MONDAY IS NEAR AT HAND

AND THE PREPARATIONS FOR THE CELEBRATION ARE BOOMING.

Subscriptions From the Citizens are Flowing in Liberally—Another Encouraging Meeting Last Night—The Societies and Organizations at Work—Notes of the Day

As the day of the grand celebration of Canada's birthday as a nation approaches, interest in the event continues to increase. Neither the Reception nor Citizens' Committee have relaxed their efforts, and the result is the citizens have caught the infection of enthusiasm and are joining heart and hand in making the day a success. The names of ex-Ald. Piper, ex-Ald. J. E. Mitchell, Fred. Nicholls, Dr. J. E. Elliott and Captain Strong of Parkdale were added to the Citizen's Committee.

The Cross in the Parade.

The march will be to Exhibition Park, where after a few movements arms will be piled and the men dismissed for the day. The arms will be taken back to the Drill Shed in wagons. The committee of the City Council will provide dinner on the grounds for the men free of expense and present valuable prizes to the successful competitors in the games.

It is to be hoped that every man who can possibly be present will make a point of doing so, and that the parade of the regiment will be creditable one.

Owing to the camp of the Body Guard there will be no target practice to-morrow.

The commanding officer has made these promotions and appointments, to take effect from this date:

They drive to the City Hall to take the place assigned to them in the procession. There will be 200 boys from the various schools marching. They will fall in at the De La Salle and go thence to the appointed rendezvous. On arriving at the Exhibition Park the boys will proceed to the Main Building, where luncheon will be provided for them. During the afternoon they will take part in games on a portion of the park to be selected for the purpose by the Arrangements Committee.

The list of games for these children is:

The members of the board will be the guests of the city at lunch on the ground. It is expected that every member will be on hand to join in the demonstration. Secretary Hall has been working hard all week to perfect arrangements.

The Canoe Club's Program.

The Regatta Committee of the Toronto Canoe Club have got up a first-class program of sports for the Dominion Day celebration. Robert Tyson is chairman and there are associated with him D. B. Jacques, Colin Fraser, Thos. C. Elgie, and W. H. P. Weston as secretary. The sailing race is billed for 3, the tandem paddling race for 4, the fours paddling race for 4.30, the hurry-scurry race for 5, and the tournament, the special feature of the program, for 5. The prizes are all handsome silver medals, and any amateur canoist can compete who is a member of any recognized canoe, yachts or boat club.

What the Veterans Will Do.

Her Majesty's Army and Navy Veterans will meet at Temperance Hall at 9.30 on Monday morning, and by the kind permission of the officers of the Royal Grenadiers the fife and drum band of that corps will play them to their position at the City Hall. They will march behind the red coats with Scotch pipers at their head. Chief among the amusements that they will offer will be an assault-at-arms between George Tyler, late instructor in the Royal Navy, and Sergt.-Major Parr, late of the 7th Hussars.

Toronto Is a Canadian City.

(From The Evening Telegram.)

* * * This is as it should be. Toronto is a Canadian city. The sentiment of love and of pride in our country is strong here, and true patriotic feeling is conquering all difficulties that can threaten the success of the truly national celebration of Dominion Day.

Notes of the Fete.

Robert Hay, ex-M.P., handed Ald. Dodds $25 with the remark that Canada could always command his purse.

Out of Toronto's long list of banks there was only one which refused to subscribe.

The Chief of Police desires the representatives of each society to meet him at 10 this morning to draw lots for place in the procession.

Several of the bands engaged have already sent in a list of the music they will play to Secretary Sanderson.

The Field Battery, Major Mead in command, at 12 o'clock sharp on the day of celebration will fire a salute of 12 guns from the New Fort.

A games committee composed of Adjutant Manley, Capt. Strong, R. L. Patterson, Deputy Chief Stuart, J. D. Henderson and E. T. Malone has been appointed to supervise all games. They will not act as judges, but their duty will consist in seeing that no two games clash with the other. A tent will be placed at their disposal.

Ald. McMullen and Small in less than an hour collected $40 in King-street east yesterday.

All societies and citizens taking part in the procession are requested to rendezvous at the City Hall at 10 sharp, so that the route may be taken at 10.30.

The Reception and Citizens' Committees are expected at the City Hall at 9 o'clock Monday morning.

The mounted police will come first.

The Governor-General's Body Guard will turn out 180 strong, headed by their band.

The Reception and Citizens' Committees, members of the City Council, Public and Separate School Boards, will follow the Army and Navy Veterans.

The Fire Brigade marches last, headed by Ald. Shaw, chairman of the committee. He has not yet decided whether to be mounted or take a carriage.

So far, what with the $1500 granted by the city, the celebration fund has swollen up to $4750, and it is expected that it will be over $5000 before the end of the week.

