ST. JOHN WATER COMPANY'S OFFICE, 7th October, 1854.

AT a Special General Meeting of the Stockholders of the St. John Water Company, held pursuant to Legal Notice at the Company's Office, on Tuesday, 7th November, 1854, at noon.

Present.—The President, in the Chair; Peter Bernard, R. F. Hazen, Dr. Boyd, His Worship the Mayor, Isaac Woodward, Hon. John Robertson.

Read a Resolution of the Sanitary Committee, dated 10th October last.

Thereupon moved by Mr. Woodward, and seconded by Hon. John Robertson:—

Whereas, the contemplated plan of a system of Water Supply and Sewerage for this City, on the Eastern side of the Harbour, and part of the Parish of Portland, will be a great public benefit, and for the furtherance of which the Stockholders of the St. John Water Company now present are willing to forego the prospective benefit to their said Stock, which the accounts now exhibited render certain;

Therefore Resolved, As the opinion of this meeting, that the Stock of the Company may be transferred to Commissioners, as contemplated, at par, adding any arrears of interest that may be due on the old Stock since 1849, as provided for in the Act 12, Vict. Cap. 51, *and further Resolved*, that Messrs. I. Woodward, R. F. Hazen, Robt. Jardine, and Joseph Fairweather, be a Committee to confer with the Commissioners on the subject, and report to an adjourned Meeting of this Company, to be holden on Thursday, 14th December next.

PUBLIC NOTICE is hereby given that the above adjourned Meeting will be held in the Company's Office, in St. John, on THURSDAY the 14th December, 1854, at noon, to receive the report of the said Committee, and take such action thereon as may be determined.

LLOYD'S REGISTER
OF
British and Foreign SHIPPING.

ESTABLISHED 1831.

THE Committee having reason to believe, that in building new Ships, a practice prevails in some Outports and in the Colonies which is inconsistent with the Rules of this Society, and that instead of the rabbet of the keel being properly wrought to receive the garboard strakes, it too frequently happens that the upper part of the rabbet is formed by rising wood or plank piece fitted over the keel, and consequently that there is scarcely any inner or back rabbet in the keel, a practice considered to be exceedingly objectionable.

NOTICE IS HEREBY GIVEN, that in pursuance of a resolution passed by the Committee on the 31st August, I am to object to a continuance of the mode in question, and if persisted in to report the fact to the Committee.

By order of the Secretary.

Liverpool and London LIFE and FIRE INSURANCE COMPANY,

INSTITUTED IN 1826.

Incorporated by Special Act of Parliament.

CAPITAL—TWO MILLIONS STERLING.

Unlimited Liability of the Stockholders of the Company.

Subscribed Capital, £1,500,000.

INSTALMENTS CALLED IN,	£197,197	10	0
ACCUMULATED FUNDS,	316,972	4	9
	£514,169	14	9

THE 18th Annual General Meeting of this Company was held at Liverpool on the 16th February last, when the following Report of the business of the Company during the past year was submitted:—

"The increase in the Fire Insurance Business must be satisfactory to the Proprietors, as shewing the rapid and safe progress which the Company is making. The receipts for the past year have increased considerably over those of 1852, while the losses have materially diminished.

	1852.	1853.
Receipts,	£88,054	£113,612
Losses,	59,091	42,846
Profits,	£29,563	£70,766

These results show, notwithstanding the very numerous and destructive fires that have occurred both in this country and especially in America, that great caution has been exercised in taking risks, on the part of those on whose judgment the Directors must necessarily in a great measure rely. The reserved surplus fund now amounts to £143,712."

CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND SORENESS OF THE BODY.—take the Cherry Pectoral on going to bed, and wrap up warm to sweat during the night.

FOR A COLD AND COUGH, take it morning, noon and evening, according to directions on the bottle, and the difficulty will be soon removed. None will long suffer from this trouble when they find it so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find by taking the Cherry Pectoral on going to bed, they may be sure of sound unbroken sleep, and consequent refreshing rest. Great relief from suffering, and an ultimate cure, is offered to thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effects in these cases, many find themselves unwilling to forgo its use when the necessity for it has ceased.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by Cherry Pectoral. But there are some cases so obstinate as to yield entirely to no medicine. Cherry Pectoral will cure them if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking Cherry Pectoral in small and frequent doses. The uncomfortable oppression is soon relieved.

FOR CROUP—Give an emetic of antimony, to be followed by large and frequent doses of the Cherry Pectoral, until it subdues the disease. If taken in season, it will not fail to cure.

WHOOPING COUGH may be broken up and soon cured by the use of Cherry Pectoral.

THE INFLUENZA is speedily removed by this remedy.—Numerous instances have been noticed where whole families were protected from a very serious consequence, while the unprotected, without the Cherry Pectoral, were all laid prostrate by the disease.

Repeated cures are reported here of patients who have been cured from

LIVER COMPLAINTS by this remedy, so many that there can be no question of its healing power on these diseases. It should be perseveringly taken until the pain in the side and other usual symptoms cease.

FOR CONSUMPTION in its earliest stages, it should be taken under the advice of a good Physician if possible, and in every case with a careful regard to the printed directions on the bottle. Injudiciously used, even the mildest remedy cures only to injure, but when the disease is curable, it will seldom fail to subdue the disease.

For settled CONSUMPTION in its worst form, the Cherry Pectoral should be given in doses adapted to what the patient requires and can bear. It always affords some relief, and not unfrequently cures those who are considered past all cure.—There are many thousands scattered all over the country who feel and say that they owe their lives and present health to the Cherry Pectoral.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an approbation and authority, far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakeable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained firmness by every trial, confirmed the confidence in them they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a freedom the public to pretend that any one medicine will infallibly cure—so there is no impiety in saying that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted from the log-cabin of the American Peasant, to the palaces of Europe Kings.
