MOFFAT'S Life Pills and Phœnix Bitters.

These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and wonderful powers of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the destitute resources of the day had utterly failed; and in many thousands they have restored, without risk, life itself is but a partial blessing. So great, indeed, has their efficacy been, and so constantly proved, that it has appeared amply less than estimation, to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was in their manifest and sensible action in purifying the springs and channels of life, and enabling them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pretentious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse them, and leave such collected masses behind to produce habitual Costiveness, with all its train of evils—sudden Diarrhœa, with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes to the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible:

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; **FLATULENCY**, *Loss of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

Diarrhœa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure **RHEUMATISM** permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most beneficially on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one *dose*, or by two even in the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. His however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility, Loss of Appetite, and Disease of Females, are beneficial results in cases of this description:—KING'S EVIL, and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.

Several have lately been discovered, and their nefarious authors arrested, both in the city of New York and abroad.

PLANTAGENET WATER.

Among the objects of attraction at the late Industrial Fair, the celebrated Plantagenet Water held a conspicuous position, and its exhibitor was crowded, we learn, with the most favorable testimonials. The demand at the Depot for this health-inspiring draught, was so great that it was with great difficulty strangers and visitors to the City could be supplied. The celebrity of these Mineral Springs has been so thoroughly and satisfactorily established, that testimony of the most valuable character seems daily accumulating. The highly respectable certificates given in our paper of to-day will, if possible, increase their reputation and add to their value throughout the Province. The testimony of the medical gentlemen is certainly highly favorable to the character and quality of these Springs—Drs. Nelson and Gibb placing them above all other Mineral waters, only with this Continent:—

"I believe I was one of the first Practitioners of this city who recommended the use of the Plantagenet Spring Water, and since that time I have prescribed it to a very large number of my patients with invariable advantage.

"Two members of my family, of feeble and delicate constitution, have derived marked benefit from the use of the Water. One had nearly lost all power in the right arm, the result of a severe and prolonged attack of Rheumatism; the other was excessively debilitated from derangement of the digestive and alimentary organs.

"The administration of the Water is attended with the happiest result in constipation, arising from sedentary habits, and in aged persons.

"In heartburn, morning sickness, and the other complaints to which women are subject under certain circumstances, it acts most agreeably and effectually, but in these derangements, as well as in every other in over action of the kidneys and bowels, it should be taken in smaller quantities at a time, but more frequently.

"From an extensive experience I am well satisfied will be found the most pleasant wash that can be used.—A few applications only are necessary to keep the hair quite palatable, and I doubt it preferable to any other of the Mineral Waters I am acquainted with. I look upon many of the Mineral Waters as a great boon conferred by Providence on mankind.

"WM. NELSON, M. D., V. R. C.,
"Phy. & Sur., Canada East."

"Many months experience in the use of the Plantagenet Waters in my practice have fully convinced me of their value as a remedial agent, and I have not had reason to use any single occasion to regret their use. I find they seldom disagree with the stomach, and always act as a gentle aperient and alterative, and, from their composition, they possess, in addition, decidedly tonic properties.

"Certainly, too much has not been said in their favor, for they are, probably, the most valuable Waters on this Continent.

"GEORGE D. GIBB, M. D.,
"Licentiate Royal College of Surgeons, Ireland,
"Physician to the Montreal Dispensary.

"Montreal, 5th August, 1850."

The following certificate is from the Hon. Peter McGill, a Member of the Legislative Council of the Province, and President of the Bank of Montreal:—

"CHARLES LAROCQUE, Esq.

"SIR,—Having during the year past used the Plantagenet Water, so well known and highly commended to public favor by many of our most eminent Medical Practitioners, I can bear testimony to its salutary effects on my own immediate health, and doubt not its efficacy in contributing to strengthen and invigorate the constitution of those who may freely use it. The value of this water has been generally acknowledged in this community, and my own experience of its excellent qualities fully warrants me in giving my testimony to its beneficial effects.

"PETER MCGILL.

OVERWHELMING TESTIMONIES

OVER HALF A MILLION OF TESTIMONIES have been received by the proprietors of

M'ALLISTER'S ALL-HEALING OINTMENT,

From Physicians the most skilful and celebrated, from Counsellors learned in the law, from Judges of celebrity on the Bench, from Ministers of the Gospel, whose unblemished integrity have made them shining lights in the path of Truth, from enlightened Professors, from acute Merchants, and from those of every station, name and degree among mankind—all of whom, without one dissenting objection, pronounce this Ointment to be INFALLIBLE in the cure of Tumors, Ulcers, Sores, Burns, Tetter, Piles, Scrofula, Erysipelas, Chilblains, Scald Head, Sore Eyes, Quinsy, Croup, Rheumatism, Broken Breast, Ague in the Face, Corns, &c. It completely restores the INSENSIBLE PERSPIRATION, and by this means opens those avenues by which nature intended to expel the morbid matter of the body—thus is the system cleansed, the blood purified, and the health restored.

It has power to cause all external Sores, Scrofulous Humors, Skin Diseases, and Contaminous Wounds, to discharge their putrid matter, and then heal them, and will certainly be found to be efficient and certain.

often without any warning attacks at certain intervals, and is as constantly essentially in the ... may be characterized, the smaller joints of the hands or feet; most commonly of the great toe, which is attended with fever, and lasting minutes with redness and swelling of the part. A state of general indisposition, especially various dyspeptic symptoms, preceded the local affections, and by those who have had two or three previous attacks, this indisposition is looked upon as the pioneer of a paroxysm of the disease.

Gout is generally connected with an hereditary predisposition, and is scarcely ever met with except among persons in the higher and middle ranks of life, and for the most part, when not hereditary, may be clearly traced to habits of luxury and self-indulgence; consequently it never attacks the poor, except such poor illiterate characters as take little exercise, whilst a considerable proportion of the rich are more or less subject to it.

We would advise all those who are afflicted with this most distressing complaint to procure a bottle of Dr. Sherwood's Galvanic Embrocation, and be cured. *It never fails.*—*See Advertisement.* 226
