GOOD NIGHT.

(From the German of Kormer.)

Good night!
To each weary toil worn wight:
Now the day so sweetly closes,
Every aching brow reposes
Peacefully till morning light.
Good night!

Home to rest?
Close the eye and calm the breast:
Stillness through the streets is stealing,
And the watchman's horn is pealing,
And the night calls softly, "Haste!
Home to rest?"

Sweetly sleep!
Eden's breezes round ye sweep:
O'er the peace forsaken lover
Let the darling image hover,
As he lies in transport deep,
Sweetly sleep!

So, good night!
Slumber on till morning light;
Slumber, till another morrow
Brings us stores of joy and sorrow:
Fearless, in the Father's sight,
Slumber on. Good night.

EXTENSIVE MILL PROPERTY.

To be sold by Private Bargain.

ALL that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one Mill, containing six saws in single Gates; with a GRIST MILL, in good order, driving two pair of stones.

The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order and some of the Gangs could be driven throughout the entire year, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak thus securing the whole waters of the river, for the driving of the Mills.

Connected with the Mills there is a fine large Store, well adapted for the business of the country; and a Blacksmith's Shop, and a good Cottage and Garden Attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.

There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side, the latter embracing the Holybrooks Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Woodstock, or to the subscribers at St. John.

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.'

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, Inflammation of the Lungs, Croup, &c. it is unrivaled. But the Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs;—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid;—the agent or proprietors of other medicines dare not claim for their preparations a power like this; they know that in no case have such effects been produced;—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
