RUMORED APPOINTMENT.

It is rumored in Ottawa that Captain Kirwan, well-known in journalistic and military circles here, will be given an appointment in the Militia Department at the Capital. Captain Kirwan left for Winnipeg some time ago. It is a fact not widely known that he was a cousin of the Late Hon. Thomas Burke, Under Secretary for Ireland, who with Lord Cavendish was murdered in Phœnix Park.

"He that prays harm for his neighbor, begs a curse upon himself." He that recommends Kidney-Wort to his sick neighbor brings a blessing rich and full both to his neighbor and himself. Habitual costiveness is the bane of nearly every American woman. Every woman owes it to herself and to her family to use that celebrated medicine, Kidney-Wort.

HOLLOWAY'S OINTMENT AND PILLS.—Old Sores, Wounds and Ulcers.—The readiness with which Holloway's unguent removes all obstructions in the circulation of the vessels and lymphatics explains their irresistible influence in healing old sores, bad wounds, and indolent ulcers. To insure the desired effect the skin surrounding the diseased part should be fomented, dried and immediately well rubbed with the Ointment. This will give purity to the foul blood, and strength to the weakened nerves, the only conditions necessary for the cure of all those ulcerations which render life almost intolerable. No sooner is this Ointment's protective powers exerted than the destructive process ceases, and the constructive business begins—new, healthy growth appears to fill up the lately painful excavated pit. 21-2 wf

THE BRITISH COLUMBIA ELECTIONS.

VICTORIA, July 26.—Returns of the Provincial elections are coming in slowly. So far as known the Government is defeated. Victoria city gives one Government, two Opposition, one Independent; Victoria district two Opposition. The Provincial Secretary is defeated in Esquimault, District Attorney-General is elected by one majority. Nanaimo gives two Opposition, Cowhican elects the leader of the Opposition. On the mainland New Westminster and Lillooet return five Opposition members. Cariboo, Yale, Comox and Cassiar are yet to be heard from. The total, so far, is twelve Opposition, four Government, one Independent. Mr. Reid, Conservative, will be returned for the Commons for Cariboo by acclamation.

THE U. S. TARIFF COMMISSION.

LONG BRANCH, July 26.—Before the Tariff Commission this afternoon, Dewitt Ward, of New York, chairman of the United States Maltsters association, made an argument claiming that the present *ad valorem* duty of 20 per cent. on malt does not protect the maltsters. The duty should be a specific one of 25 cents per bushel of 34 pounds. He stated the several advantages Canadian maltsters had over American. In one year he himself lost $150,000 by reason of undervaluation and underselling of Canadian malt. Chas. Stadler, Secretary of the Association, gave the annual import of Canada barley and Canada malt at six to ten million bushels. The Canadian Government levied a specific duty of 34 cents per bushel on American malt, against 20 per cent. *ad valorem* by the American Government on Canadian malt. The duty between the two countries should be equalized. If Canadian barley were admitted free of duty, maltsters would not object to the present duty on malt, but American farmers would not consent to that.

It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.* Made simply with boiling water or milk. A PROFITABLE INDUSTRY.

A SUBJECT OF CONSIDERATION FOR CANADIAN FARMERS.

A prominent farmer, living at Cote St. Antoine, gave one of our reporters last week very interesting and highly probable idea of what may be a very profitable industry among the agricultural population of Canada. The industry alluded to is that of poultry raising on a large scale. The facts we gleaned from the gentleman are as follows:—Poultry farming is now being carried on in the United States to a very large extent, and many farmers rear as many as 100,000 head of poultry during the year, including ducks, turkeys, geese, &c. That the ventures have proved profitable there can be no doubt, and he referred to the fact of several farmers whose names are sufficient to guarantee the correctness of the assertion who have made and are making large incomes from poultry raising; one farmer cleared last year over $8,000. Of course certain rules must be followed, the same as in any other business, to be successful. A great help to the modern poultry breeder is the use of the artificial incubators. These machines, holding as many as 2,000 eggs each, will hatch out a larger percentage of healthy chicks than by the ordinary hen, and then many drawbacks are obviated by the use of the incubators. The chicks thus hatched are raised easily and speedily by the use of the artificial mother. Both the incubator and the artificial mother are being sold at cheap prices, and their success being assured beyond doubt their common use by farmers will be sure to follow. Several specimens of these wonderful machines will be on view in regular running order at the forthcoming Provincial Exhibition. Canada is peculiarly adapted to successful poultry breeding, for, notwithstanding the severe climate, poultry are exempt from fatal and contagious diseases so prevalent in the United States. Should poultry farming be carried on to any great extent in Canada, the result will be a large profit to the breeder, and lower prices to the consumer, and instead of so much inferior poultry that now so often disgrace our markets, we should have a richer and more palatable article. Caponizing would also be exceedingly profitable if gone into to any great extent. The operation is easily learned, and capons command a very high price, everywhere.

The idea, suggested by our friend, seemed so plausible that with his consent and advice our reporter interviewed several other farmers, poultry breeders, and market poulterers, and the conclusion arrived at was, that poultry breeding as now carried on by farmers was merely a farce, and the amount of poultry raised is of inferior quality. It is more than probable that the question of poultry raising on a large scale will soon be inaugurated by the Canadian farmers, and we are quite sure the public will welcome a larger supply of really good palatable poultry in our markets, as the result will be cheaper prices.

