ESSEX.

A new insect has appeared on the wheat in parts of Essex county, and farmers are at a loss to know what it is. It appears first in the stalk in the shape of black specks. These develop into small insects of the color of the bush on the wheat, then those in turn develop into flies. There are millions of the insects in wheat fields, but so far no sign of injury has been discovered.

The Tilbury East fall fair will be held on Oct. 7 and 8.

On Wednesday night burglars visited the woolen mill of Inglis & Co., of Wingham, and gained an entrance by prying up one of the windows in the office. They commenced operations on the safe with a drill before they found that it was not locked. The safe was opened, and the books and all the papers it contained left lying about the floor. There was no money in the safe, so the "gentlemen of the jimmy" had to leave empty handed.

It cost Dyer $12 50 to make things right in the eyes of the law.

Some Strange Misnomers.

Much of the Russian leather comes from Connecticut, Bordeaux wine from California, Italian marble from Kentucky, French lace from New York, and Spanish mackeral from the New Jersey coast. Dr. Pierce's Golden Medical Discovery comes from Buffalo, N. Y., but there is nothing in its name to criticise for it is truly golden in value, as thousands gladly testify. Consumption is averted by its use, and it has wrought many positive cures. It corrects torpid liver and kidneys, purifies the blood, banishes dyspepsia and scrofula, renews the lease of life, and tones up the system as nothing else will do. What is more, it is guaranteed to do all this, or the price is refunded.
