

date and business-like basis, reaching Throgmorton street and the museum with equal felicity by means of a thoroughly interesting yet economically conducted press bureau, lectures and carefully prepared literature of an explanatory nature. British Columbia should spend not less than \$25,000 a year on her London office, but it should be disbursed only by a really competent agent-general. To wit: Mr. Turner, a cent is to incur a useless expenditure.

**DODDERING DICK.**

Those who have watched the backward antics of Premier McBride while addressing the legislative assembly, the following from the *Victoria Times* will be keenly appreciated:

"There is an impression on the face of the leader of the opposition as he watches the leader of the government whom that remarkable individual is in an oratorical mood and delivering what he regards as a broadside, punctuated with desk-smashing blows, which seems to indicate that Mr. McBride is regarded as a most 'amusing' case."

"What a staid and black-mouthed man would have made if Providence had directed his talents into the proper channels. The incident is in him yet."

"You can hear him strike his heavy blows."

"His measured strokes and slow, like a sexton tolling the village bell when the evening sun is low."

"The premier does not really care, perhaps that he is ringing out the old and ringing in the new; that is the sound of the knell of the Tory-Socialist combination; that while he whacks his desk the country is taking his case and that the sentence of weighed in the balance and found wanting will soon be pronounced; that if McBride desires to remain the leader of a party he will have to go over skin and bones to the Socialists, because he must either be repudiated by Conservatives or Conservatism will be cast aside by the country as another designation for opportunism and the blood relation of anarchy."

**COPPER SITUATION.**

During 1935 copper had an interesting career and it promises no less interesting features for the year 1936. A little more than a year ago New York quotations for Lake copper were \$11.81-1 per hundred. Early in February the price had advanced to \$12.75, going to \$14.75 the first week in March, and before the end of the month Lake copper found a ready market at \$15.75 to \$16. This was the highest price reached during the year, though the price was maintained at \$14.50 to \$15 until June. In June a slight decline was noticeable, and, with more or less fluctuation, the price fell throughout the summer and fall, going as low as \$13.12-1/2 on November 1. It rallied to \$14. During December the quotations fell to \$12.50 to \$13. The rise in price in the early part of 1936 was due to a large and steady demand for the metal, and the falling off in the latter part of the year is attributable to a constantly increasing demand until the latter part of the year, when it seemed to be a game of waiting on the part of both seller and consumer. The seller waited for larger stockpiling orders, and the buyer held back in the expectation of a lower price. The market is at present more active, and the prospect of war in the far east has also had a material influence on the price. Should war actually be declared, a strong and materially higher market may be looked for. It is also said that, although industrial activity is less pronounced in America than a year ago, the European demand for copper has constantly increased. The methods of mining and treating copper ore are being simplified each year, making it possible to produce copper under given conditions at a lower cost than ever before. On the whole, the outlook for the copper mining industry for 1936 is encouraging, and a price at least equal to that prevailing throughout the greater part of 1935 may be anticipated.

**The McBride Government Sends East For an Expert.**

Premier's Course Discredited - His Him With His Own Followers.

VICTORIA, Jan. 23.—Today was a comparatively light one in the legislature. There was no night sitting, and the discussion on bills was mainly a repetition of what has taken place in the last session. The committee stage repeated on report. The supply committee finished its work, and the estimates are therefore practically out of the way.

It now looks as though the house would get through next week. A prominent government supporter today said there would be no railway legislation, as promised by the premier, the proposition being that the ministry is unable to reconcile the warring interests in this respect.

Billson got back to the capital last night, and there was a caucus of government members this morning. The opposition are having a caucus tonight. The government, it is said, has abandoned the enabling bill to send McBride, and is now bringing in a bill freeing him of penalties and giving him his seat for this session, the seat to become vacant concurrently with the resignation of the Socialists, whom he desires to be proud to work with, and that they may have a heavy reckoning for him in the country when he shares another general election. MacDonald, on the other hand, is winning confidence and respect just as rapidly as his opponent is losing it. The commercial interests regard MacDonald as safe.

The Socialists were unsuccessful today in getting the candidate's deposit reduced to \$50, and McNiven was again unsuccessful in his motion to substitute for the deposit a regulation signed by fifteen per cent of electors whose names are to be printed in white.

McNiven's model ballot was adopted by the house. It is black, excepting the names are to be printed in white.

The government announced today its committee of supply that they intend to retain Crown who was in a subsequent General Meeting on the 20th day of July, 1936.

