Life Pifls and Phonix Bitters. These Medicines have now been before the public for a period of FIFTEN YEARS, and during that time have maintained a high character in almost every, part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human firms is lightle.

of certificated instances, they have even reacted unforces from the very verge of an untimely grave, after all the designific materials of the day had usturely failed; and to many trousands they have permanently accuracy that uniform enjoyment of health, without which like itself to but a partial blassion. He create included has their property of the control included in their affiness invahealth, without which she itself is but a partial blessing. So great, indeed, hus their affency inva-riably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical prin-ciples upon which they are compounded, and upon which they consequently set. It was to their resultest and renable action in purifying the spracy and channels of life, and enduing them with re-newed tone and vigor, that they were indebted for their same.

erudities constaintly cattling round them; and to remove the hardesed fances which callect in the convolutions of the small intestines. Other medicines only partially cleakes these, and leave, such collected masses behind to produce habitual Costrenes, with all its train of evils, or sadden Dimrrhen with its imminant dangers. This fact is well known to all regular instaints who examine the human bowds after death; and hence the prejudice of these well-informed shell against the quach medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to clease the indusys and long the bidder; and, by this means, the liver and lungs, the heathful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red solor from the agency of the liver and hugs, beture it passes into the heart, being thus purified by them, and rourished by food coming from a clean stotanch, courses freely through the veins, renews every part of the system; and triumphantly mounts the banner of heatth in the blooming sheets.

The following are among the distrebing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be mailblue;

wertheless I have sever doubted that the press be given to those of Point du Jour—haying
much experience.

J. M. Bellances, Priest.
