HEATH CONVICTED OF INDECENT ASSAULT

Ira H. Heath was yesterday sentenced to one year in prison with hard labor, after being convicted of indecent assault on a 14-year-old stenographer in his employ. Justice Latchford in sentencing him said he believed the verdict was a right one, but that he would spare Heath the lashes, which the crime warranted.

Heath's counsel strongly objected to the summing up, stating that his lordship had paid no attention to the evidence of the respectable witnesses for the defence.

"I swear that I never touched the girl, and that I was not in the office at the time stated. Should this be the last word I should utter I still swear I am innocent," were the prisoner's last words.

BACK FROM THE WEST.

Dr. T. Albert Moore, general secretary of social service and evangelism of the Methodist Church in Canada, has just returned from a trip thru the western provinces. He visited the conferences of the various districts during his stay. Dr. Moore left yesterday for Guelph to attend the Hamilton conference.

NOT MANY CHANGES MADE IN PULPITS

Methodist Conference Stationing Committee Has Comparatively Light Year.

Rev. George Robinson, president of Toronto Methodist Conference, presided at the opening meeting of the stationing committee at the Wesley Building yesterday.

The present is regarded as one of the off years with comparatively a small number of changes. The most important in Toronto is the transfer of Rev. Dr. James Henderson to St. James' Methodist Church, Montreal, in exchange with Major (Rev.) C. A. Williams, who will succeed Rev. Dr. Henderson at the Timothy Eaton Memorial Methodist Church, Toronto.

The final draft of changes will be presented for ratification to the Toronto conference, which will be held at Elm Street Methodist Church, commencing on Thursday morning, June 6. As announced by The World when the call for the conference was issued, a feature of the conference will be the presence of Bishop McDowell, fraternal delegate from the Methodist Episcopal Church of the United States, who will preach the ordination sermon.

NOEL MARSHALL GIVEN RECOGNITION OF WORK

The executive offices of the Canadian National Exhibition were the scene of a large gathering of business men, and women prominent in Red Cross work, yesterday, when Noel Marshall was given a silver service in recognition of his services to the Exhibition. Mr. Marshall sails on Monday for France to see the prevailing conditions of Red Cross activity there, and will be accompanied by Kenneth J. Dunstan, president of the Toronto Red Cross Society, Dr. Robertson of Ottawa, Col. Leonard of St. Catharines and R. B. Bennett of Calgary.

In giving Mr. Marshall the token, President T. A. Russell spoke of the long record of service given by Mr. Marshall, he having been director of the Exhibition since 1905 and president during 1916 and 1917. At the close of the presentation, a resolution of condolence on the death of John Ross Robertson, was passed, as he had been a warm friend to the Exhibition and was always ready to give a helping hand when needed.

Among those present were Noel Marshall, T. A. Russell, W. K. McNaught, John J. Dixon, John G. Kent, Ald. Cowan, H. R. Franklin, Jos. Russell, Sam Harris, Jos. Oliver, John Gardhouse, Controller McBride, Robt. Fleming, C. A. B. Brown, John Firstbrook, Mrs. T. A. Russell, Mrs. Willoughby Cummings, Mrs. Elliott, Mrs. Shaw, Mrs. Oliver, Mrs. J. O. Orr, Mrs. John Green, Mrs. Robt. Fleming and Miss Davidson.

ROYAL AIR FORCE PLANS NEW BUILDINGS

Present indications are that the aviation cadets will not go from Canada to Texas for training next winter. The intention now is to carry on the training next winter at the various aviation camps in Toronto district. With this in view, the Royal Air Force is planning extensive building operations calling for an outlay of many thousands of dollars at all the Canadian camps—Camp Borden, Camp Leaside, Armour Heights, Deseronto, Long Branch, Hamilton and Beamsville. Huts and other suitable winter quarters are included in the building plans. This work is already well under way at Long Branch. A new armament school will soon be opened at Hamilton, near the old golf club, with accommodation for 450 cadets. The school will have Capt. J. C. Alleck as commander.

RECEIVES APPOINTMENT.