(Signed) A. C. SINCLAIR, President, W. H. DANBY, Secretary, Rossland, B. C., July 21st, 1935.

**Thought Better of Legislating McDonald into a Seat.**

**Scandalous Work Done on Government House Contract.**

VICTORIA, Jan. 23.—When the government announced the introduction of its bill to recall McDonald of Lillooet, the *Times* recited the dismissal of Prior for failing to appreciate the meaning of the independence of parliament act, and suggested that as the cases were somewhat similar it was not unlikely that Governor Joly would veto the bill. McBride seems to have taken alarm, for he has now announced that this measure is to be dropped. It is also stated that as soon as the session is over McDonald will resign, having made provision for some scandalous venture on his riding, and that a bye-election will be called. McDonald has not been voting in the house for some days.

At the afternoon today was given up to bills of little interest to British Columbians outside of Vancouver Island, which is more immediately affected by Hawthorthwaite's bill for the protection of deer. This measure reached the third reading stage having its provisions extended for the protection of trout as well. Hawthorthwaite's bill is also now in a measure introduced by the premier to secure to certain settlers in the E. N. railway belt their surface and under-surface rights. This revises the old squatters' rights, which has been the subject of some commission and of numerous motions, bills, etc., in bygone parliaments. The committee on immigration act have brought in a report completely exonerating the government and declaring that the officials have done their duty. The report is signed by all the members of the committee.

The house will not conclude before the first of next week, and possibly not then.

**THE GRIP AGAIN**

**THIS DANGEROUS EPIDEMIC HAS MADE ANOTHER APPEARANCE.**

Any Suggestion as to How to Guard Against the Epidemic and its Periodic Recurrence.

Every winter influenza, or as it more generally known, the grip makes its appearance in Canada. Every few years it spreads and assumes alarming proportions. From all appearances this is one of the years in which it will arise upon a great number of victims, for every day new cases are reported. As is so often the case, it is in the form of a so-called epidemic, which is often spread by the action of a localized system of breath upon the slightest exertion, subject to headache and heart palpitation, attended by every change in the weather, and in a physical condition to invite the attack of more serious diseases, such as pneumonia and complications.

A timely suggestion as to how to enable the system to resist the incursions of the grip and its after effects, is given in a book of 60 pages by Dr. William Pink Pills. What it teaches is to take these pills in advance of the attack of the grip which left me a sufferer from headache, pains in the stomach and general weakness, and several medicines but found nothing to help me until I began to take Dr. Williams Pink Pills. When I began to take these pills I felt very much better and very weak, but they soon began to help me, and after using them a few weeks I was not only well as ever but had gained in flesh as well. I am hardly able to say how pleased I am with Dr. Williams Pink Pills for I was feeling very hopeless when I began their use.

These pills cure by making new, stiff red blood, thus strengthening every part of the body and enabling it to throw off disease. You can always avoid influenza by seeing that the full process of Dr. Williams Pink Pills for Pale People is printed on the wrapper around every box. Sold by all medicine dealers or sent post paid at \$2.00 a box or six for \$12.00 by writing to Dr. D. Williams Medicine Co., Brockville, Ont.

**THE RAZOR STEEL SECRET TEMPER CROSS-CUT SAW PER CROSS-CUT SAW**

Now, we ask you, when you go to buy a saw, to ask for the Razor Steel Secret Temper Saw, and if you are told that some other saw is just as good as your merchant to let you take them both home and try them and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel Brand."

It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these saws are shipped to the United States, and sold at a higher price than the best American saws. Manufactured only by SHEPHERD & DIETRIH, GALT, Ontario.

**FIVE TEAMS ENTER INDUSTRIAL LEAGUE AND ELECT OFFICERS.**

**SCHEDULE OF GAMES ARRANGED—TROPHY TO PLAY FOR.**

Rossland is to have a brand new hockey league composed of teams from various commercial and mining institutions. The organization has already taken shape under the name of the Industrial Hockey league of Rossland. Five teams are entered and the league games commence next week.

The officers of the city league are as follows:

J. S. C. Fraser, honorary president.  
James Hunter, E. H. Kirby, Louis A. Campbell, Robert Hunter and B. P. Parrish, honorary vice presidents.  
John P. Cosgro, president.  
Garret P. Grant, secretary-treasurer.  
J. P. Grant, D. B. Hunter, B. P. Parrish, M. K. Morkill, A. F. Paddon and William Terwan, executive committee.

The teams entered are representative of the following firms: The Industrial Power & Light Company. Players must be connected with the club or the enterprise, or the firms interested, and it is expressly understood that players connected with any other team may not compete in the league games.

