Children of Mr. and Mrs. M. M. Soller Altoona, Pa.

## Both Had Eczema

In Its Worst Form

*After Physicians Failed, Hood's Sarsaparilla Perfectly Cured.*

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. Read the following from grateful parents:

"To C. I. Hood & Co., Lowell, Mass.:

"We think Hood's Sarsaparilla is the most valuable medicine on the market for blood and skin diseases. Our two children suffered terribly with the

**Worst Form of Eczema**

for two years. We had three physicians in that time, but neither of them succeeded in curing them or even in giving them a little relief. At last we tried Hood's Sarsaparilla and in a month both children were **perfectly cured.** We recommend

**Hood's Sarsaparilla**

as a standard family medicine, and would not be without it." MR. and MRS. M. M. SOLLER, 1412 2nd Avenue, Altoona, Pa.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

## HOCKEY EVENTS.

**Match Between the Princess and Galt Juniors—Curling and Other Sports.**

HOCKEY.

PRINCESS JUNIORS IN GALT.

The junior seven of the Princess Hockey Club suffered defeat at the hands of the junior team of the Galt Club in that town on Saturday evening. The score was 7 to 2 at the close of a hotly-contested game. The London players were Messrs. Southam, Sereaton, A. Furness, Widder, L. Becher, Manville and W. Lind. They report having been royally treated by the Galt boys, especially by Messrs. Caldwell, Jackson and Rothwell, of the senior club.

TO-NIGHT'S HOCKEY MATCH.

An exciting game of hockey may be expected at the Queen's Avenue Rink to-night, when the Princess Club, of this city, will meet the Stratford team, which is accounted the second best in the Province. This is one of the Western Ontario championship series. The Princess Club will have its best players on the ice, as follows: Goal, Glover; point, Brown; cover point, Spence; forwards, Von Ifland, Tovey, Macbeth and R. Lind. The full band of the Seventh Fusiliers will discourse music. The efforts of the local team to furnish first-class winter sport should be encouraged by a large attendance. Hockey is a very interesting game for spectators as well as participants.

CURLING.

At Petrolea on Saturday, in Forest vs. Petrolea, Petrolea won by ten shots.

The Chatham-Detroit curling match was won by Chatham by a majority of seven shots.

ATHLETICS.

DETROIT, Feb. 5.—The Central Association of the Amateur Athletic Union met at the Hotel Cadillac yesterday. The first thing which came up was the striking from the rules of everything pertaining to Sunday games. This leaves the laws the same as those of other associations and makes Sunday games purely a matter of local option. The board elected Mr. Stearns, president; Mr. Spalding, vice-president; Mr. Wilkins, secretary; Mr. Wightman, treasurer.

The Montreal Star steeplechase, which took place Saturday afternoon over the mountain, a distance of a little over two miles, was the occasion of an exciting contest. There were 47 entries, including representatives of all the snowshoe clubs in the city. The race was won by R. Davis, of the Lachine Snowshoe Club, the victor in last year's contest. Time, 18 minutes 15 seconds; second, W. Gentleman, of the Argyle Snowshoe Club: third, G. Ouiblet, of the Canadien Club. Owing to the heavy snow Davis' time is considered remarkably good.

THE TURF.

STAMBOUL'S RECORD DISCREDITED.

SACRAMENTO, Cal., Feb. 5.—The Evening Bee publishes an article to the effect that the stallion Stamboul never trotted a mile in 2:07½ on the kite-shaped track at Stockton, and in fact did not go a second faster than 2:16. John S. Kearney, who was one of the judges at Stockton when Stamboul trotted, says he never signed the judges' books, and positively denies he ever authorized the secretary of the association to do so. He says that there were no books there and he never saw any, and that he is as certain as can be of anything that Stamboul did not make the time in less than 2:16.

CARTER'S LITTLE LIVER PILLS.

**CURE**

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

**SICK**

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

**HEAD**

Ache they would be almost priceless to those who suffer from this distressing complaint but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

**ACHE**

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

## RANSOM OR RUIN!

Either a Great Crime or a Hoax.

