ONE THING AT A TIME.

Cataract People Should Keep Faith Before Asking New Deal.

St. Catharines, Aug. 4.—Referring to the Cataract Power application for a 50-year franchise from the city, The Journal takes the company to task for its failure to carry out its part of the bargain made two years ago. The Journal says: "And this" (namely, John Patterson's interview with The Hamilton Herald, quibbling over the terms of its application) raises the further question, what have they done with regard to past promises? They got control of the city's water supply two years ago—thanks to Mayor Burgoyne and 'the organ' and one of the conditions was that they were to get the city from the Dominion government an extended franchise for 63 years. They have not done this; they have not tried to do it. When the matter is brought to their attention they assume the Pecksniffian attitude of 'Bless you, my children, bless you, we would do it if we could.'

"We suggest to the Power Company that they give their immediate attention to the extension of this water franchise first and then they will be in a better position to ask further favors from the city.

"With regard to the extension now asked for we hold that there is no necessity for any action just now. The present franchise has a few years to run and before they are up the condition of things in the electrical world may be materially changed. This is a fact so elementary that even The Standard can understand it.

"We hold further that on no consideration whatever should a fifty-year franchise be granted. Let the city council during the next fifteen or eighteen months find out the conditions in other cities, examine carefully the dealings of the Cataract Power Company with other municipalities and see what other companies are likely to have electric power to sell. Give the government commission that is dealing with this electrical condition time to prepare a report. The Cataract Power Company may talk lovely about mutual interests, but they are not in business for their health's or conscience's sake. Hasten slowly in this matter, gentlemen of the city council."

$2.45 Kingston and Return.

An opportunity to visit Kingston, the Limestone City, one of the most beautiful cities on Lake Ontario, which, with its many objects of interest and beautiful surroundings, is an ideal spot for an outing, will be afforded citizens of Toronto on Aug. 7, when the Canadian Pacific will issue round trip tickets at $2.45, good going on train leaving at 9.15 a.m. only, Aug. 7, returning any regular train up to Aug. 8. For tickets and full information call at city ticket office, 1 East King-street, phone Main 148.

Cheap Trips for Civic Holiday.

For Civic Holiday the Canadian Pacific will issue return tickets at single fare, good going Aug. 5, 6 and 7, good to return up to Aug. 8, from Toronto. Following are a few of the important points to which tickets will be sold: Peterboro $2.30, Ottawa $7.85, Montreal $10, Hamilton $1.20, London $3.40, Chatham $5.30, Detroit $6.60, Orangeville $1.50, Guelph $1.50, Owen Sound $3.65, Preston Springs $1.75, Berlin $1.95, Lindsay $2.05, Bobcaygeon $2.55. For further information, tickets, etc., call at city ticket office, 1 East King-street.

Jealous Husband's Act.

Essex, Aug. 4. — James Anchor, a farmer in Malden Township, has been sent to Sandwich jail to await trial on the charge of a murderous assault upon his wife. His mind is believed to be affected by jealousy.

Wasn't the "Plummer."

Kingston, Aug. 4—The steamer Pellatt, not the Plummer, is leaking so badly that the vessel will have to go into dry dock. Enough cargo was removed to pull her off the shoal.

INVITE BRITISH PARLIAMENT.

Ames, M.P., Has a Scheme to Advertise Canada.

St. John, Aug. 4.—H. B. Ames, M.P., of Montreal, who is here concluding his tour studying transportation problems, says he would like many western representatives to come and visit the east. He has bigger hopes than that.

"What I am working to bring about," he said, "is this. As soon as the British elections are held and a new house is fixed for another four or five years, I think the Dominion government should extend to the British parliament an invitation to come out and make some kind of a complete tour thru Canada.

"While it cannot be expected that all can come, there seems no good reason why a good-sized deputation might not find it possible. The Ottawa people are favorable to the scheme, and when on a recent trip across I was assured by many members of the British house that if such an official invitation were to be extended if would gladly be accepted."

ROUND THE WORLD.

Facts About the Routes—The Canadian Pacific Railway—The Pioneers.

Few great corporations have shown a shrewder appreciation of human nature than has the Canadian Pacific Railway Company, and not the least shrewd of its perceptions was the idea of pushing Round-the-World tours. People journeyed round the world before ever the C.P.R. came into existence, as, in fact, there were comfortable steamers traversing the north Pacific before the now familiar "Empresses" took up their station at Vancouver to replace the late Sir William Pearce's old liners. But launching oneself into space on one side of the globe and returning on the other was still at that time regarded as a somewhat serious business. In short, the public had not been educated in the subject. Then the C.P.R. came upon the scene. With a boldness justified in the importance of the other C.P.R. interests Round-the-World travel over its system tended to promote, the company advertised its tours of this kind in a handsome manner, and handled the traffic with so much skill and care that before people had realized the change, it came to be accepted that somehow thanks to the C.P.R., it is possible to travel round the globe and see most of the places worth seeing in comfort and safety for a comparatively small sum of money.

