Another Set Back for the Free Traders.

Canadian free traders will not gain much encouragement these days from the fortunes of their cause in the United States. Mr. Morrison, the leader of that cause in Congress, has tried it again and has been beaten. That settles the matter for the present session, for any attempt to bring it up again between now and the fourth of March next would be preposterous; and therefore the tariff fight can scarcely be renewed at Washington until the meeting of the Fiftieth Congress in December of next year. On Saturday the House was asked by Mr. Morrison to go into Committee of the Whole to discuss certain revenue bills which he desired to submit. As Mr. Morrison is Chairman of the Committee of Ways and Means, he was strictly within his privileges; in fact, in almost the same position as our Minister of Finance would be when making a similar motion. But by a vote of 154 to 149 the House refused to consider the bills referred to. The majority that said nay was small, five only; but the point-blank refusal even to consider what the Chairman of Ways and Means had to propose is the important matter. It was in effect saying to Mr. Morrison: "You want to lay before us certain changes which you propose to make in the tariff. Well, we will not even consider your proposed changes; we don't want to hear anything about them. Let the tariff alone for the short space yet remaining of the duration of this Congress; and let the next Congress take up the matter, if so it pleases." Which is rather "rough" on Mr. Morrison, seeing that he will not be in the next Congress, having been defeated in his district last month. Naturally enough comparisons are being drawn between this vote and that of the 17th of June last, on a similar motion, also made by Mr. Morrison. Then the free trade leader was supported by 136 Democrats and 4 Republicans; this time by 143 Democrats and 6 Republicans. In June 122 Republicans and 35 Democrats voted against the motion to consider; in December the negative vote was 129 Republicans and 25 Democrats. It has to be remembered, meantime, that a number of free traders, Mr. Morrison himself included, were defeated in November, so that the protectionists will be stronger and the free traders weaker in the Fiftieth Congress than in the Forty-ninth.

The time was, not many years ago, when almost every Democrat was a free trader. But things have changed since then, and now comes the tug of war—within the Democratic party itself. Mr. Randall of Pennsylvania, who is a man of considerable force as a leader, some years ago took command of the protectionist Democrats in the House, and is making his influence felt. He is charged by the Morrison men with being no Democrat at all, but merely a tool of the manufacturers. The New York Sun, an organ of the party, takes up the cudgels in his defence, and says:

Our correspondent does not seem to be aware that there are two divisions in the Democratic party, one forming, we think, the minority, that consists of free traders; and the other—and this, we think, is the majority—made up of protectionists, or persons who believe that in raising revenue from duties upon imports regard should be had to the protection of American labor, so that it may not be exposed to the effects of unqualified competition with the cheaper labor of other countries.

If our correspondent wishes the Democracy to be overthrown and kept permanently out of power, there is no other way of realizing his purpose so sure as to divide the party upon the free trade issue, and to expel from it men like Mr. Randall, who believe in the protection of American labor against unlimited foreign competition. It may be that, as a matter of economic theory and philosophy, our correspondent is in the right and Randall and his friends in the wrong; that is a question which we do not undertake to settle; but, as a matter of politics, our correspondent's notions lead to nothing but the overthrow of the party to which he professes to be attached.

This should be interesting reading for Canadian free traders, who are all Grits, of course. The closing lines suggest what the fate of their party must be if they stick to the delusion of free trade.

In Great Britain and Ireland, comparing the year 1885 with 1875, there has been an increase of population of 12 per cent., of wealth 23 per cent., of trade 29 per cent., of shipping 67 per cent., of instruction 68 per cent.! This last is a remarkable fact showing what has been effected by the national school system so long opposed by the church and aristocracy. Education has produced higher morality as its friends always predicted it would. Only 27 in the thousand are now paupers whereas in 1870 there were 41. From 1870 to 1879 there were 69 committals for crime per 100,000 inhabitants; from 1880 to 1885 only 59. A reduction took place from 1875 to 1885 in the consumption per head of alcohol in all its forms from 2.33 gallons to 1.79. There is still great room for improvement here. Much more meat, tea and sugar are now consumed and deposits in savings banks and mutual societies have risen in ten years from £87,000,000 to £158,000,000—a truly wonderful change.

Important.

