PERSONAL.—Inspector Smith is in town.—Senator Botsford has been quite ill since his return to Ottawa, but is now better.—Mr. W. B. Dixon has been very ill, but is thought to be improving.

THE QUEEN'S BIRTHDAY was celebrated very quietly here. Nearly all the stores were closed, and a quantity of bunting was flung to the breeze. Some of the boys went to Moncton races, some went a fishing, and some didn't go anywhere in particular.

FIRE AT SALISBURY.—The building owned by Gray & Wheaton and occupied as a general store by Alex. Price was totally destroyed by fire one day last week. None of the goods were saved. Loss partially covered by insurance. The origin of the fire is unknown.

A SPORTING JUBILEE.—This year of grace is emphatically a jubilee year. Among all the other anniversaries Mr. John Barnes, of River Hebert, recently celebrated on the Cumberland marshes the fiftieth anniversary of his first successful essay in wild goose shooting.

ARBOR DAY.—The pupils of Central School celebrated Arbor Day by planting a number of trees on the School grounds, after which they were treated to oranges, nuts and candies by the teacher, Mr. Hamilton. Upwards of forty trees were planted on the grounds of the school taught by Mr. Virtue.

JAIL BREAKING.—James Tower, of Wood Point, and Frank Williams, of Moncton, effected their escape on Thursday night from Dorchester jail, where they were awaiting trial, the former for indecent assault, and the latter for larceny. They have not yet been recaptured, although diligent search is being made.

ACADIA COLLEGE.—The annual meeting of the associated alumni of Acadia College will be held on Thursday, June 2nd, at 5 p. m. The usual dinner will be given at 6 o'clock on the same day at Bishop's Hotel. This will be a most important meeting, as arrangements for celebrating the jubilee of the college next year are to be settled, and the final provisions for publishing the biographical hand-book of graduates of the college made by the directors.

SIDEWALK.—The dramatic entertainment held in the school house at Westcock last Thursday and Friday evenings was a decided success. The dialogues were very amusing, and the young ladies deserve credit for the way in which they preformed their parts. The music was a real treat especially the solos by Miss Nettie Evans and Miss Carrie Barnes. After the performance the tables were set, and all partook of the good things provided by the ladies of Westcock and vicinity. The proceeds, $25.75, are for the continuation of the sidewalk from the Aboideau down through Westcock.

—The business part of Lake Linden, a village in Northern Michigan of 5,000 inhabitants, was entirely destroyed by fire last Thursday. The only buildings left standing are a saloon and one small store. Loss $1,500.000 to $2,000.000. Insurance $750.000.

—*The New York Novelist* is all that its name implies. It is published weekly and monthly, book size, and contains nothing but standard novels. Not less than eight complete stories a year are promised. It is 50 cents a year. John B. Alden, New York, Publisher.

—F. C. Wade, of the editorial staff of the Winnipeg *Free Press*, was recently presented by Mrs. Wade with triplets, two girls and a boy. Whereupon the wag on the said staff says: Come west, young men, come west; this is the country of illimitable possibilities.

The troops who will then go under canvess to perform the annual drill will be the Woodstock Field Battery, the Brighton Engineers, Infantry School Corps, 76th Carleton Light Infantry, and the 71st York Battalion.

—At the large cattle show at Madison Garden in New York city, last week, the Jersey cow which attracted the most attention was Garotas, for which Mr. A. B. Darling, the owner of the Fifth Avenue Hotel, has refused $40,000. She is now 15 years old, and produced eighty-eight pounds six ounces of butter in a month, or nearly three pounds a day.

—Fierce gales have prevailed and great damage was done in various parts of England. In Kent the wind blew a perfect hurricane. Snow and hail storms have been experienced in the Lake Districts of Scotland. In London the trees in the parks were injured and many blown down; many wrecks are reported on the coast.

—The city of Halifax will celebrate the Queen's Jubilee on June 21st and 22nd. Among other features of the celebration will be a sailing regatta, open to British, American and Canadian yachts, over a forty miles course. The city offers a silver cup valued at five hundred dollars, and the Royal Nova Scotia Yacht Squadron offer two cups.

—The new racing yacht Thistle lost her bowsprit and was otherwise damaged in the run from Clyde and Cowes during the gale of Friday. On the trip the Thistle rescued three men in a lifeboat belonging to the steamer Harkaway which had foundered. Sixteen lives were lost when the steamer went down. The lifeboat originally carried six persons, but three succumbed to privation.

—Some effort has been made in St. Stephen to make arrangements for a proper celebration of her majesty's jubilee. Sufficient money could not be raised, and it appears that the citizens, realizing the fact that a first-class hotel was wanted in the town, appointed a committee to collect subscriptions, which should be given as a bonus to any company who should undertake to build a hotel in the lively border town.

