NEW YORK STOCKS.

The talk at the close of business to-day was of a conservatively bullish character. London, which came low at the opening, turned a moderate buyer of stocks later in the day and thus induced some of the traders to change from the bear to the bull side of the market. The commission people were not talking in a very hopeful strain. They say that at best the commission business is nothing to boast of and outsiders have lost too much money of late to take a material interest in current speculation. Besides it is getting towards the end of the year when contracts are to be closed out.

It is believed in prominent Washington circles that the President's message to Congress will be quite a bull card. Many are under the impression that it will be a counterpart of his suggestion of Dec. 3, 1885, when he suggested that a hundred million of dollars be released to build fortifications, etc.

New York was very regular, the majority of stocks closing a shade lower than night.

Following are the opening and closing prices of the chief stocks on the New York Exchange to-day:

GRATEFUL—COMFORTING

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
