Hamilton, June 9.—(From The World's Staff Correspondent.)—Ald. McAndrews' Market and Jail Committee to-night endorsed the recommendation of the Board of Works to asphalt the streets surrounding the city market.

An effort will be made to-get $1700 from the Finance Committee to reslate the Barton jail roof.

LACHELLE FOUND GUILTY

But the Magistrate Allowed Him to Go on Suspended Sentence.

Hamilton, June 9.—(From The World's Staff Correspondent.)—H. M. Lachelle, the man charged with defrauding Julian R. F. Boyd out of $20 on a bogus race ticket, was found guilty before Magistrate Jelfs this morning. Mr. Boyd, however, asked that the prisoner be let off on suspended sentence and this was done. The decision of the Magistrate that Lachelle must be photographed was resisted, both by the prisoner and his counsel, and this, too, was remitted.

How to Keep Boys on the Farm.

Wentworth County Councillors turned their day's sitting to practical account this morning by getting Prof Panton of the Guelph Agricultural College to lecture on agricultural science. Prof. Panton holds that if the children of the public schools were taught in a simple, attractive way about the earth, plants, birds, butter, etc., farmers' sons would not desert the farm for the city in the numbers they are doing. A committee consisting of W. M. Orr, D. Reid, E. Lee, R. S. Stevenson and School Inspector Smith are working for the introduction of scientific agriculture into the public schools.

Board of Trade Council.

The Council of the Board of Trade this afternoon determined to fight for the right of the city in the question of the raising of railway rates on the northern division of the G.T.R. A bonus was given by the city to preserve the rates as they are from Toronto for 21 years, and two years of the contract have still to expire.

Rev. Dr. Burns made an address on behalf of his university school, and the board gave it its hearty support.

The committee appointed to confer with the underwriters respecting city insurance rates reported progress.

Nellie Butcher Badly Hurt.

Nellie Butcher, whose evidence convicted Terence Scott of keeping a disorderly house, was knocked down by a bicyclist on Barton-street this afternoon, and was very badly hurt. She was carried into the City Hospital, where her wounds were dressed.

THE NIAGARA SYNOD.

Report on Religious Education Favors Religious Teaching in Schools.

Hamilton, June 9.—(From The World's Staff Correspondent.)—The second day of the Anglican Synod's proceedings opened this morning. After the election of the various delegates Rev. G. H. Miller of St. Thomas' Church presented the committee's report on religious education. It calls for one-half an hour daily religious instruction in the Public schools by the clergy of the various denominations, and one-half an hour daily instruction by the teachers, using the Bible as a text book. The children of parents objecting to such teaching are to be excused from attendance thereat, and the same privilege is accorded to teachers.

The Address to the Queen.

At the session of the Synod this afternoon the address of congratulation to the Queen was presented by the committee. It will be handed to Her Majesty by Bishop DuMoulin on his visit to England to attend the Lambeth Conference.

Votes of thanks were given to the rector and churchwardens and the ladies of the different parishes for their hospitality.

Two months' leave of absence was granted Major J. J. Mason, the secretary-treasurer, to enable him to go to Bisley as captain of the Canadian contingent.

Stirring, Not "Stormy."

By a mistake of the telegraphers, to-day's World reported the missionary meeting of the Anglican Synod now sitting in Hamilton as "stormy," instead of "stirring."

Y. M. C. A. Sports.

The three road races in connection with the Y.M.C.A. sports on Saturday promise to be very interesting. Over twenty entries are in for the bicycle races, and the five mile foot race will be filled before Friday. Mayor Colquhoun and Capt. Tidy will be judges. R. B. Harris and Don Cameron will be timers.

Minor Notes.

The Church Boys' Brigade to-night decided to make a two weeks' encampment at the Beach this summer.

The regular semi-monthly assembly of the Victoria Yacht Club took place this evening. About 35 couples were present, and a pleasant time was spent. The club orchestra provided music.

The Finance Committee of the Board of Education met this afternoon and opened tenders for school supplies. No contracts were let. The secretary was instructed to do some figuring.

