ubjects within the same, it is by an Act of Parliament of the United Kingdom of Great Britain and reland, made and passed in the fourth year of our reign, intituled, "An Act to re-unite the Provinces of Upper Canada and Lower Canada, and for the Government of Canada," amongst other things enacted, that it shall be lawful for Us, with the advice of our Privy Council, to declare or to authorize the Governor General of our said two Provinces of Upper and Lower Canada, to declare that the said two Provinces, upon, from and after a certain day, in such Proclamation to be appointed, such day being within Fifteen Calender Months next after the passing of the said Acts; shall form and be one Province under the name of the Province of Canada, and thenceforth the said Provinces shall constitute and be one Province, under the name aforesaid, upon, from and after the day so appointed as aforesaid—and whereas, in pursuance and exercise of the powers so vested in us by the said recited Act, we did on the Tenth day of August, One Thousand Eight Hundred and Forty, with the advice of our Privy Council, authorise the Governor General of the said two Provinces of Upper and Lower Canada, to declare by Proclamation, that the said two Provinces upon, from and after a certain day in such Proclamation to be appointed, such day being within Fifteen Calendar Months next after the passing of the said Act, should form and be one Province, under the name of the Province of Canada.

Now know ye therefore, that our right trusty and well beloved Councillor, CHARLES BARON SYDENHAM, our Governor General of our said Provinces of Upper and Lower Canada, hath in pursuance of the Provisions of the said recited Act, and under and by virtue of the power and authority by Us granted to him as afore-said, determined to declare and it is by this our Royal Proclamation declared, that the said Provinces upon, from and after the TENTH day of this present month of February, shall form and be one Province, under the name of the Province of Canada, of which all our loving subjects and all others concerned, are to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, we have caused these our Letters to be made Patent, and the Great Seal of our said Province of Lower Canada to be hereunto affixed.

Witness our right trusty and well beloved the Right Honourable CHARLES BARON SYDENHAM, of Sydenham, in the County of Kent, and Toronto in Canada, Governor General of British North America, and Captain General and Governor-in-Chief in and over our Provinces of Lower Canada and Upper Canada, Nova-Scotia, New-Brunswick, and the Island of Prince Edward, and Vice Admiral of the same.

At our Government House, in our City of Montreal, in our said Province of Lower-Canada, the fifth day of February, in the year of our Lord One Thousand Eight Hundred and Forty-One, and in the Fourth year of our Reign.

By command,

D. DALY,
Secretary of the Province.

The following is from the *Montreal Gazette* of Saturday:—

GOVERNMENT HOUSE,
Montreal, February 6, 1841.

His Excellency the Governor General will, on Wednesday next, the 10th instant, at one o'clock, P. M., open the Queen's Commission, and take the oaths as Governor of the Province of Canada.

The Heads of Departments are hereby notified to attend.

By His Excellency's command,
T. W. C. MURDOCH,
Chief Secretary.

There is no certainty of the date of issuing the writs, or the time to be fixed for the meeting of the Legislature. It must be before the 10th of August next. Kingston is the place. Baron GRANT's house is taken for the Governor at a thousand a year, for two or three years; and the two Houses meet in the Marine Hospital, in the dock-yard, at Point Frederick.—*Quebec Gazette.*

The Toronto *Colonist* of the 3rd Feby. has the following paragraph on the subject of the Lockport proceeding: We say "keep cool."

"We understand that dispatches have been forwarded by Sir George Arthur, in reference to this infamous business, to the Governor General, and to Mr. Fox, the British Minister at Washington, and we shall soon see what it is likely to end in. The first news from Washington will be important. The Yankees are holding meetings in various places, but they must *be met* in a very different way, to bring them to a sense of propriety and duty."

From the Toronto Patriot, Jan. 29.

AMERICAN SECURITIES.—In this day's impression will be found several extracts from English and American papers illustrative of the present position and prospects of American Financial operations.

It was known in England at the date of the last arrivals that the result of the recent struggle had been to restore the Whigs to power—and that with the accession of General Harrison, America would return to the system of foreign "indebtedness" and all the other financial schemes of the "National Bank" party.

For several years has this Journal been endeavouring to the utmost of its ability to warn English Capitalists from the dangerous experiment of perilling their hard earned money on the solvency of the American States. Much calumny was heaped upon the *Patriot* for the conscientious course it then felt constrained to take, and it is now no small gratification to be able to point with satisfaction to *facts*, startling, palpable facts, as evidence of the foresight and wisdom which dictated the many warnings given by this paper of what inevitably must happen to all dabblers in "*American Securities*," had a different course been pursued it might with justice have been said that the sentinel slept on his post, that the Watchman failed to give the alarm even when *he knew* that the danger was at hand.

