IMPORTANT TO THE PUBLIC.

JOHN McCLOSKY,
SILK AND WOOLLEN DYER AND CLOTHES CLEANER,
[From Belfast,]

No. 22, St. Lewis Street, near Bonaventure Street,

BEGS to return his best thanks to the Public of Montreal, for the kind manner in which he has been patronized for the last four years, and now claims the patronage of the trade. He will always be ready to attend to all in his branches, viz:—Dying all kinds of Silks, Satins, Crapes, Woollens, &c., &c., Scouring all kinds of Silk and Woollen Shawls, Maroon Window Curtains, Bed Hangings, Silks, &c., Dyed and Watered. He hops to state he has procured a new Patent Watering Machine for Watering Silks, Shagreenets, Poplins, and others, who may require anything done in the above line, will find it greatly to their advantage to call on him. He also engages to renew the colour of all sorts of Woollen Stuffs that had lost them, and to make the cloth look as good as new. All kinds of Stains, such as Tar, Paint, Oil, Grease, Iron Mould, Wine Stains, &c., carefully extracted.

N. B.—As many of my customers are of opinion that I have opened another Establishment in Notre Dame Street, I wish to correct the mistake, by informing them that I have nothing to do with any place but the above, and that I have been at the same for six years from the 1st May.

GREAT ENGLISH REMEDY!!!—THE MOST VALUABLE SPRING AND SUMMER MEDICINE IN THE WORLD!

HALSEY'S FOREST WINE!

Patronized by the Nobility and Medical Faculty of England, and esteemed the most extraordinary Medicine of the Age.

MEDICINES containing Molasses or Liquorice, like the boasted Sarsaparillas, require many large bottles to produce the slightest change in health. The *Forest Wine* is altogether a different article. It contains no Syrups to give it a cloying; but acquires the excellent flavor of the powerful medicinal vegetables from the vegetable plants of which it is composed. The *Forest Wine* combines the virtues of the

WILD CHERRY, DANDELION, YELLOW DOCK, and SARSAPARILLA.

With other valuable Plants whose properties are still more powerful.

Its high concentration renders it one of the most efficient Medicines now in use. Less than a single bottle relieves the lingering Patient from weakness, debility, and sickness, to strong and vigorous health. Every dose shows its good effects on the constitution, and improves the state of the health. The *Forest Wine* is to be recommend, in the strongest terms, for all complaints of the

☞ STOMACH, LIVER, KIDNEYS, NERVOUS DISORDERS, BILIOUS AFFECTIONS, DROPSY, DYSPEPSIA, LOSS OF APPETITE, JAUNDICE, FEMALE COMPLAINTS, SCROFULA, AND ALL DISORDERS ARISING FROM BAD BLOOD AND IMPURE HABIT OF THE SYSTEM.

SAVED FROM DEATH!!

Testimony of Mr. Nathan Mathews, a highly respectable and wealthy citizen of Newark, N. J.

DR. G. W. HALSEY:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Asthma. My Physicians had given over my case, and had pronounced me incurable. Your Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and but of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hope of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was then nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age.

I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in chronic complaints, and I can cheerfully recommend them to the public.

Yours, respectfully, N. MATHEWS.

Newark, Dec. 19, 1847.

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING!

New York, Dec. 9, 1848.

DR. HALSEY:—DEAR SIR:—Having taken your Forest Wine and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of ten years; and, having adhered closely to the directions which accompany the Medicines, I have recovered my health, notwithstanding all who know me thought my case incurable. Previous to taking the Wine and Pills, I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my friends require the publicity of my case, and cited to persons who have heard of my case of my advertised testimony; and, I doubt not, but that there are hundreds who would be benefited by taking your excellent Medicines, on consideration of the exception and incredulity of many advertised remedies put forth by unprincipled men, in fleeting advertisements. But, what a pity it is that the deception used by others should be the means of disabusing many labouring under disease, from making trial and being cured by your excellent remedies. Humanity, speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition; but began to experience the good effects in less than three days; and, in six weeks from the time I purchased the Medicines, I was greatly improved in health, and have increased fifteen pounds in weight, having taken one box of the Pills and two bottles of the Wine. Would to God that every sufferer, or would himself of the same malady, as I

Yours, Sir, JAMES WILSON.