There were about 2000 well-pleased people at the Siege of Sebastopol at Dundurn Park to-night. The display opened with an engagement between the allied armies and the Russians. One of the prettiest scenes was the night camp with its blazing camp fires and midnight alarm. A funny incident was the escape of a large pinwheel firework, which chased a policeman into a corner.

MR. WHITNEY AT ST. THOMAS.

The Conservative Leader and His Colleagues Saw the Places of Interest and Spoke to Large Crowds.

St. Thomas, June 9.—Mr. J. C. Whitney, the Conservative leader in the Ontario Legislature, arrived in the city at noon to-day from Aylmer, accompanied by J. W. St. John, Toronto; Col. Matheson of Perth and Dr. W. A. Willoughby of Colborne. The party were met at the depot by a committee composed of the leading members of the Conservative party, and were driven around the city and shown through the M. C. R. shops and other places of interest.

In the evening a mass meeting was held in the Duncombe Opera House, which was attended by a large crowd of both ladies and gentlemen. The hall was very tastefully decorated, and mottoes suitable for the occasion were hung on the walls.

The chair was occupied by Dr. Guest of Shedden, president of the West Elgin Liberal-Conservative Association, who in a neat speech introduced Mr. St. John as the first speaker. He touched on the educational and several other subjects, making a very good speech.

Findlay G. MacDiarmid, the Conservative candidate for West Elgin, made a short speech, but did it well.

The speaker of the evening of course was Mr. Whitney, who spoke for upwards of an hour, touching on all the principal questions now before the people. Mr. Matheson followed.

Each of the speakers was presented with a large bouquet of flowers on coming forward.

Another Rescue From Drowning.

Charlie Simpson is a somewhat venturesome little boy of 9 years, who lives near Pioneer Cottage, owned by his father, at Centre Island. His narrow escapes from drowning in the past did not deter him from wading in over depth into the old filtering basin at the Island about 12.30 yesterday. He had been down for some time when Fireman Russell of the dredge came up and dove in, clothes and all. He succeeded in pulling the boy out, and worked, with P. C. Johnston, for upwards of a quarter of an hour before any signs of returning life were manifest. Respiration restored, Dr. Davidson arrived and took the patient to his home. Mr. Russell, with a hero's modesty, immediately returned to his work, losing no time.

He Died Young.

New York, June 9.—Robert Johnston Finlay, manager of the McClure Newspaper Syndicate, died in this city last night, aged 29 years.

THE MEMBERS WORKED HARD

And Sir Richard Let Them Off Early.

OVER 300 ITEMS PASSED

So the House Was Dismissed at Half Past Ten o'Clock.

Mr. Mulock Proposed a Couple of Bills in Regard to the Service, and Then the House Went Into Committee on the Tariff—"Woven Wire Fence" Was a New Item, and It Struck a Snag First Pop—The Proposal Was to Protect a Factory in a Liberal Riding—Then the Members Rushed Business at a Lively Rate and Got Off Early.

Ottawa, June 9.—(Special.)—The Minister of Trade and Commerce is to explain the fast Atlantic steamship question in the House to-morrow.

Mr. Davies told Mr. Cameron that the officers and men of the fishery cruisers were receiving the same rate of pay as in 1896.

Mr. Mulock's Bills.

Mr. Mulock introduced a bill to amend the Postoffice Act, the object of which, he said, was to arrange for security from employes of the department, either by means of guarantees from companies or the establishing of a fund. He wished to avoid, if possible, the procuring of security bonds from each officer. The bill also authorizes the creation of the railway mail service branch.

Mr. Ellis remarked that he would have liked to hear the Postmaster-General say that the bill provided for the insurance of registered letters.

Mr. Mulock introduced a bill to amend the Civil Service Act. It proposes to make a new class, to be known as stamping clerks, in city postoffices. Another clause would permit the Government to make certain changes in the department staffs in regard to officers who had entered the service prior to 1882 without examination.

Sir Charles Tupper asked the Government to table any correspondence with the Government of the Leeward Islands in regard to the recommendation of a competent engineer to carry on the public works in that colony. E. J. Walsh of Ottawa had been recommended for the position by the Dominion Government, and was now suing the Government of the Leeward Islands for arrears of salary.