The Citizens' and Reception Committees meet this afternoon. They will make final arrangements to-morrow.

The stores, public buildings and residences along the line of march will be gaily decorated.

There is already a big demand for British and Canadian flags.

The police are making arrangements to handle the crooks, who it is expected will be on hand to work the crowds.

Already windows overlooking the line of march are being eagerly sought for.

The owners of the steam launches Rosamond and Viola have kindly placed the use of their boats at the disposal of the officials of the rowing clubs to conduct the regatta.

A meeting of the members of the National club will be held at 1 p.m. to-day to consider the matter of decorating the club house.

The fireworks will cost $750, all of native make.

The Citizens' Committee will hold their final meeting to-morrow afternoon at 2 o'clock.

The route of parade has been definitely settled as follows: City Hall-square to Frederick-street, to King, to Brock, to Queen, to Strachan-avenue, to Exhibition Park.

Ald. Woods and Booth collected $200 in one hour yesterday. Five hundred more is wanted to-day sure.

WAS IT A COMPROMISE?

The Reason Why Bishop Cleary Goes Back to Ireland.

The departure of Bishop Cleary for Ireland to accept a diocese there is causing considerable comment in Catholic circles in Toronto. It is whispered in the inner circle that it is the direct outcome of the death of Archbishop Lynch, and the subsequent choosing of a successor. It is understood that there were two names mentioned for the vacancy at the consultations held by the bishops of the province, those of Bishop Walsh of London and Bishop Cleary of Kingston. Bishop Dowling, then of Peterboro, sided with Bishop Walsh, leaving Bishop Cleary in the minority. The matter was referred to Rome, and now, so the story goes, Bishop Cleary accepts the Irish diocese by way of compromise, thus making the Walsh nomination for the Toronto archbishopric unanimous.

Senior Guardian Beggs of Camp 20 Arrested—An Imaginative Nebraskan.

CHICAGO, June 27.—Assistant State's Attorney Baker left for Winnipeg last night, with the papers for the extradition of Burke.

John F. Beggs, Senior Guardian of Camp 20, Clan-na-Gael, is under arrest. Beggs was taken before the Grand Jury. He is a well-to-do lawyer, and has had some prominence as a politician. The rumor that he has turned informer is not generally credited.

Says Camp No. 20's All Right.

PEORIA, Ill., June 27.—Edward Spellman, district delegate for the Clan-na-Gael, in an interview in reference to the disbanding of Camp No 20 of Chicago, says positively that the camp has not been disbanded and will not be. He says: If the State's Attorney calls upon me for the records I will produce them for him at any time. Camp No. 20 has no connection with the Cronin affair.

Relics on Imagination for Facts.

KANSAS CITY, June 27.—O. H. Rothaker, managing editor of The Omaha Republican, is here visiting Recorder Boland. Mr. Rothaker yesterday said: "Cronin is not dead. He is alive and well and will show up in England before many more days." Mr. Rothaker said that for years he had been in a position to know the character and movements of Irishmen connected with the organizations in the United States interested in the emancipation of Ireland. He was positive that the body found in the sewer was not that of Cronin, but a stiff obtained from a Chicago medical college. Mr. Rothaker said: "My belief that Cronin is alive is strengthened by a telegram addressed to a prominent Irishman in Omaha, and which was shown me. It was sent from Chicago, and its contents were to the effect that positive assurance had been received by the sender that Cronin was still alive, and requesting information as to his whereabouts."

'TWAS TRINITY'S BIG DAY.

THE CONVOCATION PASSED OFF BRILLIANTLY.

Those on Whom Degrees were Conferred—Ladies Win in the Academic Race—How All Praised Their Alma Mater—A Reply to Vice-Chancellor Mulock.

A day to be remembered, the chiefest of the circling year, is that of Convocation at Ontario's Universities. With due eclat this was celebrated at Trinity University yesterday. Everything was inspiriting and successful. A good year's work had been closed, those who deserved to win knew their medals and certificates were awaiting them, those who were not in the ranks of the fortunate chivalrously cheered those who were, college songs were sung, learned dons and pretty girls rallied, and on a small scale the jolly good-humored scenes of the Old Country universities were imitated.

The muster of members of Convocation and lovers of their alma mater was good; the ladies, young and otherwise, were resplendent in spring attire and bedecked with the flowers that bloom in the spring; the Latin speeches and prayers were as edifying as chaste; the mother tongue addresses of the Chancellor, Provost, Dean were apropos and better understanded of the people; the honored ones each an embodiment of happiness, nervousness and blushes; and, truth to tell, the concours of all eyes was not the Chancellor in his gold-trimmed robe, Toronto's bishop in his crimson, Niagara's in his lawn, nor the varicolored academical hoods, but the sweet girl graduate, the first of Trinity's B.A.s, who looked distingue in her bachelor's hat, and was saluted with the song "The Merriest Girl that's Out."

