W YORK, June 29.—Recurrent de-

ARD LOTS UNUSUAL ON TORONTO EXCHANGE

aders Suspicious of Movement n Car Shares—C. P. R. is Bumped Again at New York.

he essence of the Toronto Stock Ex-
nge yesterday was the changing hands
a few broken lots. In scarcely any

hange was in the unlisted issues, and

well-defined promotion is being ar-

FURTHER WEAKNESS SHOWN IN WHEAT

Clearing Weather and Better Threshing Returns Caused Dip.

CORN ALSO DECLINED

Strong Seaport Demand for Oats Counteracted by Field Advices.

CHICAGO, June 29.—Renewed fear of pressure from a rapid movement of the 1915 crop brought about downturns today in the price of wheat. Notwithstanding an early advance, the market, altho steady at the close, was ⅜c to 1¼c to 1⅝c under last night's level. Corn finished ⅜c to ¾c down, oats ⅝c off to ⅜c up, and provisions varying from unchanged figures to a rise of 5c.

Weakness in wheat became especially noticeable during the last hour of the session, when clearing weather and better threshing returns had led to predictions of an increase of hedging sales. A long-range forecast that gave promise of at least several days of clear skies and warmer temperature counted decidedly against the bulls.

Corn was governed mainly by wheat. Slightly improved crop reports from Illinois and Iowa tended to handicap the bulls.

In oats, encouraging field advices appeared to offset a strong demand from the seaboard.

Provisions rallied on account of buying supposed to be for packers. At the outset the market had been depressed as a result of lower quotations on hogs.

POWER STRONG SPOT IN MONTREAL MART

Slump in C. P. R. at New York Depressed Other Issues.

MONTREAL, June 29.—Heavy selling of C.P.R. in New York was the outstanding development in the security markets of Montreal today. The break induced no activity in the stock here, not a share changing hands, but was depressing to other stocks here. Business, however, was small and general heaviness was somewhat offset by strength in Power, the most active stock of the day. Favorable franchise rumors resulted in a demand for the traction security and about 1000 shares were taken at 42¾ to 43½, with the close at 43¾, or 1¼ up for the day. Scotia was a weaker feature in the war specialties, selling off 1½ to 63.

BRITAIN'S WAR CREDIT REACHES HUGE TOTAL

Amount Authorized to Date Approaches Four and a Half Billions.

LONDON, June 29.—With the further vote of $1,250,000,000 granted by the government last week, the total so far authorized for war expenditure reaches $4,310,000,000. The amounts provided have been as follows:

Original vote of credit, 1914-15, $300,000,000.

November supplementary vote, $1,125,000,000.

Further requirements in February, $185,000,000.

Total for 1914-15, $1,810,000,000.

February vote of credit, 1915-16, $1,250,000,000.

June vote of credit, $1,250,000,000.

Total to date, $4,310,000,000.

This expenditure includes not only the direct cost of the army and navy operations, but also advances to the colonies and allied powers, and payments under guarantees given by the treasury for the restoration of credit and the encouragement of trade and industry.

DOME IS THE MAGNET.

It was almost a complete Porcupine market on the Standard Exchange yesterday. Dome acted as the magnet for rising prices, and Vipond, Dome Lake, West Dome and McIntyre all figured in fairly active trading. Speculation has been turned with the gold stocks, and Cobalts are practically neglected.

It is now said that Big Dome will cross Hollinger, and with a large New York following, this might readily be accomplished. Vipond has become a favorite on the New York curb and its rise yesterday to 56 shows the temper of those who have become interested in the shares.

McIntyre was subjected to considerable profit-taking by close market followers, and its reaction to 48½ was easily accounted for in this way.

The rise in Dome Lake is not regarded as having much substance and the dealings are mainly those of flash trades.

A weakening on the New York Exchange later in the day had some adverse influence on trading on the local exchange.

SILVER IS EASIER.

In London yesterday the price of bar silver was ⅛d lower at 22⅞ per ounce. The New York price was 48c.

CONSOLS STEADY.

In London yesterday consols closed unchanged from yesterday at 65.

WINNIPEG GRAIN MARKET.

WINNIPEG, June 29.—The local market opened higher. Following the opening there were further fractional advances, developing weakness later under considerable selling pressure. The improved weather conditions all over the American continent were the factors in the selling. July oats advanced again today. Flax was 1c lower on both months at the opening and later the fluctuations were narrow.

Total inspections on Monday were 166 cars, of which 124 were wheat. In sight today only 60 cars.

Wheat futures closed 1⅞c to 2½c lower, cash wheat 2½c to 2¾c lower, oats unchanged to 1⅝c advance and flax ¾c to ⅞c lower.

CHEESE MARKETS.

STIRLING, Ont., June 29.—At today's cheese board, 755 boxes were offered, and all sold at 16¾c.

CAMPBELLFORD, June 29.—There were 745 white offered; all sold at 10¾c.

ST. PASCHAL, Que., June 29.—At the dairy board here today, 110 boxes of butter sold to the Dominion Fish Company, Quebec, at 28 3-16c; 500 boxes of cheese sold to J. Oliver, Montreal, at 16 9-32c.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, June 29.—The net advance in the prices bid by foreign buyers for Manitoba wheat since last Friday has been 2s 6d per quarter for old crop, but even with this exporters state that they are 3c per bushel out of line, and consequently no business resulted. In sympathy with the further advance of 1⅝c per bushel in the July option for oats in Winnipeg the market was strong again today and prices were marked up another one cent per bushel for all grades, with a fair amount of business doing in carlots. Owing to the continued slow demand for winter wheat flour and the increased offerings from Ontario millers a weaker feeling has developed and prices declined 50c per barrel.

Butter is firm, but the feeling in cheese is easier. Eggs are active and very firm at the recent advance.

SEND FIRST PEARS OF SEASON TO CITY

Arrive at St. Lawrence Market From Californian Fruit Farms.

CHERRIES PLENTIFUL

Home Grown Cabbages Are Very Scarce—Big Demand for Strawberries.

The first pears for this season arrived on the market yesterday, Stronach & Sons having some in their car of California fruits.

Strawberries were shipped in in fairly large quantities yesterday morning, bringing 7c to 10c per box. In the afternoon, however, the quantity did not come up to expectations, and, as there was a good demand, they were soon disposed of at 8c to 10c per box, a few extra choice berries in especially well filled boxes bringing 11c per box.

Green peas again came on the market in larger quantities, and sold at 65c to 75c per 11-quart basket, N. H. Howard, Aldershot, being the shipper of one of the best lots sent in yesterday, consigning them to both Jos. Bamford & Sons and McBride.

Cherries came in in increasing quantities, the sour cherries selling at 35c to 40c per six-quart basket, and 60c to 80c per 11-quart basket; the sweet cherries going as follows: Whites, 40c to 60c per six-quart basket; reds at $1 to $1.25 per 11-quart basket, and blacks at $1 to $1.50 per 11-quart basket.

Cabbages (Canadian-grown) were very scarce yesterday, and sold at 75c per bushel basket.

White & Co. had over 600 crates of strawberries yesterday.

Belknap & Son had a large shipment of cherries yesterday from Grimsby.
