The most ample security is afforded to parties assuring with this Company by its large invested Capital, and the personal responsibility of upwards of One Thousand Shareholders.

RICHARD GERRARD,
Agent for Canada.

Montreal, Oct. 26, 1849. 1

THE COLONIAL
LIFE ASSURANCE COMPANY.

REPORT of PROCEEDINGS at the THIRD ANNUAL GENERAL MEETING of the COLONIAL LIFE ASSURANCE COMPANY, held within the Company's Head Office, 1, George Street, Edinburgh, on Thursday, the 1st day of November, 1849:—

On the motion of James Hay, Esq., Merchant, Leith, William Stuart Walker, Esq., of Bowland, was called to the Chair.

The Chairman stated that the Meeting had been duly convened. The Secretary read the Minute of last General Meeting, the Balance Sheet, Auditor's Report, and Report by the Directors.

In the Report by the Directors it was stated that during the year from 25th May, 1848, to 25th May, 1849, 205 New Policies have been issued, assuring sums to the amount of £129,936 15s., yielding Annual Premiums to the amount of £64,835 10s. 9d.

That the whole amount of Assurances offered to the Company, from the commencement of the business in November, 1846, when the first Policy was issued, till 25th May, 1849, is £505,835 3s. sterling, and of this amount, after deducting Proposals rejected, and Assurances forfeited, there was in force, at the date of balance, the sum of £293,478 9s., yielding Annual Premiums to the amount of £14,279 5s. 6d. sterling.

That the amount of claims which the Company have required to meet since its establishment, is £2,070 15s. 3d.; that the Directors are happy to be able to state that they have made good investments with that portion of the Funds which was available for the purpose.

That the expenses of the Institution are kept within the narrowest bounds, compatible with proper management and the extended field which the Company's operations embrace.

That the constant attention of the Directors has been given to the extension of the business, and the Company have formed new important connections during the past year in different quarters.

The Chairman, in addressing the meeting, after the reading of the Report, congratulated the Shareholders upon the satisfactory state of the Company's affairs, and upon the amount of business transacted during the past year, which, although not quite so large as in the preceding year, was yet, looking to the convulsed state of the world, and the depressed state of the British Colonies, highly satisfactory; for it would be recollected that the Company's balance, to which the Report has reference, was made as at 25th May. Since that time commercial matters at home had rallied, and he hoped that this was indicative of a speedy improvement in the condition of the Colonies, which could not fail to increase the Company's business. As matters had been, it appeared to him only surprising that the Company had done so large an amount of business as that stated in the Report. He begged also to draw the attention of the meeting to the fact stated in the Report, that this Company, in the short space of [illegible] months, had received Premiums larger than that of the oldest and most extensive office in Scotland, at the end of the first ten years of its existence. He believed that there was no occasion to suppress the name of the office alluded to, viz.—The Scottish Widows' Fund. He meant not the least disparagement to that magnificent institution in drawing this comparison, but merely to show the Shareholders that the amount of business effected by the Company was most satisfactory, and beyond what its founders had any right to have anticipated. Another legitimate source of congratulation he conceived to be the very small amount of the claims against the Company—the total amount emerged since the commencement of the Company having been £2,070 15s. 3d., which was not only far below their calculation, but even less than might have been expected, had the risks of the Company been confined to Great Britain, instead of being, as they are, spread over all the British Colonies. He thought he might cite this as a proof of the care evinced by the Directors in making a judicious selection of lives; and, in corroboration, perhaps it might be worth while to mention that the large sum of upwards of £100,000 sterling had been declined by the Company. He considered it also a matter of importance that the goodwill expressed towards the Company by other Life Assurance Institutions should be known; and he had much pleasure in stating that the best possible understanding existed with all the other offices—a most substantial proof of which was the readiness with which they accepted and reciprocated re-assurances. (It was remarked in the course of the proceedings, as a proof that The Colonial does not interfere with the business of the Home Offices, that the "Colonial" Board of Directors has included, or now includes among its members, Gentlemen who are also directors in the following Offices:—Scottish Widows' Fund and Life Assurance Society—Scottish Union Insurance Company—North British Insurance Company—Standard Life Assurance Company—Scottish Equitable Life Assurance Society—City of Glasgow Life Assurance Company.) One further result of the establishment of The Colonial Company was, that a large proportion of the other Offices now acted upon rates the same as, or closely assimilated to, those of The Colonial when they had occasion to fix an extra premium for license to parties assured with them in this country to go abroad—moreover, that the establishment of the Company had given rise to native offices in the Colonies.