Dr. David Martin, celebrated Practitioner of New York, declared publicly, that one bottle of Halsey's Forest Wine contained more virtues than 7 of the large bottles of Sarsaparilla. Mr. A. Lanman & Co., the largest and most respectable Druggists in Syracuse, in a letter, says: From what they have heard and seen of the Forest Wine, it is an excellent and good medicine, and will, undoubtedly, become the leading Medicine of the day.—Dr. Mott, of New York, also remarks in the virtues of Halsey's Forest Wine, by recommending it to many of his Patients.

☞ Seventeen hundred Certificates from Physicians, Clergymen, and individuals of known responsibility, have been given, testifying to the great cures made by "Dr. Halsey's Forest Wine and Pills." Among them is the cure of Mr. John Syms, of 535 Pearl Street, New York, cured of Affection of the Liver and bad Cough, after having been given over by his Physicians, who pronounced his case incurable. Consumption.—A child of Mr. William Bowers, Stanfordville, New York, who had been decidedly afflicted with Scrofula, of four years standing, and which had become so much of a Consumption, that it was thought incurable, was cured by J. Bowers, daughter of the Rev. James R. Bowers, of Disease of the Heart and Incipient Consumption. Others of Jaundice, others of Piles, others of General Debility, others of Gravel, Female Complaints, &c., &c.

DR. LA'MERT

ON THE INFIRMITIES OF YOUTH AND MATURITY.

Just Published, 40th Edition, and may be had *in* Vacuo, and in English, in Sealed Envelope, 2s. 6d. Sterling,

SELF-PRESERVATION;

A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and DISORDERS OF YOUTH AND MATURITY, usually acquired at an early period of life, which enervate the physical and mental powers, diminish and embitter the natural feelings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from these causes, close study, or the Influence of Tropical climates; Local and Constitutional Weakness, Syphilis, and all Diseases and Derangements resulting from Indiscretion—with Forty Colored Engravings, illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and functions, and the various injuries that are produced in them.

BY SAMUEL LA'MERT, M. D.,
No. 27, BEDFORD SQUARE, LONDON,
Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

Marriage requires the fulfilment of several conditions, in order that it may be duly realized and mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised, and its true source in every instance disclosed, how many could it be traced to physical disqualifications and their attendant disappointments. Diseases are alluded to, which are too gross, which, when neglected in early life, or brought with advantage, become, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers.

The particular treatises on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame than any other disease which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and their relative conditions in health and disease. Not are these the sole contents of the work; the means of escape, as well as the nature of the dangers, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical constitution of which every man should be conversant. It unfortunately happens, that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their inevitable consequences, invariably entertains a fear of applying to a qualified physician for relief. Shame and the dread of exposure, but erroneously, misconceived, that these complaints are beyond the reach of art, alike restrain him, and prevent his seeking for assistance where alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and honorable Physician, and the medical man, who can show by his possession of the requisite legal qualification, that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. DR. LA'MERT has obtained the highest medical honours, as his diplomas testify, and the great extent of his practice for many years, is a sure guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in Montreal, of JOHN McCOY; in St. Johns, of H. CHURS & Co., price 2s. 6d., Sterling; Halifax, Messrs. MORTON & Co.; Quebec, Mr. NEILSON.

IMPORTANT TESTIMONIALS.

Copy of a letter from "COLONEL HAWKER," (the well known Author on "GUNS & SHOOTING,") Longparish House, near Whitchurch, Hants, October 31st, 1848.

SIR,—I cannot resist informing you of the extraordinary effect that I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, that denied all rest had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs.

