...ed warmly ...e wholesale ...feel its stimu- ...ve been dron- ...nd while giving ...ers are talking ...Travelers on the ...s to the effect that ...s are being broken ...and that if fine weather ...makes an active sorting season will set in almost immediately. During the week there has been a fair demand for staples, prints taking the lead. Cretonnes are also in demand. A good quantity of linings are going out, evidencing the cutting of dress goods on a liberal scale. The lighter fabrics are also beginning to move—muslins, delainettes, light silks, colored parasols, etc. Prices continue steady for woolens and cottons. In Manchester the feeling in cottons is strong, the mills not yet having overtaken orders for foreign account. Prices are firm for all lines and advances are asked in a number of instances. Local houses are in good shape to do an active trade. Goods have been bought while prices were lower and the retailer can buy at very moderate figures. The recent dulness also has enabled the houses to get their stocks put into first-class condition. Payments have been under the average for the past fortnight, but better remittances are expected at the beginning of next week.

GROCERIES.

A fair trade has been done in groceries this week. Sugar continues to be the strong and also prominent feature of the business. Failure of crops in the cane and beet-growing areas has produced a very strong feeling. In Germany the crop is said to be very badly damaged, and as a consequence now beet sugar has advanced in London from 13s 6d per 112 lbs. to 18s 6d during the past six weeks. The Cuban crop is also reported to be disappointing. Prices in the local market are: Granulated 5¼c per lb; and yellows $4.40 to $5.15 per 100 lbs. Teas are in steady request at unchanged prices. The only distinctive feature in teas is the small quantity of medium and low grade Japans held here. The quantity is steadily getting into smaller compass, and before the new crop arrives it is expected that the local stocks will be exhausted. Coffees are steady at 31½c to 37c for roasted Javas, 28c to 29c for roasted Rios, 28c to 32c for roasted Maracaibos, and 27c to 30c for roasted Jamaicas. Canned goods are steady. Several lots of tomatoes have been exported to Liverpool, which lightens stocks held to some extent. Corn is scarce and higher, and peas unchanged. Corn is now quoted at 90c to $1, and at $1.40 for the honey sweet article. There is no change in dried fruits. In spices the only feature is the firm prices for ginger. Tobaccos and miscellaneous lines are steady and in moderate demand. Payments are fair.

HARDWARE.

The trade for May is opening up unfavorably as compared with that of April. The volume of goods moved during April was, however, much larger than during any month since the first of the year, and largely in excess of that of April, 1892. Just now a moderately large trade is being done in harvest tools, garden tools, dairy supplies, miscellaneous shelf hardware, rope and in builders' supplies. There has been a more than ordinary enquiry for hinges, indicating activity in the erection of farm buildings. Metals are in moderate demand and unchanged in prices. Payments have been more satisfactory during the week than for some time.

BOOTS AND SHOES.

...decided improvement is noticeable in ...d shoes within the past few days. ...ry retailers are asking to have orders ...ready placed billed at once and the goods forwarded, while city dealers have been buying quite freely. Colored goods are mostly in demand. Manufacturers are now working on fall samples. Payments are improving.

LEATHER.

A fair trade is being done in leather, the demand coming principally from Quebec and Montreal manufacturers. Some large orders have been placed during the week for lines of sole leather, and blacks are also in good demand. There is also a better enquiry for harness leather. Prices are unchanged as follows:

Manufacturers' sole No. 1	19c	per lb
" " No. 2	18c	"
" " No. 3	16c	"
...' sole No. 1	24c	"
" " No. 2	22c	"
" " No. 3	20c	"
Slaughter sole, according to selection	22c to 24c	"
Heavy harness, according to selection	25c to 28c	"
Light harness	18c to 21c	"

HIDES AND SKINS.

...tter buying is now being done by tan- ..., who are beginning to take in stocks ...n. Local dealers report the present de- ...d better than at any time since the first ...he year. Calfskins are bringing 9c for ...1 and 7c for No. 2. Sheepskins $1.20 to ...0, according to size and the amount of ...n them; lambskins are quoted at 25c ... Prices paid at country points for ...4c to 4½c, according to condition ... Toronto inspected butchers' hides ...at 4½c for No. 1, 3½c for No 2 ...c for No. 3. Buff selections are ...at 5½c for No. 1, 4½c for No. 2 and ...r No. 3.

WOOL.

The wool trade is quiet, though there are some indications of the opening of the spring trade. A small amount of fleece wool has been received, but it was not of a quality to quote. Within the next three weeks the spring deliveries are expected to commence. Pulled wools are in fair demand. Prices, as follows, are unchanged: Clothing wool, 21c to 22c; combing, 19c to 20c; super, 21c to 22c; extras, 25c to 27c; rejects, 17c; pickings, 9c.

Consumption of Tea.

In Great Britain the consumption of tea increased from 4.68 lbs. per capita in 1879 to 5.43 per head in 1892. This is not the only interesting feature of the trade. In 1879 the consumption in Great Britain of Chinese teas was 126,340,000 lbs., while that of India and Ceylon teas was 34,092,000 lbs. By 1892 a great revolution has been brought about. The consumption of Chinese teas had declined to 34,487,493 lbs., while that of India and Ceylon teas had increased to 172,630,396 lbs.

The Registrar was Right.