Without dwelling needlessly upon the real and imaginary advantages of going Round-the-World, over going halfway round and back again—the virtual doubling of the opportunities for seeing new sights and having new experiences, and the satisfaction of being able to proclaim oneself a fully fledged traveler—it is a fact which any passenger agent will confirm, that the issuing of a return ticket to the east is becoming more and more the exception, while Round-the-World business is always on the increase.

Owen Sound Excursion.

On Aug. 5 special excursion will be run to Owen Sound via Canadian Pacific. Tickets will be issued at a rate of $1.75 for the round trip, good going on train leaving Toronto at 8.25 a.m., good to return on any train up to Monday, Aug. 7. For further particulars call at city ticket office, 1 East King-street. Phone Main 148.

Bones to Rest in France.

Berlin, Aug. 4.—The French government some time ago expressed a wish that the bones of French soldiers who died while prisoners during the Franco-Prussian war should be returned to France. Emperor William has ordered that this be done, and that military honors shall be rendered in every instance during the transfer.

FREE TO MEN

Until Robust Health, Strength and Vigor Is Regained.

Perfect Manhood, The man of courage, of strong heart, iron nerves, good health, self-confidence and undaunted energy. The embodiment of success, popular in every walk of life, respected and esteemed by all. Such is the manly man.

For forty years I have been making strong, vigorous men out of the puniest weaklings. A man comes to me weak, nervous, despondent and discouraged; with Drains, Losses, Impotency, Varicocele, Rheumatism, Lame Back, Kidney or Stomach Troubles. I give him my world-famed Dr. Sanden Electric Belt, with suspensory, absolutely free, to use for two months. Mind you, not one penny in advance or on deposit. A few nights' use convinces him that he has found the right remedy. It fills him with new life, joy, vigor, and strength, and at the end of the time he is only too glad to pay me for the Belt and to recommend it to his friends.

This is the way I cure men. This is the way thousands every year regain their lost strength, without the slightest risk to themselves, for if I fail it costs you nothing whatever. You pay me only when cured, and in many cases the cost is only $5.00; or, if you want to pay cash, full wholesale discount.

My great success has brought forth many imitations of my Belt, but my great knowledge, gained by forty years' experience, to guide and advise my patients, is mine alone, and is given freely with the Belt. Be sure you get the genuine.

Call to-day and take a Belt along. Or send for one and my two books on Electricity and its medical uses, which I send free, sealed, by mail.

ATTEMPT TO BLOW UP SHIP FRUSTRATED ON THE OCEAN

Dozen Capped Fuses Found in Hold of Coal Laden Ship From Swansea.

San Francisco, Aug. 4.—An attempt to blow up a ship in mid-ocean has been reported by Capt. C. Touze of the French ship Asnieres, which has arrived here from Swansea, England, loaded with coal. He left that port in January last, and six weeks later, when far out at sea, a dozen capped fuses, such as are used by miners to explode charges of dynamite, were discovered in the hold of the ship among the coal. Had one of the fuses become ignited by a shock in a part of the hold where coal gas had accumulated the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas, and consequently no damage was done. The presence of the fuses among the coal was discovered only by accident.

MOTOR BOAT A WORLD BEATER.

Herreshoff Model Makes Better Than 35 Miles an Hour.

Bridgeport, Conn., Aug. 4.—A trial trip just made by a motor boat built from plans of Charles F. Herreshoff at the plant of the American and British Manufacturing Company here is said to have demonstrated that the craft is the fastest ever built. Altho Mr. Herreshoff has declined to give out figures at present, he said the boat was a world beater, and intimated that she made much better time than 35 miles an hour.

The boat is said to have engines of 75 horse-power. She is about 32 feet long, with less than 5 feet beam, and sets very low in the water. She is constructed of aluminum and steel. Much secrecy has been maintained in her construction.

GIVES LIFE FOR OTHERS.

Railway Engineer Sticks to Post and Goes Over Trestle.

New York, Aug. 4.—Engineer Wm. Mooney rolled with his engine down a steep embankment at Bayonne to-day into Newark Bay and was drowned. The engine plunged out of sight into deep water.

A crowded excursion train on the Central Railroad of New Jersey was left marooned, and with passengers panic-stricken, on a trestle above the bay, was saved from the same fatal dive only by a breaking coupling pin, and the bravery of the lost engineer, who went to his death while in the act of setting the emergency brakes.

A BRILLIANT PLAYER.