Rev. Fred Langford, who graduated from Victoria College here in 1908, and has since been assisting in the United States in various kinds of Sunday school work, has been appointed to Toronto to assist Rev. Dr. Crews in the editorial department of the Methodist Sunday school publications.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to Flush Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast; continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

A Man Shall Be Judged For His Works Whether They Be Good or Evil

A Medicine Shall Be Judged By Its Merits Whether They Be Good or Evil.

In The Globe, Wednesday, May 29th, 1918, Page 7, Col. 3 (Headlines): To Soon Regulate Venereal Diseases. In this article it is stated that the patent medicine man always outstated his case, and that the bigger the liar the better the results, was the contention of Mr. Paul.

Patent Medicines were founded on a knowledge of human nature and the desire to get something for nothing, he asserted.

A DOLLAR A HEAD A YEAR

Mr. Paul stated that one hundred million dollars were spent annually in the United States for patent medicines, and that the annual dope bill in Canada was eight million dollars. He said that the only remedy **Was to Cut Out Patent Medicine Advertising.** In this same article, about 20 lines higher up, it says Sir William Hearst stated that the report claimed there were grounds for the complaints that too many operations were being performed. And that there was a tendency on the part of the medical profession to refuse to strike out along other lines.

Now, Mr. Paul, I am a Medicine Man, and I am no liar, and that is not the way I get my money. My advertisements are the written truth and not lies to deceive the public. The public need protecting, and I am in the interest of the public.

There is a way to protect the public, and that way is to get the Grafter, no matter who he may be, whether Doctor or Medicine Man, and punish the offender. If a Doctor for the sake of a hundred dollars or so performs a needless operation, that Doctor is a Grafter and a fraud; if a Medicine Man sells medicine by lying advertisements, that Medicine Man is a Grafter and a fraud. And if we have no law to protect the public from this kind of frauds, it is time we did. It would be just as fair to prevent the practice of medicine because we have bad principled men in the Medical Profession, as to stop the advertising of Patent Medicines, many of which are life-savers. No person will continue to buy medicine if he does not get good results. No sensible person will continue with a Doctor if he is not being benefited. No law should prevent an honest Doctor from practicing Medicine. No law should prevent an Honest Man from advertising an Honest Medicine which has proved its own merits.

Prof. R. L. Mulveney.

ROTARIANS READY FOR CONVENTION

Large Toronto Delegation to Attend International Conference.

Toronto Rotarians are sending a delegation to Atlanta, Georgia, on June 17 to attend the big international convention of Rotary clubs. It was thought at first that there would be no convention this year, but at the special request of President Wilson it is to be held as a win-the-war convention.

The Toronto Rotary Club when first discussing the matter of a delegation, thought seriously of going as an ordinary delegation with no display, but with all the dignity of a country at war. Later discussions, however, brought forth an idea exactly the reverse, and such is to be carried out.

With a spirit of optimism, class in gay costumes and helmets, and accompanied by a band that will play anything but a dirge, the Toronto Rotarians, with President Brigden and Manley Ridley at their head, will set off for the sunny south. This crowd of enthusiastic Toronto boosters promise to show the American people that Canada is not depressed, but still cheerful in the face of odds, and glad to be present at a win-the-win convention.

DISCIPLES DISPLEASED AT BEING OVERLOOKED

The convention of the Church of Christ (Disciples), continued all day yesterday, much of the time being taken up by a discussion of the military situation in regard to the churches. Blanks had recently been sent out for churches to fill in, showing what they had done in the war. The Church of Christ was not sent blanks, and the convention objected to being classed among the "fancy" churches. They had a long honor roll, and Rev. Joseph MacKenzie, of the Keele Street Church, had applied for a position as chaplain to an overseas battalion, but had been refused because the church was considered remiss in recruiting results. The affair will be called to the attention of the chief chaplain.

Miss Agnes Stevens read the report from the Ontario Christian Women's Board of Missions. A report presented by Mrs. Fleming of Owen Sound showed that the Ontario organization had raised $300 more this year than any previous year. The amount raised was $2300, while $1600 remains in the treasury.

