THE TURF.

A quiet tip was passed around among prominent horsemen yesterday afternoon that Harvey McCoy would send Montrose for a speedy trial mile. Consequently about four o'clock some thirty well known gentlemen were at the track to see the event. Montrose soon appeared upon the track hitched to bike, Harvey holding the ribbons. After a few warming up heats the word was given and the stop watches held by reliable timers started. The first half was covered in 1.12 1-2, and as the back stretch was turned on the second half Harvey touched up the flying steed and he came into the home stretch like a cyclone, passing under the wire in 2.22 1-2 for the full mile, the last half being covered in 1.10.—Fredericton Gleaner.

MARINE MATTERS.

The Dominion line has just added another magnificent vessel to its growing fleet. The new boat is the Monmouth, formerly one of the largest ships of the Elder-Dempster fleet. The deal has just been consummated, and it is not yet known whether she will be added to the Montreal or Boston service, although it is generally supposed that it will be the former. The Monmouth is a perfectly new vessel, having just been completed this spring to the order of Elder, Dempster & Co. She was expected to have made a trip to Montreal a few months ago, but went to New Orleans instead, from which port she carried wheat is said to be the largest cargo of cotton ever known. The Monmouth was built by Harland & Wolff of Belfast. Her length is about 480 feet and her beam 56 feet. As her speed is only about 10½ or 11 knots, it is almost assured that she will be intended exclusively for freight.

Another attempt was made late Monday afternoon to right the schooner James M. Seaman, at Halifax, but it failed. The two lighters and a hand winch were started together, and managed to get the vessel up quite a distance, when the gear began to weaken and soon parted, the schooner falling back in its place. On the first attempt a seven inch hawser parted just like a piece of twine. The undertaking is far greater than at first expected, the weight of the vessel being something enormous.

The launch of the Dominion Atlantic Railway company's steamer Prince Arthur took place on Tuesday at Hull, Eng., W. H. Campbell, the company's general manager, being present.
