TARIFF LEGISLATION ENDED

BUT THE BILL MUST BE REPEALED OR AMENDED.

The Senate Resolves to Close Down on Tariff Tinkering—Mr. Sherman Rises to Remark that 50 or 60 Amendments Must Be Made—The Bill Does Not Remove Defects in the McKinley Bill.

Washington, D. C., Aug. 18.—A vote was taken in the Senate to-day on the Murphy resolution, declaring that there should be no further tariff legislation this session. Murphy's resolution carried by 25 to 16.

The resolution of Mr. Harris (Dem.), Tenn., providing for the appointment of Senator Waite (Dem.), Cal., as a member of the Finance Committee, in place of the late Senator Vance, was laid before the Senate and agreed to without a division.

Mr. Murphy's resolution opposing further tariff legislation was taken up, and Mr. Murphy offered a substitute, briefly saying that it was the sense of the Senate that no further tariff legislation should be enacted, and that Congress should adjourn.

On the amended form of the resolution the vote stood: Yeas 27, nays 16.

Mr. Lindsay (Dem.), Ky., offered a resolution, declaring it to be the sense of the Senate that there should be no adjournment of Congress until a bill had been passed taking off the duty on refined or other class of sugar, the importation of which works for the benefit of the so-called Sugar Trust.

Mr. Sherman made a few remarks to the effect that the gentlemen who had charge of the bill while they had it in their management demonstrated great ability, tact and judgment, yet they nevertheless made three great and vital mistakes. Who was responsible, they individually or the party for which they acted, it was not for him to say. The first was that they had undertaken to pass the bill without action of the Finance Committee. It had been nominally referred to that committee, but as a matter of fact the measure was under charge of gentlemen not connected with the committee. It was made a purely party matter with the result that there were created dissensions in the party such as were usual only between parties. The other mistake was in the failure to call in the Republican members of the Conference Committee, and at that stage of the proceedings the matter was purely a factional controversy. Had the Republicans been called in consultation the trouble which is now imminent would not have occurred. Mr. Sherman referred to the fact that it was necessary to take alcohol for the arts off the free list in order to preserve the revenue expected from the liquor schedule, and continued his remarks in support of the passage of the bill to remedy that defect which had been passed by the House.

Mr. Sherman notified the Democrats that this bill would go but a little way towards curing the defects in the Tariff bill. It would have to be amended in 40 or 50 places, and in view of this fact, Mr. Sherman said the best thing for the Senate to do was to carry out the purpose of the resolution of the Senator from New York, go home to their constituents, find out what was desirable to be done in that direction and come back next winter, and either pass a bill repealing the tariff law or amend it in 50 or 60 particulars.

Mr. Grey (Dem., Del.) said that whatever mistakes might have been made in the legislation recently accomplished, one thing could certainly be asserted with confidence: that never again would a measure like the McKinley law, a high protective measure, find its way on the statute books of the United States.

The Lindsay resolution went over under Mr. Quay's objection, after an amendment proposed by Mr. Chandler (Rep., N.H.) had been read for information. It proposed to repeal practically the entire Tariff bill.

The House bill to repeal the provision in the Tariff bill, making free alcohol used in the arts, was laid before the Senate.

How to Help Toronto.

Editor World: Alderman J. Enoch Thompson recommends the sale of all the unproductive property owned by the city to pay off our crushing debt. Will the Alderman name the properties which he would offer for sale? Is the real estate market in such a state of briskness that it would be in the best interests of the city to offer it for sale now? Is it true that this crushing city debt is the main cause of the stagnation of business, or is not the stagnation in business universal at present? How many manufactories that have left the city in the past for outside towns are in existence now? And how many are anxious to get back? Do manufacturers pay a high rate of taxation? Is not their plant and machinery exempt? And do they not pay a very low rate for water? Say, Mr. Alderman, where in Ontario can manufacturers carry on their business to a better advantage than in Toronto? Is it a good stroke of business for an alderman to convey to the public that this, the Queen City, which he is supposed to represent, is in such a position that manufactures can not exist here? I should say no, most emphatically. He says sell the properties, and our tax rate would be reduced permanently five mills. Now, I suppose Mr. Alderman Thompson was present when the estimates were passed. The amount required annually for the general city debt is 5.236 mills, so that according to his letter the city owns enough unproductive properties if sold to pay off the whole of the general city debt, which amounts to $10,600,000, except what 2.36 of a mill would cover. I would modestly suggest that the aldermen would cancel the bylaw which provides for their salaries, and that would wipe out the small amount left. And if that is not quite sufficient, why not repeal the bylaw under which the tax collectors are appointed, and make the taxes payable at the City Hall, which was one of the planks in the worthy alderman's platform before election, and then, I am satisfied, there would be sufficient.

