BROOKLYNITES RIDE TRUCKS AND VANS AS CARS STAND STILL

Strike Cripples Transportation—Only Sixty-One Trains Operate.

NEW YORK, Aug. 30.—With the strike-bound Brooklyn Rapid Transit system only able to operate 61 two-car elevated subway trains and no surface cars at all, great throngs of Brooklynites went home tonight on motor trucks, furniture vans, buses and vehicles of every description. Other thousands walked across the East River bridges, which were a mass of hurrying humanity.

Extra municipal ferryboat service assisted others to cross from Manhattan who otherwise would have been delayed for hours in getting home. Many business concerns sent their employees home in trucks.

No attempt will be made to run surface cars in Brooklyn tomorrow, B. R. T. officials said tonight, but they hoped to have them moving soon with new men.

LIQUOR FOUND IN RAID ON HOTEL AT BRESLAU

Wife of Proprietor Throws Bag Out of Upstairs Window.

GUELPH, Aug. 30.—The result of an unexpected raid made by License Inspector James O'Brien at the Breslau Hotel, the proprietor of the hotel will have to answer a charge under the O. T. A.

Inspector O'Brien organized his little expedition quite hurriedly, and accompanied by Detective Greenaway and Sergt. Morrison of the Guelph police force, motored to Breslau via a back route, the inspector and the two officers slipped into the crowded bar unnoticed, but as soon as the proprietor of the hotel realized that his place was being raided there was great commotion, and the mistress of the house made a hasty retreat upstairs with two of the raiding part close on her heels.

She entered a room and locked the door behind her, but when the officers threatened to break down the door she allowed them to enter, only to find that she had tossed a bag out of the window. In her excitement the woman rushed down stairs again to recover the bag, but before she succeeded in rescuing it one of the officers took it in charge, and an examination found that it contained one sealed bottle of whiskey which had gone through the fall unbroken, and the remnants of the three other bottles which had been smashed to atoms.

Several previous attempts had been made to raid these premises, but without success. A charge of having liquor in a place other than a private dwelling has been laid against the proprietor of the hotel, and he will be brought before Magistrate Blake in the Galt police court this week.

STORM SEWERS STILL MATTER OF DEBATE BY BOARD OF WORKS

Chairman Hill Objects To Fireman Also Being a Bandsman.

LEFT CAR IN COUNTRY

St. Thomas Youth, Alleged Auto Thief, Believed To Be in U. S.

ST. THOMAS, Aug. 30.—The special committee appointed by the board of works to consider the storm sewer proposition had a conference with representatives of the board of health. The board of works is anxious to construct a system on the streets where there is an overflow of water, and under the section the work cannot be proceeded with until the undertaking is concurred in by a vote of the people or charged to frontage where improvements on the street are being made, or the storm sewer is laid down on sanitary grounds. The latter scheme has suggested itself to the committee, and on resolution the whole question was referred to the board of health for action. There were present Aldermen Curtis, Lemon, Penhale, Meehan, Chairman Hookway and J. Lang of the board of health.

Still in Darkness.

The end of Margaret street is still in darkness, although it is some weeks, declared a member of No. 3 committee tonight, since the order was issued to have a light placed in that locality. Chairman Hill read a letter from the hydro-electric commission, excusing the delay on account of the trees and the telephone poles, and the commission also desired someone to designate a site for the lamp. To accommodate the commission, Chairman Hill, the city engineer and Supt. Roberts examined the location and had the obstacles removed, and yet, declared the chairman, that end of the street is still dark.

No Authority To Wire.

The committee objected to the wiring of the fire hall by a local firm to connect with the sprinkler at its place of business without first consulting the municipal authorities. The chief was reprimanded for allowing the wire to be placed in the hall when no permit was issued by the chairman or city official. The chief understood that the merchant had permission, and he did not care to interfere. The committee directed that the wire be not connected until the consent of the chairman or committee is obtained.

Firemen on Other Jobs.

Chairman Hill objected to the men of the fire department being engaged in other occupations while they were in the service of the city. He had reference to a member of the Kilties who is away from the department at intervals. The chairman thought that the men should give all their time to the department.

The chief told the chairman that when the man complained of had joined the staff, there was an understanding that he should be allowed to join the band when it was engaged in the city or outside. A substitute was always found when the man was away. The chairman still insisted that when a man was engaged as a fireman he should give all his time to the service of the city.

It is understood that in accordance with the recommendation contained in the report of the police committee that the police force of the town will be increased.

When asked whether he intended to drop the matter Rev. J. O. L. Spracklin returned a non-committal answer, explaining that his time was so much occupied by his duties as license inspector that he had not had time to give the matter the attention it merited.
