Committee to examine Laws.—Messrs. Weldon, Kinnear, and End.

On motion of Mr. S. Humbert—*Ordered*, That the House do on Saturday next, go into Committee of the whole, in consideration of His Excellency's Speech.

COMMUNICATION.

To the Editor of the Observer.

SIR—The subject of the *Marine Hospital* has lately been ostentatiously obtruded upon the public. The illiberal insinuations and impudent assertions of the anonymous but not unknown "D." having been effectually put down by Mr. HEAVISIDE'S manly, candid, and satisfactory statement;—up start five aspiring sons of science, with a notable scheme to *engraft a* great big institution of their invention, upon our snug little Marine Establishment—*engraft*, Mr. Editor,—they might as well talk of *engrafting a house* upon a *ship*. As four out of five of these wise men have been several *weeks* in practice, and have most, if not all, of them had several patients—it is charitable of them thus early and gratuitously to bestow upon the public the fruits of their *valuable experience*. The present Institution, it appears, is too confined for their enlarged notions, and much too *quiet* for their noble ambition. There are no lectures—no periodical display in *print*—no public *notice* of operations. Not so in future: The curious process of ingrafting is to give brilliancy and *eclat* to the whole concern—speeches are to be made—(by all but the students, who by the bye are to maintain respectful silence)—essays to be promulgated—clinical lectures and *obstetrical* observations to be delivered. A sailor or two is occasionally to be cut up, and mangled, "to *subserve the interests of science*;" and all this after "due notice in the public room." How consoling, how soothing it will be to the poor fellows when writhing under the knife, to be told that they are subserving the interests of Science!—Sir, I have no patience with this humbug. What do Sailors want with Clinical Lectures?—Let these gentlemen who are so greedy of Fame, or perchance somewhat hungry in practice, pay Mr. LAWSON for his Public Room to speut and lecture in—or let them take means to found a Provincial Medical Institution, which all would be ready to encourage; but let them not by the imposition of an *incubus* of their own creation, crush an infant Institution which has hitherto answered every purpose of practical utility, and given satisfaction to every disinterested and unbiassed person in the community. NO THEORIST.

THE OBSERVER.

ST. JOHN, TUESDAY, JAN. 24, 1832.

The Papers by the last Western Mail furnished us with English dates down to the 30th Nov. brought by the *George Canning*, packet, unfortunately wrecked near New-York, and the *Columbia*, arrived at Newport. They do not, however, afford much additional information respecting the state of the Mother Country, or the Politics of Europe. The Royal Proclamation of the 21st Nov. declaring "Political Associations" to be "*unconstitutional and illegal*," will be found in our preceding columns. This is a measure we fully anticipated. Common prudence suggested it, and the excited state of parties throughout the Kingdom loudly demanded such salutary restraint. We trust it may have the desired effect, and it will at least counteract the mischievous tendency of the open encouragement held out to Political Unions by Lords ALTHORP and RUSSELL. It will do more—it will go far to restore confidence in the firmness of Government, and to bridle the factious spirit of Licence so visibly gaining ground among certain classes of the People.

The CHOLERA MORBUS, according to the latest accounts, continued on the increase at Sunderland.—Different opinions were entertained respecting it, but the general belief appeared to be that it was the genuine Indian Cholera, mitigated by the effects of the climate, and materially influenced by the habits of the persons whom it visited. Its most frequent victims were observed to be the intemperate, and the indigent.—A New-York paper states that one case had occurred on board a Sunderland collier lying at Gravesend,—death in six hours.

GOVERNOR'S SPEECH.—We this day lay before our readers Sir ARCHIBALD CAMPBELL'S Speech, delivered on the opening of our Provincial Legislature. It will be read with unmingled satisfaction by the whole Province.

HALIFAX MECHANICS' INSTITUTE.—An Institution under this title was opened on Wednesday evening the 11th instant, at Halifax. The meeting for the purpose was attended by a large and respectable company. An Introductory Address, was delivered by Mr. JOSEPH HOWE, Editor of the *Novascotian*, which is inserted at length in the *Acadian Recorder*. It is an able production and does credit to its author;—We intend placing it in the columns of our next paper.—The Halifax Banking Company has presented a liberal donation of £25 to the Institute. The Hon. S. CUNARD is also named as a liberal contributor to the infant Institution.—We hope, ere long, to see a similar Establishment in this City.

The Collection in St. Andrew's Church on Sunday afternoon last, for the benefit of the Poor, amounted to £9 2 3.

Upper Canada.—Mr. M'KENZIE, who was recently expelled the House of Assembly of Upper Canada, for an alleged libelon that body, has been again returned by the electors of York County by nearly an unanimous vote.—One account says:—

A burst of applause interrupted the proceedings of the Assembly when Mr. Mackenzie was introduced to the Speaker, according to the usage of that body, as "member for the county of York, in place of Wm. L. Mackenzie, Esq. expelled this house!" An attempt was then made to re-expel Mr. M., but the resolutions to that effect were lost, by a vote of 24 to 20; the Attorney General, among others, who voted for the expulsion in the first instance, voting in the negative. It is stated in the York Guardian that Mr. M. may yet be expelled, and that his reception in the house was probably influenced, in some measure, by the fear of the populace, who had collected in great numbers to witness his introduction.

