50 to $4; No. 2, $2 50 to $3 50. Sheepskins—City lambskins, pelts or shearlings, 50c to 65c; country lambskins or shearlings, 30c to 65c. Tallow—City rendered, solid, in bbls, 6c to 6¼c. Country stocks, solid, in bbls—No. 1, 6c to 6¼c; No. 2, 5c to 5½c. Cake—No. 1, 6¼c to 6½c; No. 2, 5½c to 6c. Horsehair—Deliveries normal. Farmer peddler stock, 37c to 40c.

DAIRY.

TORONTO, Oct. 14.—Butter—The market here continues firm for the best qualities. Receipts are not sufficient for the demand. Choice dairy, 22c to 24c; inferior, 20c to 21c; creamery, 27c to 29c for rolls, and 26c to 26½c for solids. Eggs—Market is firm, with receipts limited. Case lots of new-laid, 32c to 33c per doz; fresh, 29c to 30c, and storage, 27c per doz. Cheese—New cheese quoted at 14½c for large and 14¾c to 15c for twins.

SUGAR

TORONTO, Oct. 13.—There is a moderate trade, with prices unchanged. Sugars are quoted in Toronto, wholesale, as follows: Extra granulated Redpath's, 100-lb bags, $4 50; do bbls, $4 60; do 20-lb bags, $4 50; St. Lawrence, 100-lb bags, $4 50; do bbls, $4 60; do 20-lb bags, $4 60; Acadia, 100-lb bags, $4 40; do bbls, $4 45; Beaver, 100-lb bags, $4 35; Imperial, $4 85; yellow, No. 1, bags, $4 10; do bbls, $4 15. Raw sugars in New York held at 2 3-16c, though open to a bid of 2⅜c, cost and freight. It was said that European operators would pay 2.06c, f. o. b., having purchased 40,000 bags the previous day at 2.07c, f. o. b. The trade was surprised to learn that 5,000 bags immediate shipment Cubas had been sold at 2 1-16c, equal to 4.42c, making a new spot basis.

HAY

TORONTO, Oct. 13.—Baled hay—The market is unchanged, with receipts fairly good. No. 1 hay is quoted at $13 to $13 50 on track, Toronto; No. 2 at $12, and mixed at $11 to $11 25. Baled straw—$7 25 to $7 50, on track, Toronto.

WOOL.

TORONTO, Oct. 13. — Wool—Market slow. Sales are few and at close prices. Washed combing fleece (coarse), 25c to 25½c; washed clothing fleece (fine), 26½c to 27c; washed rejections (burry, chaffy, etc.), 19c to 19½c; unwashed fleece, combing (coarse), 16c to 16½c; unwashed fleece clothing (fine), 17½c to 17¾c.

POTATOES.

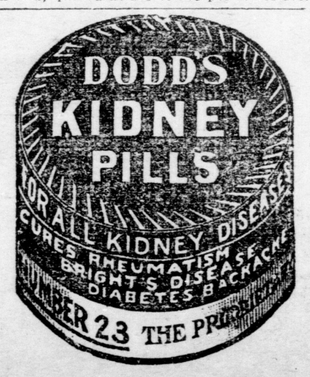
TORONTO, Oct. 13.—Potatoes—The market is firm. Ontario potatoes, 75c per bag, and New Brunswick, 85c per bag, on track.

HONEY

TORONTO, Oct. 13.—Honey—Extracted, in tins, quoted at 11c to 12c per lb for No. 1; combs, $3 to $3 25 per doz for No. 1, and $2 50 for No. 2.

BEANS.

TORONTO, Oct. 13. — Beans — Hand-picked quoted at $2 25 to $2 35 per bu; primes, $1 75 to $2.



CANADIAN GOLFERS STILL IN RUNNING

Are Among Thirty-Two Who Yesterday Qualified for National Championships at Wilmington.

[Canadian Press.]

Wilmington, Del., Oct. 14. — When the 32 women golfers who yesterday qualified in the opening round for the national championship left the clubhouse of the Wilmington Country Club this morning for the first round of match play, they found the weather quite crisp, but not so breezy as yesterday, when the high wind played many pranks with the ball.