Dr W Armstrong, Toronto, writes: "I have been using Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for Chronic Bronchitis with the best results. I believe it is the best Emulsion in the market. Having tested the different kinds, I unhesitatingly give it the preference when prescribing for my consumptive patients, or for Throat and Lung affections."

THE PHŒNIX PARK MURDER.

LONDON, July 27.—It appears that Westgate, or O'Brien, arrested in Venezuela on the confession that he was concerned in the Phœnix Park murders, is a Scotchman. The day of the tragedy he sailed from Northwall for Swansea at 7 p.m., ten minutes before the tragedy occurred, consequently he could not have been one of the assassins. Friends were with him at North Well an hourbefore the vessel sailed. The authorities are confident that Westgate is innocent, though a detective will probably be sent to bring him to Ireland to satisfy public feeling.

DECLINE OF MAN.

Nervous Weakness, Dyspepsia, Impotence, Sexual Debility, cured by "Wells' Health Renewer." $1.

ATTEMPT TO ASSASSINATE THE RECORDER OF DUBLIN.

DUBLIN, July 27.—A desperate but unsuccessful attempt was made to-day to assassinate the Recorder of Dublin, at the Green Street Court House. A tutor named Fitzpatrick, who was non-suited as plaintiff on a civil bill process, fired at the Recorder with a revolver, in open court. He was seized by the defendant and policemen.

W W McLellan, Lyn, N S, writes: "I was afflicted with rheumatism, and had given up all hopes of a cure. By chance I saw Dr. Thomas' Eclectric Oil recommended. I immediately sent (fifty miles) and purchased four bottles, and with only two applications I was able to get around, and although I have not used one bottle, I am nearly well. The other three bottles I gave around to my neighbors, and I have had so many calls for more, that I feel bound to relieve the afflicted by writing to you for a supply."

ST. JAMES.

Respectfully dedicated to the Rev. Father Hogan, Parish Priest of St. Ann's, and to Rev. Father Brown, Parish Priest of Chelsea, Que., formerly of St. Ann's, Montreal.

O great St. James, apostle blest!
Of Spain's historic land,
Who suffered for thy Master first,
Of th' apostolic band.

Wheree'er the Gospel truth is preached,
Thy name is loved and known,
Faith, fervor, and untiring zeal,
In thee are brightly shown.

Grand patron of our Pastor dear,
And of that faithful priest,
His fellow worker in the Fold,
'Tis meet that on thy feast,

We should pray thee, to remember,
The priests who bear thy name,
Who follow thee, unmindful both,
Of earthly scorn or fame.

Their mission is to dry the tears
Which fall from misery's eyes,
To tell the lonely orphan of,
His home beyond the skies.

Despising all the vanities,
The worldly-minded prize,
The honors that they covet are,
Concealed from mortal eyes.

Their laurels are the mourner's tears
Their priestly hands have dried.
Their crown, the souls so dearly loved,
For whom th Saviour died.

Their image is enshrined within,
The hearts of "God's dear poor,"
The memory of their virtues there,
Will live for ever more.

MAKING THE MASKINONGE RIVER NAVIGABLE.

During the last session of the Dominion Parliament Mr. Houde, member for the County of Maskinonge, asked the Government to have the lower part of the Maskinonge River surveyed to ascertain the cost and prospects of rendering the river navigable at this season of the year.

The request, which has been under consideration, has just been granted, and the Dominion Government has ordered the work to be done. Mr. Roy, civil engineer, with a large staff, has accordingly commenced the work of surveying, and it is probable that he will be able to report favorably on the scheme of making the river navigable.

The Czar says the death of General Scobeleff is a national loss.

WELLS, RICHARDSON & CO'S IMPROVED BUTTER COLOR

A NEW DISCOVERY.

For several years we have furnished the Dairymen of America with an excellent artificial color for butter; so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as *the best in the world.*

It Will Not Color the Buttermilk. It Will Not Turn Rancid. It is the Strongest, Brightest and Cheapest Color Made.

And, while prepared in oil, is so compounded that it is impossible for it to become rancid.

BEWARE of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you cannot get the "improved" write us to know where and how to get it without extra expense. (15)

Musical Instruments, &c.

THE WEBER BABY GRAND. RECEIVED HOME.

"THE WEBER PIANO"

Is generally acknowledged the grandest instrument of music which has ever appeared in the household, or adorned the Lyric Stage. Its tones are pure and beautiful beyond all others. It is sweet, sympathetic and plaintive, or loud, grand and majestic, at the will of the performer. In its capacity to portray feeling, and in its wonderful power of expression, it stands absolutely without a rival. The duration of its tones, quick responsive action, and perfect mechanism, place it, in the estimation of all musical people, above and beyond all its competitors. For many years the "Weber" Piano was used only by the wealthy and musical aristocracy of the United States; but since the Philadelphia Exhibition, where it was first placed before the public in competition with the great makers of the world, the demand for it has been unprecedented.

The first second-hand instrument of this maker, offered at public competition in Montreal, though a square several years in use, realized $515.00. This was far above the price reached by any other piano, and shows that a good piano, like a good painting, will always command its price.
