LONG LIST OF ACCIDENTS.

Man Buried Under Falling Wall—Percy Gallinger May Die.

John Egan, 77 Bellevue-avenue, was working at Clarke's stable on Adelaide-street, tearing it down, when the wall came down unexpectedly, and he was caught beneath, the bricks covering him entirely. He had his leg fractured, and a large cut that required several stitches in his head. After being fixed up at the Emergency Hospital, he declared that he was fit to go home and asked should he go to any other hospital would they give him beer.

Rev. Dr. Robert Cade was knocked down at the corner of Queen-street and Cowan-avenue on Saturday by a bicyclist traveling at a rapid rate. The bicyclist made off, not giving anyone a chance to get his name. He was attended by Dr. Lynd. His injuries amount to a scalp wound, requiring several stitches, and some smaller cuts.

Nelson Huntley, an employe of the King Edward Hotel, fell from a fourth-storey window of the hotel and alighted on the porch over the main entrance on King-street. He only started in the employ of the hotel yesterday and was scrubbing windows. In pulling the upper glass down, he pinched his fingers, and that loosened his hold. At the General Hospital it was found that his head was fractured on the left side, and he suffers considerable pain from his back and ankle joints.

Frank Foster was driving his horse and wagon down the Winchester-street hill when one of the hind wheels of the conveyance came off, precipitating him to the ground. He struck on his head, causing concussion of the brain. He lives at 38 St. James-street.

David Tweedie was driving in with potatoes from Highland Creek to the city, when a King-street car struck the wagon, precipitating him into the road, breaking his leg and shaking him up generally.

Percy Gallinger, who was injured in a street car accident on Saturday evening, is still unconscious at his home at 107 Cowan-avenue. Dr. Lynd says there is not much change in his condition since Sunday, but has very slight hope for his recovery.

Leg Badly Smashed.

Listowel, Nov. 2.—W. Ellison was lowering a pulping machine when something went wrong with the elevator, and its huge burden of some three or four hundred pounds fell upon his leg and smashed it so badly that amputation may be necessary.

Dr. Shoop's Rheumatic Cure

Costs Nothing if it Fails.

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly 20 years I worked to this end. At last, in Germany, my search was rewarded. I found a wonderful chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatism Cure on trial. I cannot cure all cases with in a month. It would be unreasonable to expect that. But most cases will yield within 30 days. This trial treatment will convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism—a potent force against disease that is irresistible.

My offer is made to convince you of my faith. My faith is but the outcome of experience—of actual knowledge. I know what it can do. And I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month on trial. If it succeeds the cost to you is $5.50. If it fails the loss is mine and mine alone. It will be left entirely to you. I mean that exactly. If you say the trial is not satisfactory I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism must be drugged to the verge of danger. I dare no such drugs, for it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met, and in all my experience, in all of my 2000 tests, I never found another remedy that would cure one chronic case in ten.

Write me and I will send you the book. Try my remedy for a month, for it can't harm you anywhy. If it fails the loss is mine.

Address Dr. Shoop, Box 21, Racine, Wis.

Mild cases not chronic are often cured by one or two bottles. At all druggists.

Association Football Records.

Broadviews now lead, with Gore Vales and Carpet Company a tie for second place. Will a game there between the Broadviews and Toronto Carpet Company and the Gore Vales beating All Saints, the standing of the Eastern Section of the Toronto Intermediate League is as follows:

Names.	W.	L.	D.	To p.	Pts.
Broadviews	3	0	1	2	7
Carpet Company	1	1	3	1	5
Gore Vales	2	1	1	1	5
All Saints	0	4	1	1	1

In the game on Garrison Common Saturday afternoon between the Broadviews and Toronto Carpet Company, the game was more evenly contested than the score would indicate, as, altho the Carpet Company went down to defeat before the fast Broadviews, they put up a clean and clever game thruout. The Broadviews commenced the game with the wind in their favor and after ten minutes' play succeeded in notching their first goal, Murray doing the trick, which was followed in about five minutes by Maxwell heading a nice pass thru from Lewis. At half time the score was 2 to 0 in favor of the Broadviews. In the second half the Carpet Company began pressing the Broadviews at the start, but it was not their lot to score, as the Broadview's defence played a steady game, and after 15 minutes' play Murray succeeded in scoring another. The play was fast and furious from then on, the ball going from end to end, and with about five minutes' play Maxwell by a clever shot put the 4th and last goal between the posts. Special mention might be made of Woodard, Elliott and Collins on the forward line and Robinson back for the Carpet Company, while it would be hard to single any of the Broadviews out for special mention, as the team, composed of the following men, are a fast and clever lot of kickers: Goal, Chandler; backs, Weller and Maddocks; half backs, Clarke, Gibbons (captain), and Barkley; forwards, Gill, Lewis, Hall, Murray, Maxwell.