**Miss Sallie Moore's Friends Receive Threatening Letters—The Girl Said To Be Held for a Reward of $5,000.**

NEW YORK, Feb. 5.—Nearly every day since Sallie Moore, the 20-year-old school teacher from Marion, Ky., disappeared from the residence of her sister, Mrs. W. F. Cornell, 133 West One Hundred and Third street, on Jan. 16, Mr. Cornell has received from one to half a dozen letters. Many of these letters are from cranks and one or two contain information which is deemed worthy of consideration by the police. MR. Cornell has put two or more of the latter class of letters in the hands of Inspector McLaughlin's men.

In one of Monday morning's newspapers Mr. Cornell had this advertisement:

**$500** REWARD—If Sallie Moore, the young girl who left home Jan. 16, is being forcibly detained, the above reward will be paid for any information leading to her discovery; previous rewards withdrawn. Janitor, 133 West 103d street.

On Monday afternoon a letter came to the flat postmarked at the general postoffice 12:30 p.m., and addressed "Janitor," 133 West One Hundred and Third street:

"The advance from $200 to $500 is fair, but much too trivial for us to consider. Not a cent less than $5,000 will even tempt us. This is the riskiest work ever attempted by us and must be correspondingly profitable. Up to this time not a hair of her head has been harmed. But unless something happens soon my influence to protect her life and honor will lose its power, and I will not be responsible for results if this is ignored. One more week is given; say by Wednesday's papers what will be done, and remember that this is a life or death game. Treachery means the certain death of Sallie Moore.

"N. Y. B. W."

Mr. Cornell immediately notified the police department of the receipt of this letter, and put this advertisement in a morning paper on Wednesday:

N. Y. B. W.—Sum rather large: can we not compromise? Am willing to do what is right. JANITOR.

This brought the following answer that afternoon in the same hand as the previous letter:

"Proposition submitted to you is ultimate. N. Y. B. W."

Inspector McLaughlin and his men think that these letters are probably of no importance so far as the fate of Sallie Moore is concerned, but detectives are busy on the case. In these days of cranks it is not necessary to look for much of a motive for sending the letters. One suggested motive is that they might serve to make out a newspaper story. Sending such a letter, however, is a felony, punishable by five years' imprisonment, so that the detectives have a crime to look up. Meanwhile it is hoped that the publication of the letters may induce Sallie Moore, if she is voluntarily absent and in her senses, to reassure her friends as to her safety. The threats in the letter relating to Miss Moore's honor and life are apparently modeled after an abduction episode in a paper novel called "From the Chaparral to Wall Street," which was on the news stands recently.

On Wednesday Mr. Cornell received a visit from a man who said he was once a detective but was now a builder, and believed he might be able to trace Miss Moore. He asked for her photograph, but Mr. Cornell refused to let him have it. Thursday night the alleged ex-detective called again. He wore a high hat and an air of great mystery, and wanted Mr. Cornell to go with him later in the evening on what he believed was a certain trail to the whereabouts of Miss Moore.

## ACROSS NIAGARA.

**Report that a Cantilever Bridge is to be Built by the Grand Trunk.**

NIAGARA FALLS, Ont., Feb. 5.—It has been ascertainad that the visit of Chief Engineer Hobson of the Grand Trunk to this locality recently was for the purpose of locating the new cantilever bridge which it is said that road proposes to construct across the gorge. The site selected accordingly is a short distance below the old suspension bridge, and it may be that the party who was here a few weeks since and looked over the ground and was thought to be representing the Canadian Pacific was in the employ of the Grand Trunk. The new structure will be double tracked. The present and growing needs of the Grand Trunk demand more facilities for the transfer of their enormous traffic across the river, and the Suspension Bridge is not adequate to serve the purpose. It has also been gathered that the Wabash is not satisfied with the facilities used for its freight at the tunnel. It is pretty certain, however, that the removal of the crews to Sarnia, which was recently done, was only for a time, and also the capacity of the tunnel is not at all sufficient to meet the heavy requirements made upon it by the Grand Trunk and its connections.