On the Tariff Again.

The House then went into committee on the tariff. The discussion on the item of barbed wire was resumed.

Mr. Paterson mentioned that it was proposed to make a new item, "woven wire fence," dutiable at 25 per cent. He said that the use of barbed wire was decreasing, and this new class of fencing coming into more general use. Dr. Allen the Hoodgates opened and the Government was severely criticized for depriving the farmer of the opportunity of securing this new class of wire by this high rate of duty. It was pointed out that if there was any reason for making barbed wire free to benefit the farmer, surely the same remark would apply to the new class of fencing.

Incidentally it was elicited that the protection of 25 per cent. was to be given to a wire fence factory at Walkerville, in a Liberal constituency.

After considerable discussion, Mr. Fielding admitted it was a fair question as to whether or not the proposed duty of 25 per cent. was too high. The Government would, therefore, consider whether or not it should be made lower.

Mr. Foster asked that the item, "skates, 35 per cent.," stand. There was keen competition as regards this industry, from cheap German labor, and he would ask the Government to consider whether a specific duty might not fairly be re-imposed.

Mr. Russell joined with Mr. Foster in asking that the item be held over.

Mr. Maclean read from the Parliamentary hand book to show that while Mr. Russell posed as "an ideal free trader," he was not averse to asking for more protection for an industry in his own town.

Good progress was then made and over 40 items passed before dinner hour arrived.

One change was made. Stereos and electros for newspaper columns are dutiable at 1-4 cent per square inch. Matrices, or copper sheets for the same, which the tariff fixed at 2 cents per square inch, were reduced to 1 1-2 cents.

At the evening session there were empty benches on the Opposition side, owing to the banquet then in progress to Sir Charles Tupper. Messrs. Taylor, Henderson and Gilmour being sole representatives of the Conservative party. Rapid progress is being made, Mr. Fielding allowing such items to stand as Mr. Taylor requested.

A Bit of Fun With Mr. McMullen.

There was a good deal of pleasant banter when Mr. McMullen entered the House and took his seat on the front Opposition benches. He was promptly repudiated by Mr. Henderson as an Oppositionist.

Mr. McGregor remarked that Mr. McMullen was more at home on the Opposition benches than on the Government side. Presently some wag commenced to send copies of the Auditor-General's report to the member for North Wellington, and soon there was a stack in front of him which obstructed his view of the Government benches.

Meanwhile the Deputy Speaker was driving through the tariff at racehorse speed. One change was made regarding which there has been a good deal of criticism in the press. Articles by mail and express of not more than 50 cents in value, will, as a result of the change, not come in free.

Mr. Erb sought to have oil paintings made dutiable at 25 per cent., but both Mr. Fielding and Mr. Wood of Hamilton objected.

The Deputy Speaker rattled along, and the back benches on the Liberal side were having their fun. A halt was, however, called on the item in free list, "salt imported from the United Kingdom or any British possession, or imported for the use of the sea or Gulf fisheries."

Then the three Conservative members were edified to see stalwart after stalwart on the Liberal side rising and pleading for protection. It was John McMillan, who set the ball rolling. He pleaded that English salt was entering into unfair competition with the Ontario product, and urged that all salt be made dutiable and a rebate granted when imported for use in sea fisheries.

Mr. Taylor said he was glad to hear the protectionist sentiments of the honorable gentleman. If he would move that item be struck out he (Mr. Taylor) would be glad to second it.

Mr. McMullen rose in hot haste to disavow the statement that he was a protectionist.

Major Sutherland endorsed Mr. McMillan's observations regarding the salt industry.

Mr. Cameron's Flop.

Then Mr. Cameron took the floor and talked good protectionism. If Ontario had to pay duty on coal, he did not see why Ontario salt should not be protected. There was no combination now among the salt manufacturers. They had to contend with very serious opposition, as English table salt, admitted free, was being sold in the towns of Western Ontario. He was not asking for protection in the ordinary sense of the term. He wanted to keep alive and maintain one of the most important industries in the Dominion. [Derisive cheers from the Opposition trio.]

