Labor Gazette Says Cost of Living Here Is Lower Than In Most Cities of the Province

Rents Higher Than Elsewhere, But Food Obtainable More Cheaply in Many Lines—Report Regarded As Very Favorable.

London is one of the cheapest cities in Ontario to live in, according to the latest report of the department of labor at Ottawa, as carried in the Labor Gazette. Many meats are cheaper in London than in even the smaller towns of the province, according to this official record, while in some of the smaller places staple articles of consumption are much higher.

For instance, it is possible to secure a pound of sirloin steak in London, according to the report, for 30 cents a pound, whereas in Woodstock it costs 35 cents, and in Stratford 38 cents. Fort William is the only town or city in the province which sells this kind of meat as low as it can be purchased in London. In Windsor, Cobalt and Sault Ste. Marie it costs 40 cents a pound, if the report is to be believed.

Other Meats Cheaper.

The report states that prime roast beef, round steak and shoulder roast can also be purchased in this city at a figure greatly below the price in most cities and towns of the province. The first mentioned sells for 28 cents a pound, while the last two bring 22 cents per pound. Veal in London costs about as much as it does in other cities, but mutton is cheaper here than elsewhere. Pork is cheaper here than in Woodstock, while in Windsor it is higher than in any other city in Ontario.

There is very little difference in the price of eggs, butter and canned goods between London and other cities. In only three other cities of the province can potatoes be purchased cheaper than in London, according to the gazette. Flour costs about as much here as anywhere else, but rolled oats are cheaper in this city than in most other cities and towns in Ontario.

Rents Very High.

The figures show that rent is higher in London than in any other city, with the exception of Windsor, which is slightly higher. Coal costs about the same here as elsewhere.

Members of the London Chamber of Commerce are highly pleased with the report, and point out that it is good advertising for Londoners. They claim that with the present high cost of living many Londoners labor under the misapprehension that London is one of the dearest towns on the continent, whereas the official figures show that it is a much cheaper place to live than in many of the smaller cities which surround it.

DOUBTS WISDOM OF ABOLISHING EXAMS

Principals Might Recommend Pupils Without Sufficient Discrimination.

Toronto, Jan. 8.—The Ontario Department of Education would express no official opinion on the moving on the resolution passed at Ottawa convention of trustees to abolish entrance examinations. It was pointed out the high school regulations now admit pupils on recommendation of principals, without examination, also that over 50 per cent of pupils entering high schools in 1918 went on recommendations alone. It is pointed out, however, that if examinations were abolished there might be a hardship felt by pupils whom a principal refused to recommend. Another danger might be that principals would recommend indiscriminately.

QUEBEC HOCKEY TEAM DEFEATS ST. PATRICKS

Four Thousand Fans Witness Big Game in Ancient City.

Quebec, Jan. 8.—One of the best games of the season was witnessed by 4,000 hockey fans here yesterday evening when the local team defeated the visiting St. Patricks of Toronto by a close margin of 7 to 5. It seemed, at the start, an easy win for the locals, but there was a come-back to the St. Patricks' playing which provided keen excitement.

Throughout the game was clean, although very closely contested. Sensational plays were pulled by both sides, and had it not been for the splendid work of the visitors' defence and goaltender Quebec would have scored more heavily.

HYDRO TOO COSTLY

Engineer To Visit Newbury To Review Estimates of Cost.

NEWBURY, Jan. 7.—Reeve A. Holman has received a letter from the Hydro Commission which infers that it will hardly be possible for Newbury to obtain hydro. The letter stated that as the town is so small and equipment is so costly at the present time the hydro system could not be installed cheaply enough for the village to adopt it. However an engineer will be sent down to go over the proposition with the reeve to see if the cost estimate can be lowered.

UNION REVIVAL SERVICES

BURGESSVILLE, Jan. 7.—Evangelistic services are being held every night this week (except Saturday) in the Methodist Church. The Baptists and Methodists of the village and surrounding districts have united forces in this special effort and are being ably led by Miss Morton, an evangelist of the Christian Men's Brotherhood Federation. Sunday last was the opening day, and union services were held morning and evening in the Methodist and Baptist Churches respectively. A large congregation greeted the speaker at each service, and listened with great interest to the strong messages delivered by her. A helpful feature of the meetings is the singing of the large union choir. On Friday a special feature will be the relation by Miss Morton of her call to her life work. The subject will be "Choice."