General Superintendent Stevenson and District Superintendent Tiffin, of the Grand Trunk, were also recently here, and their visit gives color to the bridge rumor.

## THE HAWAIIAN QUESTION.

**No Definite Results Arrived at by the Conference at Washington—Germany's Claims.**

WASHINGTON, Feb. 5.—The first interview between Secretary Foster and the Hawaiian commissioners was held in the diplomatic parlor of the State Department Saturday morning between 10 and 11 o'clock and lasted half an hour.

The second interview at 3 o'clock in the afternoon was even shorter and quite unproductive in results. There was some informal talk over the annexation proposition, and this was concluded by an agreement that Secretary Foster should again meet the commissioners on Tuesday morning next for an extended conference. The commissioners, while they are saying very little on the subject of the ultimate accomplishment of their object, intimate that they feel very much encouraged.

BERLIN, Feb. 5.—The Hawaiian question is not exciting great interest here. It is understood that the Imperial Foreign Office will be willing to support an American protectorate over Hawaii on the condition that Germany receives some compensation in Samoa. The present situation in Samoa cannot be long tolerated, and it is the opinion of the Foreign Office that the Hawaiian business offers a good opportunity to obtain a new and permanent arrangement as regards France.

## READY FOR THE FRAY.

South Middlesex Liberals Fix a Date for Nomination.

**The Convention To Be Held Ware Feb. 11—An Enthusiastic Gathering.**

The City Hotel was turned into a Liberal hive Saturday afternoon. The executive committee of the South Middlesex Liberal Association was announced to meet to arrange for holding the nomination convention, and scores of sturdy yeomen from the riding came in to hear the result and discuss political probalities. The executive was composed of Messrs. C. Simmonds, of Lobo, president; McGeoghan, of Caradoc, vice-president; J. K. Little, Westminster, treasurer; Ald. Parnell, South London, secretary; Reeve Coughlin and Frank Elliot, Westminster, and Keyser, Delaware. It was resolved to hold the convention at 1 p.m. on Tuesday, Feb. 21, in Delaware. The representation will be the same as at the last convention—five to each polling sub-division. This makes the apportionment of delegates as follows: Westminster township, 45; Caradoc, 40; South London, 25; Delaware, 25; Lobo, 25

Subsequently an open meeting was held in the room, which was packed with an enthusiastic audience. The secretary, Ald. Parnell, was called upon to announce the decision of the committee. Whoever the candidate was, he said, they were determined to put him in with 1,000 majority.

Mr. Watterworth, ex-M. P. P. for West Middlesex, Mr. Wickerson, of Byron, and Col. F. B. Leys each spoke a few words in an encouraging strain. The speeches and the meeting were marked by unanimity and great enthusiasm.

At the secretary's suggestion a committee was appointed to draft a resolution of sympathy with the late Mrs. James Armstrong, to be moved at the convention.

## WITH THE SPOOKS.

**Mrs. Besant's Stories About Ghosts She Has Known, and Their Rationale.**

NEW YORK, Feb. 5.—Mrs. Annie Besant lectured Friday night on "Ghosts and Apparitions: Their Rationale." Downstairs, where the seats were $1 apiece, there was not such a very big crowd. The balcony, which was 50 cents, was pretty well filled. The people looked like intelligent folks, and when Mrs. Besant told some yarns about spooks some of them smiled quietly. Mrs. Besant declared that it was one of the most common phenomena of experience for one to see the spirits of persons who had just died. She is a gray-haired woman, with a loud and rather forced voice, which causes her to pronounce such a phrase as "three distinct spirits" in this fashion: "Thray destenct sperets." Also she has a way of saying "very" so that it sounds like "veddy," and thus: "Et was a veddy, veddy useful opportunity."