Six of the foreign contingent qualified for match play today, led by Miss Gladys Ravenscroft, of Bromborough, England, who won the low score medal yesterday. Miss Ravenscroft was paired today with Miss Frances C. Griscom, of Philadelphia, a former American champion. Miss Margaret Curtis, Boston, the present national titleholder, went out matched with Miss Caroline Painter, of Midlothian. Miss Muriel Dodd, holder of the British and Canadian championships this year, teed off with Miss Edith Noblit, of the Wilmington club. Miss Mabel Harrison, an expert from Ireland, was paired with Mrs. Wm. L. Hirsh, of Philadelphia. Other pairs included: Miss Violet Pooley, of British Columbia, and Miss Lillian B. Hyde, of South Shore; Miss Florence D. Scott, Hamilton, Ont., and Miss Florence L. Harvey, of Hamilton, Ont.

MR. SILVERWOOD EXPLAINS ALLEGED LABOR DISPUTE

Nothing Approaching a Strike—Good Conditions of Work and Wages,

The following letter has been received by The Advertiser:

In the edition of The Advertiser on Saturday we were rather surprised to note in black type a headline to the effect that chicken pluckers had gone on strike, with a statement that 36 pluckers employed in our place had struck for higher wages at 9 o'clock Saturday morning. This morning's Free Press contained similar information.

We think, in justice to our employees, to ourselves and to the public, it is only fair that the facts in connection with this matter should be properly reported. It may be possible that the public generally is not aware that in connection with our live poultry business we pay out each fall in wages approximately $10,000. The work has formerly been done almost entirely as piece work, the earnings being divided between the roughers and the finishers or pinners. With a view of bringing the work up to a higher standard, we this year decided to pay our roughers a straight salary and pay the pinners the same rate they had formerly been paid, namely two cents per bird. Considering the hours of work and the experience required, we believe that no better wages are paid in the city of London than are paid to this help. There is no man on our pay roll in this department at the present time whose salary for nine hours' service is less than $3 per day. Several of these men earn close to $40 a week; the average, we think, is around $30.

Re Pinners. We are striving to employ, as far as possible, only women for this work, but have been compelled to use some girls, boys and young men, and among this new help we had three "cigarette artists" apply for work last week. It appears that these boys were not particularly fond of work and started an agitation for higher rates for this pinning. They were promptly paid and discharged, and no other employees, so far as we know, left our service, but instead we have found work for ten or a dozen additional workers. We still have a few openings for honest people who are willing to work, but we think it is only fair to ourselves and the public that these boys should be shown up in their true light, particularly in view of the fact that they took the trouble to tell us that if we did not meet their request for higher wages they would close up our plant.

Thanking you for this space, I am, yours truly. A. E. SILVERWOOD.

London, Oct. 14.

BIG POSITION FOR YOUNG LONDONER

Thomas L. Tanton Goes to Wisconsin University as Assistant Geological Instructor.

Thomas L. Tanton, son of Mr. John Tanton, of 379 Waterloo street, has just been appointed assistant instructor of geology in the University of Wisconsin, and left last evening to take over his duties. Mr. Tanton was in British Columbia doing special survey work for the Government when he was notified of his appointment. He hurried back and spent a few hours with his father before leaving. Mr. Tanton is a graduate of the London Collegiate Institute. Later he attended Toronto University, and then went to Vienna. Upon his return early in the spring he went to British Columbia for the Government.

London men seem to be favorites at the big university, as Professor Roy Elliot, now of Bowdoin College, Maine, was instructor of English literature there for some time.

THE FIRST LETTER.

She was given orders at express rate, for they were married; and he, as a rule the most meek and submissive of men, was like the proverbial worm, beginning to turn.

"Do you think," he inquired, "that you rule the whole of the universe?"

"No," she snapped, "but I rule the first letter of it."

MOTION PICTURES.