How Iron-ox Tablets Improved a London Boy's Health.

January 31, 1903.

I am glad to tell you of the good effects of Iron-ox Tablets. We first got them for our boy, two-and-a-half years old, who was very cross and had no appetite. Your remedy soon made him as bright as ever. My husband uses them for headache and sluggish liver. While certainly effective, they cause neither pain nor inconvenience. We have a box in the house always now.

Your Money Works While You Sleep

Our famous corps of track sharps are up at break of day, "clocking" the horses in their morning tryouts and while you sleep they spot the winners that bring you steady income.—Our method puts you on a level with the most successful plungers of the American turf.—We operate for you for 25 per cent. of weekly earnings.—We win only when you win.—Results obtained really "beyond dreams of avarice."

Again we scored heavily for all of our clients last month. Again we landed the money and landed it in chunks. Three years of organization, with the best facilities that money and brains can procure to make our service of picking and backing winners at the horse races the most accurate and profitable in the land, has had its natural sequence, and each week our showing demonstrates a good profit for every client.

How $50 netted $201.75 in less than a Month.

Here is a complete statement, showing the result of a $10 play on each horse given in our "Discretionary Series" during October. (Note: A capital to begin with of $50 is required by us, as a matter of conservatism, to make a $10 play on each horse that is considered by us a good betting proposition.)

The above showing is no improvement over that of September, and is not remarkable, since we have excelled it time and again during the past three years of our uninterrupted operations. Good as it is, however, we are confident we will make it "look sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at New Orleans this month.

We Pick the Winners.

The system we employ to locate winners is identical with that used by "Pittsburg Phil," John A. Drake, John Gates, W. Langdon, Joe Yeager, and other famous plungers who win hundreds of thousands on the turf every year, and it proves just as successful.

We gather our information of prospective winners through a force of expert horsemen who hold a watch on the horses in their early-morning trials, and in that way learn when they are ready to win.

The money that is played into the game by persistent losers, such as the large mass of uninformed players are bound to be, goes into the pockets of the big operators, of which the Maxim & Gay Co., representing a large clientele, stands at the head. The work of the Maxim & Gay Co. is to place the general public upon a level with the winning plungers, and our success in the accomplishment has made us famous on two continents.

We do business only on the great racetracks of the U.S. We number among our clients some of the best known sportsmen, financiers and merchants in the country. Investment on Gay's turf is now deemed as legitimate as any other high-class form of speculation. The present high standard to which racing has been brought, and the absolutely good faith in which turf affairs are conducted under the auspices of the Jockey Club in the East, and the Western Jockey Club in the West, has inspired millionaire capitalists and business men all over the country with as much confidence in racing as in the stock, grain and cotton markets, and this is one reason why transactions in the rapid growth of turf speculation in popular favor, is the rapidity with which all transactions are wound up. The speculator makes his investment at the racetrack in the afternoon through us and receives a notification by mail, in a letter guaranteed to bear a postmark earlier than the race is run, of just what horses are to be backed for his account. By the next mail he is informed of the result of that day's operations, and he learns quickly just where he stands. At the end of each week he receives a complete statement of his account with a money order for his profits, less 25 per cent., which we deduct as our fee.

This gives a wholesome tone to legitimate turf speculation which cannot be found in the more or less involved transactions of the big exchanges, and this is why turfmen live more comfortably and live longer than do men whose involved transactions are on their minds, day and night, for weeks and sometimes months at a stretch.

OUR CLIENTS WON A MILLION DOLLARS

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a considerable clerical force and spending large sums in advertising in newspapers throughout the country?"

The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we can pick winners for this immense number of investors, our profits are larger than if we played our own money only, for on a basis of 25 per cent. of winnings, which we charge for information and commission, one man out of every four of our customers is practically betting for us. The proof that this plan works for the benefit of the public as well is that they win three weeks out of four, and our books show that no customer who stuck to us for two months ever failed to see over the end of the year that he was ahead of the game, while not a few of those who now own winning stables of racehorses and who are cutting an important figure on the turf, began the game as mere novices, playing our selections through us.

The principle upon which we operate is such that we must of necessity do the best we can for you. Our income, as pointed out, is derived solely from a percentage of the winnings of our clients, and if we cannot make you win, we cannot make money ourselves. Our methods have proved so successful that we have prospered for upwards of three years, while imitators, pursuing methods followed by the older and less successful ones, have been discontinued by Maxim & Gay, scores of "get-rich-quick" operators tried to break into the game, but failed, and as a result we have continued to flourish uninterruptedly, while in the ranks of our rivals there have been constant changes between the more responsible firms, but it did not take the press and public long to discriminate between those who were illegitimate