Without upon this subject he begged to state that representations had been frequently made by friends, that the Company's rates, in reference to some of the Colonies, were higher than necessary; that some other offices were ready to transact business on terms which were in some cases lower, and in others apparently lower than those of the Colonial, and suggesting that a reduction in the Company's rates should be made. To this, however, the Directors had invariably returned one answer, viz., that the rates of the Company had been most carefully framed from the best statistics that could be procured, (statistics which, he believed, were far more perfect than were in the possession of any other office;) that they were perfectly satisfied that they are as reasonable as present information justifies; and that until some good ground is afforded them for changing their rates, either from fuller statistical information than is at present in existence, or from an experience much more extended than that which has already been obtained, they will rigidly adhere to them, being resolved not to enter into a dangerous competition for business, by lowering their rates in order to outbid others, but to do either a safe business or none at all. The Chairman concluded by again congratulating the Shareholders on the success of the Company.

Ralph Erskine Scott, Esq., Manager of the British Guarantee Association, rose to propose the adoption of the Report, with the Balance-Sheet and Auditor's Report.

Henry Cheyne, Esq., Writer to the Signet, seconded the motion.

The Report was then approved of, and adopted unanimously.

George Moir, Esq., Advocate, rose and begged the attention of the meeting to a matter in which he was in some measure apparently responsible. He alluded to the printed returns of the balance-sheets of all Companies, including The Colonial Company, which, the meeting were doubtless aware, required to be returned by those institutions which had commenced business since 1844. These returns had been moved for by Mr. Labouchere in the House of Commons, and had been printed by the House. The return of balance-sheets was a thing troublesome but fair. The Company did not complain of the practice, however, for the public doubtless were entitled to ascertain the solvency of Companies before connecting themselves with them; but when these returns were made, it might at least reasonably be expected that they should be given to the world correctly, as rendered to the Registrar-General. In the return in question, however, The Colonial Company's first balance-sheet appeared with a wrong summation, as well as with various other errors; and the editor, not satisfied with making this (which was his own) mistake, actually drew attention to it by a note, as if it had been an error committed by the Company; and he (Mr. Moir) considered it would be satisfactory to the Shareholders to hear the correspondence which passed between the Company and the Registrar-General on the subject.

He then read the following letter from the Registrar-General:—

"J. S. C. Registry Office,
"Serjeants' Inn, 5th October, 1849.

"Sir,—In reply to your letter of the 5th, I have to state that the errors to which you refer as appearing in the printed abstract of a return from this office, so far as relates to the accounts of the Colonial Life Assurance Company, do *not* appear in the accounts as registered.

"I am unable to say whether the errors are attributed to the copyist or the printer—most probably to the former, as the return was prepared in great haste, and in the full expectation that an opportunity would have been afforded us of correcting the proof sheets from the original returns, in which expectation, however, we were disappointed.

"I am, Sir, your obedient servant,
"George Taylor,
"*Assistant-Registrar, J. S. C.*

"H. J. Williams, Esq., Colonial Life Assurance Company, 1, George Street, Edinburgh."

The error, as it happened, was not of any very great consequence, as it occurred in the units and in an inner column, and amounted only to Four Pounds; but it might just as well have been in the thousands; besides, the balance-sheet was incorrectly printed in other respects, various words being omitted—which were essential to the understanding of the items of the account. On the part of the other Directors who had signed the document, and of himself as Chairman at the time, and also, subscribing, he begged to say, that he considered these slovenly documents most irregular, and that they should be corrected.