Several of the London Journals have taken the same rational view of the inevitable consequences of any renewal or continuance of this ruinous system of sinking the surplus millions of British wealth in the so called "*profitable investments*" offered by the grasping speculators of the twenty-six glorious republics. We therefore have substantial grounds for asserting that the eyes of the English public are now or must before very long be fully opened to the depth, length and breadth of the almost bottomless gulf into which they have been for the last ten years so recklessly casting their millions of gold and silver.

The failure of the well known banking house of the Messrs. Wright has given rise to some important reflections on "*American Securities.*" It appears that the stoppage was occasioned by the managing partner having been induced by an unfortunate intimacy with Mr. Jaudon the United States Bank agent, to speculate deeply in American stocks and real estate. By thus being duped the unhappy man has not only ruined himself but involved the other partners, perfectly unconscious of the nature of his secret speculations, in commercial discredit and embarrassment. Some idea may be formed of the disastrous jobbing into which Mr. Wright has plunged by the interested persuasion of the Bank Agent when we hear that certain parcels of Real Estate in New York State bought for *one hundred thousand dollars* were sold for *six thousand dollars!*

On the same dangerous breakers on which poor Mr. Wright struck, we fear many other goodly vessels will be stranded and wrecked. We can only express a hope that his disaster may furnish a beacon capable of pointing out to passing voyagers the treacherous rocks which lie hid beneath the smiling and specious surface of "*American Securities.*"

The Governor of Ohio has informed the Legislature of that State, that the Lexington and Ohio Rail road cannot pay the interest of the Capital expended, for which the State became guarantee to the Foreign money lender, and recommends a sale of the whole concern as it cannot possibly pay.

The Governor of Michigan informs his Legislature that "The expense of sustaining the State Government for the first four years of its existence, *was nearly Four Hundred Thousand Dollars beyond the means provided for that purpose, which amount remains yet unpaid.*"

With all our dislike of the Van Buren and Jacksonian Loco Focos, we cannot help thinking that there was strong reason for their constant endeavours to narrow the issues of paper and bring back the currency of the country to a sound metallic basis. So sure as the now dominant Whig party attempts a return to the system of borrowing on the same large and improvident scale from Foreign Nations, and increasing to such an irredeemable extent the amount of States and individual liabilities, so sure will the Commercial world be shaken by a convulsion, such as has not been known since the bursting of the South Sea Bubble, and to which the crisis of 1837 will be only regarded as a trifle, as the mere trembling of the earth which heralds the coming desolation of the earthquake, or the wild outpouring of the overcharged Volcano.

From the London Times.

The affair of the failure of Wright's bank continues to be a standing topic in the city and of increasing interest. Probably no stoppage of a Bank has ever occurred under such peculiar circumstances as this. Mr. John Wright, the principal managing partner, though a number of causes must have combined to bring on his embarrassments, is stated to have been involved in them principally through his connexion with the agent of the "United States" Bank, who contrived to instil into him extravagant notions on the subject of American credit, as well as of his own concern, and hence to embark large sums of money in the state debts, banks, and joint stock companies of the Union. He was engaged at the same time in circulating similar securities among the connexions of the house, recommending them strongly for investment, for which he was to be allowed, as some say, the handsome commission of 5 per cent. His predilection for this class of credits induced him no doubt, to make this recommendation in perfect good faith, though the rate of commission offered should have made him distrust the soundness of the whole transaction. The knowledge of the fact will be useful to many who have been influenced by similar recommendations which were not confined to the house of Wright & Co. Among the securities advanced upon are said to have been some of the "land lots" of the State of New York, in which so much jobbing occurred in 1836 and 1837, and which underwent so great a change in value, that one parcel, mortgaged with a bank that failed for $100,000, produced when put up for sale only $6000. By these and other speculations of the same kind, Mr. John Wright became gradually so, much involved, that he found it necessary wholly to conceal them from his partners, and also to keep from their knowledge his acceptance of bills for a large amount, which were not entered on the books. The presentation of one of these bills, in fact, hastened the crisis which has just occurred; the notice of the other partners was accidentally drawn to the omission of any entry of it, and, desiring it to stand over for further inquiry, instead of being paid, the whole affair was necessarily explained to them by the managing partner. As they imagined themselves, however, at the same time, without any satisfactory clue to the extent of such transactions, they determined on suspending the payments of the house, as the only mode of bringing the matter into a train for complete investigation. This disclosure of their embarrassments took place on Saturday last, and it is said that at the time the stoppage was resolved upon for Monday morning the bank possessed cash and available assets to the amount of £500,000, the whole of the liabilities, those at least which were known and apparent, being between £800,000 and £900,000

