In Loving Memory

Of 3516 Pte. Ernest Fisher, Who Died of Wounds, November 29, 1917, at 21st Casualty Clearing Station, Somewhere in France, Aged 18 Years.

TO HIS MOTHER.

Deep in her lonely sorrow,
Nothing on earth so sad,
Far form the land of his loved ones
They have buried her darling lad.
Words of comfort were useless—
What did they mean to her?
Out in that No Man's Country
All that was left lies there.

Never a smile to greet her,
All that was worth doing done,
The joy of her life lay silent
And he was her darling son.
All the gifts of humanity
Could never more atone,
For life and love are finished
When the heart is left alone.

Only one thought take comfort
In the depth of that dark despair,
Christ has allowed your darling
In his death and suffering to share;
And greater love hath no man,
Or glory without end
Who lays down his life without murmur
For his country and his friend.

advt R. F.

Mother! If Child's Tongue Is Coated

If cross, feverish, constipated, bilious, stomach sour, give "California Syrup of Figs."

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

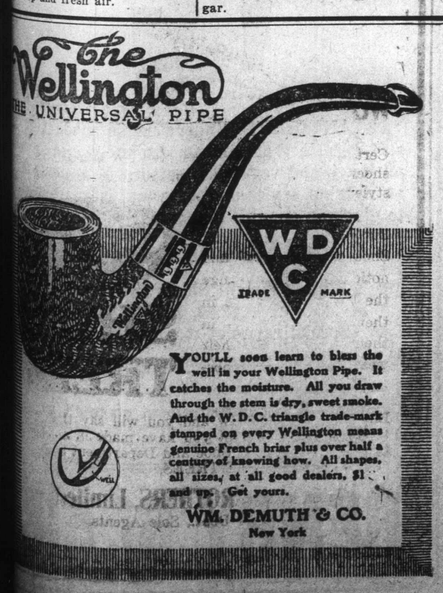
Look at the tongue, Mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

OLIVE BRANCHES PRESENT.

In the Halifax Recorder of 1817, the following marriage notice appeared: At Pictou, N.S., by Edward Mortimore, Esq., William McKay, Esq., aged 86 years, to Miss Fraser, aged 25 years. Fifty-two of his grandchildren were invited to the wedding. There was only 61 years difference in ages between the bride and groom. Magistrates performed the marriage ceremony 100 years ago.

To banish roaches, use equal parts of plaster of paris and powdered sugar.



YOU'LL soon learn to bless the well in your Wellington Pipe. It catches the moisture. All you draw through the stem is dry, sweet smoke. And the W. D. C. triangle trade-mark stamped on every Wellington means genuine French briar plus over half a century of knowing how. All shapes, all sizes, at all good dealers, $1 and up. Get yours.

Statutory Meeting

ST. GEORGE'S COAL FIELDS, LTD.

A meeting of the St. George's Coal Fields, Ltd., was held yesterday afternoon at 4 o'clock in the Board of Trade Rooms, there being about two hundred shareholders present. The meeting was called to order by Mr. Warren, the Company's Solicitor, Mr. St. John being appointed to the chair. Mr. Warren explained the nature of the meeting, it being the statutory general meeting, and that the time appointed for the annual meeting would be the first Monday in February when a full board of seven directors would be elected. The following gentlemen were elected to act until then: Mr. J. J. St. John, Mr. William Campbell, Capt. Edward English, Harbor Master; Mr. John A. Hiscock and Mr. T. J. Freeman. The reports submitted by Mr. Freeman showed the affairs of the company to be in a very prosperous condition, and that considerable development had been done at the mines. The Jukes seam now being prospected according to latest reports, appeared to be showing up beyond expectation. The foreman in charge of work at the mine reported that they were driving north and south on the Jukes seam and had tunnelled in 27 feet, and that they were cutting through a seam of good clean coal 4 feet 9 inches wide and 1 foot 3 inches of mixed coal on the hanging wall. The drift on the north tunnel was being commenced and that they were in several feet, the coal being similar in both drifts. Several tons are now piled on the dumps. At the meeting samples of the coal were distributed and evoked much favorable comment. Better samples were shipped from the mine on Nov. 12th, but unfortunately had not arrived here yet. When they come they will be exhibited in some window on Water Street. After the meeting several hundred dollars worth of stock were subscribed for.

