CROWN SAID TO BE IN PAWN.

One to Be Used at the Coronation is Not the Ancient One.

Philadelphia, Jan. 29.—The North American has the following from Paris: Karl Reubel, an archivist of Dortmund, declares that he has proof that the crown of England, which will be used at the ceremonies incident to the coronation of Edward VII., is not the real badge of office of the Kings of England.

M. Reubel says that he has documentary evidence that the real crown of England was placed in pawn with some money lenders at Dortmund in 1342, in the reign of Edward III. These men took it to Cologne, where the crown jewels of England were carried later. On Dec. 26, 1343, the King acknowledged his indebtedness to Conrad and Jean Cliving, Tidemann Lemberg and Jean Wolde in the sum of 45,000 English crowns, loaned to the King upon the deposit of his crown.

The King, M. Reubel says, did not attempt to redeem his insignia of royalty, which, in 1344, was still in the possession of Lemberg, the money lender. Afterwards Lemberg changed his place of residence, and took the crown with him to Bruges. In 1346 the same Lemberg took in pawn another crown from Edward III.

There is no document showing that either of the crowns was ever redeemed by the English sovereign, and the conclusion drawn by M. Reubel is that the crown now used in England is one made not later than 1346. He does not know the whereabouts of the real crown.

SPLENDID RESULTS AND PERFECT SUCCESS WHEN THE DIAMOND DYES ARE USED.

Diamond Dyes have long ago become the popular dyes in the homes of the civilized world. They are sure and reliable under all circumstances, giving the choicest, most brilliant and most lasting colors.

Diamond Dyes are the safest to use in the home; no poisonous ingredients to irritate the hands are ever used in the manufacture of these famed dyes. Common and imitation package dyes are largely composed of dangerous materials.

Diamond Dyes are so easy to use that a child can dye as successfully as a grown person. Beware of common and crude dyes sold simply for the sake of large profits. Insist upon having the Diamond Dyes, and your work will be well done.

If you are interested in home mat and rug making, send your address to The Wells & Richardson Co., Limited, 200 Mountain-street, Montreal, and you will receive this season's designs to select from.

Mother Saves Child.

Dresden, Jan. 29.—Mr. Fred Thornton's little daughter Winnie had a narrow escape from a horrible death yesterday morning. Mrs. Thornton had been handling some coals in a shovel, and it is thought that a spark must have caught in Winnie's clothing. Mrs. Thornton had just left the room when she heard Winnie screaming, and, on running back, found the little girl enveloped in flames. Dr. Thornton had, in the meantime, rushed in, and, wrapping woollens around the child, succeeded in extinguishing the flames. Her arms and neck are badly burned, but otherwise she is not seriously injured.

For Good Roads.

What is expected to be the most important Good Roads Convention ever held in Canada will be held in Ottawa on Thursday and Friday, March 13 and 14, next. Every county and township council in the Province is being invited to send delegates. The convention will be held under the auspices of the Eastern Ontario Good Roads Association, and will be conducted on a much larger scale than the one held by the association last winter.

NEW BRUNSWICK'S NEW HEAD

Senator Snowball Will Be Sworn in as Lieutenant-Governor in a Few Days.

APPOINTMENT SIGNED YESTERDAY.

He Was Born at Lunenburg, Nova Scotia, in 1837—A Busy Career.

Ottawa, Jan. 29.—Hon. Mr. Snowball, who has just resigned a Senatorship to become Lieut.-Governor of the Province of New Brunswick, leaves for home to-morrow. His appointment was signed by the Governor-General to-day. He will be sworn in by the Chief Justice of the Province in a few days.

One of the names mentioned for the Senatorship is Mr. Fred Thompson of Fredericton, brother-in-law of Mr. Snowball.

Hon. J. B. Snowball is a son of the late Rev. John Snowball. His family is of German origin, but was, for several generations, resident in Yorkshire, England. The new Lieutenant-Governor was born at Lunenburg, Nova Scotia, on Sept. 24, 1837. He was educated at Mount Allison Wesleyan College, at Sackville, N. B. He has been twice married, first, to Margaret, daughter of Mr. John Macdougall; and, second, to Maggie, daughter of Rev. Robert Archibald of New Monkland, Scotland. He has been largely identified with railway interests in New Brunswick. He was president, and is now manager, of the Canada Eastern Railway. He has also been extensively engaged in the export timber trade, and owns several steam sawmills and tugboats. He has been president of the St. George's Society of Chatham, and is connected with all the important enterprises of Northumberland County, where he now resides. He ran for the House of Commons of Northumberland County in 1874, in the Liberal interest, but was defeated. In 1878, he ran again for that county, and defeated Hon. Peter Mitchell. He continued to sit in the House of Commons until 1882, when he retired. He was called to the Senate by the Conservative government in 1891, and he now classifies himself as an Independent in politics.

LONDON AND CHAMBERLAIN.

An Address in a Gold Box Will Be Presented to Him.

London, Jan. 29.—The Times of Jan. 17 says: A meeting of the Court of Common Council was held yesterday at Guildhall. The Lord Mayor presided at the beginning of the proceedings, but, on his having to leave to attend the opening of Parliament, his place was taken by Alderman Sir Henry Knight.