How They Eulogized Trinity.

The Chancellor's speech was business-like and not too long. He noted with due acclaim the progress of the university and the high position it occupies educationally. Its claims to the generous support of Churchmen were set forth. Every diocese in Ontario is represented on its Board of Convocation. Gallantly he praised the lady graduates of St. Hilda's College, religiously he spoke of the old Trinity boys in the mission field, flatteringly he sketched the continued prosperity of Trinity Medical College. Gratitude was expressed to Dr. Scadding, Dr. Bourinot and representatives of the late Rev. O. B. Ford for liberal contributions to the library, and an appeal was made for $70,000 to enlarge the college premises, build a laboratory and museum, endow lectureships and fellowships and place Trinity in the proud position of being second to no university in the Dominion.

Provost Body revelled in a subject, albeit temperately, on which he is at home. "The Matriculation Standard" was his theme, and high ground he took as to what this ought to be, meanwhile justifying the action of Trinity, Queen's and Victoria, and criticising the recent speech of Vice-Chancellor Mulock at Toronto University. The requisites for the matriculation standard the Provost laid down are: (1) a curriculum suitable to the educational position of Ontario; (2) sensible and not showy subjects; (3) examiners of eminence, commanding universal confidence; (4) a uniform and definite standard. On these points he enlarged at length, and showed how Trinity for years past had labored towards this end.

Dean Jones, as became him, was truly thankful after 25 years' professorial work, to find himself a new-fledged D.C.L. Then he, too, praised alma mater and said "ditto" and "amen" to the felicitations and aspirations of the day.

Dr. Bourinot, clerk of the House of Commons, Ottawa, was profuse in his acknowledgments of his additional honor from the college of his youth. Then, like a true son of Trinity, he lamented the lack of munificent support such as a McMaster had given the Baptists at Toronto, a McGill at Montreal, and wealthy benefactors in the States. Eloquently he deprecated utilitarianism having the ascendancy at Trinity, and eulogized the glorious "classics" and the ennobling influence of the dead languages on the busy life of the 19th century.

And what mons was lacking to make the tale complete than the Episcopal benediction in the much-praised Latin tongue? This was done, and light refreshments on the terrace, and spiritual food at evensong, concluded Trinity Convocation for the present year of grace.

Healthful—Adams' Tutti Frutti Gum.

TORONTO'S BIG LOAN.

It Goes Off Favorably and at a Big Advance On the London Market.

At 4 o'clock yesterday afternoon, English time, the time for receiving tenders for the big Toronto loan closed in London, and speculation was rife around the City Hall as to the success of the Mayor's mission. There was a rumor current among the aldermen late in the afternoon that the bonds had been sold for 98, but The World, on interviewing Acting Treasurer Paterson, was told by him that so far he had received no tidings from London. He expected to get a cable shortly about it, and felt assured that it would be satisfactory.

Late last night The World learnt from a gentleman whose friends on the other side are interested in the loan as tenderers that the deal had been accomplished, and that Toronto had beaten its record. The loan in English currency amounted to £720,000, and the average price received ranged from 96 to 98. The general average was 97 all round, bulking all the tenders received and accepted. The sum was too large for one single firm to handle, and different syndicates tendered for various amounts according to their capital.

Compared with the 4 per cent. issue of four months ago this sale of 3½'s shows a decided advance, and when the next 4's are put on the market par may be expected.

The Mayor Writes the President.

President McMillan was made happy yesterday by receiving a letter from Mayor Clarke. In it His Worship states that the city loan is progressing bravely and there is every indication of a successful sale. He and Treasurer Coady are spending their spare time in the London Works Department. The Mayor is getting together a full set of specifications of all kinds of roadways, which he intends to present to the City Engineer. He has not fixed the date of his return.

ELECTRICITY FROM THE CATARACT.

A Scheme to Rent the Water Power of Niagara Falls for $35,000 a Year.

If things go the way Col. Gzowski wants them to go, Buffalo will not be the only city to have the prospect of getting electricity out of Niagara Falls. Negotiations are now going on between Col. Gzowski, representing the Queen Victoria Niagara Falls Park Commissioners, and a company of United States capitalists for the granting of water power privileges at the Falls on the Canadian side to the said company. The matter has been gone into pretty thoroughly. Col. Gzowski conducted the preliminary negotiations, presented the scheme before the Ontario Government and is now endeavoring to come to final terms.

The question in dispute now, it is said, is the amount the rental is to be fixed at. Col. Gzowski wants $35,000 a year and the company, it is said, want to pay something under that sum. If $35,000 a year for the use of the Falls' water power it ought not to cost the people much for maintaining Queen Victoria Niagara Falls Park. Perhaps all the fees might be abolished.

