Nerve Energy and Eye Glasses

The constant dropping of water will wear away stone.

A slight eye strain impairs the health, because it is constant.

The strain which first manifests itself as a slight discomfort should be promptly remedied by the use of glasses.

THIS IS THE ONLY CURE.

A SERIOUS TIME.

A QUEBEC FARMER SUFFERED FOR NEARLY TEN YEARS.

Had the Best of Medical Treatment, Tried Hot Springs Without Receiving Benefit—Dr. Williams' Pink Pills Cured Him.

Mr. John Story, of Maryland, Pontiac Co., Que., is well known to all the residents of that section, and his cure from an unusually severe attack of rheumatism, by the use of Dr. Williams' Pink Pills, after all other remedies had failed, has, if possible, added to the popularity of this favorite medicine. Mr. Story gives the following statement of his suffering and cure. He says:—"Some ten years ago I was engaged in railroading on the Lake Superior section of the C. P. R. I was exposed to all kinds of weather, and as a result sustained a severe attack of rheumatism, which all but crippled me, and from which I suffered much agony. I spent more than a hundred dollars on doctors and for medicine, but was gradually getting worse and finally had to quit work. At this juncture the doctor told me that he did not think medicine could cure me, and advised me to go to some hot springs. I took his advice and went to the Harrison Hot Springs, in British Columbia, where I remained for eight weeks under the care of the house physician, but experienced on benefit. I then went over to Tacoma, and took a course at the Green River Hot Springs, but with no better result. Completely discouraged I returned to my home in Quebec, and went to farming, but the rheumatism bothered me so much that I could scarcely do my work. Dr. Williams' Pink Pills were recommended to me and I decided to give them a trial. After taking a few boxes I found they were helping me and I continued their use until I had taken sixteen boxes, by which time every vestige of the trouble which had bothered me for years, and had cost me so much money, had disappeared. It is now more than a year and a half since I discontinued the use of the pills and during that time I have not had the slightest sympton of the trouble, which I regard as the very best evidence that the cure is permanent.

Dr. Williams Pink Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus' dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of lagrippe, loss of appetite, headache, dizzizess, chronic erysipelas, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

Protect yourself against imitations by insisting that every box you purchase bears the full name Dr. Willians' Pink Pills for Pale People. If your dealer does not have them they will be sent, post paid at 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Nolbeman Dead.

LONDON, May 16.—The Earl of Strafford, who married Mrs. Samuel J. Colgate, in Grace church, New York City, last December, was instantly killed this evening at Potter's Bar by the Cambridge express.

The Earl was seen standing upon the platform awaiting a train from London. When the express approached at a high rate of speed, he suddenly fell forward upon the rails. The body, decapitated and mangled, was taken to the nearest hotel, where it awaits the coroner's inquest.

Lord Strafford left London this morning for his country seat, Wrotham Park, Barnet Herts. He was then apparently in good health.

The Countess of Strafford left this evening for Potter's Bar, having given instructions that her daughter should be informed of the cause of her absence.

While on duty at Windsor Castle last February, as an equerry to the Queen, the Earl was seized with a fit and his condition has ever since been a source of anxiety. He was in the sixty-eight year of his age.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praise throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50 cents and $1.00 at any Drug Store; every bottle guaranteed.

He Did Not Tell All.

From further information gleaned by the police today regarding the mysterious drowning of the young man supposed to have been Thomas Morris of North Street on Thursday, Allan Nosworthy the Newfoundlander who was the only eye-witness of the tragedy, may be taken into custody.

Nosworthy in his talk with Sergeant Ross yesterday did not tell all he knew and while he may be innocent of any criminal connection with the young man's death, yet he may be asked why he withheld actual occurrences connected therewith.

A Gazette reporter in an interview with Mr. L. A. McAlpine today learned much more of what occurred just previous to the young man's jumping from the bridge, than Nosworthy told the police.

Mrs. McAlpine, who was with her father, Rev. Job Shenton, drove across the Suspension bridge on Thursday afternoon, saw Allan Nosworthy and another together on the bridge. Nosworthy, Mrs. McAlpine recognized from having seen him at her door asking alms, the other man she did not know, but paid much attention to him as both he and Nosworthy were acting strangely.

When asked by the reporter as to what was meant by strange actions, Mrs. McAlpine said she noticed and became nervous at the two because they had gone to the side of the bridge and thrust their bodies almost through the bars and to an extent that was dangerous. This they did more than once.

Another thing Nosworihy did not tell and which Mrs. McAlpine noticed, was that Nosworthy had hold of the other man and was apparently going through his pockets as the victim was holding a small black pocket book and a couple of matches in his hand.

The reporter remarked that perhaps Nosworthy, was at that time looking for the others pipe, to which the lady remarked "perhaps so but it looked different."

Mrs. McAlpine is a lady of very keen perception and is very positive of all she saw.

There seeems to be no boubt that the unfortunate man was other than the young man Thomas Morris, who left his home on Thursday morning and has not since been heard of.

Chief Clark today detailed Sergeant Ross to keep an eye on Nosworthy and if necessary to hold him impending an inquiry.—Gazette.

Still They Come.

LONDON, May 17.—Two thousand and seventy-eight more Doukhobors left Batoum on the steamer Lake Huron on May 12 for Quebec, under arrangements made by the Canadian Pacific Railway. This makes over 7000 of these people settling in the Canadian Northwest in the past few months.

