Third Liberty Loan Will Reach Nearly Four Billion Dollars

Washington, May 5.—For the third time within a year the American people have heavily oversubscribed a war credit.

As the third Liberty Loan was closing last night the treasury announced the campaign had been "an overwhelming success," there were indications that the aggregate would be increased to nearly $4,000,000,000 next week when banks have time to tabulate the multitude of last minute applicants.

ENEMY REPEALS RIGHTS OF UKRAINE PEOPLE

London, May 5.—The Ukrainian ministers who recently were arrested by the German military authorities were shortly afterwards set free, according to an Exchange Telegraph despatch from Moscow today. General Von Eichorn, the German military commander, says this correspondent's report of the German action in the Ukraine, issued a peremptory order last Sunday repealing all constitutional rights in Ukraine territory. On Tuesday he interrupted the central rada while it was discussing this order and arrested several of the ministers who, however, were released the next day.

AN ECONOMIC PACT SIGNED.

Supplements Peace Treaty Between Rumania and Central Powers.

Amsterdam, May 5.—An economic treaty, supplementing the treaty of peace between Rumania and the central powers, has been initiated. This will complete all the negotiations connected with the conclusion of the peace between the two countries, the treaty, which was agreed to on April 2, being ready for final signatures.

Main Essential: Dunlop Tires!

People who cannot afford an automobile—but who rebel at servitude to street-car riding with its cold-catching and germ-spreading tendencies—find the bicycle an economical way of getting to business and getting out into the great open.

If you are going to buy a bicycle, you will want to ride it under the best conditions. Your first rule, then, is to insist on Dunlop Tires—"Traction" or "Special," made by Doughty Process—the first and only method of insuring uniformity in bicycle tires.

War Garden Bulletin

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm.

GETTING READY

By this time most amateur gardeners have at least made a start. Their ground has been cleaned up. All the old cans, saones, bricks, piecees of wood, broken toys and other kinds of refuse have been removed or buried so deeply they will not be troublesome. Where this has not been done it is high time that the prospective gardeners "got busy." The basis of successful gardening is the preparation of the soil. In the case of the city lot there are many difficulties to be overcome before the soil is in really good condition. The more working it gets the better. The soil for vegetables cannot be too well prepared. Many garden seeds are very fine and require well prepared soil to give good germination. Continued cultivation serves to destroy weeds, conserve moisture and maintain a finer physical condition of the soil. This cultivation should be repeated at intervals of a week or two weeks thruout the entire growing season, and may be carried on successfully with a hoe and rake.

The soil should be dug to a depth of from six to ten inches and all the lumps should be broken up with spade or fork. The manure or fertilizer should be worked well into the ground, at least to the full depth of the top soil. The ground should then be carefully raked, as seeds must be sown in soil which has been thoroly pulverized.

To Become Wealthy

Is an Ambition that is Cherished by Many.

BUT OF 100 MEN—

ONE only will be wealthy—

FOUR will be well-to-do and able to enjoy comfort and recreation—

FIVE will still be working for a living with no prospect of relief from drudgery—

THIRTY-SIX will have died; in many cases leaving families enduring hardships—

FIFTY-FOUR will be dependent upon friends or relatives or charity.

You, perhaps, have the same ambition. At least, you want to be well-to-do later on, and able to enjoy life in comfort and independence.

What are Your Chances?

Experience shows that of 100 average healthy men 25 years of age the following will be true at 65:

1 only will be wealthy.
4 will be well-to-do.
5 will be compelled to go on working for a living.
36 will be dead.
54 will be dependent upon relatives, friends or charity.

Facing These Facts—

can you afford to go along in a haphazard way without a definite plan of saving and investment; uncertain whether you will be well-off or an object of charity.

The responsibility rests with You

It depends upon how you save and invest. There need be no such uncertainty about your future if you adopt the safe and definite plan of setting aside a deposit regularly each year for a Canada Life "Endowment at 65".

It will guarantee you in Cash—

at age 65, the sum of

$1,000 $5,000 $10,000 $20,000

or more, depending on your ability to save.

It is a Certainty

The full amount of your policy will be paid in any case, whether you live or die. Other investments may depreciate in value or fail. We offer you a certainty. The guarantee will take care of your home, or your business, or your personal interests, as nothing else can.

Profits will hasten maturity

If the profits be allowed to remain at your credit each year instead of being withdrawn, the face of the policy will be payable to you before you reach 65.

Whatever your circumstances may be later on in life, you will welcome this fund of a few thousand dollars. You may need it then.