The Chancery Court yesterday reversed the judgment of Mr. Justice Robertson in favor of Solicitors Bain, Laidlaw & Kappele against the Registrar of the County of York. The registrar charged the law firm more than they thought, under the statutes, they should pay for an abstract in the mortgage action of Morse v. Lamb. The Inspector of Registry Offices decided in favor of the registrar, but Mr. Justice Robertson reversed his finding. Yesterday the court reinstated the decision of the Inspector.

Box Brown Again Loses.

The Chancery Court has refused to set aside the non-suit in the action brought by "Box" Brown against the trustees of the General Hospital. The plaintiff sustained injuries through a fall, caused by the alleged defective stair of a house in Bright-street, which he rented from the defendants, and sued for $4000 damages.

How to Cure Headache.—Some people suffer untold misery day after day with Headache. There is rest neither day or night until the nerves are all unstrung. The cause is generally a disordered stomach, and a cure can be effected by using Parmelee's Vegetable Pills, containing Mandrake and Dandelion. Mr. Finlay Wark, Lysander, P.Q., writes: "I find Parmelee's Pills a first-class article for Bilious Headache."

Must Abate the Nuisance.

William Park sued Mrs. White of St. Patrick-street, asking for the removal of privy pits as a nuisance. The properties of the plaintiff and defendant adjoin each ..., and Park alleged that the nuisance ...d the renting of his houses. The ... Court holds that the nuisance ...moved.

TOM JENNINGS' JOKE.

That Alleged Scarboro Forgery Case in the Police Court.

At the Police Court yesterday Mr. Thomas H. Jennings appeared to answer charges of having visited several loan companies in Toronto and made applications for loans on a farm in Scarboro, and after the applications had been made out signed the name of James Humphrey, who owns a farm near Woburn, thereto. There was nothing to show that he had made any attempt to obtain any cash from the company and defendant's counsel, Mr. Louis F. Heyd, said the whole thing was simply a practical joke on Mr. Humphrey, whom his client had known for years.

The magistrate dismissed one charge and decided to send the other for trial, bail in $400 being accepted.

The Death of "Tornado Scott."

The Chancery Divisional Court yesterday delivered judgment in the suit of Pearce v. Sheppard. The court ordered a new trial. This is a case from Hamilton in which the plaintiff sues for $500 for damages for negligence of the defendant which resulted in the death of "Tornado Scott." The horse fell into a pit while pasturing on the defendant's land.

TIPS FROM WALL-STREET.

The following was received from Monroe, Miller & Co. over their private wire at their Toronto office:

NEW YORK, May 10.—The Cammack Brothers were the principal buyers of stock yesterday, but withdrew their orders in the final hour, on the circulation of a rumor that two prominent houses which had been helped during Friday's crash had failed to market their holdings on the rally at satisfactory prices. The suspension of any house identified with the bull side of the market, following so closely upon last week's collapse, would create considerable disturbance. The result would be all the more disastrous in the absence of any concerted action to ward off embarrassments among houses that are heavy holders of railway stocks. Further liquidation was disclosed in the opening of the stock market this morning, and it was reported that a prominent bank was closing out collateral in a loan. Distillers was steadier on the denial of the report that the company is hard pushed for ready money. National Cordage was firmer on the intimation that under the re-organization plan it is the intention of the commission, which is to assume the task of opening negotiations for the absorbition of the rival concerns.

Wheat—The local market is feeling the effect of the recent rise in outside markets. Sales of red and white wheat north and west were made freely at 68c to-day. Spring is quoted at 65c and goose at 63c. The outside markets at the close, however, were weak, and it is not likely these prices will hold. No. 2 spring, afloat Montreal before June 10, offered at 78c. Bids were made at 95c for No. 1 hard, North Bay, and at 91c for No. 2 hard; offered to arrive at 92c.

Rye—Wanted outside at 55c.

Peas—Firm, selling at 58c west and 61c on the Midland; offered afloat Montreal at 71c.

Oats—Firm, selling on track at 36½c for mixed and white, and at 33c outside.

Barley—Quiet, and prices unchanged at 35c for feed, 36c for No. 3 extra, 38c for No. 2 and 40c for No. 1.

Buckwheat—Nearly all picked up; worth 47c west and 49c east.

Millfeed—Bran is dull at $12 on track and at $10 at the mills west; shorts steady at $12.50 at the mills west.

Flour—Sales of straight roller, Toronto freights, could be made to-day at $2.90, but holders are asking higher figures and very little business is being done.

GOSSIP FROM CHICAGO.

R. Cochran received the following from Kennett, Hopkins & Co.:

CHICAGO, May 10.—Wheat—There has been a closing up of trades to avoid the risks of being caught by a startling Government report. The trade generally look for a better condition by 3 or 4 points, but many are apprehensive of something fresh and want to be out of market altogether. English advices have not been influential to-day, but continental cables are strong, showing an advance at Paris and Berlin 2c to 3c. Reports from N.W. show rapid progress with the sowing where ground is not too wet to work. Corn and oats—Weather has been about perfect for corn and oats; the market has been influenced thereby. A little steadier feeling prevailed near close, but lower prices are looked for. Provisions lower on sales by prominent holders, who are doing a general scalping business. The trade is dull, but prices are not expected to sell off much.