MORE THAN 200 CARS DESTROYED IN FIRE AT MONTREAL GARAGE

Firemen Had Hard Fight To Prevent Gasoline Tank Exploding.

Montreal, Jan. 8.—By Canadian Press.—The east end garage caught fire this morning in some mysterious manner, and as a result over 200 cars, which were stored there, have been destroyed and the entire place is nearly in ruins. The fire started about 8 o'clock, with an explosion which blew the roof off the building, and a few minutes afterwards the entire building was in flames. A general alarm was turned in about 9, and the firemen began a fight to prevent a large gasoline tank buried beneath the building from exploding.

The water pressure, which was at first not very strong, increased later on. The loss, it is stated, is considerable, as many of the cars stored in the garage were not insured.

INFLUENZA IS REAPPEARING IN SOME PORTS OF SPAIN

French Steamer Arrives at Buenos Ayres With Five Passengers Dead.

Buenos Ayres, Jan. 8.—The French steamer Malta, from Havre and Vigo, arrived here yesterday afternoon with five passengers dead, seven dangerously ill and a large number of others suffering from attacks of influenza, which broke out in violent form a few days ago. The ship's doctor reported that he had daily attended 50 patients since the disease was first reported, and that the epidemic had continued to spread among the other passengers.

Dispatches in recent weeks have reported the reappearance of influenza in epidemic form in many parts of Spain, in varying degrees of intensity. A large number of deaths have been caused in Madrid by a double visitation of influenza and typhus, while Santandre, Valencia, Saragossa and other cities have been hard hit by influenza epidemics. No reports of the appearance of influenza at Vigo have been received, and this is also true of the French port of Havre.

WALL STREET.

New York, N. Y., Jan. 8.—Wall Street, 10:30 a.m.—The policy of the federal reserve board respecting loans for speculative purposes was again a deterrent influence at the sluggish opening of today's stock market. Metal and food shares were the only issues to show a degree of firmness, the usual leaders, especially oils and motors displaying moderate heaviness. Rails were almost entirely neglected, and high-class industrials recorded fractional declines.

WEAK, NERVOUS CHILDREN QUICKLY GAIN STRENGTH UNDER FOLLOWING PLAN

Nervousness, just like weakness, is a family predisposition. We inherit tendencies to disease just as we inherit physical resemblances. The strain of study, social duties, work at home—these all tend to make nervous troubles among children. No wonder that St. Vitus Dance, Epilepsy and constant headaches have become alarmingly common. Pale, nervous, listless young people are met everywhere.

It is nothing short of criminal for parents to neglect signs of weakness in their children. By ignoring the slightest symptom of nervous or mental strain, you may condemn your child to lifelong invalidism. If any member of your family complains of headaches, fear of going into dark places, give them that wonderful tonic, "Ferrozone." Strength of body and mind, hardy nerves, ability to study with comfort, all the attributes of health quickly follow the use of Ferrozone. It establishes strength, color, endurance, vim—does this by filling the whole system with nourishment and tissue-forming materials.

It's because we know the enormous good that Ferrozone will do, because we are sure every child and even grown folks will be permanently benefited, that we urge you to give it a trial. All dealers sell Ferrozone in 50c boxes, six for $2.50, or direct by mail from The Catarrhozone Co., Kingston, Ont.

Barley opened ¼c higher for May at $1 56½.

Flax opened 2½c higher for May at $4 81; July 2c up at $4 70.

Chicago, Jan. 8.—Fresh strength developed in the corn market today, influenced by demand from the seaboard and by scarcity of cars available to bring in rural supplies. Efforts to load government wheat for distribution to mills were said to be at the expense of the corn movement. Upturns in the value of hogs tended further to give strength to corn. Opening prices, which ranged from the same as yesterday's finish to 1c higher, with May at $1 36@1 36¼, and July at $1 33¾@1 34, were followed by material gains all around.

Oats hardened with corn. After opening ¼c up, including May at 80¾c, the market sagged a trifle, but then ascended higher than before.