Mr. Deputy Pearse Morrison moved the following resolution, which had been previously agreed to unanimously at a private meeting of the committee of the whole court: "That an address, in a suitable gold box, expressive of the admiration of the court of his statesmanlike qualities and patriotic action in the true interests of the British empire, be presented to Right Hon. Joseph Chamberlain, M. P., His Majesty's principal Secretary of State for the Colonies, and that the right hon. gentleman be invited to attend at the Guildhall for the purpose of receiving the same." He said that, after the enthusiastic manner in which the proposition had been received in the committee of the whole court, and the eloquent speeches then delivered, he thought he should be wasting time if he were to say anything of a controversial character. He should content himself with relying that we've been the chivalrous feeling of every true Briton, all of whom desired to unite in doing honor to the man, who, by his far-seeing policy, had done more to consolidate our brethren beyond the seas than any other statesman. He did not think it required anything further from him in moving the resolution. Mr. Chamberlain had, by his action, brought the empire into one great commonwealth, to which all were proud to belong, and he stood out as one of the foremost statesmen of the age. [Cheers.]

Alderman Sir Henry Knight, in seconding the resolution, explained to the uninitiated in civic matters that the only reason why it had not been proposed to confer the freedom of the city on Mr. Chamberlain was that he had for many years been a freeman and liveryman of the city and a leading member of the Guild of Cordwainers, to which his family had belonged for generations. The greatest compliment, therefore, they could confer on Mr. Chamberlain was that indicated in the resolution. There were times when it was very cheering to a public man to receive the approbation of his fellow-citizens. The present moment was particularly opportune for the citizens of London unmistakably to express their trust and confidence in the Colonial Secretary. [Cheers.] He felt it a great honor to second the resolution.

The motion was then put, and carried with unanimity, amid loud cheers.

CITY NEWS.

Board of Trade Thanked.

The Board of Trustees of Toronto University have adopted the following resolution, which is self-explanatory:

The trustees further take this opportunity of acknowledging the indebtedness of the University to the Board of Trade for valuable co-operation in the preliminary work of arranging a curriculum for these courses and their gratification in the fact that the efforts of the University in providing courses of instruction commensurate with the needs of the rapidly extending commerce of Canada meet the approval of a body so representative of the commercial interests of the country."

Will Girdle the Earth.

Mr. Harry Ryrie leaves the city tomorrow for a tour of the world. The primary object of the trip is a visit to India and Ceylon, the home of the pearl, ruby, sapphire and emerald. For a number of years Messrs. Ryrie Bros. have been purchasing their diamonds personally from the cutters in Amsterdam, and are now reaching for the fountain head of these other gems, and will, by purchasing from the native dealers, effect a substantial saving. Messrs. Ryrie Bros.' reputation for gems is by no means a local one, but extends from the Atlantic to the Pacific, and upon both sides of the border line. Mr. Ryrie will also visit Japan and China, passing by the Suez Canal to Italy, and, as usual, will visit all the leading art centres of Europe in quest of those treasures for which Diamond Hall is justly celebrated.

This is worth $200. The other realty is G4 and G4½ Shuter-street, $7450. The personalty includes $2000 in household effects, $4276.08 cash, and $300 in stock.

East End Jottings.

J. R. Hancock, D. D., assisted by A. D. Carter, P. D. D., installed the following officers of Lodge Stafford, No. 32, S.O.E., Tuesday evening, in Dingman's Hall: Past president, T. W. H. Bailey; president, A. E. Ellerby; vice-president, J. Wallace; recording secretary, T. Yeoman; treasurer, J. Harper; chaplain, H. B. Pitcher; inner guard, F. Howlett; outer guard, G. James; committee, Messrs. J. Mainard, J. T. Horner, W. Bartley and J. Davis. An oyster supper was served at the conclusion, after which an impromptu program was carried out.

The entertainment held Tuesday in the First-avenue Baptist Church, to celebrate the 27th anniversary of the Sunday School, was highly successful, there being several hundred scholars, with their parents and friends, in attendance. Rev. P. C. Parker presided.

Thomas Patterson of 212 First-avenue was knocked down by a Parliament-street car, while crossing Gerrard-street, near Logan-ave., Tuesday evening, and suffered several severe scalp wounds. Dr. Sneath attended the injured man, and had him removed to his home.

E. J. Lyons of 719 East Queen-street has recovered from a severe illness.

A Cure For Costiveness.—Costiveness comes from the refusal of the excretory organs to perform their duties regularly, from constributing causes, usually disordered digestion. Parmelee's Vegetable Pills, prepared on scientific principles, are so compounded that certain ingredients in them pass through the stomach and act upon the bowels, so as to remove their torpor and arouse them to proper action. Many thousands are prepared to bear testimony to their power in this respect.

DEATH OF HENRY E. SMITH.

Resident of Owen Sound Was Taken Sick at Queen's Hotel.

Henry E. Smith, a director of the Northern Navigation Company, and a well-known resident of Owen Sound, died shortly after noon yesterday in St. Michael's Hospital. Mr. Smith, while on a visit to the city about two weeks ago, was taken ill with pneumonia at the Queen's Hotel. He was removed to the hospital, and, shortly afterwards, developed Bright's disease. There were present at his bedside his two sisters, Mrs. Brown of Owen Sound, and Mrs. Duncan McIntyre of Montreal, and his brother, Mr. Horace Smith of Owen Sound.

Deceased was 43 years of age and unmarried. For a number of years he was secretary of the Northern Navigation Company, and at the annual meeting of that company in Collingwood on Tuesday he was elected a director.