On the basis that ghosts, spooks and astral bodies are indisputable things, Mrs. Besant explained how they go about. She told a story about a young French governess who had the trick of dozing off in class, while her astral body went around picking flowers, but always keeping close to her physical body. Mrs Besant regarded it as a "veddy, veddy anfawchunate seccumstawnce" that the principal of the school discharged the teacher instead of keeping her on and studying the phenomena.

The appearance of ghosts immediately after death was explained by the statement that their astral bodies had not yet disintegrated, and that as the natural body wasted away in the grave the astral body would fade out too. She exemplified this by several creepy stories about folks who lived in "cawstles."

The ghastly story of a spiritualistic seance in a hospital which had the cadaver of a man just guillotined a few hours before was told, and how the medium grabbed a chair and chased the folks several blocks, till the leader of the party suddenly made an effort of the will and stopped the show. These spooks were what Mrs. Besant called the passional shells of the body of desire.

Mrs. Besant was good enough to say, in conclusion, that she felt sure that there was real desire on the part of the people here to know something about the spiritual world, and that was very hopeful indeed.

**Canadian Cattle to be Quarantined.**

WASHINGTON, Feb. 5.—The Secretary of Agriculture has been informed that pleuro-pneumonia exists among cattle in Canada, and has issued an order that all cattle imported from Canada shall be held in quarantine 90 days. He has further ordered that all neat cattle imported from the Dominion of Canada must be entered at the port of Buffalo, N. Y., which is hereby designated as a quarantine station, and as much of regulation 1 of the regulations of the Department of Agriculture of Oct. 13, 1890, as names other ports of entry along the Canadian border as quarantine stations for cattle is hereby suspended.

SYRUP of FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. SAN FRANCISCO, CAL.

LOUISVILLE, KY. NEW YORK, N. Y.

## A New Departure in Melissa.

Acceding to the persistent demands of our many patrons, and recognizing the soundness of their argument, viz., that in all but the large cities it is almost impossible to get wraps properly made, we have made arrangements during the past few weeks to supply to the trade of Canada Melissa Rainproof Garments for Ladies, Misses and Children, in all the novelties of the New York market. We have secured at great trouble and large expense one of the best designers and pattern cutters in New York city, who will preside over this special department of our business, and aided by his imported and trained staff of assistants will, at once, without any costly or annoying experiments, be able to turn out **Tailor Made Garments**, equal in finish, fit and design to any obtainable in New York and superior to any of European manufacture.

Our entire output will be manufactured on the premises, under the personal supervision of our foreman. All our operators are men and are practical Cloak Makers. None of our work is given out to women nor is outside labor of any kind employed, thus only can we secure one uniform finish.

In connection with our Ladies' Melissa Wrap Department, we are also inaugurating a Mantle Department, but owing to the late date at which we entertained this latter idea, we will for this season show only a comparatively small range, but sufficient to enable the discerning public to form an idea of what they may expect for next season.

One of the many advantages which merchants will secure by patronizing us will be that they can assort their sizes from time to time, thus doing away with the necessity of having broken lines before the season is half over. They can also at all times, on short notice, get garments to fit outsized figures and figures of irregular proportions, by filling in measuring forms which we will furnish on application.

Our travelers will shortly be upon the road with a large range of patterns of Melissa, in many new and common sense styles of Wraps, both for Spring sorting and for Fall delivery, and at the same time will offer for the inspection of the trade a representative exhibit from our Mantle Department.

Designs, Patterns and every other information furnished on application.

Special attention given to letter orders.

## CULLED AND CURTAILED.

News of the Day Without Note or Comment.

Sir Walter Charles James, Baron Northbourne, is dead.

The steamer La Gascogne on Saturday took out $2,500,000 gold from New York.

The cold winter has killed off more quail in Michigan than the hunters have shot in many a season.

Another Indian outbreak is reported at Pine Ridge. Five men have been killed by Two Strikes' band.

Rev. William J. Tucker, D.D., of Andover, Mass., has been elected president of Dartmouth College.