I am, Sir, your humble servant,

LIVERPOOL, 6, Bold Place, Jan. 26, 1849.

MY DEAR SIR,—I have great pleasure in informing you that my wife has received great benefit from the use of Keating's Cough Lozenges; you remember her a third time same. Freedom to this she has been troubled with a severe cough, and was under some of our first medical men here without experiencing any relief; however, Keating's Lozenges have done wonders.

With regards, believe me, your's faithfully,

RESTORATION OF VOICE BY KEATING'S COUGH LOZENGES.

GLASGOW, 12th January, 1847.

SIR,—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe cold from riding two or three miles, one very wet night, which settled in my lungs, and quite took away my voice; in that I could speak but in a whisper from that time until December last. I tried all kinds of medicines, but they were of no avail. I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 9d. tin, my voice, to my great joy, came back as strong as ever.

I am, Sir, your's respectfully,
JAMES MARTIN.

WONDERFUL EFFECTS OF RADWAY'S READY RELIEF, *FOR CURING DIARRHŒA.*

JAS. STEWART, at Head Quarters, Beauscours Street, has been complaining of Diarrhœa for several days. On Thursday, the 12th instant, he was quite unwell; had constant Diarrhœa upon him; felt pain in the region of the Stomach; Heartburn, Cold Chills, Sick, Drowsy, Mopish, Low Spirits, and Sleepy. He was recommended to take a few drops of RADWAY'S READY RELIEF—he took 20 drops—it instantly operated like a charm. In an instant the pain gone, no Cold Chills and Heaviness, Drowsiness and Torpor, gave place to a genial warmth of the system, and a happy flow of spirits.

IN FIVE MINUTES HE DANCED A JIG.

For he was completely cured.

Let all who suffer pain in any form, whether it be RHEUMATISM or DIARRHŒA, PAINS in the BOWELS or the BOWELS, CRAMPS, SPASMS, STRAINS or SPRAINS, Weakness, SOUR STOMACH, HEART BURN, SWELLINGS, HEAD ACHE, TIC DOLOREUX, TOOTH ACHE, Salt Rheum, Ring Worm, Rash or Tetter, use Radway's Ready Relief, either externally or internally, and we will warrant them a safe, speedy and effectual cure.

I certify that the above statement is correct.
W. L. STEWART.

I saw the said James Stewart take Radway's Ready Relief, and witnessed the remarkable effects it had upon him.

MINERAL WATERS OF POINT DU JOUR, PARISH OF L'ASSOMPTION.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest excess in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:

R. Evq de Kingston,	A. Nelson, M. D.,
Jos. M. Belanger, Ptr.,	J. B. Meilleur, M. D.,
P. C. A. Munro, at. D.,	A. E. Regnier, M. D.,
Amable Simard, M. D.,	A. Rollin, M. D.,
L. G. Casseneuve, M.D.,	C. Sabourin, M. D.,
E. H. Trudel, M. D.,	F. L. Genand, M. D.,
W. Nelson, M. D.,	F. H. Latour, M. D.,
R. L. Macdonnell, M.D.,	T. Ed'Orsonnens, MD.
G. B. Bibaud, M. D.,	Dr. Durion.

Persons who have not received the little volume containing these certificates at length, can obtain it at the Depots, where the Waters are Sold; by reading it, they will be convinced that they have effected wonderful cures in various cases, and that they have been found superior to all others.

RIVIERE DES PRAIRIES, March 1, 1850.