The Chairman stated, that, in these days of cooking accounts, he thought it necessary that public notice should be taken of the document in question, as it was a blue book, was widely circulated, and had, he understood, been reprinted for general sale. The thanks of the meeting were due, he would submit, to Mr. Moir for bringing the matter forward. While this subject was before the meeting, it had occurred to him to suggest that a List of the Proprietary of the Company might be left at the Company's principle offices in Edinburgh, London, and Montreal, for the inspection of any parties who may wish to peruse it. It might be thought unnecessary to do this, seeing the position the Company had taken up, but he thought it better that the Company should answer all such questions without waiting to be asked, and he, therefore, proposed that such Lists should be prepared, and lie open for Inspection.

This suggestion of the Chairman was adopted.

James Simson, Esq., M. D., proposed a vote of thanks to the Directors for their attention to the interests of the Company.

Alexander J. Russel, Esq., C. S., proposed the following gentlemen as new Directors, in room of the four senior Directors who retire in accordance with the Company's deed of constitution:—

George Patton, Esq., Advocat..
John Robert Tod, Esq., W. S.
Wm. James Duncan, Esq., Manager of the National Bank of Scotland.
Henry Maxwell Inglis, Esq., of Loganland.

The above-named gentlemen were unanimously elected.

Upon the motion of the Chairman, Charles Pearson, Esq., Accountant, was unanimously re-elected Auditor for the ensuing year.

George Mercer, Esq., of Gorthy, proposed a vote of thanks to be given to the Boards of Directors in London and Montreal, and to the other Local Boards, for the care and attention bestowed by them on the business of the Company.

The Chairman voted the thanks of the meeting to the Company's Actuary, Secretary, and other Office-Bearers.

On the motion of Charles Pearson, Esq., the thanks of the meeting were voted to Mr. Walker for his conduct in the Chair, and the meeting adjourned.

Reported by order of the Board of Directors.
WILL. THOS. THOMSON, Actuary.
HENRY JONES WILLIAMS, Secretary.

BRITANNIA
LIFE ASSURANCE COMPANY,
No. 1, PRINCES STREET, BANK, LONDON.
CAPITAL, ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict. Cap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

PETER MORRISON,
Resident Director.

London, Jan. 1, 1847.

Great English Remedy!!!
THE MOST VALUABLE
Spring and Summer Medicine IN THE WORLD!

HALSEY'S
FOREST WINE!

Patronized by the Nobility and Medical Faculty of England, and esteemed the most extraordinary Medicine of the Age.

MEDICINES containing Molasses or Liquorice, like the boasted Sarsaparillas, require many large bottles to produce the slightest change in health. The *Forest Wine* is altogether a different article. It contains no Syrups to give it consistency, but acquires the excellent flavor and powerful medicinal qualities from the vegetable plants of which it is composed. The *Forest Wine* combines the virtues of the

WILD CHERRY, DANDELION, YELLOW DOCK, and SARSAPARILLA.

With other valuable Plants whose properties are still more powerful.

Its high concentration renders it one of the most efficient Medicines now in use. Less than a single bottle restores the lingering Patient from weakness, debility, and sickness, to strong and vigorous health. Every dose shows its good effects on the constitution, and improves the state of the health. The *Forest Wine* is recommended, in the strongest terms, for all complaints of the

☞ Stomach, Liver, Kidneys, Nervous Disorders, Bilious Affections, Dropsy, Dyspepsia, Loss of Appetite, Jaundice, Female Complaints, Scrofula, and all Disorders arising from bad blood and impure habit of the system.

SAVED FROM DEATH!!

Testimony of Mr. Nathan Mathews, *a highly respectable and wealthy citizen of Newark, N. J.*

Dr. G. W. Halsey:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Asthma. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. While in this dreadful situation, your Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age.

I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public.

Yours, respectfully,
N. MATHEWS.

Newark, Dec. 19, 1847.

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

New York, Jan. 9, 1848.

Dr. Halsey—Dear Sir:—Having tak n your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered strictly to the direction which accompany the Medicine, I have recovered my health, notwithstanding all who knew me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends spoke despairingly of my case, and tried to persuade me from making use of any other tried remedies; and, I doubt not, but that there are hundreds who are dissuaded from taking your excellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in flaming advertisements. But, what a pity it is that the deception tised by others should be the means of misleading many labouring under disease, from seeking relief and being cured by your excellent remedies. Humanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience the good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the great surprise of all my friends, I was entirely cured, and had increased from [illegible] pounds in weight, having taken a box of the Pills and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies!