The Majestic Theatre are showing local motion pictures Tuesday and Wednesday in addition to their other regular program. The views include scenes from the Labor Day parade, the ball game between London and St. Thomas, and the regatta held at Springbank, on Labor Day. The local and St. Thomas unions in the parade show up excellently, as also do the motor and other boats on the Thames. Anyone who attended the Labor Day ball games should hunt for their picture among the fans shown. After Wednesday night these local views will not be shown. b

LIBERAL RALLY WEDNESDAY AT EALING SCHOOLHOUSE

Mr. Guthrie, Mr. Geo. S. Gibbons and Others Will Address Electors in Interest of Mr. R. G. Fisher, the Liberal Candidate for East Middlesex.

Much interest is being taken in the east end of the city, especially in the suburbs of Ealing and Chelsea Green, in the meeting to be held in the Ealing schoolhouse, Hamilton road, Wednesday evening, when Mr. Hugh Guthrie, M. P. for South Wellington, will address the electors of East Middlesex in behalf of Mr. R. G. Fisher, the Liberal candidate. Mr. Guthrie was one of the foremost men in the fight at the last session of Parliament against the introduction of the "gag" and as a defender of the British right of free speech. Mr. Guthrie will discuss the naval issue and addresses will also be given by Mr. George S. Gibbons and the candidate. Ladies are invited, and it is expected that there will be a large attendance.

BEAUTIFY CITY BETTER WAY TO SPEND MILLION

Dredge River and Build Drives to Springbank More Useful Than Electrification.

Businessman Points Out How Money Could Be Used to Great Advantage.

"Let London spend a million dollars on beautifying its river and in building drives to Springbank on both sides of the river and it will do London more good than ten electrification schemes possibly could."

This was the original suggestion offered by a well-known businessman, who has found much recreation on the Thames and who believes that with proper attention given it the river could eventually be made navigable to Detroit, and that a great playgrounds, the envy of all cities, could be made of the stream, its banks and the park at Springbank.

Dredge the River.

"With the river properly dredged it could be made deeper, and narrower, and free from the pollution with which it is now filled. Filling in the sides of the present bed, a riverside drive that would attract attention from all sides could be constructed.

"This parks man, Dilger, has said that if Detroit or any other American city had the Thames and Springbank it could not be secured for fifty million dollars.

"London could give this undertaking over to a man like Dilger and secure an asset which no money could buy. Boating could be made so that one would not be stuck on a mud bank in a canoe, and there would be a flotilla of the fastest speed boats in the country on the river if the proper facilities were arranged.

"I know of 20 men who would buy expensive boats if there was any effort made to give the city a place for boating. What do you suppose Toronto would take for Toronto bay?

Navigate to Detroit.

"Then it is not too visionary to picture the time when large boats could be navigated clear to Detroit. The Thames is navigable for a considerable distance above Chatham, and a comparatively small amount of dredging would make it navigable clear to London. The dredging of the river from London to Springbank would make West London immune from floods. Every foot of gravel taken out of the river bed would put West London so much higher above the water level, and a drive on either side would form an impregnable breakwater.

"This is my idea of a real civic work for London. It would do the city more good than ten electrification schemes."

A MESSAGE TO THIN, WEAK, SCRAWNY FOLKS

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh-building elements and to stop the leakage of fats is to use Sargol, the recently-discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Your druggist has Sargol, or can get it from his wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution.—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

HEALTH AND BEAUTY HINTS

BY MRS. MAE MARTYN.

Grace: Certainly that brittleness of hair and your dandruff are dangerous conditions and should be corrected quickly by a proper shampoo. Get some canthrox from your druggist and dissolve a teaspoonful in a cup of hot water, then pour this mixture on the head slowly and rub well. This makes an abundance of rich, cleansing lather, and rinsing leaves the scalp and hair wonderfully sweet and clean. These shampoos are very soothing to tender, itchy scalps and so invigorate the hair roots that a growth of glossy, fluffy, even-colored hair results. Canthrox shampoos are invaluable to the finest growth of hair and prevent as well as overcome all scalp and hair difficulties.