SIR,—Since you are desirous to ascertain the effect which the Waters of the Point du Jour Springs have produced on myself, I must inform you, that I have used them moderately for their Bowels, and have found them highly elaborant. I was at the time so affected by the consequences of a severe disease of the Digestive Organs that my Physician judged it right to resort for a time to active remedies, even for the repression of Dysentery and an absolute Retention of the Bowels, under both of which I was suffering severely. I be prescribed for my relief the Mineral Waters, and I made use of those of the Point du Jour, as being the nearest. I was at the time so weak, that it was with difficulty I kept my feet. However, at the expiration of three weeks, I was removed by being the Waters. These Waters are of a gaseous nature, containing a large quantity of saline particles, and agreeable to the taste—taken in a large dose they are strongly aperitive, but their powerful action is counteracted with glutinous substances, which have been using them, have not been weakened or enervated in their constitution in consequence; upon the contrary, by using them during the 10 days, I have gained in strength, and in the most fragrant and delicious article to be found at the toilet of Ladies.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

Latest from Toronto.

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends the employment of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to convince their general use by all classes of our citizens:—

Remedial means, or matters professing to be such, and depending for their employment upon the extraordinary effects of the circulation of laudatory advertisements, and the amount of money consequently paid by their proprietors for these, have at no time, since we undertook the management of a Journal intended solely for the advancement of medical science, found favor in our eyes. We hate them. We have always adhered to the old maxim, "No puffs, gentlemen." We have always thought, that we duly more convinced of the truthfulness and correctness of our opinions, that all the world who never heard of our puffs (or medicines), mistrusted it all not—aye, half the women are—are unable to make themselves masters of the science of medicine; and it must be admitted, that it is only upon a foundation, there can be no more precious. Not that we would dare to question the qualifications of all its honour, perhaps, even, scientific practitioners of the Healing Art—far from it; but we know that different gifts have been assigned to different individuals, from the foundation of our world, and that our state is consequently dependent upon another for its comfort and enjoyment—the rich and poor, the educated and illiterate, the possessors of science and the simple mechanic—so we hold, that the public should be divided, under God, in the care, health and preservation of health, by men who have means, and courage to give, the best energies of their mind to this particular study. It is under impressions of this kind that we direct the attention of our professional brethren to the advertisement of Mr. Boole, of Boston, in this paper, in connection with our personal friendship in this city, which we claim, from time to time, to promulgate, in filling cases, the Plantagenet Water, derived from a spring on that gentleman's property, in the Ottawa District. We feel bound to say, we have been informed in the daily newspapers of this city, our own has appeared among the number of the Waters, which have attracted the attention of the proprietors of the Water to the most attentive of the professional men in Canada and the United States. Mr. Boole, in his advertisement, has not, perhaps, been the boy of its appearance and medical merits. We are informed that the proprietors has made arrangements for supplying, during the forthcoming season, the Plantagenet Water, at the principal towns of Canada, Upper and Lower Canada, by the agency of commercial agents and the employment of proper agents.

These waters are to be had only from the Agent, A. MANN, at the Depot 4, Place d'Armes, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Barnes, St. Paul Street; and at the principal Hotels in the City.

A fresh supply of the above Waters have just been received, and for sale by the above Agents.

URQUHART'S CONCENTRATED COMPOUND DECOCTION, OR FLUID EXTRACT OF JAMAICA SARSAPARILLA,

An object long desired by the Pharmacopœa of London College of Physicians.

PREPARED BY
ALEXANDER URQUHART,
AT THE
Medical Hall, 7, Great St. James' Street.

THIS Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has invariably proved beneficial in all those cases in which the Sarsaparilla is prescribed. It is considered by Physicians of the present day the very best Medicine for the purpose, and has been used in all the hospitals and asylums of Europe. In Chronic Rheumatism, the most marked effects have been produced by the use of Sarsaparilla; and its continued use is often attended with improvement of the appetite and digestion, increase of strength, the production of a more healthy state of mind, and the cutaneous, or, in some cases, complete disappearance of various morbid symptoms, such as Eruptions, Ulcers, Pains in the Joints and Limbs, &c., &c.