Yours, &c.,
JAMES WILSON.

Dr. David Marvin, celebrated Practitioner of New York, declared publicly, that one bottle of Halsey's Forest Wine contained more virtues than 60 of the large bottles of Sarsaparilla. Messrs S. S. Lampman & Co., the largest and most respectable druggists in Syracuse, in a letter, says:—"From what they have heard and seen of Halsey's Forest Wine, it is an excellent and good Medicine, and will, undoubtedly, become the leading Medicine of the day." Dr. Mott, of New York, also subscribes to the virtues of Halsey's Forest Wine, by recommending it to many of his Patients.

☞ Seven hundred Certificates from Physicians, Clergymen, and individuals of known respectability, have been given, testifying to the great cures made by "*Dr. Halsey's Forest Wine and Pills.*" Among them is the cure of Mr. John Syms, of 525 Pearl Street, New York, cures of Affection of the Liver and bad Cough, after having been given over by his Physicians, who pronounced his case incurable. Consumption. A child of Mr. William Bowers, Broadway, New York, who had been painfully afflicted with Scrofula, of four years standing, cured in less than six weeks time. Mary J. Brown, daughter of the Rev. James R. Brown, of Disease of the Heart and Incipient Consumption. Others of Jaundice, others of Piles, others of General Debility, others of Gravel, Female Complaints, &c., &c.

TRY ERE YOU DISPAIR.

HOLLOWAY'S PILLS.

CURE OF ASTHMA.

Extract of a Letter from Mr. Benjamin Mackie, a respectable Quaker, dated Cromagh, near Loughall, Ireland, dated September 11th, 1848.

To Professor Holloway:

Respected Friend,—Thy excellent Pills have effectually cured me of the Asthma, which afflicted me for three years to such an extent, that I was obliged to walk my room at night for air, afraid of being suffocated if I went in bed by cough and phlegm. Besides taking the Pills, I rubbed plenty of the Ointment into my chest night and morning.

(Signed) BENJAMIN MACKIE.

CURE OF TYPHUS FEVER, WHEN SUPPOSED TO BEAT THE POINT OF DEATH.

A respectable female, in the neighbourhood of Loughall, was attacked with Typhus fever, and lay for five days without taking any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had received from Holloway's Pills, recommended an immediate trial, and night were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with a Regiment in Boston, the 21st Fusileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however mild need, may be cured by taking night and morning, copious doses of this fine medicine. The patient should be induced to drink plentifully of warm lime-tea or barley water.

CURE OF DROPSY IN THE CHEST.

Extract of a Letter from J. S. Mundy, Esq., dated Kennington, near Oxford, Dec. 2nd, 1848.

To Professor Holloway:

Sir,—My Shepherd for some time was afflicted with Water on the Chest, when I heard of it, immediately advised him to try your Pills, which he did, and was perfectly cured, and is now as well as ever he was in his life. As I myself received such astonishing cure last year from your Pills and Ointment, it has ever since been my most earnest endeavor to make known their excellent qualities.

(Signed) J. S. MUNDY.

THE EARL OF ALDBOROUGH CURED OF A LIVER AND STOMACH COMPLAINT.

Extract of a Letter from His Lordship, dated Villa Messina, Leghorn, 21st February, 1845.

To Professor Holloway:

Sir,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and, at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the Faculty at home, and all over the Continent, had not been able to effect; nay, not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of the Ointment, in case any of my family should ever require another.

Your most obliged and obedient servant,
(Signed) ALDBOROUGH.