Messrs. McGregor and McDonald (Huron) followed in the same strain.

The latter, on rising, was greeted with the cry from the Liberal benches, "another protectionist." This he promptly proceeded to disavow, but in a minute or two was arguing in favor of protection and justice to the great industry of his county.

Dr. McLennan (Liberal, Inverness) expressed his surprise to hear this.

The item passed without change.

Mr. Davis of Saskatchewan urged a duty on tea, but no change was made.

By 10.30 p.m. over 300 items had been passed, and with the exception of about a dozen items, all the schedules had been disposed of.

Sir Richard Cartwright said in consideration of the extreme assiduity and attention to business on the part of hon. members, and the unparalleled progress made, although the hour was early, he thought the House might adjourn.

Mr. Henderson asked what business would be taken up to-morrow.

Sir Richard replied that in the morning the fast line contract would be considered and afterwards the estimates and the tariff.

The House then adjourned.

BROADWAY TABERNACLE.

Rev. Dr. Briggs Writes a Letter—Who the Bondholders are Who are Being Sued.

Editor World: The statement regarding Broadway Methodist Tabernacle and my connection therewith, which appeared in this morning's issue of your paper, has been shown me, and in regard thereto I beg to say:

1. I am not, and have not been at any time, the agent of the Star Life Assurance Society.

2. I am informed that no writ of foreclosure has been issued against the trustees of this church, at least by the said society.

3. The Advisory Committee of the Star Life, consisting of the men mentioned in your article, have taken no action in any way in connection with this trouble.

4. The text of my sermon on the occasion you refer to was not "Walk about Zion," etc.

William Briggs.

The information given to World readers regarding the trouble at the Broadway Methodist Tabernacle was furnished by the trustees and their solicitor, Mr. Frank Denton. In justice to Rev. Dr. Briggs it must be stated that Dr. Briggs is a member of the Advisory Board of the Star Life Insurance Company, which is composed of Messrs. Hanson, Cox and Briggs. It is a son of Rev. Dr. Briggs, Mr. A. W. Briggs, who is the agent and solicitor of the company. The writ issued by Mr. A. W. Briggs is not to foreclose the mortgage of $69,503 held by the Star Company, but to recover the amount of interest due, viz., $1200, on March 1 last. The bondmakers on the mortgage against whom the writ was issued are: W. E. Southgate, Milton S. Dingman, H. C. Salmon, W. R. Steward, William Calvert, James L. Hughes, Andrew Thompson, G. E. Harris, Miles Yokes, T. J. Death, W. F. Mountain and the Charles Ruse estate. The mortgage was made in June, 1889. The information given to The World was printed in good faith, and it was Mr. Denton, the solicitor for the trustees, who volunteered the information as to what Dr. Briggs' text was when he preached the evening sermon at the opening of the Tabernacle. Dr. Briggs can arrange this dispute with Mr. Denton. Mr. Denton also explained to the reporters that the Broadway Tabernacle had been longer in arrears than at the present time, and nothing had been said about it. He also said that the company held mortgages on a large number of other Methodist churches in Canada, and some of these churches were more in arrears for interest than the Broadway Tabernacle, yet no similar action had been taken against them. It is reported that the gentleman who occupied the pulpit of the McCaul-street Methodist Church during the past few years will take the charge at Broadway Tabernacle.

REMOVED THE BUILDINGS.

A Tiny Township Man Pleads Guilty to Selling Houses Off Property Mortgaged by Him to a Loan Co.

Barrie, June 9.—(Special.)—At the County Sessions to-day the grand jury found a true bill against George Firth of Tiny Township for selling and removing two frame houses and sawmill and machinery from lands mortgaged by him to the Canada Permanent Loan and Savings Company. Afterwards, on arraignment before Judge Boys, the accused pleaded guilty on the advice of his counsel, and he was remanded until the 23rd inst. for sentence. This case came under a section of the criminal code which may not be so generally known to owners of property subject to mortgage as it should be. Crown Attorney Cotter and Mr. R. B. Beaumont appeared for the complainants and Mr. Hewson, Barrie, for the accused.

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed
