The Answer

Because the Farmers' Company is giving satisfaction.

Because the large volume of business it handles enables it to secure for its shippers the highest prices possible.

Because it takes duplicate samples to check the Government grading and prevent mistakes being made.

Because it has a Claims Department to protect the interests of its shippers.

Because the profits left over from the cost of handling the grain go back to the farmers or are spent in their interest.

Because it was started by the farmers, is owned by the farmers, and is run by the farmers; its only object is to secure for the farmers the highest returns for their grain.

Because it has been the means of improving conditions and enabling the farmers to secure more nearly the full value for their grain.

Because what it has done for the farmer in the marketing of his grain it can, if supported, do for him in the marketing of his livestock and other products.