—When you visit or leave New York City save baggage expressage and $3 carriage hire and stop at the **Grand Union Hotel**, opposite the Grand Central Depot.

613 rooms, fitted up at a cost of one million dollars, $1 and upwards per day. European plan. Elevators. Restaurant supplied with the best. Horse cars, stages and elevated railroad to all depots. Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the city. cd

A Reply to "Methodist."

Editor World: I notice that the foul-mouthed pseudo-Methodist who attacked Rev. S. J. Shorey for a political allusion—which only your correspondent was clever enough to find—in one of his sermons, has again ventured to make use of your columns for the purpose of throwing mud at a gentleman whom he dare not openly face. No doubt Rev. Mr. Shorey is perfectly able to take care of himself before the public, but permit me to say, as one familiar with the Sherbourne-street congregation, that the majority of the members of that church are men and women possessed of common sense who allow to their pastor the right to hold his own poltical opinions. Allow me to say further that Rev. S. J. Shorey has never directly or indirectly referred to political questions or exhibited a partisan spirit in the pulpit. Any statement to the contrary is false. The large audiences that attend the Pavilion every Sunday, and the material and spiritual welfare of the church, are sufficient proof that Rev. Mr. Shorey's discourses and pastoral work are acceptable to the people. And, lastly, the men who pay Rev. Mr. Shorey's salary are in thorough accord with him, and honor him for his manly independence and earnest, Christ-like spirit. It may be a satisfaction to the "Methodist" to whom this is a reply to know that the writer is a

CHICAGO, Dec. 21.—The wheat market was weak to-day, attributable in great part to the increase in east bound freight rates which enter into effect to-day, and which, it is claimed, had a tendency to restrict shipments. Corn was steady. Oats closed firm and a shade higher. Pork strength ened toward the close and the market closed at nearly top prices and a shade higher than yesterday. Lard and short ribs ruled firmer. The leading futures closed as follows: Wheat—December 75⅞c, January 76½c, February 77½c, May 83⅞c. Corn—December 36⅞c, January 36⅞c, February 37⅞c, May 42½c. Utica Cheese Market.

UTICA, Dec. 21.—But little is to be said at this time of year concerning the cheese market, save that it remains firm and is without special feature. If there is any change, it is in favor of somewhat stiffer prices, as it is allowed that nothing short of 13c will buy first quality goods, while for "fancies" something more than that is demanded. The exports continue to be exceedingly light, and consist wholly of such goods as can be picked up at 12c to 12½c. Nothing in the shape of full cream goods is to be had for less than 12c, and light skims, if made right, sell as high as that in some cases.

The butter market has also ruled firm but rather slow. In New York, Elgin creamery has sold as high as 32c, but on choice state creamery tubs 29c is the highest that has been made. Extra high tubs of state dairy have brought 28c, and fine fall goods sell at 25c to 27c: but the larger portion of the offering goes at 20c to 23c. The supply, however, is not excessive, and the outlook for the winter is hopeful.

The Little Falls Cheese Market.

LITTLE FALLS, Dec. 20.—Cheese—Trade in cheese here to-day was of small dimensions. Seven lots of factory cheese, amounting to 365 boxes, were sold at 11c, and four lots, amounting to 265 boxes, were consigned. About 100 boxes of farm dairy cheese were sold at 11c to 11½c. This may be said to wind up the cheese trade here for the season. Butter—Forty packages of dairy butter were sold at 19c to 23c, the bulk at 22c.

TO THE ELECTORS OF ST. STEPHEN'S Ward.—GENTLEMEN: Believing that I can be of some service to you, I offer myself as a candidate for Alderman for the year 1887. I am not brought out by any ring, clique or clique of men; I am not in the hands of Tories or Grits, but come out purely independent. I approve of many excellent efforts of the Aldermen of St. Stephen's Ward during the past year. I take, however, particular exception to one very important vote given recently. I believe in the voice of the people being heard on all important questions, and those Aldermen who opposed the submitting of Aid. Fleming's Bylaw to the people withheld from the electors, in my opinion, a sacred right, which action I certainly cannot endorse. There will be considerable improvement in the Eastern part of the city during the next year, and I feel it my duty to be alive to the requirements of the West, more especially to the neglected and outlying sections of the Ward. Hoping a hearty support, I am, Gentlemen, your obedient servant.