BRIER ISLAND LIGHT HOUSE.—We have been informed that the loss of the schooner *Retrieve*, lately wrecked near Brier Island, may, in a great measure be attributed to the improper site that has been selected for the Light House on that Island. Instead of being placed upon the highest point, where it could be seen by Mariners approaching it from any quarter, it is, we understand, placed in such a situation as to be of service only to vessels coming into or going out of the Bay of Fundy; without at all benefiting, to any great degree, the numerous small vessels that are constantly employed in navigating the dangerous bays and harbours on the Nova-Scotia shore in the vicinity of Brier Island.—*Courier.*

WESLEYAN MISSIONARY MEETING.—On Tuesday Evening last, the Anniversary Meeting of the *St. John Wesleyan Missionary Branch Society*, was held at the Wesleyan Chapel, Germain-street. The Chair was taken by J. M. WILMOT, Esquire; and the several gentlemen who proposed or seconded the Motions which were submitted to the audience for adoption, addressed themselves to the Chair, in a manner that was calculated to impress the minds of all who were present, with the vast importance of Missionary Institutions, and the necessity of personal and pecuniary exertions on their behalf.

The congregation was very large, and the Collection on that evening, and those of the preceding Sabbath, including a liberal donation of £5; amounted to upwards of Thirty Pounds.—*Tb.*

Three o'clock.—The Report of Saturday's Debate has just come to hand.—The lateness of the hour, and the length of the Report, (12 pages) prevent us from making any use of it to-day. The House was in Committee on His Excellency's Speech, and appear to have been chiefly engaged on the subjects of AGRICULTURE and ROADS.—Messrs. S. Humbert, Simonds, Partelow, the Speaker, Cunard, Kinnear, Chandler, and Slason, took part in the discussion.

BARBADOES.—On Saturday last we were very agreeably engaged in describing the interest which our gracious King had taken in the distressed situation of his faithful subjects in this Island, and in encouraging our countrymen to hope for some important aid from his Majesty's government. To day we have another most delightful employment in bringing before our readers a proof of the deep feeling of commiseration expressed for the suffering people of this island by persons filling the most distinguished and exalted situations in the mother country; and this feeling exemplified in an immediate and substantial act of benevolence for our relief. The communication from the Secretary of the "Society for Promoting Christian Knowledge,"—which has been most kindly handed us, and for which we beg leave to express our best acknowledgements,—will excite a feeling in the hearts of all our readers, especially those who long to see when the houses of God, the residences of his ministers, and the buildings for the education and support of the poor, shall be restored from the ruins in which they now lie. Besides the munificent donation from the Christian Knowledge Society, (£2000) we are authorized to state for the satisfaction of the public, that £2000 may also be exported from the "Society for the conversion of the Negroes," besides a public contribution at the head of which is the Archbishop of Canterbury, £100—the Bishop of London, £100—Lord Goderich, £100—Lord Bexley, £50—Miss Vansittart, (sister to Lord B.), £25 &c. &c.; and that there will probably be a grant from the "Society for the Propagation of the Gospel" of £2000, towards the rebuilding of churches, schools, &c. The Archbishop of Canterbury, and the Bishop of London have both written to his Lordship the Bishop of Barbadoes, in terms strongly expressive of sympathy for our sufferings, and with an assurance of their doing every thing in their power towards assisting to rebuild our churches, chapels, and school houses.—*Barbadian, December* 14.

[We learn by a Letter from Barbadoes, that large contributions were forwarded from the other Islands, for its relief; Jamaica had sent £9000.]—*Halifax Journal.*

FEES IN THE CUSTOMS.—An Act of some importance comes into effect on the 15th of the present month, November.

It repeals the 6 Geo. IV. c. 106, which permits officers and clerks in the Customs to assist merchants and others "at their desire, in framing and passing entries inwards and outwards, and to receive such fee freely given for the same, as the Commissioners of his Majesty's Treasury shall permit."

The new act provides, that from and after the 15th of November, it shall be lawful for the Commissioners of His Majesty's Customs to authorize the proper officers to demand, on the passing of every entry the sum of..... 1s. 6d.

And upon the issuing of any cocket, if such cocket be for British goods..... 1s. 6d.

Or if such cocket be for foreign goods, or for foreign wines, or spirits contained in glass, the sum of..... 2s. 6d.

"Provided always, that all such charges shall be carried and applied towards any superannuation fund for the officers of Customs, or applied, reduced, or abolished, as the Commissioners of His Majesty's Treasury be pleased to direct.—*London paper, Nov. 3.*

☞ The REPORTING COMMITTEE beg leave to acknowledge the receipt of £2 2s 6d., from the inhabitants of Campobello and West Isles, in aid of that fund.
