The Microbe Killer.

A cold is the starting point of much more than half the fatal illnesses from November to May. A cold is the first chapter in the history of every case of consumption. A cold is the first stage of chronic catarrh, the most loathsome and stubborn of diseases. A cold is the legitimate parent of a large family of diseases, such as bronchitis, pleurisy, pneumonia and quinsy.

To neglect a cold is almost suicidal. To fail to provide against this well-nigh inevitable evil is dangerous negligence. You cannot afford it! Your family cannot afford it! Do not through carelessness — which is almost criminal—or bravado, allow an insidious cold to be neglected until it generates and fastenes on you disease that will cost you loss of health, loss of time, loss of money, and, finally, loss of life. Have your system freed from danger and made strong to resist disease by placing yourself under proper treatment in time.

This treatment should not consist in dosing the system with narcotic drugs, but should be one that will at once oxidize in a natural manner, based upon "nature's own laws," all the congested and fermented particles found in the blood or tissues. There is no remedy on the market that will do this in such a wholesome manner as will the Microbe Killer. Try it for any ailment. At all druggists.

M'MASTER UNIVERSITY.

Laborers for the Field of Telegu—Rev. W. M. Walker, of London, Honored by the Alumni.

The proceedings yesterday in connection with the annual commencement exercises of McMaster University were characterized with the greatest enthusiasm on the part of the faculty, the students and the large number of ladies and gentlemen who assembled to testify their interest in the institution and its work. About 200 sat down to dinner at 4:30 o'clock, when Hon. John Dryden, Provincial Minister of Agriculture, and chairman of the university board of examiners, presided. As soon as the post-prandial proceedings terminated the company adjourned to the lecture hall, where the graduating exercises of the theological department were held, Chancellor Rand presiding.

The semi-annual meeting of the Foreign Mission Board was held at 3 o'clock in the afternoon, Rev. S. S. Bates presiding. Miss Kate S. McLaurin, daughter of Rev. Dr. John McLaurin, missionary in Bangalore, India, was appointed to go out to the Telugu mission field. Three other missionaries were ready to go out, and will start in a few weeks, viz., Dr. E. G. Smith, Rev. J. E. Chute and Miss Priest.

The annual business meeting of the Alumni Association was held on Monday night, at the close of the public meeting, when the following officers were elected for the ensuing year: President, Rev. W. M. Walker, B.A., London; vice-president, Rev. W. J. McKay, B.A., B.D., Stratford; secretary-treasurer, Rev. W. H. Cline, Paris. Rev. Dr. Murdoch was appointed to represent the association on the senate for the next four years, vice Rev. J. J. Baker, resigned on account of removal; and Rev. W. J. McKay was elected to the same body for a five years' term.

Canadian Dogs for Chicago.

TORONTO, May 3.—At a meeting of the executive of the Canadian Kennel Club today entries for the Chicago Exhibition bench show were considered. There were 158 in all. Of these eight were set aside and a few others allowed ten days to send in a statement of pedigree. The rest will go to Chicago.

Dynamite Explosion.

PITTSBURG, Pa., May 3.—About 200 pounds of dynamite exploded in the High Explosive Company's magazine at Willow Grove, Pa., this morning. Thomas Irwin, of Bolivar, N. Y., two cows and a horse were killed. The building was entirely demolished and a large hole torn in the ground.

Cholera Scare at Woodslee.

WINDSOR, Ont., May 3.—Woodslee village had a cholera scare yesterday. An employe at Haynes & Flatter's mills was taken suddenly ill and died in a few minutes. A report was circulated that the symptoms strongly resembled those of cholera, and they placed the man's body in a coffin and shipped it to Detroit, where his parents lived. No inquest was held.

Floods in Ohio.

CINCINNATI, Ohio, May 3.—Special dispatches report raging floods all over southern and central Ohio. The Scioto River at Chillicothee has cut off every wagon exit from the city except one.

PORTSMOUTH, Ohio, May 3.—The river at some points is over two miles wide. The damage between this city and Waverly will aggregate $200,000.

Sam Small's Daughter Sues for $10,000.

KNOXVILLE, Tenn., May 3.—Leta Jackson, a daughter of Sam Small, the evangelist, has brought suit against Arthur and Luther Wright to recover $10,000, which, she alleges, her husband, James Jackson, lost in gambling. Mr. and Mrs. Jackson were married about a year ago. Soon afterwards Jackson's mother died, leaving $40,000 in cash. He began going the pace then and is now nearly penniless. The couple have not lived together for some time.

