Eastern Racing Dates.

New York, Feb. 10.—Contrary to expectations, the racing dates for the coming season in the east were not announced yesterday, the delay being a further indication of the tie-up that at present exists because of the application of the New York Jockey Club, which has leased Morris Park for an allotment. The stewards did not meet after all, but there was a meeting of the Jockey Club.

Altho the conference was long-drawn-out, only the briefest details were given out for publication. Two rules were amended, one of them relating to forfeits, which is of no great importance. The other, concerning "recognized meetings," at first glance would seem to mean that the New York Jockey Club had been practically notified that there was no chance for racing at Morris Park. But, according to several persons well posted as to Jockey Club affairs, such is not the case. The old rule governing "recognized meetings" stipulated that such affairs were those conducted by the Coney Island Jockey Club, the Brooklyn Jockey Club, the Westchester Racing Association, the New York Jockey Club and the Monmouth Park Association. This rule was so amended that the New York Jockey Club and the Monmouth Park Association were eliminated by a vote of the members.

As the Saratoga Association, Brighton Beach Racing Association and Queen's County Jockey Club, which are all in good standing, were not included in the original rule, it must be taken for granted that the New York Jockey Club and the Monmouth Park Association are in the same class with them and are not in any disfavor or up against prejudice of any sort. The Monmouth Park Association cuts no figure in the present situation, as racing in New Jersey is illegal, but the New York Jockey Club has remained inactive for such a length of time that it was eliminated from the rule simply to expedite matters over it is still. As the case now stands, the New York Jockey Club is a racing corporation, which has asked the Racing Commission for a license, and the Jockey Club for dates, with the stewards in a much better position than formerly to consider the applicat.on.

Nobody seemed to know, however, when the stewards would meet again to consider the question of dates, which lends color to the story that the New York Jockey Club will receive a certain length of time in which to close a deal for the Aqueduct track, which has been hanging fire for several weeks. This deal, if successfully completed, would make the stewards' task comparatively easy and remove all evidence of friction among the other racing associations.