West Coast Notes.

(Western Star.)

The Gorton Pew Co.'s tern schooner Aviator, arrived from Gloucester on Monday. She is now loading herring at Summerside.

The schr. Earl Grey, Capt. John McLeod, is loaded with cod and herring for Halifax.

The schr. Muriel Walters, Capt. Sam Shaw, arrived here on Monday night with a full freight from the Farquhar Company.

The schr. Eugene Creaser, chartered by Capt. George Peeples, arrived here on Sunday, and is now taking salt bulk herring.

At many places along the coast to the north there were enthusiastic peace demonstrations. At some of them great displays of gun work were a leading feature.

The cooperage and herring factory of Thomas Power, at Woods Harbor, was totally destroyed by fire on Monday night. The loss included all his coopering outfit, barrels for this season's packing operations and a quantity of herring he had packed, and is a severe blow to Mr. Power, particularly at this the midst of the packing season.

At Aguathuna, Port au Port, the Dominion Iron and Steel Company had a successful season, and shipped about a quarter million tons of limestone. They would have shipped a much greater quantity, however, but for the scarcity of tonnage. They fired two batteries of seven holes each, bringing down thirty thousand tons of limestone at each shot.

Rowland W. Clark, of the firm of Willis Clark, Norris Point, Bonne Bay, died on the 19th November of influenza. The young man was a great favorite of the place, and will be greatly missed by his many friends. The business place of W. Clark was closed for a few days. It resumed operations again this week.

Last week we had a letter from Capt. T. Butler, saying that the s.s. Brunswick had been held up at North Sydney two weeks waiting to go on dry dock for repairs, and that owing to bad weather and holidays the delay had been much longer than Capt. Butler had anticipated, hence the interruption in the Bay St. George Steam Mail Service. After coming off dock there was some difficulty in getting her coaled. However, he hoped to leave Sydney last Wednesday, and would resume the regular service at once upon arrival at St. George's.

Arrested.

R. B. Rideout's case for insolvency was continued before the Chief Justice yesterday. At one o'clock, the Judge gave orders that the Sheriff take the young man in custody, a charge of fraud being preferred against him. Accused was later admitted to bail. The young man Rideout had received money amounting to more than $2,000 for engines he was supposed to have delivered to fishermen who gave him the money. This he failed to do, also to refund the money, hence the charge. Conroy, Higgins and Hunt are defending him.

ENQUIRY CONTINUED.—The enquiry into the railway accident was resumed this afternoon before Judge Morris.

Use of Trade Marks.

How many people know the difference between trade marks and patents? The general idea seems to be that they are one and the same thing. Certainly they are both dealt with in the Patents Office, for the sake of convenience, and it seems that this fact has conveyed the above impression.

A trade mark is a registration of a word or design attached to goods of a certain trader making it clear to the public that they are his manufacture, and that nobody else may use that same trade mark.

Its use is almost indispensable in the commercial world, and this can be realized better when one knows what its functions are in respect to the trader and his customers.

In the first place, being a certificate of genuineness, it protects the public. Secondly, being an indentifying mark, the trader is protected by the law against any competitor who endeavors to trade on another's name or goods.

Trade marks were issued as far back as the time of James I., and probably even before that, but it was not until 1875 that the Trade Marks Registration Act was passed.

A sanitary garbage pail is one of the points of household equipment which the careful housekeeper will not overlook.

Interesting Lecture.

