"A little child can help."

Canada's Boys and Girls

All go to the Sabbath School, and early learn the joys of giving to those in need.

Every Little Helps

The Great Mother Charity

That Takes Care of Your Sick and Ailing Comrades.

There is not a boy in Canada who would not stop to help his comrade should he fall and hurt himself.

The boys and girls can help a thousand suffering children —they can save five cents every year for charity.

And there are patient little ones waiting for your help.

Ask your Superintendent to organize a systematic giving in the Sunday School—for The Hospital for Sick Children.

The way to know true happiness is to make our poor children strong and healthy.

The boys and girls can help a thousand suffering children —they can save five cents every year for charity.

Children, your cents will grow into dollars—your sympathy can never be measured.
