## THE MARKETS

LIVERPOOL, July 22.—The steady American cables and strength in Buenos Ayres yesterday caused light offerings here at the opening and prices were unchanged. Following the opening there was some covering induced by the expected decrease in the visible supply here, firmer offerings of American winter wheat and no pressure of Manitoba offerings and prices advanced. The opening strength in Paris and the firmer bids from the continent, together with unsettled weather in Europe, caused firmness among holders. Firmer consols and a bearish report from Russia checked the advance.

Corn opened ¼d higher and then continued dull at the advance. The strength in America and firmer Plate offerings led to moderate covering.

CHICAGO, July 22.—Fading away of the rust scare all over the wheat market today to easy off. Closing prices were steady at a net decline of 1-4c to 3-8c. Other leading staples too, all showed a setback, corn 1-2c to 7-8c, oats 3-8 and provisions 2 1-2c to 12 1-2c.

### Canadian Lost Big Prize.

BISLEY CAMP, July 23.—(C.A.P. Cable.)—Sergt. H. H. Lee of the 7th Fusiliers, London, Ont., who tied with Lieut. Somers of the Inns of Court Rifles, for first place in the Prince of Wales' prize at 300 and 600 yards, had hard lines in his shoot-off last night. Both men made three bulls right away, and bulls again on the fourth shot. Lee, who fired first, made a magpie with his fifth shot. Somers followed with an inner, thus winning the first prize of one hundred pounds. Lee won ten pounds.

In The Daily Graphic, which consists of seven shots at one distance, that of two hundred yards, Bulton of the Queen's Westminster, tied with Boutell of the Civil Service, and Staff-Sergt. Freeborn of the 13th Regt., Hamilton. In the shoot off, Bulton won the cup, with Freeborn second.

### Mystery In Drowning.

MONTREAL, July 23.—Mystery surrounds the death of T. G. Dowsley, 35 years of age, employed by the Stewart Bottling Co., who disappeared on Thursday evening last, and whose body was picked up in the Mille Isle River and taken to the morgue yesterday morning. His parents live in Toronto. He was identified by papers found in his clothes. He carried seven dollars in cash and wore a ring given him by his employers and staff.

## JUST ONE MORE SPLENDID PROOF

That Dodd's Kidney Pills Cure Bright's Disease

Ontario Man's Kidney Disease Gradually Grew Worse Till He Used Dodd's Kidney Pills—Then He Found Speedy and Complete Cure.

LEFAIVRE, Ont., July 21—(Special)—Rescued from the grasp of deadly Bright's Disease by Dodd's Kidney Pills, Mr. Amable Lamarche, a well known resident of this place, is singing the praises of this standard remedy for kidney ailments.

"My sickness started from a strain," Mr. Lamarche states; "and for a year I did not know a well day. My sleep was broken and unrefreshing, my appetite was fitful, and my limbs would swell. Then rheumatism set in, and neuralgia, backache, headache, and heart trouble added to my tortures.

"The doctor who attended me could give me no relief, and finally, when Bright's Disease had me in its grasp, I decided to try Dodd's Kidney Pills.

"After taking three boxes of them I was as well as ever I was in my life, and I have had no pain since."

Mr. Lamarche's case again demonstrates two things. The first is that neglected kidney trouble brings the most painful and dangerous of diseases; the secon that Dodd's Kidney Pills cure kidney disease in any of its stages. Dodd's Kidney Pills cure where every other medicine fails.

## Fire Death Toll.

(Continued from Page 1)

BINGHAMPTON, N.Y., July 3.—A few minutes before 3 o'clock yesterday afternoon the clang of the automatic fire alarm gong stopped the busy fingers of 125 young girls at work over the machines of the Binghampton Clothing Company. They were not startled or alarmed.

A girl on the crowded fourth floor—the top—called laughingly to a friend across the room: "It's only another one of the old fire drills. I'm not going down into the street dressed as I am and make a show of myself."

The girls, most of them, settled back to work. Two minutes later they were dying miserably in flame and smoke, or crushing each other in hopeless attempts to escape down a single stairway and the two narrow fire ladders. In 18 minutes the fourth storey factory of "approved factory construction" was a mass of ashes and embers—walls, roof and supports fallen in.

### At Least Fifty Dead

At least fifty of the girls are dead, their bodies consumed or charred in the smoking debris of the factory. At least fifty more are injured, many fatally. Of the 125 girls on the payroll, only 17 have been accounted for as uninjured. Twenty-two are in the hospitals. Eight are being cared for in private homes. Possibly twenty or twenty-five who survived the dreadful rush of flame and smoke, or who fought their way to the streets over the bodies of their workmates, fled away to their homes before firemen or policemen could learn their identity.

The estimate of fifty dead is as low as can reasonably be made. When the story is told and the lists are checked up, no one will be surprised if the death roll runs to 65 or 70.

Three hospitals, the City, the Terrace and the Moose-Overton, are caring for the injured, some of whom are so dreadfully burned that they cannot possibly live. Others, whose lives are hoped for, are in frightful agony. Around the hospitals last night great crowds (thousands have come here from nearby cities) are saddened by the moans and pitiful cries of the injured girls. Firemen, police and volunteers are digging in the smoking debris of the factory, and are taking out, not bodies, but pieces of bodies. Of the girls that escaped death or injury several are near insanity.