Governor Letcher's Message informs the Legislature of Kentucky and the public that the Lexington and Ohio Railroad Company has been unable to pay the interest on its loan of $150,000, for which, principal and interest, the State has become responsible, and that in consequence of this inability, the State Treasury has paid and will pay before the close of the present year, $18,855. Governor Letcher says—"I have been at some pains to ascertain the condition of the pecuniary affairs of that company, and am of opinion it will never be able even to reimburse the amount already paid by the State as its surety; and that the whole debt, principal and interest, will have to be borne by the Treasury." He recommends an immediate sale of the property, for the benefit of the State, agreeably to the terms upon which the guarantee was made.

MESSAGE OF THE GOVERNOR OF MICHIGAN.—Governor Woodbridge transmitted his message to the legislature of Michigan on the 7th inst. It is a long document; but in its style, well written, and in its suggestions important to that growing State. He recommends early attention to improving the system of Common Schools; some alterations and modifications in existing laws, and speaks favourably of a general bankrupt law, not to include, however, corporations. The public works of the States yield, as yet, no income, and the Governor recommends to prosecute to completion first, those that will soonest bring some returns, with which to pay the interest on their cost. The aggregate sum expended on works of internal improvement, the last year, was $463,816,85. The expense of sustaining the State government for the first four years of its existence, was nearly $400,000 beyond the means provided for that purpose, which amount remains yet unpaid.—*American paper.*

NEW-YORK, FEB. 10.

The London packet ship *Sampson* arrived on Sunday, having sailed on the 8th, one day later than the North America, but brings no additional news, the Emerald also arrived from Havre, which port she left on the 9th, and brings Paris dates to the 7th.

The political horizon has assumed a more serene aspect. The war spirit of France has evaporated and spent itself, at least for a time, in noise and fury. The continuance of the present, or peace ministry, was more probable each succeeding day, and no fears are now entertained for the peace of Europe.

The very absurd rumours of an alliance between Russia and France, against England, Austria, and Prussia are now generally disbelieved. There is no wonder in this, but the wonder is that any one should ever have been found to believe them. The time has passed for such an alliance. If Russia ever entertained any inclination of that kind, she could never have had a more favourable opportunity than during the negociations pending the treaty of alliance for settling the affairs of the Levant. If she had *then* refused to act with the other powers, and had joined France, the two might have interposed serious, but not insurmountable obstacles, in the way of the speedy termination of those difficulties. The foundation for the rumour was simply a diplomatic communication of the Emperor to his Ambassador at Paris, intended for the perusal of the French Cabinet, expressing the regret of the Russian Cabinet that France had not been induced to act with the other powers, and inviting her to resume her rank and influence in the councils of Europe.

Affairs in Spain are still in a very unsettled state, and it was reported in Paris that Espartero had been overturned by a new revolutionary movement. The rumour was not credited, although it is not at all improbable that such may soon be the case, as there is known to be a secret agitation among the people to produce a more popular government.

There is no further intelligence from Egypt. It was not known whether the hereditary Pachalic would be guaranteed to Mehemet or not.

The reported victories of the Circassians over the Russian forces on the borders of the Black Sea are confirmed. One fortress, Ghelendick, garrisoned by 5000 Russians was taken by storm, with great loss on both sides. The Emperor, it is said, is preparing an army of 150,000 men and 420 pieces of artillery for the spring campaign.

The winter on the continent of Europe has been unusually severe. In Sweden three thousand persons are said to have died of cold. The ponds in some places were frozen to the bottom and the fish destroyed. In Hungary 80,000 head of horned cattle have been frozen to death, and birds and game are stated to have shared the same fate.—*Old Countryman.*

DINNER TO SIR GEORGE ARTHUR.—In this paper will be found a notice of the intended banquet to be given to our worthy LIEUTENANT GOVERNOR as a parting compliment from those among whom he has so long resided and by whom he has been so highly appreciated. The Board of Trade has very properly taken the lead on this occasion, and thereby divested the dinner of even the semblance of a political character. All other gentlemen of Toronto and its vicinity anxious to pay this parting tribute to His Excellency are expected to honour with their presence the intended festivity. Sir George Arthur has governed the Canadas at the most critical period of their history and should not be allowed to depart without some acknowledgment of our sense of his unwearied attention to his Executive duties.—*Toronto Patriot.*

We understand that Captain Arthur, A. D. C., has proceeded to Boston to make arrangements for the accommodation of His Excellency Sir George Arthur, family and suite in the Cunard steam packet ship which will sail from thence on the 1st proximo.—*Montreal Transcript.*

A BOY SLEPT TO DEATH.—On the 11th ult. a boy named Patrick Leary, aged about eleven years went into the shop of Mr. Sleddon, druggist, Chestergate, Stockport, and helped himself to a bottle of paregoric and a bottle of Godfrey's cordial, both of which he partook of freely; they threw him into a sleep from which he never awoke. He died the following evening. About twelve ounces were missed from each bottle, the greatest portion of which the boy must have drunk, and which caused his death. The boy, who was not of a sound state of mind, stole into the shop barefoot, and was not perceived till a person entered and observed him behind the counter drinking the contents of one of the bottles.