Dr. McCulloch, Connell, McDonald, and Fraser, who have extensively used it in their practice, have kindly furnished the Proprietor with the following Certificates:—

ALEX. URQUHART, Esq.:—DEAR SIR,—I have much pleasure in bearing testimony in the fullest manner in which you prepare your Fluid Extract of the Compound Decoction of Sarsaparilla. This I am enabled to do, on account of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism, I have prescribed it with the most marked effects; I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities for which it is recommended.—I remain, Dear Sir, Yours, W. FRASER, M.D.,

Lecturer on Medical Jurisprudence, McGill College, Montreal, 8th February, 1847.

MONTREAL, February 10th, 1847.

I hog to certify, that I have employed very extensively, the "Fluid Extract of Sarsaparilla," made by Mr. Urquhart, in all those diseases in which this Medicine is usually prescribed, and that I have found it a most valuable preparation. I can, moreover, state, from personal investigation, that the Proprietor employs none but the purest ingredients, and bestows the greatest care and attention upon the mode of preparing this remedy.

ROBERT MCDONNELL, M. D.,
Lecturer Institutes of Medicine, McGill College,
Physician to the Montreal General Hospital.

Mr. Urquhart's Sarsaparilla is the only preparation of this valuable Medicine that I can, with entire confidence, recommend to my patients. R. MCCULLOCH, M. D.

Montreal, 10th February, 1847.

DEAR SIR,—I have frequently prescribed your Fluid Extract of Sarsaparilla, and I have no hesitation in recommending it as a very elegant and convenient form for administering that Medicine. Yours, very truly,

ELEGANT AND INVALUABLE ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,

FOR RESTORING, PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar men.

BOSTON, Feb. 15, 1847.

MR. WM. BOGLE,—SIR,—The preparation invented by you for the hair, has been extensively used in my family, and they give it a decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are too frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, which, when used by the natives of that country for washing, and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the effect of softening the stiffening effects on the skin, and soothe and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in a convenient form for the dressing case or otherwise, for the "rough and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Seaman F. Barrett, Saratoga Street, East Boston.

EAST BOSTON, Feb. 6, 1847.

Mr. William Bogle.—Dear Sir: For several years past my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference. After repeated failures of other so called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow and to the perfect effect. She has used only two bottles and that very irregularly; and she seems to observe and more regular, I am convinced that the growth of the hair would have been considerable. I am, Sir, yours respectfully, SEAMEN F. BARRETT.

BOGLE'S HEBEAIONA,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION,

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is a most pleasing effusion to anything like perfection, and is a most refreshing tonic in winter, and in the most fragrant and delicious article to be found at the toilet of Ladies.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

LET THE BEAUTIFUL HAIR TREE.

From Edward Bentley, Esq., of St. John, South side Pleasant Road, St. John.

Montreal, June 18, 1847.

Dear Sir: Having for some time past used your Hair Restorative, and the same being approved by you, and having found it the most agreeable application for the hair, in my estimation, and, indeed, the Ladies, I feel it a pleasure, as well as a duty, to offer you my testimonial of the same, as well as to state, that having gone to the trouble of it but may be best to you.

The gentle and long time Added and improved speedily to the hair, which they have proved to be an injury. But the article you have prepared, I find to be perfectly free from all such injurious effects, and, in addition, it is a most agreeable dressing, and, I believe, it is the best article I do, I am, dear sir, very respectfully, Your obedient servant,
EDWARD BENTLEY.

COFFEE, which makes the politicians wise,
And sees thro' all things with his half shut eyes.

THE VALUABLE PREPARATION OF COFFEE.—Lord Bacon says, "Coffee is a drink, and a kind of food, such as the Turks have, which is thick, strong, and hot; it is much used in the Eastern parts, and is called Coffee; it is said to be a good stomachic, and to make men watchful and lightsome, and nothing can be more refreshing to the mind when one is sad, or the heart of man." Knowing that the important qualities described in the above quotations are contained in Black Coffee, it is then of paramount importance to the public of Canada to know where they can obtain the article in the most pure and most prepared state, and we therefore can be accurate that in procuring the ESSENCE of COFFEE in the highest state of perfection, the Berry must be carefully selected and ground. SAMUEL COCHRAN begs to direct the attention of the Public to the process adopted by him in the Roasting and Grinding of Coffee.