### Hopeless From First

Words can do little more than give a dim idea of the shocking fate of those that perished. Here in a great building of brick and wood, where the floors were piled inches with oil-soaked rags and waste, where there was only one stairway and two fire escapes, 125 girls, whose average age was less than 20, had less than eighteen minutes to save their lives. Circumstances and bad fortune made their position hopeless. There seemed to have been no men quick-witted or courageous enough to give instant warning of their awful danger, so that three or four priceless minutes were wasted in their hesitation to appear on the street in their soiled and worn working clothes.

The fire started in the basement, fed on rags and paper, and pitchy timber, mushroomed and shot upward through every vent-elevator shaft, stairway and air shafts. So that when the girls actually realized that the automatic alarm was signaling real danger and not merely calling for the formal drill that was meant to show the girls how to get out quickly and safely, they were girdled with fire. Rushing flames met them at the stairways. Flames curled from every floor over the rungs of the two fire escapes. A tower of flame leaped from the elevator shaft and billowed over the inflammable stuff by the machines.

### Died in a Few Seconds.

Scores died before they could reach stairway or windows. Their dresses caught from the burning waste. They dropped and were ashes before the building fell. A few, less than a dozen, won to the windows and leaped to the streets through waves of flames. They were killed by the fall. Many girls who rushed headlong down the stairway gave up their lives before they had made a dozen steps. It was all so horribly quick, so breathlessly sudden, that strong men couldn't have survived, much less young women with no quick grip on nerve, with little physical strength to fight and scramble.

They that were saved unhurt, or with comparatively slight injuries, were the ones who had been lucky enough to be employed on the lower floors, the first or second. At the first alarm they did not delay, because they heard and smelled the blaze. They were stirred from their machines by the screams of Mrs. Reed B. Freeman, the wife of the president of the clothing company, so that they had time and strength

## Soft Ball

### Beavers 4, G. S. & M. 3.

The Beaver soft ball team defeated the G. S. & M. soft ballers last night at Recreation park. The game was a nerve racking contest from start to finish, and catches that seemed impossible were grabbed up by players on both teams, and the crowd of five or six hundred cheered them till they were hoarse. The Beavers led from the start, and J. Hanley's home run in the third with one on, proved the undoing of the Windmill boys. Score:—

### Notes

East ward was certainly alive last night by the size of the crowd, and the fair sex was well represented.

Beavers or Ham & Nott for the Newman Cup. Take your pick.

Symons' pitching last night puts him in the front rank with the soft ball heavers.

Manager D. Lyle was pressed into service last night, and showed old-time form, but oh, my, how the manager's joints must feel to-day.

McQuinn, for the Windmill, pitched fine ball last night, and is certainly a find for a new one at the game.

Braggs played third last night. Woolman being absent, and acquitted himself fine and also had three singles.

The umps' work was good, and the umpiring is helping the game along.

Jimmie Patterson was in uniform again and played a snappy game for the Windmill boys.

Jake Ritchie caught for the Beavers, Sears, the regular catcher, also being absent at the Burford tournament. Jake is as fast as ever and a good sticker.

The final game will likely be played the first of next week. The fans want time to rest up and get a fresh supply of air.

A meeting of the soft ball executive is to be held at the Y. M. C. A. to-night.

### BUMPER WHEAT CROP

Thousands of Men Required in Western Canada.

This Year's Harvest Promises to be the Largest in the History of Canada.

According to present indications, the wheat crop of 1913 will be the greatest ever harvested in Manitoba, Saskatchewan or Alberta, thus requiring the farm laborers of the East to assist in harvesting the world's greatest bread basket.

The Governments of the respective Provinces state that many thousand men will be required for this year's harvest. These will have to be principally recruited from Ontario, and the prosperity of Canada depends upon securing labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the West, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run, and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route. Dates, rates and conditions will be announced in a few days.

## With the City Police

The Germans, as a people, are generally credited as being far from quarrelsome, but that illusion was dispelled in the police court this morning, when Herman Clima charged Mrs. Michelson with assault. Clima, who is chief gardener at Bow Park farm, was accosted in front of his boarding house by Mrs Michelson, and after accusing him of calling her an insulting name, she slapped him in the jaw with her hand. Her husband appeared for Mrs. Michelson, who is sick, and said that his wife had struck Clima, but he had struck her first. The case was dismissed with a warning. All the persons interested are subjects of the Kaiser, and work on the Bow Park farm.

Mrs. McCummins charged Mrs. Taylor with assault. Mrs. McCummins has some grievance nearly every week. The fault seemed to be with herself, and the case was dismissed.

William Williams, a colored gent, charged Chub Sears with shooting his bull pup. Although he called several witnesses no light was thrown on the case, and it was summarily dismissed.

Two disconsolate drunks appeared this morning, and they were quickly disposed of. One was fined $1, and the other being a first offender, was allowed to go.

LONDON, July 23.—The late Baron Ashbourne, the noted Unionist leader, whose death occurred on May 22, has left a fortune of $450,000 to his second son, Edward Gibson, and only $4,000 to his eldest son, William Gibson. The latter is an enthusiastic Nationalist, wears the ancient Irish dress and speaks the Irish language and was converted to Catholicism.

### DO YOUR EARS RING ?

This is the beginning of Chronic Catarrh. If not checked, the result is deafness. A simple remedy that many physicans advise is to slowly inhale "Catarrhozone" a few times each day. The soothing vapor of Catarrhozone cures the Catarrhal condition and hearing improves at once. Head noises, buzzing ears are cured. For Catarrhal deafness, throat, nose and lung catarrh there is probably no remedy so efficient.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

ANY PERSON who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made at any agency on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent), and cultivate 50 acres extra.

A homesteader who has exhausted his homestead right, and cannot obtain a pre-emption may enter for a purchased homestead in certain districts, price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth $300.00.