I will be pleased to hear from Mr. Ald. Thompson, and I feel satisfied that I will, for h eis a regular stunner at letter writing. Whether his precepts and his practice agree, of course, the public will decide. JAMES B. ROUSTEAD.

HORSES KILLED, DRIVER INJURED.

A C.P.R. Express Collides With a Wagon At a Scarboro Crossing With Serious Results.

The C.P.R. Express, due in Toronto at 7 o'clock Saturday morning, was crossing the second concession of Scarboro', one mile west of Agincourt station, when it struck a team belonging to Mr. James Lee, blacksmith and storekeeper of Ellesmere. Mr. Lee, who is about 50 years of age, was driving and he did not see or hear the approaching train. He had a narrow escape of losing his life. Both horses were killed and the wagon smashed to pieces. Mr. Lee was thrown 30 feet over the fence, and he was picked up in a semi-conscious state. The butter, eggs and country produce were scattered on the track. The train backed up to the spot and Mr. Lee was lifted therein, brought to Toronto and taken to the General Hospital.

EAST TORONTO REEVESHIP.

A Triangular Fight Anticipated—General News of the Suburbs.

Nominations for the reeveship of East Toronto village, made vacant by the desertion of D. G. Stephenson, will be held to-morrow evening. There is likely to be a three-cornered contest for the coveted position, as it is understood that Dr. Walters, John Richardson and W. Dudley will stand for election. In all probability there will have to be another election later on for Council, as both Dr. Walters and John Richardson are members of the Council, and will have to resign in order to qualify for the reeveship. If Mr. Dudley should be elected reeve, it is likely both Dr. Walters and Mr. Richardson would be returned to the Council without opposition, and the municipality would thus be saved the expense of another election.

A joint excursion under the auspices of the S. O. E. and the Citizens' Band of North Toronto took place on Saturday to Niagara Falls. There was a good attendance, and as the weather was all that could be desired, a pleasant time was spent.

Wednesday next will be Weston's Civic Holiday. An excursion will take place under the auspices of Weston Lodge, No. 200, I. O. O. F., to Niagara Falls.

The Ladies' Aid Society of Emanuel Presbyterian Church, East Toronto, will hold a garden party on the grounds of Mr. Barnett, foot of Beach-avenue, to-morrow (Tuesday) evening.

Suburban Notes.

The employes of the Toronto Lithographing Co. held their annual picnic to Glen Grove Park, Eglinton, on Saturday last. A very enjoyable day was spent. In the forenoon a game of baseball was played between the artists and engravers v. the transferrers and printers, and was won by the former. A bountiful repast was then done justice to, and games to the number of 20 events were participated in. The distribution of 40 useful and valuable prizes and a good tea followed, when the party, numbering upwards of 200, wended their way homewards, tired but satisfied. Before dispersing a hearty vote of thanks was tendered to Messrs. Irving, Finch, Boyd and the committee for the excellent arrangements that had been made.

The Street Was Blocked.

There was a tremendous rush for The Toronto Sunday World on Saturday night, the boys returning to the office again and again for fresh supplies. Among the special features of the paper were:

Their Money Is Waiting For Them.