Miss Margaret Ferguson, superintendent of the Community Institute, 893 Spadina avenue, reported that 242 children had been enrolled during the year. Miss Ferguson tendered her resignation. Her successor in office is Miss Hazel Ostrander.

The following officers were elected: C. A. Brady, president; W. J. Cadman, vice-president, and William Monroe, secretary-treasurer.

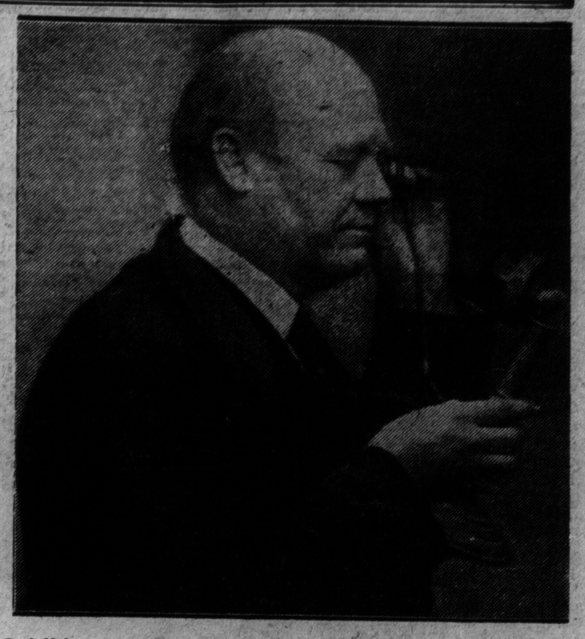
KEW BEACH CHURCH TO BE COMPLETED

Work Which Was Stopped by War Will Be Proceeded With.

Work on the new Methodist church for Kew Beach, which was abruptly stopped at the outbreak of the war, is to be proceeded with forthwith. A special fund of $25,000 is to be raised by the members of Bellefaire Avenue Methodist Church by June 23 to restart building operations. The need for a new church was urgent in 1914 when Rev. Dr. German was pastor, and the prospects of erecting a handsome church on the corner of Queen street and Bellefaire avenue were so good that the excavation for the basement and considerable concrete work was done. The financial changes due to the war caused a halt to be called, but under the leadership of the present pastor, Rev. G. R. Turk, the building fund has been steadily increased and the new church is to be gone on with immediately. During the past few months the Ladies' Aid Society has raised a large sum towards the building fund.

MOULDERS GET RAISE.

Committees representing the striking moulders and coremakers and their employers managed to settle the trouble, and the 300 men will return to work on Monday. The men asked for $5.60 for a nine-hour day, and the employers offered $5.25. An agreement was reached by which the men will get $5.40, or sixty cents an hour.



Prof. Mulveney, proprietor of the world-famous Tape Worm Exterminator and other remedies that people claim have saved their lives.

Professor Mulveney Answers Another Telephone Call

"Hello! Is that Professor Mulveney?"

"Yes, speaking."

"Well, Professor, I just wanted to ask you a few questions in regard to advertising, if it would not be taking up too much of your valuable time. Does it pay to advertise? I think it must, or you would not keep it up."

"Yes, it pays me to advertise, because I advertise remedies that are saving people's lives, and I do not have to lie about my remedies to get people to buy them. All I have to do is tell them what good results have come from using them. When they come to my office I have the evidence of what my remedy has done, which is sufficient to convince the most skeptical. The goods are sold at sight. The thousands of parasites and worms that are to be seen, the result of what my remedy has done, make a convert of those who see them. They ask no questions, simply say 'I'll have the remedy.' I would consider I had my light under a bushel if I did not let the people know what a blessing my remedies are to humanity. The expression of joy and satisfaction pictured on the faces of those relieved of the horrid Tape Worms gives me joy and satisfaction, and I am satisfied. I am in the business that God has ordained for me, and I am a faithful servant, letting my light shine before men that they may be drawn unto me and get the relief that my wonderful remedy has in store for those who are so afflicted. I use the money in advertising the most wonderful remedy on the face of the earth, and my advertisements have been glad tidings of joy and relief to thousands of people, and these people are all my friends and never hesitate to recommend my remedies, that have relieved so many thousands and restored them to health and happiness."