—An important and seasonable article on the railway problem will be published in the June HARPER'S, entitled "American Railroad Legislation." The writer is Professor A. T. Hadley, of Yale College. The paper summarizes the leading steps in State legislation, pointing out the principles and the operations of each, and concludes with an estimate of the Interstate Commerce Law passed by the last Congress. This act he regards as a decided advance in the adjustment of railroad difficulties, though carrying some objectionable features and inaugurating a doubtful experiment.

—"The Route of the Wild Irishman" is the singular title of an interesting article by W. H. Rideing in HARPER'S MAGAZINE for June. Travellers from London to Dublin and Queenstown by way of Holyhead will recognize the "Wild Irishman" as the fast train along that route which carries the American mails, and is a favorite mode of conveyance with Americans because of its speed. Mr. Rideing dwells on the picturesque phases of this section, particularly the journey through North Wales, passing Gladstone's residence at Hawarden, Flint Castle, built by Edward I. and figuring in Shakespeare's 'Richard II.,' Conway Fortress, one of the three great castles by which Edward I. maintained his conquest of the Welsh, Mona, the last refuge of the English Druids, Anglesey, the home of the founder of the Tudors, and Holyhead, the point from which all the Channel steamers are signalled. Henry Sandham contributes five striking illustrations.

Wood Point.

—The Schr. Endeavour, Capt. Martin loaded with stone by the Atlantic Stone Co. sailed on the 21st for Boston.

—Mr. Douglas, foreman in the New York Stone Co's quarry, had one of his ankles dislocated on the 20th by a piece of falling stone.

—Mr. James Rogers Senr. had the fingers of his left hand badly smashed by unthinkingly placing his hand upon the top of a picket which was being driven by a 25lb. hard-wood beetle.

—The Sociable advertised for the 18th was held on the evening of the 19th. Twelve dollars were taken other small sums since donated will bring the amount up to $15.00. A pie social held Monday evening at Mr. Melbourne Barnes' in the interest of St. Ann'e Church. The sum of $5.50 was realized, which is really creditable seeing that those in attendance were principally ladies.

—Arbor day came in for recognition. A number of trees were planted upon the school grounds, named for representative men, and of course a beautiful mountain ash as the jubilee tree. After the planting, the good mammas came in with well filled baskets, and ministered to the wants of the hungry lads and lasses present, which, judging from the pleased expression everywhere manifested was duly appreciated. It seems an anomalous feature of our admirable school law that the gentlemen chosen to administer it in the various districts are selected without regard to the "eternal fitness of things." We believe that while the Board of Education is seeking to fill the schools of this country with men and women eminently qualified for the work, they should at the same time see to it that such restrictions are thrown around the selection of Trustees that the best and only the best can be chosen. Trustees should possess such moral social and intellectual standing that both teachers and scholars would find in them ready helpers to aid in carrying forward the various parts of educational work, instead of standing aloof and—by their chronic growling and whining, endeavoring to render nugatory what is intended for the general good.

Baie Verte.

—Heavy thunder and sharp lightning accompanied with rain on Monday night.

—There are five Norwegian barques in port loading deals. Three for McKeen, of St. John, and two for E. C. Gooden & Co., of this place.

—Capt. Weeks, the good old loyalist, with several others on Tuesday at high noon, from off his wharf fired a grand salute in honor of Her Majesty's birthday. No annexation business about the Captain.

—Mr. David Murray, a trader doing business in Port Elgin, assigned last week to Capt. John Grant. Liabilities and assets at present unknown. There appears to be some difficulty in regard to the legality of a bill of sale given some time ago by Murray to one Finlay, a merchant of St. John, in consequence of which it is likely matters will be compromised.

—On Monday while Messrs. D. Casey & Son's men were peling a raft of deal down the Tidnish river, a snake measuring some seven feet which lay coiled on the top of a stump cropping out of the water, suddenly sprang into the water and chased the raft several yards, when after a hard fight it was killed by Messrs. William Casey and James Weldon. Surely Tidnish can now boast of having had a veritable sea serpent.

—The age attained by Queen Victoria has only been exceeded by six English sovereigns, namely, Elizabeth, who lived seventy years; James II., sixty eight years; George II., seventy-seven years; George III., eighty-two years; George IV., sixty-eight years, and William IV., seventy-two years. Edward I. reached the age the Majesty has now attained—sixty-eight years. Four of the Sovereigns whose years exceeded the present age of the Queen were her own ancestors in the direct line.

What True Merit will do.