J. D. A. Tripp of Toronto Conservatory Created Much Enthusiasm at Concert Last Night.

J. D. A. Tripp of the Toronto Conservatory of Music faculty, assisted by Mrs. W. E. Green of this city, gave a very fine concert in Institute Hall last night. A large number were present and the appearance of Mr. Tripp, which was his debut here, proved an exceptional treat to the music-lovers of this city. Mr. Tripp is a teacher of modern pianism, in which role he has been particularly successful. He has the benefit of having studied under the world-famed players, Moszkowski Leschetizky, and other notable musicians. He plays a brilliant style, shows a splendid temperament and in his expression and shading gives a wonderful charm to his music. He is regarded by a number of local musicians as being the best player who has visited the city since Bauer's performance here. Mr. Tripp had to respond several times to the applause accorded. On one occasion a beautiful bouquet was presented him, which little token of appreciation expressed but mildly the enthusiasm created. The Gerhard Heintzman baby grand, one of the finest instruments ever imported, was the piano used.—Victoria Spectator, July 27.

RATE WAR ENDS IN LIBEL SUIT.

H. S. Folger on the Trail of Rival Boatmen.

Kingston, Aug. 4.—A legal suit—alleged criminal libel—has been started by Howard S. Folger, general manager of the Thousand Islands Steamship Co., against Walter L. Visgar, manager of the Captain Visgar Steamboat Line, and George W. Cooper of Syracuse and Thousand Island Park, asking damages for literature alleged to have been issued and circulated by the defendants, which casts reflection, it is claimed, upon the safety of the vessels of the Thousand Islands Steamboat Co. and their fitness for public service. The suit is the result of a rate war which has been raging on the river during the past two weeks.

Satisfied With Conviction.

Oswego, N.Y., Aug. 4.—Henry W. Manser, convicted of the murder of Cora Sweet, was to-day sentenced by Justice Wright to be electrocuted in Auburn Prison the week of Sept. 10. Manser, who has expressed satisfaction at his conviction, requested his attorney not to take an appeal to the court of appeals.

French-Russian Treaty.

Paris, Aug. 4.—The French and Russian governments have settled the terms of the new treaty of commerce by which France agrees not to increase the existing duties affecting Russian articles, and also not to tax merchandise now entering free, while Russia modifies the duties on French wines, spirits, perfumes and numerous agricultural and commercial products.

Homestead Entries.

Ottawa, Aug. 4—The homestead entries for July show an increase of 710 over July, 1904. The entries for the past month were 3729, against 3019 for July last year. The largest increase was at Regina, where the number rose from 743 to 1110. Battleford came next with 622, against 277 in July, 1904. There with an increase at Alameda of 104, of 56 at Calgary, 148 at Red Deer. There were increases at Yorkton, Lethbridge and Edmonton, and Prince Albert remained about the same, with 236 entries. The year promises to be a record breaker.

SAFE-LOCK SHINGLES

make a perfect roofing for HOUSES, BARNS, STORES, etc. Weather-proof, ornamental, lasting in quality, protect from fire and lightning.

If people would realize the danger in using wooden shingles, and making fire-traps of their buildings, they would use exclusively Galvanized "SAFE-LOCK" Shingles. They are easily applied; add to the handsome appearance of any building; keep rainwater clean, as no dust adheres to them; should easily last fifty years, without any painting or attention, as they have no parts to get out of repair, and interlock each other on all four sides. *They protect from lightning,* and give their owners a contented mind, which makes up for the difference in first cost as compared with wooden shingles. In the long run they are the cheapest roofing sold.

Send us rafter length and width, for estimate, and we will make you an interesting proposition. Catalogues mailed free and samples sent by express, you paying the express charges, which will be allowed on first purchase.

A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientists for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among the—by no means—least important discoveries in medicine comes that of

THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, Maisonneuve, the well-known Chassaignac, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand, and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has like the famed philosopher's stone) been the object of search of some hopeful, generous minds; and far beyond the mere power if such could ever have been discovered—of transmuting the baser metals into gold is surely the discovery of a remedy so potent as to replenish the failing energies of the confirmed *roué* in the one case, and in the other so effectually, speedily and safely to expel from the system without the aid, or even the knowledge, of a second party, the poisons of acquired or inherited disease in all their protean forms as to leave no taint or trace behind. Such is

THE NEW FRENCH REMEDY

THERAPION,

which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. Therapion may be obtained of the principal chemists and merchants throughout the world.—*Diamond Fields Advertiser,* KIMBERLEY.

$640 IN TAIL OF HIS SHIRT RESCUED FROM THE LAUNDRY

Detroit Travelling Man Has an Exciting Experience, But Gets His Money Back.

Detroit, Aug. 4.—Securely wrapped up in the tail of one of its owner's finest shirts, a roll of $640 in bills tried to get itself sterilized and freed from all possible taint in the boiling vats at the Parisian laundry this morning, while John W. McKay, 47 Madison-avenue, whose initials were marked on the garment, hustled to get it out of soak in time to save the money.