At the second of the series of lectures at the Llewellyn Club last evening, R. R. Wood, Esq., Vice-President, presided. The speaker Rev. Dr. Jones spoke on Moses and the contrast between his legislation and that of modern legislators. The speaker first outlined the early life of Pharaoh with its many temptations, and showed from Biblical references how Moses had emerged from the Egyptian court untarnished in morals. He showed the laws of Moses to be based upon humanity, justice and morality. He emphasized the need of these basic fundamentals in modern legislation. He declared that the politician of today was a party man, not a reformer, not a helper for uplifting his people, but very, very often a party supporter for the advancement of personal interests. The speaker pointed out the need of real reform in our midst today. He showed the need of legislation to protect children, for it was not right nor fit to allow children of tender years and for minor offences to be confined in prison with hardened criminals. He urged the need of a child reformatory and also of "Curfew" to send children off the street at an early hour, and further a statue to keep children under age from manual labor, as many of our children to-day were working when they should be at home or school. Of course, he said, the task of the man who brought forward such reforms would be bitterly hard, and opposition would be rife, but, in time people would see the justice of his propaganda, and would rally to his support. After the lecturer had finished, Messrs. McDonald, Dowden, Colley and Burnell gave their views on the subject. No lecture will be given next Thursday, but a kind of peace celebration will be held and patriotic addresses given.

Christian Brothers Collection.

Editor Evening Telegram.

Dear Sir,—The ex-pupils of the Christian Brothers and all the kind friends of the latter, will, I am sure, not forget to respond with their usual liberality towards the annual collection this coming Sunday. We have never yet permitted this collection to slide backward, notwithstanding the ups and downs that have prevailed in the years since the first arrival of the Christian Brothers; so to keep up this fine record we must all be prepared to give generously again this year. The ex-pupils always look forward to this event with the greatest of pleasure for they feel that in handing in their donations they are rendering a just tribute to the learned and noble community of gentlemen whose lives are so unselfishly devoted to the great cause of education. All that is needed is that no friend or ex-pupil should let the occasion slip from his memory, and then with everybody united and agreed to give generously, there is no doubt the collection will be the biggest yet.

Yours truly,

Nov. 29, 1918. EX-PUPIL.

Hymeneal.

WALL—JOY.

On Wednesday evening last a very pretty wedding took place at the residence of Capt. Walter Joy, Holyrood, when his daughter Mary (May) was united in matrimony to Mr. John Wall, of that place. The ceremony was performed by Rev. Fr. Finn in the presence of a number of friends. Miss Nellie Veitch, daughter of Conductor Veitch, attended the bride, while Mr. George Veitch, of the Postal Telegraphs, St. John's, did the needful for the groom. The bride was the recipient of a number of valuable presents and good wishes. The groom has recently returned from Newport, Rhode Island, where he has been successfully engaged for a number of years in the fishing industry.

We wish Mr. and Mrs. Wall much happiness.

Personal.

Capt. Kennedy of the S. S. Terra Nova left by S. S. Viking to-day for Sydney where he will enter hospital.

Capt. Moses Bartlett, of Brigus, is in town on a short trip.

Mr. B. J. St. John, of Conception Hr., returned home by yesterday evening's train.

Mr. J. M. Forbes, from South Branch is in town on a short business visit.

Capt. E. Bishop, of Wesleyville, is on a visit to the city.

Mr. F. C. Archibald, of Hr. Grace, is registered at the Crosbie.

Klark-Urban Co.

"The Eternal Magdalene" was again staged by the Klark-Urban Co. last night, and the large number of people present was delighted with the acting of the various characters. "The Shepherd of the Hills" will be shown to-night, when an exceptionally large audience will witness the latest play of the troupe. The C.C.C. band will render some modern and old time music, appropriate to the occasion.

THE RIGHT KIND OF APPEAL.

When we talk PROFITS to our clients, it's up to us to SHOW the client just HOW MUCH they may expect and WHEN.

We try to be conservative, and to UNDER-estimate what we really expect our different propositions to accomplish.

Right now we present the FINAL block of Industrial Shares to net the investor FIFTEEN per cent., and we can logically show just HOW and WHY these shares will DOUBLE and subsequently TREBLE in value in a few years.

So much for the FUTURE, but what of the PRESENT?

To prove our faith in this enterprise, we will undertake to show you how you can get any of the following articles FREE by investing $100 through us: Half ton hard coal, a year's supply of tobacco, a year's Union or Society dues, 300 street car fares, a year's life insurance for $1,000, a $12 check for Christmas and many other equally valuable items.

ALL YOU NEED DO IS ASK FOR THE PARTICULARS.
