PENNSYLVANIA RAILROAD CO.
Harrisburg, Pa., May 1st, 1896.

The Wells Light M'f'g. Co.
No. 44 & 46 Washington St.,
New York City.

Gentlemen:—I have your letter of April 27th and in reply beg to say we have had in use on this Division two Wells Lights for a period of over three years and it gives me pleasure to state that they have at all times, and all conditions of weather, given entire satisfaction and we consider them a valuable addition to our wrecking equipment.

Yours very truly,
R. [illegible] MERCER,
Superintendent P. R. R. Co.

J. W. KAUFFMAN,
Asst. Yard Master in charge of Wrecking Force.

These have been shown as part of the Interior of the Ventilator.

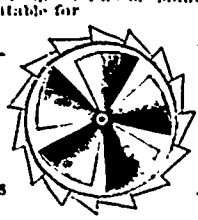
THE

Æolian Ventilator,

(PATENTED MAY 26th, 1894.)

We guarantee our Ventilator to give perfect satisfaction where used. Manufactured and especially suitable for

Public Buildings, Hotels, Nurseries, School Houses, Banks, Factories, Offices, Private Residences, Etc., Etc.



Cut showing the inside of Ventilator.

THIS Ventilator has proved itself to be superior to any one that has been placed before the public. It has proved by the tests which have been made its adaptability for ventilating large buildings, churches, camp of churches, public conveniences, schools, hospitals, stables, etc.

Great tests with the wind have been made, by means of which a constant current of air is established, the chief feature of this ventilator is that its motive power is fixed not only for the slightest wind, but for calm air, and therefore it is independent of the weather inside the building.

Every Ventilator is guaranteed to give entire satisfaction.

Testimonials obtained on application.

This ventilator is very simple in its appearance and substantial in make.

Estimates for copper ventilators given on application.