It is understood that the company intend transmitting electric power to different towns and cities from Niagara as far east as Toronto. Some electricians say that it is impossible to transmit a current of sufficient strength for use as motive power such a distance and make it a profitable undertaking. It would require a cable almost as thick as a man's body and the cost would be enormous. But it is altogether likely that the projectors of the scheme have counted the cost and the probable revenue before making their proposals, and the men who put down the money for it are in the best position to judge of its merits.

A Business Man's Hat.

Did it ever occur to you how important it is, and how necessary an adjunct it is to success, for a man of business to wear a becoming and yet fashionable hat? How few seem to recognize that the hat to a large extent makes the man, and that to impressions derived from the appearance created by a gentleman's headgear may often be traced a good order or profitable transaction. It therefore goes without saying that the effect of a most becoming and fashionable hat will distract attention from a man's coat or other apparel, and therefore it is worth your purchasing your new season's hat it is the most important to visit the store where a constant study is made of these facts, and where a sufficiently large and varied stock is kept to adapt itself to the many-shaped heads and varied faces of mankind. NEWS OF THE OLD WORLD.

PORTUGAL'S CONDUCT IN THE DELAGOA BAY MATTER.

The London Papers Characterize the Action as a National Disgrace—England Declines to Guarantee the Evacuation of Egypt—A Fresh Attack on Switzerland.

The Delagoa Bay Trouble.

LISBON, June 27.—A Government decree says: The Delagoa Bay Railroad concession was cancelled because the concessionaires failed to keep their engagement. The Government will construct the railroad and indemnify the concessionaires for the work already done.

Accused of Setting a Trap.

LONDON, June 27.—The Times accuses Portugal of entrapping the Delagoa Bay Railway Company by fixing time limits within which the Government knew it would be impossible to finish the line, owing to climatic difficulties. The Times thinks England ought to call Portugal to account. The directors of the company are unable to believe Portugal would take so unprecedented and violent a measure without the slightest justification, against the vigorous protests of Great Britain and America. The Crown Counsel and other eminent lawyers are unanimous in the opinion that such action is illegal.

A Breach of Faith.

LONDON, June 27.—The Globe, commenting on Portugal's conduct in the Delagoa Bay railway matter, says: "Portugal has been guilty of an unwarrantable breach of faith and of shameful dishonesty, and has disgraced the national name."

A British gunboat is expected at Delagoa Bay Saturday. The railway employes are preparing to forcibly resist any attempt on the part of Portugal to take charge of the road.

The Egyptian Debt Conversion Scheme.

LONDON, June 27.—England has declined to guarantee the evacuation of Egypt, which was demanded by France, as a condition of her acceptance of the Egyptian debt conversion scheme. The scheme has therefore been abandoned.

France has also demanded an annulment of the Anglo-Turkish Convention of 1887.

Irritation at Cairo.

CAIRO, June 27.—The people of this city are irritated over the opposition of France to England's scheme for the conversion of the Egyptian debt, because England would not consent to evacuate Egypt. The abandonment of the scheme will prevent a continuance of the work to improve irrigation by the waters of the Nile, and will also hinder a decrease in the rates of taxation.

A German Attack on Switzerland.

BERLIN, June 27.—The North German Gazette renews its attack upon Switzerland to-day. It charges that Switzerland promotes the dissemination of social democratic ideas among the young men of the country. It says Anarchists without credentials are allowed to remain in Switzerland without effort on the part of the authorities to identify them. It declares that the reply of M. Droz, the Swiss Foreign Minister, to the recent interpellations of the National Rath in which he declared that under no circumstances should Switzerland share with any power the right to police his own territory, was inadequate and unsatisfactory. It says, however, that the reply of the Bundesrath to the complaints made by Russia and Austria was more polite than was expected from the wording of the interpellation.

Princess Beatrice Convalescing.

LONDON, June 27.—Princess Beatrice, who has been dangerously ill since the birth of her last child, has got better, and is going about a great deal, which, it is said, has cheered the Queen up immensely, and helped to console her for having to meet her Imperial friend the Czar, a prospect which she does not care for.

Sexton Downs the Attorney-General.

LONDON, June 27.—Mr. Sexton admitted before the Parnell Commission yesterday that he had been asked to join the Fenians, but refused to name the man who asked him. Attorney-General Webster, for The Times, pressed him hard, but in vain, to give the name, and became angry and excited. After a passionate scene between counsel and witness, the former abandoned the attempt. Witness declared he held Alexander Sullivan in high estimation on account of his public services.

Attorney-General Webster, it is said, will claim the right to extort from a Parnellite witness any information not obtainable by usual methods. The Parnellites are determined to resist this, and if the Attorney-General persists they will probably leave court with their counsel.