"I had been carrying the money loose in the tray of my trunk the last few days," said McKay, who is a traveling man. "When I started on my last trip to Detroit, I just rolled the money into a piece of cloth sticking out of the tray, tied a knot in the cloth and let it go at that.

"Yesterday afternoon, I sent my laundry over to the Parisian. This morning I missed the money. I hunted high and low for half an hour, the conviction growing, meanwhile, that my trunk had been rifled of the roll. Suddenly, there flashed in my mind a picture of the piece of cloth I had tied it in; the cloth was a shirt pattern; I was on the trail of the tail of that shirt in a minute."

A pretty little miss answered sweetly to John's excited questions about a skirt with money in its er—extremity, that the washing had gone in at 7 o'clock, and here it was, let's see, 9.30. Too late. John's face lengthened considerably when the girl added, with seemingly careless air:

"It's in the mangle now."

John W. saw a mirage in the steam of the laundry. He witnessed the cruel fangs of a monster machine tearing the signatures of those precious bits of green paper. He turned, sadly, to leave, and was confronted by the girl, who laughingly held out the roll of bills. John rubbed his eyes; then listened as she told him how she found the roll.

"Here's a V out of it for you," said John to the girl.

AGREEABLE TO FRENCH CANADA.

London Comment on N.Y. Sun's Triple Alliance Scheme.

(Canadian Associated Press Cable.)

London, Aug. 4.—The Evening Standard, in an editorial on the proposed alliance between Great Britain, France and the United States, says: "It might be supposed that the term 'British' was a stumbling block, for it is or has been our clear impression that not much love was lost between Canada and her neighbor, but we see no reason to fear any insurmountable objection on the part of Canada to such a proposal. On the contrary, it must be agreeable to our French-Canadian colonists, who will see their way to draw nearer to the motherland of their origin without any sacrifice of the advantages of British citizenship, or any loss of their pride and confidence in the might of the British empire, and this is a consideration that may, perhaps, weigh with France."

The privy council has refused the C. P. R. owners of the Empress of India leave to appeal in their suit against the Chinese government. The application was dismissed with costs.

Special leave to appeal in MacNamee v. Kirkpatrick was refused by the privy council this morning.

The appeal is dismissed by the privy council in Central Ontario Railway v. Trust and Guarantee Co., the appellant to pay costs.

PRESENTATIONS MADE

Piano Company's Employes Remember Fellow Workmen.

An interesting event occurred yesterday afternoon at the Palmer Piano Co.' factory, when W. J. Wadsworth, Jr. on behalf of the employes, presented S. S. Sumner with a gold chain and locket. He is leaving the employ of the firm and going into business for himself at Ingersoll. James Brebner, who accompanies M. Suuner to Ingersoll, was presented with a gold-mounted tobacco pipe by Thomas Prince on behalf of his fellow employes. Mr. Sumner and Mr Brebner expressed their appreciation in a few well-chosen words.

MARVELOUS ACTS.

Performed With the Norris & Rowe Greater Circus.

The Norris and Rowe Greater Circus comes to us this season with the proud distinction of being the fourth largest circus in the world. In the series of shows which Norris and Rowe present for the season of 1905, the skill and experience of years, backed by unlimited financial means, have been brought into action for the making of a circus, menagerie and spectacular exhibition that will at once prove of rare delight and educational usefulness to that large portion of the amusement-loving public who have proven such loyal patrons to Norris and Rowe. The gorgeous parade comes first; then an inspection of the huge double menageries; following this are the equestrian feats of the skilled bareback riders, Rose Dockrill, George Holland, Dolly and Frank Miller, Austin King, Mlle. Julien, William Sutton, Joseph Haines and Estelle Settier. Then comes the daring aerial acts of the wonderful Bellford Troupe, consisting of two young women, two young men and two older men; followed by the greatest high silver tight wire act ever presented in any country. It is given by the famous performers, John LaNole, Hugh and Miss Amo Melnotte. A genuine novelty is the Sugimoto Troupe of six performers. They are the first Japanese swordswomen and fencers and are the only troupe of Japanese women performers. The McDonald Bros. of expert bicyclists, the celebrated Gardner Family of aerial bar acrobats; John Lanotte, the breakaway ladder expert; the Victorell trupe of mid-air gymnasts and the Traviolla troupe. These are but a few of the acts, which total in all over a hundred in number. The Norris and Rowe Greater Circus will be exhibited at Toronto four days, beginning Tuesday, Aug. 8.

Big Factory at Haileybury.

Haileybury, Aug. 4—A smallware factory employing about 600 hands is going to locate at Haileybury. Forty acres have been purchased from Mayor Lowlor by the promoter of the firm, Mr. Davidson. The company expect to have their machinery in operation next year. They expect the government to give them a timber limit.