The players will be selected from the following, all of whom have been approved by the executive committee as eligible to compete:

War Eagle—H. G. Oliver, Arthur A. Cole, Jay Tuttle, James K. Crum, W. Dunn, C. McBride, A. E. Smey, Carl R. Day, Robert Hunter, B. P. Parrish, Cosgro, B. B. Kirby and G. Orick.

Bank of Montreal—W. G. H. Phipps, E. B. Dwyer, C. B. White, E. B. Sutherland, Homer Falding, R. Lamont, A. E. Paddon, E. Duthie and J. S. C. Fraser.

Hunter Bros.—Robert Hunter, G. Brown, G. Hicks, B. H. Hatrup, T. Lavers, W. G. Burke, J. Lee and W. G. West.

Kootenay P. & L. Co.—John D. McDonald, L. A. Campbell, F. D. Forin, J. W. Parker, Charles E. B. Hunter, Robert Hunter, Robert H. Barrett, Garret P. Grant, J. Schuller and A. J. Rieck.

Le Roy—D. B. Morkill, A. E. Bowers, T. Robbins, R. E. H. Hatrup, G. Anderson, C. E. Simpson, George Chloster, George Fraser, A. Keating and John Anderson.

The schedule of games has been drafted as follows:

February 4—West Kootenay P. & L. Co. vs. Hunter Bros.  
February 11—West Kootenay P. & L. Co. vs. Bank of Montreal.  
February 18—Whimsie of method on the part of the referee.

The directors of the skating rink have ordered a trophy to be competed for by the teams, and it is expected that the games will be of interest.

**IN THE FIELD OF SPORT**

**IN THE FIELD OF SPORT**

From Sunday's Daily.

The Rossland hockey team has done well on tour. The tie game at Vernon was by no means a disappointment; for the local enthusiasts would not have been greatly surprised had Vernon downed the Rosslanders. Vernon plays exceptionally fast hockey, and has had the advantage of other matches in the present season, while Rossland was testing its metal against outsiders for the first time, and with a re-organized combination this ordeal is by no means one in which betting men care to get dovetailing money.

At Revelstoke the team was in better shape and had more confidence in itself. They played the home match against the Revelstoke club was hopelessly defeated. The home team was outclassed, but in the first half the honors were more or less even.

The Revelstoke match has its significance that will not be overlooked by local enthusiasts. In past seasons Rossland teams have invariably been fully up to the standard of any competition they encountered, and invariably lost the game through a few Rossland colors but that was due to the fact that the team has lost in the second half almost without exception. This season the conditions are revers-

When infants or young children are restless and cross or peevish it is a very certain sign that they are not well. The mother may not know just what the trouble is, but she can depend upon it the trouble exists. Give the little one Baby's Own Tablets; see how promptly it will be changed into a happy, smiling, good natured child. The little one will sleep soundly and naturally and the mother will also obtain more rest and sleep during the night. The Tablets are well known and the results would be highly satisfactory. The wedding took place at 7 o'clock p. m. amidst elaborate church decorations and impressive vocal and instrumental music.

The groom was accompanied by Miss Helen Robinson, sister of the bride. The report proceeds: "While the melody of the old story filled the church, the bride part was led by the ushers, Messrs. A. The snowhoop's next tramp will probably be to the Kootenay mine, where they will be entertained by Andrew G. Larson, general superintendent of the Rossland-Kootenay company. The present weather is ideal for this form of pastime.

A Rosslander of several years' standing says the roads in the neighborhood of the city were never so safe and smooth in the winter as they are at present. He says that the fact that advantage has not been taken of the fact to organize sleighing parties. Prominent Trail riders were reported as sleighing in Rossland, and promise a supper and dance at the comfortable Crown Point hotel.

H. H. Rowley, the new manager of the Bank of British North America, is residing for the present with Mrs. Rowley at the Hotel Allard. Later they will take up their residence in the residential district.

It has developed that James Anderson, manager of the Bank of British North America for several years past, since the departure of W. T. Oliver, is severing his connection with Rossland and is leaving for Montreal to act as an assistant inspector in the bank, and leave in a fortnight for the head office at Montreal. Mr. Anderson's departure will excite genuine regret in social and business circles. He has been actively identified with every movement of a public nature in the community, and is esteemed for various personal qualities and respected for sterling business traits. Regret at his departure is mitigated, of course, by the fact that he obtains substantial promotion in the bank's service.