Editor World: In reply to your article in to-day's World enquiring as to who will reimburse parties who bought tickets at the advance sale of the "Pirates of Penzance," I beg to inform you that the entire advance sale for the "Pirates" after Tuesday of that week amounted to only $14, of which about one-half has already been returned to the purchasers.

Those holding tickets for performances not given can have the amount refunded by leaving their names and addresses at Nordheimer's, whereupon a postal card will be sent to them asking them to call for their money, which is ready for them at all times. The treasurer of the company has retained the amount necessary to refund these tickets, and will pay the same upon presentation of the tickets, as he has already been doing. J. B. MORRIS.

An Enjoyable Outing.

The first annual excursion and picnic of the employed of the Toronto Rubber Shoe Co. was held Saturday. The Garden City brought the excursionists from Port Dalhousie, where the company's factory is located, to Toronto. An excellent program of games had been arranged at Island Park, where an enjoyable afternoon was spent, the employed testifying by resolution their thanks for the efforts of the company to minister to their pleasure. The local offices of the company are at 76 Bay-street.

Like a New Man

"For five or six years I had **Dyspepsia** in its worst form, sometimes completely prostrated; so much that it was impossible for me to work more than half an hour at a time. I had tried various remedies but did not receive any benefit, when I was recommended by a druggist to try Hood's Sarsaparilla. I have taken two bottles and feel like a new man. I can eat and drink anything and **enjoy my food.** I never felt better. I cannot praise Hood's Sarsaparilla too much for not only has it cured me of dyspepsia but also of rheumatism." It's hard getting through with your washing and cleaning, if you don't use **Pearline.** And you can use it, with great gain, upon anything that you want made clean. In washing clothes, perhaps you won't believe that Pearline is harmless. It has been proved so to millions of women, over and over again, but perhaps you won't be convinced. Then use it for something that can't be hurt. Use it for washing dishes, for instance, and save work. When you come to know it better and let it wash the clothes, you'll find that it saves the wear and tear as well as the work.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 338 JAMES PYLE, New York.

ITCHING AND PIN WORMS. PILES

No More Misery.

ITCHING PILES is an exceedingly painful and annoying affliction, found alike in the rich and poor, male and female. The principal symptoms are a severe itching, which is worst at night when the sufferer becomes warm in bed. So terrible is the itching that frequently it is impossible to procure sleep. Often the sufferer unconsciously during sleep scratches the parts until they are sore—ulcers and tumors form, excessive moisture is exuded. Females are peculiarly affected from this disease, causing unbearable irritation and trouble. These and every other symptom of Itching Piles or irritation in any part of the body are immediately allayed and quickly cured by Chase's Ointment. It will instantly stop itching, heal the sores and ulcers, dry up the moisture.

DR. CHASE'S OINTMENT

Gives Instant Relief.

PIN WORMS is an ailment entirely different as to cause than Itching Piles, yet its effects and symptoms are exactly the same. The same intolerable itching; the same creeping, crawling, stinging sensation characterizes both diseases. Chase's Ointment acts like magic. It will at once afford relief from this torment.

Improve Approaches to High Park.

Editor World: In view of the contemplated and much-needed improvement of Lake Shore-road from Sunnyside to the Humber, which could hardly be in a worse condition, than it at present is, I would like to point out that a much greater menace to public safety exists in the crossing and re-crossing the several railway tracks in front of the park by thousands of ladies and children during the summer months, and this season the number of citizens and their families who have spent Saturdays and holidays at this beautiful and recreative resort has certainly more than quadrupled that of any former year, owing, of course, to the extension of the electric car lines.

By far the most popular entrance to the park is by the old "Howard gateway," following the graveled carriage way to the highlands and old homestead, with its picturesque surroundings, a drive, by the way, which has recently been widened, graded and gravelled, connecting, too, with the many serpentine roads through the park. About one hundred yards west of the Howard gate is a prominence nearly reaching to the G. T. R. tracks, the termination of a romantic and beautifully shaded path to the Howard mausoleum, leading to the picnic grounds by the shortest route, and in view of Howard Lake and the extensive Humber Bay. From this prominence I would suggest a light steel foot bridge be constructed spanning the railway tracks at a sufficient height, and abutting on the Lake Shore-road, thus affording safe access from the park to the two miles of unequalled sandy beach now within the city limits.