A Discourse being the substance of a Sermon on Female Influence, preached by the Rev. Mr. Ambler, Minister of the Independent Congregation, in this City, and dedicated to His Excellency Sir John Harvey, has recently been published, and it is with great pleasure that we insert the entire reply of His Excellency to Mr. Ambler's letter, enclosing a presentation copy of the discourse, which has been handed to us for that purpose:—*Courier.*

Government House, Fredericton,
4th February, 1841.

SIR,—I am directed by the Lieutenant Governor to thank you for the copy of your Loyal Discourse on Female Influence, as illustrative of the character of our Gracious Queen, and to assure you that His Excellency is duly sensible of the compliment to himself by its dedication to him, as well as of the flattering terms used in that dedication.

I have the honour to be, Sir, your most obedient humble servant,

H. J. HARVEY,
Private Secretary.

The Rev. JAS. AMBLER, St. John.

On Tuesday evening the Orphan Benevolent Society dined at the Saint John Hotel, and on Thursday evening an Agricultural Meeting was held at the Mechanics' Institute; particulars of neither of which occurrences have come to our hands.—We would feel much obliged if the Committees of Management, or Secretaries of Public Parties or Meetings would furnish us with a sketch of the proceedings on those occasions, when they wish them published, as we cannot be supposed to give a description of occurrences of which we have no knowledge.

MUSICAL TEA PARTY.—We understand the *St. John Sacred Music Society*, intend giving a Musical Soiree, on Friday evening next. The want of a sufficient room for that purpose obliges them to confine the number of tickets for sale to a very limited number. We have no doubt the introduction of a little refreshment on an occasion of that kind will heighten the enjoyments of the evening and make it rather an interesting occurrence.

MARRIED

Last evening, by the Rev. I. W. D. Gray, Mr. John J. Ackerley, to Mrs. Mary Smith, both of this city.

On Tuesday evening, at Portland, by the Rev. Enoch Wood, Mr. Sampson Manaton, to Miss Ann Thompson.

On the 9th inst. by the Rev. Mr. Wilson, Mr. Thomas Whelpley, to Miss Mary Thomas, both of the Parish of Simonds. On Wednesday evening, by the same, Mr. Alexander Rice, to Miss Martha Monteith, both of the Parish of Wickham, Queen's County.

On Thursday evening, by the same Mr. Robert Fletcher, to Miss Ann Fletcher, both of the Parish of Portland.

On Monday by the Rev. Mr. Wilson, Mr. Henry Riggs, to Miss Sarah Smith, both of the Parish of Hampton, King's County.

At Annapolis, on the 4th inst. by the Rev. Edwin Gilpin, Henry Goldsmith, Esq. to Mrs. Harriet Bairdain, of Annapolis.

At Sussex Vale, on 21st January, by the Rev. G. M. Barratt, Mr. Elijah Price, to Miss Sarah Abraham, all of that place.

On the 3d inst. at Millstream Mountain, Parish of Studholm, Sussex Vale, by the Rev. G. M. Barratt, Mr. William Fowler, to Miss Matilda Kennedy, all of that place.

DIED

On Tuesday morning, James, infant son of Mr. James Scholes, aged five weeks.

On Wednesday the 10th instant, at Kingston, King's County, after a severe illness, which he bore with cheerful resignation to the Divine will, the Rev. ELIAS SCOVIL, Rector of Kingston, and one of the oldest Missionaries of the Venerable Society for the propagation of the Gospel in Foreign Parts—He had been forty years in the service of this Society, and was in the seventieth year of his age.

At Indian Town on Thursday evening, Mary-Eliza, youngest daughter of Mr. William Ross, Engineer.

On Friday the 12th ult. in the Parish of Sussex, King's County, Ann, wife of Mr. John Barry, formerly of this city, aged 55 years.

At Bridgetown, Nova-Scotia, W. H. O. Haliburton, son of John Robertson, Esq. in the 22d year of his age, after a lingering illness, which he bore with pious resignation to the Divine will