S. C. Begs to Offer Its Coffee by Steam, by which is acquired a deodorization which before was much needed by the Coffee drinker. No taint from smoke; a perfect extraction of resin; a powerful aroma; and, in fine, a cup of Coffee, combining the concentrated essence of this process, the entire preservation of the AROMA, in which the strength, fragrance, and flavour of the Berry are concentrated.

TO THE LADIES.

THE GENUINE BALM OF COLUMBIA FOR RESTORING THE HAIR.

"Long hair is a glory to women," says Paul,
And all feel the truth of the pious quotation;
Preserve it then, ladies—your glory may fall,
Unless you protect it with this preparation.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectation. Many, who have used it, have had the hair restored to its original perfection by the use of this balm. Age, state, or condition, appears to be no obstacle whatever; it alone cannot fail to grow with which it has been used. Many, who have lost their hair, by which most thousands (whose hair was gray as the Antarctic ought) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most grateful and cooling dressing. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and at a price far less than other so-called hair restoratives, and is more effectual.

☞ CAUTION.—Never buy it unless you find the name of Comstock & Co., Proprietors, on the wrapper of each bottle, or you are sure to be deceived in the article.

CONNELL'S MAGICAL PAIN EXTRACTOR!!!

THE WORLD'S WONDER—PRONOUNCED SO BY ALL WHO HAVE EVER USED IT.

White Swellings, Inflammation, Pain in the Back, Weak Limbs, Tender or Sore Feet, Chilblains, Frost Bites, are speedily and permanently cured by Connell's "Magical Pain Extractor" Affections of the Lungs, Ague in the Face, Breast, Tic Doloureux, Chronic Sore Eyes, Blistered Burnings, Bruises, &c. It is equally beneficial in all kinds of Internal Inflammatory Diseases, such as Sore Nipples and Eyes, Sprains, Rheumatism, White Swelling and Ulcers, Bruises, Burns, Chilblains, Erysipelas, Blood, &c., and quickly relieves the Pain in Toothache, Earache, &c.

This remarkable causative possesses many virtues never found in any other article. It has the most perfect power over all pains by fire, positively abating the irritation almost immediately, on the application of any distinct above the extremity, we would earnestly invite them to call and examine the numerous unsolicited testimonies of remarkable cures wrought by the following liberal terms, to wit:—If the user was not perfectly satisfied, and even delighted with its effects, and furthermore, if it did not fully answer the recommendations, the Proprietor would refund the money immediately at their request. On these terms this absolute best—if is now sold; and we simply ask if the public can demand anything more reasonable? Kind patent, keep it concealed from the world, it is too good for the world, it may be lost without it; but by its use, all home are enabled to be happily offenceless a combination.

The fact operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened faeces which collect in the convolutions of the small intestine. Other cathartics only partially cleanse these, and leave some collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhœa with its imminent danger. The fact is well known to all regular anatomists who examine the human bowels after death; and hence the production of these well-informed men against the medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the Kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its colour from the agency of the liver and lungs, becomes pure, it passes into the heart, being thus purified by the lungs, and nourished by food coming from a clean stomach, courses freely through the veins, renews every portion of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be safe and effectual:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acid kind.

FLATULENCY, *Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within three days.

Diarrhœa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough cleanse of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing febrile inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and have never been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowels the slimy matter in which these creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which on slight colds will accumulate, and which, if not removed, hardened, and produces fatal dreadful diseases.

Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDICINES give to the blood, and all the human.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the blood and food the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effectually, entire, and permanently, remove the hardened faeces which collect in the convolutions of the small intestine. Other cathartics only partially cleanse these, and leave some collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhœa with its imminent danger. The fact is well known to all regular anatomists who examine the human bowels after death; and hence the production of these well-informed men against the medicines of the age.