Mrs. X.: With a paste made by mixing some powdered delatone with water, you can soon rid the skin of every trace of hair. This paste should be left on the skin for two or three minutes, then removed, after which wash off the remaining delatone and you will have a clear, spotless, hairless skin.

Gloria: I always use a crystos tonic for my eyes when they are weak, watery and inflamed. I buy an ounce crystos from my druggist and put into one pint clear water, then place two or three drops in each eye a few times a day until they are strong again. This eye tonic is also very good for granulated lids and will give a sparkle and delightful expression to dull, expressionless eyes.

Jessie: I made a splendid hair and scalp tonic at small expense by putting one ounce quinzoin into one-half pint water. Until I cured my head of dandruff I used to rub a little of this on the scalp frequently and it soon banished both dandruff and excess oiliness. This quinzoin tonic stopped the itching, burning sensation and made my scalp clean, healthy and pliant, so my hair grew soft and fluffy and took on a beautiful lustre and rich, even color.

Cleo.: Your friend's suggestion to take the kardene blood cleanser and system tonic is excellent advice and you will find a course of this treatment will banish the run-down feeling as well as the pimply condition of your skin. This old-time household remedy can be prepared at little cost by dissolving one ounce kardene in one-half pint alcohol (not whiskey), then adding one-half cupful sugar and enough hot water to make a full quart. The dose is a tablespoonful before each meal. The kardene is especially fine to clear the skin of pimples, blotches and sallowness, as well as to tone your system to full health and strength.

Teacher: In your case the wrinkles and lines in your skin are probably caused by its extreme dryness. To remove them, use this preparation, which you can make for yourself, which will act rapidly and restore the softness and natural tone to the skin. Get an ounce of almozoin at the drug store and dissolve it in one-half pint cold water, adding two teaspoonfuls glycerine. Apply this before retiring and leave over night. This will remove wrinkles, prevent crow's feet and make your face soft and satiny. Since it has removed my crow's feet I use it to clear and whiten my skin.

Chubby: I reduced to normal by use of the parnotis treatment, which was recommended to me several years ago by my family doctor, and when I found that it greatly reduced my weight and restored my youthful figure, without the slightest inconvenience or ill effect, I began recommending it to my friends and readers. To prepare this treatment, dissolve four ounces parnotis in one and one-half pints hot water, then take a tablespoonful before meals. You will find that when your weight is where you want it the flesh will be firm and the skin free from wrinkles.

Girlie: I have rejuvenated my complexion and again have the velvety rose-tint skin of my girlhood. I stopped using powder and now use this simple, inexpensive lotion: In one-half pint witch hazel or hot water dissolve four ounces spurmax, then add two teaspoonfuls glycerine. This lotion dries quickly after being applied and is invisible. Use it on the face, neck, arms and hands and it will impart to the skin that youthful purity and exquisite tint it is impossible to obtain any other way. It is excellent for chaps, cold sores and to protect against fall winds, and dispels the oily, sallow, rough condition in a very short time.

Read Mrs. Martyn's book, "Beauty," $5.—Adv.

is always dry and free-running because it is blended with a small proportion of Magnesium Carbonate—which adds to the healthfulness of the Salt. 123

FOR THE TOILET

We have about all the toilet aids or requisites that you can ask for. The perfumes, creams, lotions, powders and beautifiers that have real worth will always be found here. We have several of our own make that we sell under a guarantee, and which we know to be as harmless as they are effective.

DEPENDABLE FURNITURE

This store is fulfilling a demand there has been in this city for years—for a good furniture store. Here you will find that personal touch which means more than the cold figures on the price tickets, and which makes you a friend of the store by a closer tie than that of a close bargain—if bargaining were possible here. It's clean goods, courteous attention and a strong wish to satisfy that makes this store different from the rest, and which justifies its existence. Try it next time you need furniture.

THE COAL THAT MAKES GOOD.

Screened Scranton Coal

It makes good with the consumer on account of its high quality and absence of impurities, and because he gets one hundred cents worth of efficiency for every dollar it costs him.