Pure Baking Powder

is as necessary in making good light biscuits and pastry as good flour. The market is full of cheap, trashy baking powders, made from alum and soda. Users of the article should only buy brands that are well known for purity and fine quality. The old established Pure Gold brand, put up in small packages and cans, is always reliable.

Long Distance Courtship.—The idea that a man in love has a far-away look in his eyes probably originated in crinoline times.

A Man Made Happy.—GENTLEMEN,—For five years I have been a great sufferer with Dyspepsia; the pain in the pit of my stomach was almost unbearable and life only seemed a drag to me. When I would go to sleep I would have horrible dreams, and my life became very miserable, as there was no rest either day or night. But with the use of only two bottles of Northrop & Lyman's VEGETABLE DISCOVERY this unhappy state has all been changed and I am a well man. I can assure you, my case was a bad one, and I send you this that it may be the means of convincing others of the wonderful curative qualities possessed by this medicine, that are specially adapted for the cure of Dyspepsia. A lady customer of mine had the Dyspepsia very bad, she could scarcely eat anything, and was troubled with pains similar to those I suffered with; and she cured herself with two bottles of Northrop & Lyman's VEGETABLE DISCOVERY. I wish you success with your medicine, as I am fully convinced that it will do all you claim for it.

ATTACKED BY A COLT.

Mrs. Carpenter Received Injuries That May Be Fatal.

NEW YORK, May 4.—Mrs. Carpenter, a trained nurse living at 39 Prospect street, Yonkers, was attacked by a vicious young colt while visiting her sister, Mrs. George Frazier, in North Broadway on Sunday. Mrs. Carpenter had gone into the garden to pick some flowers, when the colt rushed in upon her and bit her on the arm. She tried to frighten him, but he would not run, and again rushed upon her.

Mrs. Carpenter ran for a tree, and the colt followed. She finally became exhausted, and the colt jumped upon her with such force that he knocked her down. He then trampled upon her.

When finally rescued her left arm was broken, and she had sustained internal injuries, from which she may die.

BRAVE BRITISH SAILORS.

Rescue Seven Persons from Drowning—A Common Occurrence with Them.

NEW YORK, May 4.—A wherry holding four men and three women capsized in approaching the British ship Blake yesterday afternoon. During visiting hours, which are usually from 2 to 5 o'clock, a gig manned by half a dozen sailors is held near the gangway for just such emergencies.

When the wherry turned upside down, leaving its seven occupants floundering in the water within 100 feet of the Blake, six pair of sturdy arms bent to the oars, and in a dozen strokes sent the gig out to the drowning men and women. They shipped their oars as coolly as though they were about to make a landing. The tars plunged into the river, leaving their boat to drift away with the tide. Five of the sailors each seized a half-drowned person and the sixth grabbed two. They swam to their gig with their burdens and in a jiffy all were aboard of her.

Occurrences of this kind are so common that the brave sailors did not appear to regard this act at all heroic, but visitors on the Blake thought differently.

SUNSHINE AT THE SHOW.

Pushing the Work on Roadways and Buildings—14,000 Paid Admissions Tuesday.

WORLD'S FAIR GROUNDS, CHICAGO, May 3.—Clouds and sunshine alternated at the exposition to-day in the most tantalizing manner for the visitors, but no rain fell, and Old Sol gained the mastery in the end. Work on the roadways and buildings which remain in an unfinished state is being pushed. Over 600,000 square yards of roadway have already been made firm and smooth for the summer crowds, and 100,000 yards more will have to be put in the same condition. Over 14,000 persons paid 50 cents to see as much of the fair as they could yesterday.

The visitors who are interested in electrical machinery are disappointed more than any others, as the exhibits in that building are the furthest behind. In fact, there is hardly anything worth seeing in the big building yet. Thousands of people yearn for a sight of the treasures in the fine arts building, as they stop to admire its incomparable classic exterior, but the paintings and other works of art are still arriving and the doors are closed to the public for the reason that installation would have to stop if people were allowed to enter.

"Look me in the face! My name is 'Might-have-been!'
I am also called 'No-more,' 'Too-late,' 'Farewell!'"

The poet who wrote the above must have been in the last stages of consumption. Perhaps he had only learned for the first time that if he had taken Dr. Pierce's Golden Medical Discovery in his earlier illness, he would never have reached his present hopeless condition! What can be more sad than a keen realization of what "might have been?"

Physicians now admit that consumption is simply scrofula in the blood attacking the lung-tissues. It is never safe to allow the blood to remain impure, and it is especially reckless, when such a pleasant, harmless remedy as Dr. Pierce's Golden Medical Discovery will drive every taint of of scrofula or impurity from the system, causing a current of healthy, rejuvenating blood to leap through the veins.