The manufacturers in the State of New Jersey have combined for the purpose of fighting the 55-hour law.

Three men were killed by the explosion of a boiler at the Waugh steel works in Belleville, Ill., Saturday morning.

The French Ministry has approved the proposition to lay a cable from the French colony of New Caledonia to Australia.

The governors of the Southern States will meet at Richmond, Va., in April, with a view to devising a plan to develop the south.

Frederick A. Genth, of Philadelphia, Pa., one of the most eminent authorities in chemistry and mineralogy in the United States, is dead.

Fire at the 25th ward gas works of Philadelphia, Pa., on Saturday, destroyed the purifying house and two sheds. The loss will be $150,000.

An epidemic of diphtheria prevails in the little town of Bode, Humboldt county, Ia. Twelve children have died and many more are dangerously ill.

Edward W. Scudder, one of the justices of the Supreme Court of New Jersey, died suddenly of apoplexy at his home in Trenton, N. J., Friday night.

Ira N. Terrill, ex-Speaker of the Oklahoma House of Representatives, has been sentenced to life imprisonment for the murder of George Embree.

Philip Fahrbach shot and fatally wounded Bessie Pittman in a house of ill-repute at Indianapolis, Ind., Saturday morning, and then killed himself.

John W. Lauterbach, of New York, jumped from a fifth story window Saturday and was instantly killed. Business troubles caused the act.

The United States Treasury Department to-day holds less gold than at any time since the Resumption Act of Jan. 1, 1879, and the gold obligations are greater.

The Lower House of the Wisconsin Legislature has adopted a joint resolution providing for the election of United States Senators by direct vote of the people.

The United States twin screw, armor plated harbor defense ram Katahdin was launched at Bath, Me., on Saturday afternoon in the presence of 6,000 people.

The boomers camped along the borders of the Cherokee strip, in Indian Territory, suffered greatly from the cold during the recent blizzard. Several are known to have been frozen to death.

A mad dog ran through the heart of Chicago Saturday night, and before it was shot by the police it had bitten W. J. Lawler and Lizzie Russell, and at least three others whose names could not be learned.

The will of the late John Huntington bequeaths $1,500,000 for the founding of an art and polytechnic school at Cleveland, O. The rest of his estate, amounting to about $1,500,000, he leaves to his wife and children.

By a fall of slate in the Princess coal mine at Zalover, four miles south of Zanesville, Ohio, four miners were crushed. George Waxler died shortly after being removed. No hope is entertained for the others, who are in a critical condition.

At Indianapolis, Ind., Philip Fairbank called upon Bessie Pitman Saturday morning, and finding another man in her company seized a revolver on the dresser and shot the woman fatally. He then shot himself through the heart, dying instantly.

The total federal receipts for February to date in the United States are $5,282,906; total receipts for the fiscal year to date, $234,536,999; total expenditures for the month to date, $5,575,000; total expenditures for the fiscal year to date, $235,329,283.

There was manufactured in the northwestern states, Michigan, Wisconsin and Minnesota, last year, 8,934,053,173 feet of lumber, of which Michigan produced 3,794,256,754 feet, and 4,248,690,256 shingles, the contribution of Michigan to this quota being 2,137,647,875.

## LONDON, CANADA.

London and suburbs have a population of 35,000 persons.

London is situated in the garden of Canada, midway between the Niagara and the Detroit Rivers.

London is the center of nine different lines of railway, giving easy access to the whole continent, and to the lakes and seaboard.

London has direct connection with the three great Canadian lines of railway—the Grand Trunk, the Canadian Pacific, and the Michigan Central.

London controls a line of railway from the city to Port Stanley, on Lake Erie.

Each day more trains arrive at and depart from London than arrive at and depart from any other Canadian city in the same time.

London's public water supply is obtained from never-failing pure springs four miles from the city. Their yield is practically unlimited. London has the best drinking water on the continent.