Further, for the absolute safety of equestrians and the very numerous equipages to be seen any day in the park, a driveway should be constructed running parallel to and north of the railway tracks from "Howard gate" to the Indian-road and Queen-street at Sunnyside crossing. This is really the most urgent improvement the park requires, doing away with the danger of the track crossings, and if laid out of sufficient width, say 100 feet, the King and Queen-street cars could be extended as far west as the Howard entrance, obviating the great cost of bridging the railway at Queen-street crossing, and vastly adding to the utility and beauty of the park, the while forming a magnificent frontage to the city's greatest acquisition. Seven columns of society news are given in The Toronto Sunday World.

Mr. Henry Graham, Wingham, writes: "I was in North Dakota last May and I took a bottle of Northrup & Lyman's Vegetable Discovery with me, as I did not feel safe without it. While there a lady friend was suffering with indigestion, biliousness and headache. I recommended the Vegetable Discovery to her and she tried it, and the result was that it did her so much good that I had to leave the balance of the bottle with her."

Henry A. King & Co.'s special wire from week of August increased $9756.

Ladenburg, Thalman & Co., New York: Whether the B. Q. dividend is well advised or not, it served to keep up the bull movement. The argument that investors construe the B. Q.'s action as insuring the continuance of dividends on other stocks. This view seemed to find favor in London, where the market for Americans was active and advancing, the combined influences carrying B. Q. to a higher level, and bringing in heavy coverings in other railroad stocks. Sugar was also strong at an advance, while Whisky recovered from its early depression only to resume that position at the close, the impression of the company with regard to the internal revenue payments being still in doubt. Business throughout the country exhibits a moderate improvement on the ending of tariff uncertainty. The time has, of course, been too short for a return to normal conditions, but the only serious question is aroused by the depressed state of affairs in the districts dependent on the corn crop, the serious destruction of which cannot be disregarded. The close was strong under short covering, and general sentiment of the street at the end of the week is bullish.

Henry A. King & Co.'s special wire from Logan & Co., Chicago: Wheat has been moderately active and lower, without other special feature. A scalping market, with receipts liberal and export clearances also liberal. The visible supply does not look like over 2,000,000 bushels increase, if that much. Corn rather active and lower on selling by holders, which has been the leading feature. Receipts are picking up. Oats steadier than corn, but lower on realizing and some selling by elevator interests. Shipments heavy to-day, posting being almost half million bushels. Provisions manipulated by the packing interests to-day. The general impression is they are trying to induce the outside holders out. At the decline there was an effort made to buy, but offerings were very light. With the recent prices and quality of hogs the product ought to be a purchase around present figures.

Schwartz, Dupee & Co., Chicago, wired Dixon: Continued large receipts, reports of better results from the threshing than expected from the Northwest, the certainty of a very large increase in the visible and a large estimate on Monday's receipts broke wheat to the put figure. Primary receipts 312,000 bushels, were almost three times last year's. There were fair exports, about 550,000 bushels wheat and flour. Northwestern receipts, 153 cars, were small. Clearances for the week from both coasts, 2,930,000 bushels, were 500,000 bushels less than the week before, and less than half the same week last year. Corn lower, breaking a cent, and closing without much reaction. An increase in receipts encouraged local selling: 245 cars to-day; 350 estimated for Monday. Samples broke over 2c. Speculation has dropped off, which is usually followed by a declining market. Oats receipts 382 cars. The estimate for Monday was 400. The cash market was off a cent. Futures declined a fraction. Provisions opened a shade higher, but buying orders were soon filled, and a continuation of selling by packers and local traders caused a sharp break. On the decline there was very good buying, especially of Sept. ribs and lard on reports of improved cash demand for meats and foreign demand for lard. We favor buying at current prices, although a further decline in corn may take January deliveries lower in sympathy.