CURE OF A DEBILITATED CONSTITUTION

Mr. Mate, a Storekeeper, of Gundagai, New South Wales, had been for some time in a most delicate state of health, his constitution was so debilitated that his death was shortly looked upon by himself and friends as certain; but as a forlorn hope, he was induced to try Holloway's Pills, which had an immediate and surprising effect upon his system, and the result was to restore him in a few weeks to perfect health and strength, to the surprise of all who knew him. He considered his case so extraordinary that he, in gratitude, sent it for publication, to the "Sydney Morning Herald," in which paper it appeared on the 2nd January, 1845. A few doses of the Pills will quickly rally the energies of both body and mind, when other medicines have failed.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague	Inflammation
Asthma	Jaundice
Bilious Complaints	Liver Complaints
Blotches on the Skin	Lumbago
Bowel Complaints	Piles
Colics	Rheumatism
Constipation of the Bowels	Retention of Urine
	Scrofula or King's Evil
Consumption	Sore-throats
Debility	Stone and Gravel
Dropsy	Sore Legs Symptoms
Dysentery	Tic-Doulou reux
Erysipelas	Tumours
Female Irregularities	Ulcers
Fevers of all kinds	Venereal Affections
Fits	Worms of all kinds
Gout	Weakness, from whatever cause, &c., &c.
Headache	
Indigestion	

N. B.—Directions for the guidance of Patients in every disorder are affixed to each Box.

These truly invaluable Pills are sold in Boxes, at 1s. 9d., 4s. 6d., and 7s. each. There is considerable saving by taking the large size.

Agents for the above,
ALFRED SAVAGE & Co., Notre Dame Street,
And
DR. PICAULT,
Corner of Bonsecours and Notre Dame Streets.

☞ Liberal discount made to those who purchase to sell again.

March 29, 1849. 16

TURKISH BLACK SALVE
UNDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original recipe procured from a celebrated Turkish Hakim (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Such as Swollen Glands, Broken Breasts, White Swellings, Cuts, Wheltows, Scalds from Scalding or other causes, Burns, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Freckles, Wens, Chilblains, Ulcerated and Common Sore Throats and Bunions. It used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. Its benefits are by no means confined to the Human race, but it extends its healing qualities to the Brute creation. It is an excellent application for Saddle and Harness Galls, Broken Knees, Cracked Hoofs, &c., &c.—In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable—will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any substance, such as chamois leather, linen, or brown paper.

Sold in Montreal by J. S. LYMAN, Place d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., corner St. James Street, and LYMAN & Co., St. Paul Street, and to all the principal Cities in Canada.

All Letters must be post-paid, and addressed to Messrs. SOMERVILLE & Co., Post-Office, Montreal.

Montreal, January 9th, 1849. 6

IMPORTANT TESTIMONIALS.

Copy of a letter from Colonel Hawker (the well known Author on GUNNERY, &c.) Longparish House, near Andover, Hants, October 21st, 1846.

Sir,—I do not exactly know what to say to you about your Lozenges. I can only say, that several weeks, they cleared all the phlegm off my chest to me, and yet I get complete relief by taking about half a small box of your Lozenges, which I find are the only ones that relieve me without disturbing the stomach or digestive organs. I am, Sir, your humble servant,
P. HAWKER.

To Mr. Keating, 79, St. Paul's Churchyard.

ANOTHER INSTANCE OF THE GOOD EFFECTS OF KEATING'S COUGH LOZENGES, UPWARDS OF TWENTY-ONE YEARS' STANDING.

Liverpool, 6, Bow Place, Jan. 26, 1848.

My Dear Sir,—I have great pleasure in informing you that my wife has received great benefit from the use of Keating's Cough Lozenges, you recommended her a short time since. For years she had been troubled with a severe cough, and was under some fear from its continuance, having experienced many relief, however, Keating's Lozenges have done wonders.

With regards, believe me, yours truly,
THOS. MAYOR.

To Mr. George H. Howell, Chemist, 72, Dale Street.

RESTORATION OF VOICE BY KEATING'S COUGH LOZENGES.

Glasgow, 12th January, 1847.

Sir,—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe cold from sailing two or three miles on the Clyde, which settled in my lungs, and quite took away my voice, so that I could not speak above a whisper from that time until December last. I tried kinds of medicines, but they were useless. I was then advised to try your Lozenges, which I did, only to please my friends; but before I had finished a 2s. 9d. tin, my voice, to my great joy, came back as strong as ever.

I am, Sir, your's respectfully,
JAMES MARTIN.

Thomas Keating, Esq. 155