London is an excellent health resort, as it has a lower death rate than any city of its size on the continent, and it has magnificent white sulphur baths within its limits.

London has 1 opera house and 4 public halls.

London has 13 public schools (and a number are under contract), not including kindergartens; 3 R. C. separate schools, 2 ladies' colleges, and 1 collegiate institute.

London has 1 university and 1 medical School.

London has a Conservatory of Music and a School of Elocution.

London has 2 public libraries.

London is an excellent center for manufacturing and commercial enterprises. There are already established wholesale houses for groceries, hardware, drygoods, small wares, boots and shoes, drugs, crockeryware, etc. There are one or more manufactories of furniture, engines, boilers, stoves, furnaces, iron and brass foundries, carriages, burial caskets, agricultural implements, stamped tinware, railway cars, oil refining, leather, barrels, machine tools, clothing, cigars, office and school furniture, biscuits and confectionery, mirrors and beveled plate-glass, corsets, furs, beer, washing compounds, acids, woodwork of every description, etc.

London has two daily newspapers (morning and evening editions).

London has two public parks.

London has six banks and eight loan and investment associations.

London has six charitable institutions, two hospitals and seven public buildings.

London has a good street railway, which will be much extended during the year.

London's rate of taxation is 18 mills, which includes all school rates, etc.

London's civic assets are $2,547,798 34, and the balance of assets over all liabilities is $422,861 19. The total assessment is $15,333,097.

London has 44 churches, almost every religious denomination of any importance being represented.

London has an excellent Entomological Society and exhibition, and some of the ablest entomologists to be found in Canada.

London has markets three times weekly, the best in the west. The great Western Fair is held for ten days in September.

Further particulars about the city may be obtained by applying to the mayor, the city clerk, the secretary of the Board of Trade, or the ADVERTISER.

### The Deadly Cigarette.

PITTSBURG, Pa., Feb. 5.—Mr. Jacob Davis, of Reading, is suing for his share of his father's estate. The young man is over 21 years of age, but his claim is resisted by the trustee on the ground that he is unable to manage his own affairs. Several physicians have testified that his mind has been destroyed by excessive smoking of cigarettes.

### The Hop Crop of 1892.

SYRACUSE, N. Y., Feb. 5.—The New York Homestead, of Syracuse, N. Y., publishes a complete report of the hop crop of the United States, based upon reports from 3,687 plantations in the whole country, of which 2,494 yards are in the State of New York. The aggregate results show an increase of rather less than 3,000 acres in the 1892 area, as compared with 1891, and an increased yield for the whole country of 2,620 bales. In New York State while the total number of boxes was larger than in 1891 their weight was lighter, thus reducing the average yield in New York State by about nine pounds actual weight an acre. The total crop of the country is given at 217,942 bales, as compared with 215,327 bales in 1891.

## THE WOMAN WON

**In an Exciting Race With a Man for a Land Claim.**

WALLA WALLA, Wash., Feb. 5.—An exciting race took place the other afternoon in Walla Walla between Mrs. Mary E. Miller, of Kennewick, Yakima county, and Frank Foster, of the same place. They both came in on the evening train over the O. and W. T., and neither waited for the car to stop, but jumped off and made frantic runs for hacks. The woman offered to buy the hackman's team if he would get her to her destination in time, and the man slipped a $5 piece into the driver's hand in order to facilitate matters, and in less time than it takes to tell it both hacks were speeding up the street at a breakneck gait.

What was the cause of all this? Why, it was a race between them to see who could get to the United States Land Office first to file on a piece of land near Kennewick. The man arrived there first, but made a mistake and got into the wrong office, and in the meantime the woman had arrived and slipped in ahead of him. The woman also had her witnesses with her, while the man was unprepared in this important particular; consequently she "got there with both feet."

Mrs. Fiddle—I've effected a sweeping change in my domestic establishment. Mrs. Faddle—Gracious! Why, how? Mrs. Fiddle I've got a new housemaid.

Skates! Skates! Skates!

Over 400 pairs to choose from.