"Then your remedy is not a fake?"

"Well, call at 211 Ossington Avenue and see for yourself, then you will know there is no fake about it."

Prof. Mulveney's world-famous Tape Worm Remedy has brought joy, health and happiness to thousands of people in all parts of the world, and the professor has the good will and best wishes of all these people. His office at No. 211 Ossington Avenue (formerly 167 Dundas Street), Toronto, and branch office at No. 73 Niagara Street, Buffalo, display the most wonderful collection of parasites in the world, expelled from the systems of both old and young; even babies have been relieved of them by this harmless remedy. Every known species of tape worm, stomach worm, pin worm, rope worm, hook worm, stomach crab, bots, grubs and other obstructions from the bowels. They are from people whose lives have been saved from sickness, insanity or death, and are now living testimonials for his valuable remedies.

People send for his remedies from all parts of the world, England, Ireland, Hong Kong, China; Merut, India; Wan San, Corea, Japan; Vancouver, B.C.; St. John's, Nfld., and also Central America and other foreign lands too numerous to mention, and letters can be seen at his office; also letters from medical doctors at home and abroad, who have used his remedy with most gratifying results, containing words of praise and their best wishes for his continued success.

Suffering friend, you may also be a victim of these internal monsters, eating your life away, as he has tape worms from people who have been pronounced by their doctor to be suffering from heart disease, nervous prostration, acute indigestion, consumption, cancer and catarrh of the stomach and bowels, and all manner of diseases and complaints, when one or more of these internal pests were eating their lives away.

Prof. Mulveney has made the discovery to rid the system of any living internal obstruction, without any injury to the person, no sickness, no danger, no bad after effects, no previous starvation.

Are you weak, run-down, sick and miserable? Have you cramps or soreness in the bowels? Do you see slimy, stringy mucus or worms of any kind in your stools? Are you run-down, nervous, melancholy, restless and uneasy, suffering from belching of wind, gas in the bowels, pain in the small of the back, soreness in the lower part of the abdomen, gripping, or severe pain in the bowels? Does your case baffle the skill of your physician? If so, send for information. Prof. Mulveney has tape worms from people that have been operated on for appendicitis and other internal diseases by mistake. One dose of medicine has expelled as many as 13 tape worms in a few hours; some tape worms brought away in twenty minutes, but it generally takes about two hours and a half; no loss of time going to a hospital to be treated; can be taken at home without the slightest danger, with the best of results.

The evidence of the hundreds of worms to be seen in his office, also the many letters and testimonials from those relieved and made happy is positive proof of the merits of his Most Wonderful Remedy. He had invitations from abroad before the war to visit the International Health Exhibitions in Vienna, Austria; Paris, France, and Rome, Italy, each offering a gold medal and diploma as a reward, should we feel disposed to send an exhibit. Tape Worm Exterminator is $10, 40c war tax.

You are invited to call and see the many recent arrivals of Tape Worms at his Buffalo office, there being as many as five Tape Worms from a man in Niagara Falls among the collection.

CANADA GETS OPTION ON WOOL GROWN HERE

The wool market has been much affected in various countries by the war. The Australian Government in the early part of the struggle consented that Canada may still export wool and now the United States has done the same. Canadian wool has never been much used by Canadian manufacturers, but the British Government has allowed Australian wool to come in here for the past few years under British Government supervision. Almost all wool produced in Canada has been exported to the United States, and the Canadian growers came to depend entirely on that market.

Arrangements are now being made so that Canada may stil export wool to United States, but Canadian manufacturers are to be first given a tendays' option on it at the American net price. Details of the arrangements will be settled early next week.

VISIT INDUSTRIAL FARM.

The board of control and general city officials paid a visit to the industrial farm yesterday afternoon. The mayor was unable to go along.

BUILDING PERMITS APPRECIABLY INCREASED

Theer has been an increase in the number of building permits for the first five months of this year as compared with 1917.