The unprecedented sale of *Boschee's German Syrup* within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by Physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cts., large bottles.

—The time is now ripe for the bonfire in the back yard, made out of dead cats, dead hens, what is left of the family dog, old rubbers, hoop skirts, cabbage leaves, the blanket the dog slept on before he died, etc., etc. This fire should never be kindled except your neighbor's back door and windows are open and the wind blowing that way; otherwise much of the pleasure of a conflagration will be lost.

Liable to Happen.

Sudden attacks of cold, sore throat, croup, swollen glands, rheumatism, neuralgia, and similar troubles, are very liable during the winter and early spring. As a prompt remedy there can nothing excel Yellow Oil. "I never feel safe to be without it," says Mrs. Henry Dobbs, of Berridale, Ont.

—In chronic diseases, medicines should be restoring, and not debilitating, in their action. The wonderful strengthening and curative effects, realized from the use of Ayer's Sarsaparilla, sustain the reputation of this remedy as the most popular blood purifier.

CATARRH CURED, health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents. Nasal Injector free. Sold only by A. Dixon, Druggist, Sackville.

SHILOH'S VITALIZER is what you need for Constipation, Loss of Appetite, Dizziness, and all symptoms of Dyspepsia. Price 75 cents per bottle. Sample free. Sold by A. Dixon, Druggist.

Parrsboro.

—The last few local rains have had the effect of increasing and beautifying the vegetation here.

—Several rowdies who hail from St. John have been cutting themselves loose around town with the result that no less than six are incarcarated in the lockup.

—Quite a business is being done in shipping just now, but it is expected that more will be done during the coming weeks as several large ships are expected.

—The event of the season, however, was the marriage of J. F. Sullivan, of the firm of Hartnett & Sullivan, to Miss Tressie Gillespie. The happy couple took the morning train for Halifax on their bridal trip. The bride wore a beautiful gray travelling suit with hat and gloves to match, and was attended by Miss Rose Gillespie and Miss M. Toher, the groom being supported by Messrs. F. J. Sweeney and Frank Gillespie.

Port Elgin Woolen Mills.

This important factory, closed by the assignment of Messrs J. Read & Sons and sold at public auction by the assignee, W. F. George Esq., to H. R. Emmerson Esq.., has been reopened. Work was resumed last week. The operators are this week working on full time. Thirty-two hands are now employed. The business will be conducted as usual under the management of Messrs. Read, whose experience and success as wool workers will sustain the public confidence in the mills they have so long enjoyed. We congratulate Messrs. George and Emmerson and their associates in their enterprise, and Messrs. Read on the resumption of their business, which is to-day the most important one on the eastern part of this County.

TELEPHONIC.—Sackville has at last an excellent prospect of having a telephone exchange established at an early date. Mr. A. R. Bliss, Electrician, has removed from Halifax to this place and is making arrangements for telephonic communication, which he hopes to have in working order by the middle of July. He has already about thirty subscribers, and will establish the exchange or central office in the building at the corner of Main and York streets, lately occupied by the Merchants' Bank. The telephone to be used was invented by Mr. Bliss, and is on an entirely new principle. The switchboard, transmitter and receiver are all new inventions and are essentially different from any now in use. A trial line has been in operation here for some time, and has been carefully tested by Prof. Burwash, M. A., who says: "It is a decided improvement on the telephones now in general use, giving results that would not be possible with them." There are few places where telephonic communication is as much needed as in Sackville, and it is earnestly to be hoped that the new telephone will realize the brightest anticipations of Mr. Bliss and his friends.

LADIES COLLEGE.—Miss Mack, the gifted and accomplished vocalist, has accepted an engagement for another year. This will be pleasant news to the music-loving public of Sackville, and the institution is to be congratulated on securing such valuable aid to its musical staff.—It is to be hoped the Board of Governors will see their way clear to rebuild, or at least repair, the big organ in Lingley Hall. Public entertainments there are deprived of much interest by reason of the wretched condition it is now in. While the Governors are at it, they would place themselves under public obligation by arranging more lighting and more modern heating apparatus in that building.—If the reverend Governors would take the trouble to make a passing survey of that classic locality know as York Street *nee* Cow Lane, they would find many things that might be improved. The street might be widened, with manifest advantage to property owners and to travellers in winter. A low open fence of a uniform character might be erected along their property in place of the present unsightly structures.

Criticism.

A lady in Brockville states—I was induced to try Nasal Balm for a long standing cold in my head that was pronounced Catarrh. The Balm gave immediate relief and permanently cured me. It was so pleasant and agreeable to use that I at first thought it "no good." I now use it with my children for colds and stoppage of the nasal passages.