A thousand Galicians are on the way to Canada on the S. S. Phoenicia, and another thousand are on the point of sailing. The tide of European emigration seems turned strongly towards the Dominion; in fact, some authorities profess to think that it may prove embarrassingly large.

Murdered by Indians.

BELLEVILLE, May 18.—Early in April, twelve Prince Edward County young men left Belleville for the Atlin gold regions. Two of them were compelled to turn back by illness. From information now to hand it would appear that the remaining ten were ambuscaded and murdered by Indians in search of loot. No further particulars are yet available.

Hard and Fast.

QUEBEC, May 16.—The steamer Callia has been unloaded, but lies in about the same position. The full force of five powerful tug boats pulling together was unable to move her an inch. The water is lower by 28 inches since Sunday, and if it continues at such a rate the Gallia may be compelled to pass the summer where she is. They are beginning to remove machinery to further lighten her.

The Penalty Paid.

LONDON, Ont., May 17.—Marion Brown, the peg legged tramp who, on the night of June 24th, 1898, shot and killed Policeman Michael Tookey, who was attempting to arrest him for an unprovoked attack upon a Grand Trunk night watchmam, expiated his crime upon the scaffold at eight o'clock this morning.

Brown succeeded in getting away after committing the crime and was not apprehended for two months, when he was arrested in the Western States and brought back here for trial. He was coaxed over the Canadian boarder from Yakima, Washington; subsequently efforts were made to have him returned to the United States territory. His trial commenced on March 21st, and lasted six days. No wittnesses were called for the defence. The insanity plea had no effect on the jury or the Government.

Without a Rival!

Paine's Celery Compound as a Blood Purifier and Health Giver Ranks First im Every Civilized Land.

Professional men, members of parliament, bankers, business men, mechanics and our farmers, after happy results and experiences with Paine's Celery Compound, emphatically assert the great medicine has no rival.

As a blood purifier, disease banisher and health giver, it has won the admiration and praise of those in position and affluence, and people in humbler circumstances have largely added to its extended reputation.

The vast army of sick and weekly people restored to health and vigor by Paine's Celery Compound have done more for the present world-wide sale of the great health-builder than all the press notices ever published.

Under such happy auspices, the proprietors of Paine's Celery Compound with full and honest confidence urge the use of this noblest and best of medicines at this present season.

The work of purifying the blood, cleansing the system, regulating the nerves, is an imperative one, and should not be delayed a moment, if ailing people would have perfect health.

Men and women distressed by headache, nervousness, sleeplessness, dyspepsia, neuralgia, rheumatism and liver and kidney complaints, cannot afford to treat their troubles with indifference. Serious and fatal results follow delays. This is time for the taking on of new strength and true vitality, and Paine's Celery Compound will never disappoint the sick and afflicted.

The old motto of Paine's Celery Compound "Makes sick people well," is as true today as it was years ago.

Death of Rev. Dr. Carey.

OTTAWA, May 16.—This evening the sad intelligence was circulated that Rev. Dr. Carey, recently pastor of Brussels street Baptist Church, St. John, was dead. His death took place this forenoon, but it was not known to his family for some hours afterward.

Dr Carey had been suffering from acute indigestion and was lying down. He was staying with his daughter, Mrs. Tyrell, whose husband is now in the Yukon. This morning he was lying down, and when some members of the household went to see how he was, he was supposed to be asleep. Mrs. Tyrell had the same impression when she went to his room afterward. She discovered later that he was dead, and it appears he had died some hours before the fact was known. Strange to say, he had arranged to conduct the funeral service for the late Mr. Cameron, a prominent member of Dr. Carey's former congregation in this city.

The deceased clergyman had a host of friends in this city, as he was several years pastor of the First Baptist church here. This was immediately before his last St. John pastorate.

A few days ago the marriage of Dr. Carey's daughter to Dr. Gibson took place here. Dr. Carey has been in Ottawa since then, renewing old friendships, and was a frequet visitor to the press gallery in the house of commons.

The Big Victoria Fire.

VICTORIA, B. C., May 10.—The fire which completely destroyed Carry Castle, the official residence of the Lieut.-Governor, on Thursday morning, was the fourth which has occurred during Mr. McInnes occupancy, all from the same cause, a defective flue. Attempts to remedy the defect have been made but without success the age of the chimneys no doubt causing many weak spots. The fire was discovered by the private secretary who heard the crackling of flames in the attic and telephoned for the brigade, but the old house burned like tinder and the fireman could do little. Lieut-Governor McInnes had time only to get out with the clothes he had on.

The amount of insurance is $12,000. $4,000 of which is on the furniture. The value of the building and contents is placed roughly at $25,000. The building was built in 1859 by G. H. Carey, the then Attorney-General for the Crown Colony of British Columbia at a cost of $36,000. It was first occupied as the Government House by Lieut-Governor Kennedy who succeeded Governor Douglas. He lived at the Old Driard until the castle was completed. It was designed and built by Fred Walter Green. The ballroom, the only saved portion of the building, was added to the main building by Governor Seymour in the early sixties.

The Provincial executives met yesterday afternoon to consider the question of providing a residence for the Governor, but no decision has yet been arrived at.
