CANADIAN ISSUES STRONG.

Crow's Nest Coal Yesterday Sold Up to 200.

Advances in Montreal Railway, Toronto Railway, Twin City, Royal Electric and Richelieu—Fluctuations on Wall-Street—Railway Earnings—Notes and Gossip.

World Office,
Wednesday Evening, Oct. 24.

There was considerable activity and strength in Canadian securities to-day, with Montreal a leader in the upward movement. Crow's Nest Coal in Toronto again figured prominently, selling at one time as high as 200, and reacting on some profit-taking sales to 197. The close was at 195 bid, four points above yesterday's close. Altogether, upwards of 5000 shares of Crow's Nest changed hands in Toronto to-day. In other mining issues, War Eagle eased off three points, to 107. C.P.R. advanced fractionally, touching 88. Montreal Railway was again strong, and Toronto Railway advanced nearly a point. Twin City sold up to 61½. Richelieu & Ontario and Commercial Cable manifested buoyancy. Royal Electric was pushed up about two points.

Forget's London morning cable to-day quoted: G.T.R. first preferred 85⅝, second 35⅝, third 20⅝; Hudson Bay 22⅝; Anacondа 9 5-16.

* * *

Montreal Street Railway earnings Tuesday were $5375.78, an increase of $785.13.

* * *

Grand Trunk Railway System earnings, 15th to 21st October, 1900, $489,790; corresponding week, 1899, $494,600; decrease, $4810. Chicago & Grand Trunk earnings omitted.

* * *

The earnings of the Twin City Rapid Transit Company for the second week of October, 1900, were $54,900.13, as against $50,817.35 for the corresponding period of last year, being a decrease of $4017.20. President McKinley's reception and the welcoming of the 13th Minnesota on their return from the Philippines in October, 1899, accounts for this decrease.

* * *

The earnings of the C.P.R. for the traffic week ending Oct. 21 were $508,000; for the corresponding week of last year the earnings were $684,000.

Notes by Cable.

On Wall Street.

To-day's broad and active market and the wide fluctuations in prices offered excellent opportunities for speculation, and all classes of professional operators were very busy all day. The latter element offered the effective medium for the success of the efforts of professionals. That there was a very large selling of stocks during the day to this outside element became increasingly manifest as the day progressed. The backbone of the day's market consisted of the strength of transcontinental group of railroads lying beyond the Mississippi River. Many rumors were afloat this morning calculated to stimulate the buying of these stocks. A lease of Northern Pacific by Great Northern, with a 4 per cent. dividend guarantee on the Northern Pacific common stock, is an example of the character of the rumors which were heard.

There was a very large speculation also in Pennsylvania, and it was intimated by the vociferous element amongst the buyers that the dividend rate is to be increased next month. The strength from these stocks radiated thruout the general list with greater or less effect. Active buying of Sugar helped the rise in the specialties.

The weakness of foreign exchange, with corn bills coming largely into the market, and the further decline in London money rates justify the expectation that further gold imports are imminent. The $1,000,000 withdrawn from the Bank of England to-day is not unlikely to find its destination in New York.

J. J. Dixon has the following this evening from Ladenburg, Thalmann & Co., New York:

The stock market opened active and excited this morning, with irregular changes in values. Reactions were numerous during the day, but the tendency was toward higher prices until the last hour, when the selling became general, and resulted in an average decline of about a point from the best prices. Atchison and Northern Pacific issues were the features of the railroad list, and Sugar Refining led the industrials. Rumor of new interests in Pacific Mail helped the manipulation of that stock, and there seemed to be liquidation at the higher figures. National Tube issues were strong. B.R.T. was a feature, and transactions were in good demand until the last hour. London sold more than it bought. Demand sterling, $4.83½ to $4.83¾.

Wabash, third week October, increased $18,968.

Money Markets.

The local money market is steady. Money on call, 5 per cent.

The Bank of England discount rate is 4 per cent. Open market discount rate, 3 to 3¼ per cent.

Money on call in New York at 3½ per cent.

Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat—The less weak cables than anticipated after the decline in wheat here yesterday opened the market quite strong and good buying was noticeable, based apparently on the earlier cable news and the less favorable reports from the Argentine crop. The temperament of the local traders, however, continues very bearish, and with the outside speculative interest reduced to small proportion. The buying power in the market has hardly been equal to absorb the long wheat thrown on the market late yesterday, and in addition to absorb bearish offerings without loss in values. The break towards the close was in rumored heavy stop loss orders at 72c for December, but the market's action did not indicate such stop loss orders existed. The cash demand is good and prospective supplies lighter. The damage talk due to the Russian fly is somewhat premature. The bearish features, however, appear fully discounted and wheat looks a purchase tonight.
